'I AM' the Light of the Soul

This month the New Moon will take place at 5° Leo 38' on the 28th or 29th of July, depending upon where you live.

The Sign of Leo, flows with Fixed Fire energy and is in direct alignment and rulership with the Sun. The Light of the Sun enfolds our Solar System in the 2nd Ray of Love and Wisdom whilst the Leo Constellation impulses and disseminates the 1st Ray of Divine Will and Power and the 5th Ray of Concrete Knowledge.

The Stellar Light of the Sun and the 2nd Ray of Love and Wisdom, over Light both the Leo Personality and the Soul embodied individual. The Sun is also the primary focus and centre for the Life Force on the Monadic level – so all three levels are aligned in Leo.

The Leo personality has a natural inclination to shine and for leadership, however, the Fires of Leo act as a purifying element, assisted by both Pluto and Vulcan - 1st Ray Planets - stripping away any hubris, self-

aggrandisement and pride influencing the personality. These two planets, like Shiva, destroy anything that stands in the way of the evolutionary Plan, be it an individual or, whole stratas of belief, if they are not in alignment with Divine Will.

Souls who incarnated between 1939-1957 all have Pluto in Leo and have been on a life-long mission, consciously, or unconsciously to transmute the lower levels of 'What's in it for me?' into an awareness of our collective interdependence and our Soul's desire to be of Service, for the benefit of all, reflecting the humanitarian ideals of the Aquarian Age that we are now entering. It is in the fusing and synthesising of the future scientific Aquarian Age with the metaphysical understandings and teachings of the Piscean Age, that Truth will be found. The unification of Spiritual Ancient Wisdom with the quantum sciences will bring about a huge renaissance for all on Planet Earth.

Right now we are in a time of great change, and realignment, which is being reflected in the current alignment of Mars, Uranus and the North Node in Taurus, which takes place on July 31st. Uranian energy speaks of Freedom and Truth – with Mars in the planetary alignment, this is quite likely to bring issues to a head. In the outer world we are likely to witness some volatile activity, sudden unexpected events, truths being revealed, protests and marches - with financial situations fuelling unrest. But also there is the potential for inventions and breakthroughs - all is possible.

This planetary conjunction is a rare event, the last time the planets were all together in Taurus was back in May 1855. Interestingly, at the time of the last conjunction the 'mass media' came into being in the United Kingdom. Stamp Duty was removed from publications and this allowed for a surge of daily UK newspapers. Here is an extract from a poem in a paper at that time.

'A perfect flood of papers rise, like breakers in the storm. Of every size and every price, of every make and form. We know not what results may rise, of failure or success, from this important privilege conceded to the Press.'

So how is the Press doing in maintaining this privilege that was given to them 150 odd years ago? This alignment of Cosmic energy may throw a laser Light onto the world media in all of its new and diverse forms.

Never be afraid to raise your voice for Honesty and Truth and Compassion against injustice and lying and greed. If people all over the world would do this, it would change the Earth.

Having shared some of the likely outer events that will be occurring in the world, in turning to the inner world, and the potentials held in this moment in time, you will see that the Sun Moon and Ceres are on Gene Key 31 opposite to the Earth on Gene Key 41. There is a Grand Fixed Cross at the time of the New Moon formed between, Mercury, on Gene Key 7, and Mars, the North Node and Uranus, on Gene Key 2, Saturn on Gene Key 49 and the South Node on Gene Key 1.

So, looking at Sun Moon and Ceres first we find Gene Key 31, known as **Sounding Your Truth**, has the Shadow of **Arrogance**, the Gift of **Leadership** and the Siddhi of **Humility**.

'At the Shadow level of frequency we are limited by our thoughts and language. We are 'programmed' by the language and thoughts that we have inherited. These thoughts and language keep us confined within a narrow spectrum of intellect and understanding of what our true potentials are. Real Arrogance comes from being cut off from our Divine Source. Words that are not rooted in a profound sense of wonder are always to some level arrogant.'

'The Gift of Leadership is really a gift of influence rather than an inherent predisposition to be a leader. The 31st Gift, like all the Gifts, represents a huge step beyond the intellect and into the heart. It is the heart that separates the Shadow frequencies from the Gift frequencies. Only the heart really perceives the collective suffering that comes from being marooned in your intellect at the Shadow frequency.'

'The 31st Gift still carries an agenda, but this agenda is to help people out of the narrow mental confines of their own conditioning. Because the 31st Gift has its finger on the pulse of the collective patterns of humanity, it can have enormous influence over large numbers of people. Certain human beings operating out of the 31st Gift can literally become the voice of the collective.'

'Humility is not for the faint-hearted. It is therefore ironic that Humility is a word that has come to be associated with people of a saintly or virtuous manner. **But Humility has nothing to do with behaviour.** Because the 31st Siddhi is truly humble, it has no agenda... Nonetheless such a person still carries the same genetic coding that requires they speak from the cutting edge of consciousness. **The 31st Siddhi says whatever it must say, knowing that the words come from the collective back to the collective.'**

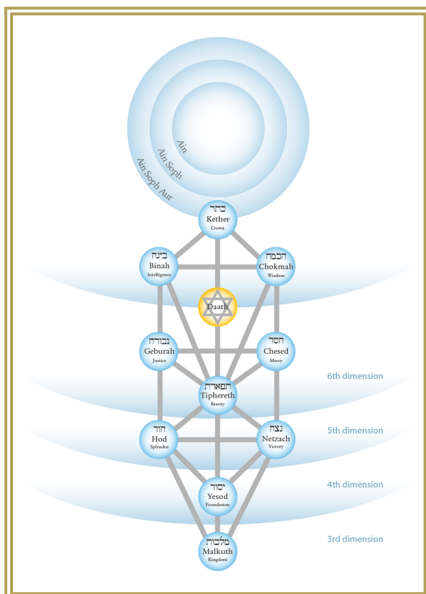

'The 31st Siddhi is rooted in the ancient tradition of the Oracle. The Oracle is simply a voice box for the Divine. Gene Key 31 is part of The Ring of No Return which refers to the great initiation from the 4th Causal Body into the 5th Buddhic Body.'

'Once this leap of consciousness has been made, there is no possibility of return because your identity or ego will be erased. Once you have allowed the Siddhic frequency to command your voice, you have entered the first stage of Divine embodiment. From this moment forwards, whenever you use the word I, it is the voice of Divinity itself speaking. Such speech is pure transmission. It uses words to indicate the path beyond words.'

The Earth is on Gene Key 41 **The Prime Emanation** moving through **Fantasy** to **Anticipation** to **Emanation**

'The 41st Gene Key houses a truly remarkable archetype. It has a very important function – it relates to what is known in genetics as the start codon. At the Shadow level the 41st Gene Key centres around the issue of Fantasy and dreams – it is like holding the key to your dreams in your hands, but never turning the lock. The evolutionary pressure that surges up in human beings carries our entire genetic history within it, all the way from the amoeba to Homo Sapien.'

'The 41st Shadow represents the pressure to evolve to seek out new fields and new experiences. This evolutionary impulse is the secret to the 41st Gift – the Gift of Anticipation. The more the frequency of your DNA rises you become more and more sensitive to the hidden properties in the world around you, in particular, linking into the morphogenetic field that communicates specific information across time and space. The 41st Gift gives the gift of premonition or Anticipation which links to its partner the 31st Gift of Leadership. The greatest leaders are those who build upon the past whilst anticipating what is to come. The 41st Gift has a single genetic agenda – it is always attuned to the next evolutionary energetic grid that is waiting to descend into form.'

'Every start codon inside every single cell is electromagnetically linked to each other. This is the foundation of the holographic body which in turn is linked to the holographic Universe. The 41st Gene Key is the key to seeing that the physical body can equally be seen as a holographic mirror of the Universe. As the Source of Being the 41st Siddhi is the Siddhi of Emanation. Emanation is a word that has been used by many ancient metaphysical and mystical systems as a means for understanding something that is really unapproachable.'

'One of the best known of these systems is perhaps the Kabbalah, whose central tenet is a map known as the Doctrine of Emanation. In a nutshell the Doctrine of Emanation points towards a fractal model of the Universe in which everything is a mirror image of itself. The cabbalists used the symbol of ten spheres or sephira, one emanating from another, to represent the various levels of Spirit descending into matter. The ultimate source, known as the Ain Soph, represents the unnameable, inconceivable, limitless Light from which all emanates.'

'What is fascinating about the 41st Siddhi is that it is the Source underlying all true Siddhic states. No matter what manifestation comes through our genetics, they are all ultimately grounded through this Siddhi that is not a Siddhi. In many ways, this is the nameless Siddhi, but we call it Emanation because we have no other way of approaching it.'

Looking at the Fixed Grand Cross you will see Mercury is on Gene Key 7. Mercury is all about how we share through our words and ideas - how words can uplift or diminish – how words are the carriers and encodements of Light. Mercury also connects directly into the central nervous system, so our thoughts and words affect not only the lives of others, but equally our underlying physical wellbeing.

Gene Key 7 known as **Virtue Has Its Own Reward** moves from the Shadow of **Division** to the Gift of **Guidance** to the Siddhi of **Virtue**.

‘As the mass consciousness of humanity operates at a low frequency, it does not recognise high frequency leaders, so it does not elect them to power. The 7th Shadow cannot command true respect or loyalty because it has at its core the lust for power rather than the good of others.’

‘True Leadership like true education does not impose itself on anyone. It is the Gift of being able to help others find their own way forward in life, rather than taking away their individual power. **This is precisely what is meant by the name of this 7th Gift – the Gift of Guidance.** At the Gift level of frequency, we see the move away from fear towards service. To truly guide another person or group of people you need to put aside your own opinions and judgments and listen intently to their needs. Great guides are great listeners.’

*‘People with the 7th Gift have a powerful magnetic presence and just from being in their aura you can come to deep clarity about your own direction. **These people can in particular assist others to see future patterns – for their Guidance is in alignment with future needs.** Often, they lead from behind the scenes – for history show us that many of the greatest leaders pass unrecognised during their own lifetime.’*

*‘The 7th Siddhi is an energetic blueprint hidden inside each human being. True Virtue has nothing to do with morals or behaviour. **Anyone can behave in a pseudo virtuous fashion, yet have none of the power of this Siddhi.** Leadership is determined by genetics, but the quality of leadership is determined by the frequency passing through those genetics. **Here in the 7th Siddhi we find visionary leaders, but far more importantly, we find virtuous leaders.’***

‘The Kabbalists have a phrase – Repairing the World – they say that when the Creator created the world he created a series of vessels to hold the Divine Light, but as the Light flowed down into these vessels they shattered and fell towards the realm of matter. Thus, we now live in a world of countless shards of the original vessels in which the Divine Light is trapped. **They say that every virtuous act committed by a human being helps to repair one of these broken vessels.’**

*‘The 7th Shadow represents the force that shatters the vessel, the Gift of Guidance begins the process of reuniting the shards and the one in whom the 7th Siddhi manifests becomes the Adam Kadmon – the perfected vehicle of Divine Realisation. The 7th Siddhi waits for a specific moment in time to awaken in the collective. **In the book of Revelation this 7th Siddhi is represented symbolically by the opening of the Seventh Seal, which precedes the return of Christ consciousness.’***

Mercury is opposite to Saturn, at the time of this New Moon, which indicates, from a Shadow level, that there is some form of limitation and restriction on speech. Whilst the need to take mature, personal, responsibility for the way in which we express our thoughts and ideas, is absolute, if this becomes, ‘outsourced’ and too authoritarian, too prescribed, then free speech becomes a thing of the past and many wise words, insights and truths will be lost in a zeal for control over others.

Saturn, which is the planet of both personal maturity, authority and karma, is on Gene Key 49, known as **Changing the World from the Inside,** requiring us to move beyond the Shadow of **Reaction** to the Gift of **Revolution** which ultimately leads to **Rebirth.**

'Here in the 49th Shadow we find the sleeping genetic trigger for the process that begins our collective ascent to higher consciousness. In order for human beings to awaken to a higher reality, this trigger or switch lying in the 49th Shadow must be activated. The 49th Shadow of Reaction is one of the most powerful of all the 64 Shadows in terms of how it governs human behaviour.'

'As the higher frequencies penetrate the 49th Shadow we will move through a time of unprecedented change and upheaval. This is the Gift of Revolution. The 49th Shadow will be the first aspect of the human Shadow to mutate right down to the genetic level. The implications of this are huge as fewer and fewer humans are victims of their emotional reactions, violence will rapidly decrease in the world. Men and women of peace are infiltrating all races more than ever before.'

'This Revolution is worldwide. There is a genetic Revolution underway right now – everything that is rotten in the 49th Shadow will be brought up to the surface. The 49th Gift is a power that is already beginning to flood the awareness of many people across the globe. There is a difference between reactionaries and true revolutionaries. Reactionaries base their reforms on their anger and fear, whilst the agents of the 49th Gift are not victim to their old emotional prejudices. They do not provoke further reaction but seek to resolve conflicts and at the same time implement radical changes and ideas based upon a grand vision for the future - a vision of deep goodwill towards all creatures.'

'The 49th Siddhi represents a huge leap in consciousness because it engenders a state of mystical divorce. The 49th Siddhi conceals an archetype that appears to be a part of all human evolution – that of Rebirth. The very bedrock of our society is founded upon a species that has always made decisions rooted in fear. The only way for a new future to be created is to begin from scratch. Once in a while along the evolutionary chain a new species is born out of the old species – like the mythical phoenix – it has nothing in common with its parent. It rises up out of the genetic material of the old and takes a whole new direction.'

'Every human being who has ever arrived at true enlightenment has experienced such a Rebirth. The Siddhic State requires both a mystical and genetic divorce from that which came before. Because you are reading these words, you are potentially one of these early flowerings. Is that not a beautiful thing to ponder?'

Both Mercury and Saturn make a 90° angle to the South Nodal Point, pulling in the karmic ancestral patterns that have been created over generations, so that they may be transmuted into higher resonance and integrated into the present, with the North Node, which gives guidance to the Spiritual direction that we are embarking upon.

The South Node is on Gene Key 1 and the North Node is on Gene Key 2. The two pillars of Yin and Yang, the Male/Female polarity - the Electro-Magnetism, Spirit/Matter that underpins all of Life. In the I Ching the hexagrams of Gene Key 1 and Gene Key 2 are the polarity of each other. Gene Key 1 has six unbroken lines representing the outer electrical masculine force and Fire Elemental and Gene Key 2 has 6 broken lines representing the receptive magnetic feminine force and Water Element.

Gene Key moves us through the Shadow of **Entropy** to the Gift of **Freshness** and on to the Siddhi of **Beauty**.

'The I Ching is a mathematical mirror of the genetic code and one can actually reduce all 64 archetypes down to four essential principles. These are captured at the beginning and the end of the I Ching sequence itself – the 1st and 2nd Gene Keys and the 63rd and 64th Gene Keys. These two pairs are like the prologue and epilogue to the great book itself. Upon these four principles, or pillars, life is built.'

'The Lower frequency of the 1st Gene Key is Entropy – 'A measure of the disorder or unavailability of energy within a closed system. More entropy means less energy available for doing work' The state of Entropy is rather like a vacuum state. Your system is recharging so the energy within you withdraws into a kind of stasis.'

*'Every time an individual moves cleanly through their low frequency chemical process, they re-enact the creation myth – out of darkness suddenly light emerges and as if by magic the low energy field switches and is experienced as joy. This joy comes as unexpectedly as the sadness does. **This 1st Gift is called the Gift of Freshness because whatever emerges out of its numbing chemistry field is absolutely new.** Freshness conveys aliveness, as though it refers to something burning with an inner fire.'*

'This is exactly how people empowered by the 1st Gift express themselves creatively, as though surrounded by a halo of something brought with them from another world.'

*'As this Gift awakens inside your DNA you will find that you automatically inject Life and Light into any group of people you are a part of. **It is through individual creativity that all diseases and negative patterns will eventually leave this planet.***

*'In Human Beings the 1st Siddhi is Beauty and as with all Siddhis it is also reliant upon its programming partner the 2nd Siddhi of Unity. **Beauty lies in the Unity of all. True Beauty is emptiness.** True Beauty when manifested and realised in a human being, presupposes a state of Union with the totality.'*

*'When the 1st Siddhi dawns inside you, everything in the Cosmos is experienced as beautiful and fresh. Everything is experienced as a unique creative expression of this Unity. **Everything shines with the essence of its uniqueness and yet at the same time it all shares a single Source.** When this inner Divine Fire is released through your DNA you become capable of miraculous power.'*

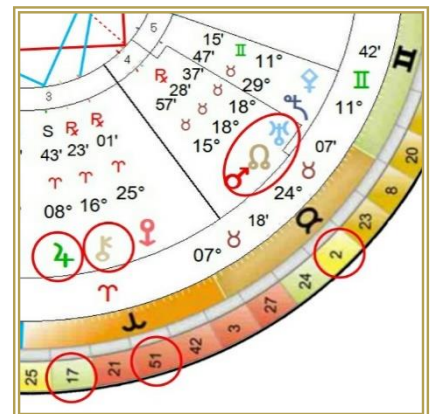

And the North Node, which is on Gene Key 2, is also where Mars and Uranus are at this point in time. The planets are activating the Magnetic Feminine Polarity. Both Mars and Uranus have an impulse which has played out over time through the masculine principle and at this time they are being held within the Divine Feminine Principle bringing in a harmony and balance.

For Gene Key 1 and Gene Key 2 are a couplet mirroring the Truth of each other. *'Within the deepest yang, the pure Fire of the 1st Gene Key, we find the pure yin, the deep yin. It is the same within the yin; there we find the yang, the pure yang. When yin or yang is absolutely pure it actually becomes something quite magical; it becomes neutral.'*

It is in this state of neutrality that we return to the Oneness of Life which is to be found within the magnetic pole. Gene Key 2 known as **Returning to the One** moves us through the Shadow of **Dislocation** to the Gift of **Reorientation** to the Siddhi of **Unity**.

Gene Key 2 is the most archetypically feminine of all the Gene Keys – based on Unity, Surrender and Trust. Of all the 64 Gene Keys, the 2nd Gene Key and the journey it represents contain a beautifully simple distillation of Cosmic wisdom. **As the 1st Gene Key tells the story of the great masculine principle of energy and light, the 2nd Gene Key grounds this story into the world of form – it teaches us that there is a purpose to everything in existence.**

At the Shadow level, however, this Gene Key gives rise to the human perspective of loneliness, fear and rejection that is rooted in our biological functioning. **Separated from our own innate nature, a collective fear has been generated that pervades our individual lives.**

*'At the Shadow frequency you experience dis-orientation, whereas as you begin to reach into the Gift dimension, you become re-orientated. The Gift of Orientation has two faces. The Gift of Orientation either comes as a shift in your awareness that affects your actions, or it comes as a shift in your actions which then catalyses a shift in your awareness. **Whichever path is taken there is an increased realisation of synchronicity occurring in your life. Evolution itself is drawing you inexorably along the path towards awareness of your Unity and Oneness.***

'The 2nd Gift has a special role within the DNA in that it creates an 'attractor field' around you. As the frequency through the 2nd Gift rises you live more harmoniously and the electromagnetic power of your aura increases. As you let go into the feminine yielding quality of this Gift, the more Universal power flows through you. As your awareness begins to operate at its highest biological level – through the solar plexus system – so you fall into an easier rhythm of life. As you become orientated into a wider context, your real face begins to show itself in the world - you begin to experience life in a more and more magical dimension.'

'The 2nd Siddhi describes the state of Enlightenment or Awakening. It is the cornerstone of all the Siddhic states, being as it is the essence of the Divine Feminine.'

The 2nd Siddhi, as do all the Siddhis, carries a specific mythology when it manifests through an individual into the world of form. As one of the primary pillars of our DNA the life of one who lives within this Siddhi is of great relevance to our evolutionary history. **These beings exert an enormous magnetic influence on our entire planet.** Although it may sound like science fiction the expression of the 2nd Siddhi in a human being actually changes the direction of the Earth as it moves through space.'

'The 2nd Siddhi can therefore only be born in the world of humanity, if our whole species makes a leap in consciousness. For such a leap to be made, we have to wait for a certain set of geometric co-ordinates to line up in the Cosmos. These are the alignments that astrologers are always seeking to find and understand in the heavens.'

'To transcend into Oneness is not easy to explain. Oneness cannot be comprehended, only lived - it is the unification of all opposites, this cannot be described, only experienced. It is the original nature of Consciousness itself. A highly beautiful plan unfolding in time and space, swept along by currents of evolution. This is our final destiny as a species - to realize our state of Oneness and Unity with all that is.'

As we are passing through this time of transition and change, moving into higher states of consciousness, we are learning that everything has a purpose and that to come into this State of Unity our lower minds need to move beyond reactionary judgment and opinion. To assist us with this realisation, Jupiter at the time of this New Moon is on Gene Key 17, 120° from the Sun and Moon and Ceres.

Gene Key 17 holds the Shadow of **Opinion**, the Gift of **Far-Sightedness** and the Siddhi of **Omniscience**.

'As we look at the pairing of the 17th and 18th Shadows, we see two of humanity's greatest mental gifts and dilemmas the 17th Gene Key Shadow of Opinion and the 18th Shadow of Judgment. These two qualities epitomise the logical left hemisphere of the human brain.'

'This 17th Gift has a purpose at that is to understand the minute mechanics of life as well as seeing the whole picture. The true purpose of the 17th Gift is to uphold Integrity, by challenging all misrepresentations of truth in the world. The very quality that leads to narrowmindedness at the Shadow frequency has a mission to create open-mindedness at the Gift frequency. At the Gift level the individual sees the futility of identifying with a specific opinion.'

'Because the 17th Gift doesn't dictate direction in a person's life it is freed to do what it was always intended to do – to differentiate between those patterns that lower your frequency and those that raise it. Once freed from the Shadow frequencies of mass consciousness the 17th Gift has the ability to see higher dimensions and realities - looking ahead to the future and linking one phase of evolution to another. It is working with the Gift frequency that the process known as the opening of the third eye begins.'

'Through the 17th Siddhi of Omniscience the human mind will finally see the perfection and beauty of our oneness with all of existence and through the 18th Siddhi of Perfection we will actually bring that vision into full manifestation. The 17th Siddhi directly corresponds to the open 3rd eye. Where seeing and the seen are one. A single eye through which consciousness pours and where past present and future are a single eternal screen of consciousness. These are the true seers and oracles. At the level of the 17th Siddhi consciousness sees through you rather than you seeing through it.'

'When the 17th Siddhi comes into the world it comes like a Divine afterthought. It is one of the seven powers of Grace. It is where the body becomes an instrument for consciousness and there are no borders, levels, opinions or past lives, for the Siddhic level sees an endless fractal pattern of life – repeating over and over – the same but always new – the serpent eating its own tail. This is a Siddhi that sees and knows only Perfection.'

'This 17th Siddhi is something of an anomaly, since it is the only aspect of the mind to survive awakening. All other aspects of the mind are transmuted into the higher frequencies with the exception of this single eye – the mind's eye. The deepest irony of all life is caught in one famous mystic's words: 'God can only come and visit you when you aren't there' or put another way, if you want to know what Omniscience looks like, you, the personality, have to cease to exist.'

And finally, looking at Chiron, which seeks, through its transits, to bring us into an alignment with our Soul and to Christos Consciousness, is on Gene Key 51. Chiron is also making a 120° aspect but, in this case to Mercury.

Mercury is the planetary energy that really resonates to Gene Key 17 as it has all to do with the way our individual minds process information and create the judgments and opinions that are developed over a period of time – many of them passed on from generation to generation. So, with Chiron aspecting Mercury at this time, it is facilitating and assisting the potential to move beyond the age old limitation of personal Opinion that has created so much discord over eons of time.

Chiron on Gene Key 51, known as ***From Initiative to Initiation*** has the engrained Shadow of ***Agitation*** which is waiting to be transformed into the Gift of ***Initiative*** through which ***Awakening*** unfolds.

'The 51st Gene Key and its spectrum of frequencies contains some startling secrets regarding human behaviour as well as leading you towards the process or experience referred to as Awakening.'

'The 51st Gene Key as a genetic archetype is rather special. The 51st Gene Key is a portal – the portal through the Shadow frequency leads to hell whereas the 51st Gift leads to a place of great personal empowerment and genius. The Gift level is engaged whenever the human competitive spirit is put into the service of creativity. To follow your Initiative is to step off the beaten track and to follow the dictates of your own inner being.'

'It is not possible for a human being to awaken without first stepping fully into their creative independence. They close the book on all previous teachings and wisdom in order to discover what their individual truth is, rather than anyone else's. It is a journey into the underworld in which the traveller will confront many challenges and tests. A path that leads home – it is a path of heart leading into the Heart.'

'Until you are awake, you are asleep. There are no levels within Awakening. Awakening is a spontaneous evolutionary leap made possible by wider evolutionary forces operating throughout the entire Universe. Awakening is a sudden unexpected shock in awareness that is preceded by a mutative chain reaction throughout the cells and DNA.'

'True Awakening does not come and go, but stays forever and see's through everything. It is the permanent dissolving of the separate self as a physical mutation in the body - an experience that cannot be predicted or influenced.'

'Awakening is really a series of softenings. Our awareness becomes more one-pointed, but our heart and mind becomes softer and more open. Mildness is the essential quality needed to allow Spiritual initiation.'

*'Each of the 64 Siddhis has its own particular behavioural pattern of awakening, but the 51st Siddhi is the ground beneath every one of these 64 codes. **The 51st Gene Key is part of the Ring of Humanity and this Gene Key ensures that one day all of Humanity will awaken.** In times to come this Siddhi will begin to awaken entire gene pools. There will come a time in which relationships will awaken, then families, then entire communities until finally humanity will awaken as an individual Cosmic Being and will see its own true nature.'*

'That single moment when humanity opens its true eyes for the first time will be the greatest single event in the history of Awareness itself.'

As the fork in the road becomes more pronounced and as the intensity builds upon Planet Earth, may we all hold the Far-Sightedness and Vision, to embody the Leadership, Guidance and Humility that will bring about Rebirth and Unity upon this Plane, Awakening all to the Beauty and Perfection that is the Emanation from Source.

All Love and Blessings
