

Cosmic Overview

Scorpio New Moon 2022

'Every moment of Light and Dark is a Miracle.'

Walt Whitman

'I AM' The Light of Day Where Three Lights Meet

The New Moon in Scorpio takes place on the 25th of October, when there will also be a Partial Eclipse which, although not Total, will be affecting many of the cities of the European Union and also the United Kingdom as the Eclipse Path crosses the face of the Earth.

Once again we are passing through the Light of the Constellation of Scorpio. It is in Scorpio that we confront the legacy of accrued collective and personal karma – where we face the internal transmutation and transformation that is required for our evolution.

The Zodiacal Constellation of Scorpio is held within the *4th Ray of Harmony through Conflict*.

This is the Ray that assists humanity to grow beyond the ingrained patterns of the past. It is in Scorpio that the Fixed Water Element, that underpins our emotional response, can become stuck within the psyche – all the dramas that result from this intensification of emotional patterning is how karma is created, and recycled, not just in this present life, but over generations and generations of lifetimes.

The 4th Ray has underpinned the release of humanity's dramas and struggles over eons of time and we still continue to see these tensions unfolding each day, as the collective and personal karma is brought to the surface.

These struggles are fuelled by Pluto and Mars, both the planetary rulers of Scorpio, which impulse the 1st and 6th Rays of *Willpower and Devotion*. Mars links to personal will and Pluto to Divine Will and this focus on will, from a human perspective, can create such fundamental, intransigent, fixed beliefs which result in so much conflict and power struggle – the push pull of Society.

It is the 4th Ray that underpins the tests that we all undergo on this evolutionary journey, no one is exempt, as we move beyond a sense of 'me' to a realisation of our true Self.

In the stripping away of the 'me' the 4th Ray brings to the surface all that is held and hidden within the subconscious that creates the conflicts, so that Pluto may transform and release the mind into a higher state of consciousness.

Both Pluto and the Constellation of Scorpio are purifying agents that are pre-eminent in the fusion of the Soul personality, breaking down the limited identity through the 1st Ray of Pluto, to reveal the realised Soul-self. Ultimately the essential Unity of the lower and Higher Selves is achieved and the True Self is revealed as Pure and Radiant, a Powerful, Magnetic, Healing Source of energy.

'Experience hath shewn, that even under the best forms of Government, those entrusted with power, have in time, and by slow operations, perverted it into tyranny.'

Thomas Jefferson

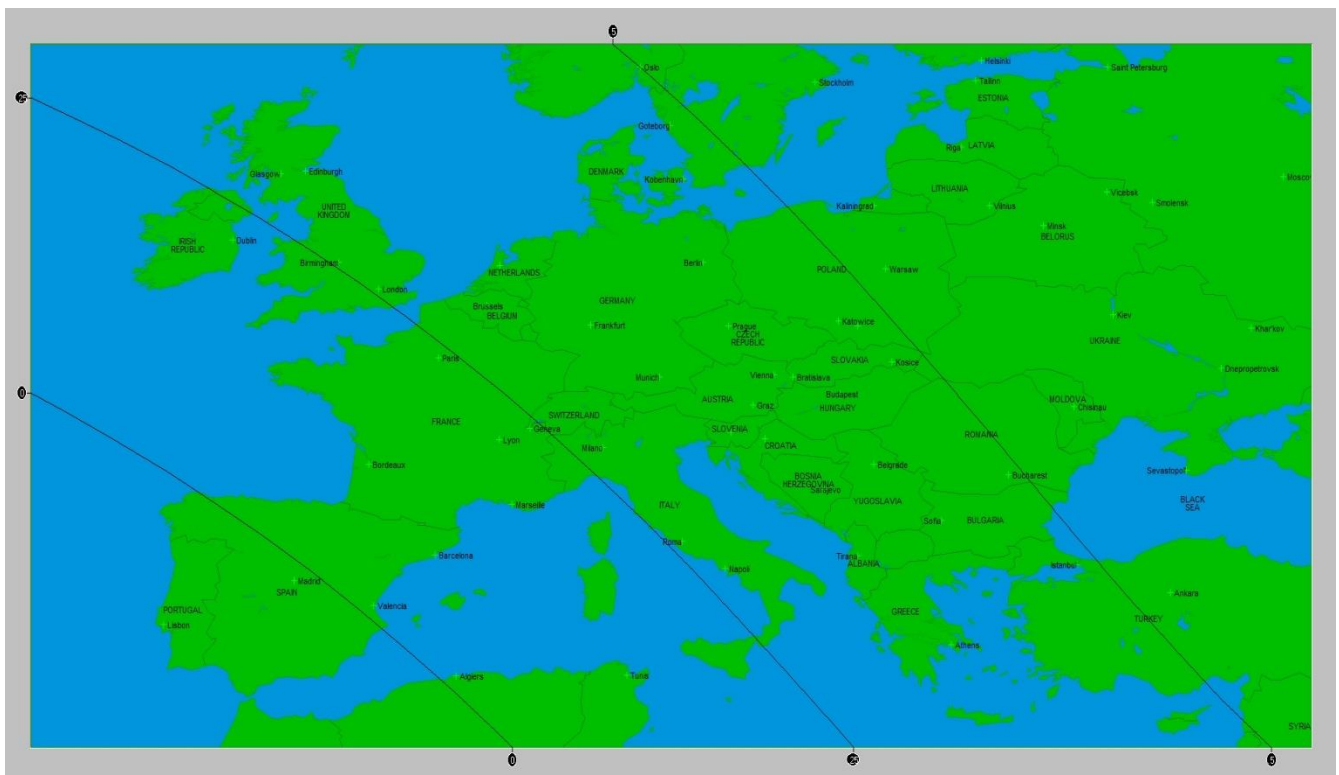

The Partial Eclipse – Saros Cycle 6 South

Before looking at the Chart for this upcoming New Moon it is relevant to have an understanding of what is playing out in the outer world – how the 1st Ray, 6th Ray, 4th Ray and Mars and Pluto are unfolding and expressing through the consciousness of Humanity around the world at this time.

This Partial Eclipse is focussed primarily on the European Union and the United Kingdom, where the push pull dynamics, referred to earlier, are playing out on the political stage for all to see.

The United Kingdom and indeed the rest of the world, would seem to be anything but united at present, as differing ideologies, beliefs and vested interests are revealed for all to see.

This particular Eclipse Cycle, known as Saros Cycle 6 South, began on March 6th 1049 and will complete its cycle, gradually tracking across the Earth from the South Pole until reaching the North Pole on 8th April 2293.

Bernadette Brady, who has written much on the Saros Cycles, describes Saros 6 South as:

‘This eclipse cycle is about being forceful and taking power. It has a manic flavour about it with great strength or force manifesting.’

You will see that the central point of the Partial Eclipse passes through, or close to, London, Paris, Geneva, and Rome, whilst the shadow of the Eclipse does cover the whole of Europe – touching into Ukraine - which has been the focus of attention over these last months, as ‘ancient’ ideological conflicts and interests have once again erupted, affecting the lives of so many Souls.

London, Paris and Rome speak of the past and of powerful colonising Nations - whilst Geneva, the Headquarters of the *World Economic Forum*, founded back in 1971, reflects the power of Financial Bodies and Global Business, to now, it would appear, have control of Nations.

Chart for the Scorpio New Moon

New Moon 25th October 2022 11:50 BST London UK
<https://www.timeanddate.com/moon/phases/>

So, what will the chart at the time of this New Moon and Partial Solar Eclipse reveal? When the Sun and Moon are together there is a union between the conscious and unconscious and at the time of an eclipse, this bringing into awareness of the hidden aspects, is intensified and with Venus as part of this eclipse point our personal and collective drives are also being brought out into the open. In simple terms, in this mundane world, what are our priorities, 'What is it that we value?'

You will see that the Sun, Moon and Venus are together at 2° Scorpio on Gene Key 28 known as **Embracing the Dark Side** moving through the Shadow of **Purposelessness** to the Gift of **Totality** to the Siddhi of **Immortality**.

'The Gift of Totality is a wonderful Gift to have and it belongs to anyone who really knows how to trust in Life. Totality means to live alongside fear – and to live with the unexpected and to stay open to continual change whilst remaining committed.'

'The Gift of Totality means to embrace the whole of your nature and the whole of life – the pleasure and the pain. To be total in the sense of this Gift means to live without allowing your mind to dictate your life. This is Life lived for the moment in the full knowledge that life purpose can only be found in the present moment rather than in the distant future.'

*'It is a mythic path – a path that Jung called individuation. **Shamans would call it the retrieval or incarnation of your full Soul.** Life shows you that it has an underlying purpose in everything that it brings you. The more deeply they accept each feeling of fear that comes the lighter they grow and the more love they feel towards life. As long as your commitment is total you will find an inner detachment – this detachment is the reward for your courageous Totality.'*

'The Siddhi of Immortality requires that the individual surrender him or herself into his own deepest fears and is reborn as pure consciousness. When a being attains this state through the 28th Siddhi, they take on a particular mythology – their specific gift is to highlight the fears of others wherever they go.'

*'This is simply an aspect of their awakening operating through their genetics - thus, they are said to have the gift of casting out demons, because this is precisely what their aura does. **Through its Grace, it highlights the darker, unaccepted aspects on one's nature and absorbs them into non-existence.** As already stated, this Siddhi contains the seed of the manifestation of Immortality in form – when the elements of our future vehicle will coalesce and form another kind of vehicle to house the higher consciousness of humanity.'*

'In this vehicle the 28th Siddhi will come into fruition and in doing so it will synthesise the animal soul of Gaia with the human soul, thus making an immortal body. At a physical level man must absorb his entire animal nature into himself in order for its true purpose to be shown. Only then will we see for the first time the nature of the beast.'

What marks out the difference between humanity and the animal kingdom is humanity's ability to think, to utilise the mind, but when that mind is coming from a sense of fear and separation then we become the most dangerous animals on the planet.

Mercury, which is the planet that links to our mind, to our ability to communicate and to make mental decisions, is central to this New Moon. In many ways, Venus and Mercury are both asking the same question, as we journey through these unstable and unpredictable economic and disruptive times 'What is of value? 'What is it that you wish to preserve?' 'What stands the test of time?'

Mercury is at 22^o Libra on Gene Key 32 known as **Ancestral Reverence**, evolving through the Shadow of **Failure**, to the Gift of **Preservation**, to the Siddhi of **Veneration**.

*'Your individual fear of Failure is rooted in the collective fear of Failure to survive as a species. **Our collective fear of survival is almost entirely projected onto the amount of money we have.** The fear of Failure as a feeling inside your physical body is intimately linked with money. The 32nd Shadow drives our modern society and keeps humans operating at a low level of frequency by means of this fear. Although the fear of this Shadow has its roots deep within the human immune system, it is the mind that reacts to it and feeds of it.' **'If you are not aware of the power of your mind, then your mind will run your life which means fear will run your life.'***

'The 32nd Gift is called the Gift of Preservation. It is a truly noble Gift because it is about seeing beyond your own little world, which means going beyond selfishness. **The 32 Gift is not about self-preservation but is about the Preservation of Life.** The 32nd Gift has the ability to assess the past, weeding out weaknesses and building upon strengths.'

'As we move into the 32nd Gift as a species, we will once again return to Nature. Nature represents the old rootstock.... As we rise above the fear and move beyond the selfish tendencies found in the Shadow frequency we become defenders and preservers of our Earth. As we learn once again to honour where we have come from, the Earth will teach us how to move in harmony with its natural rhythms and cycles.'

'When we trust in life enough we begin to trust in the events of our lives too. We allow them to shatter us and that reframes our view. **The great inner question becomes what is essential and what needs preserving - Love, Truth, Virtue, Forgiveness?** For there are things that have deep value from our past that are really worth nourishing for future generations.'

'This 32nd Gene Key requires a great deal of self-discipline. The only essential, is this self-discipline and it's not necessarily about doing anything formal. **It's more to do with our ability to listen inwardly to the Truth inside us. The real discipline is to pause.** We have to learn how to pause and listen inwardly to life.'

'To attain a Siddhic state presupposes that fear has been entirely transcended. The 32nd Siddhi is the state of Veneration. It is all that remains when fear has burned away. **Veneration is the state that occurs when you see and know your place within the great Living chain of Life.'**

'Veneration is about being on a spiral ladder. You stand on the shoulders of those who have come before you and you allow those who will go beyond you to stand upon your shoulders in turn. What you venerate is the chain itself as well as all the beings above and below you. **You realise that even the humblest insect is allowing you to stand upon the shoulders of its consciousness.** This gives rise to a fathomless feeling of reverence for all sentient life. **Veneration is rooted in respect, reverence and gratitude for all aspects and forms of the One Consciousness behind Creation.'**

Mercury links to Saturn and Vesta and to Mars in a Grand Air Trine. Saturn is at 18⁰ Aquarius on Gene Key 13 **Listening Through Love** and Vesta is on 24⁰ Aquarius on Gene Key 49, **Changing the World from the Inside.**

Gene Key 13 moves through the Shadow of **Discord** to **Discernment** to **Empathy**

'**Discernment emerges as your emotional nature comes more and more into awareness.** As you realise how deeply in the thrall of desire you are, you begin to understand the whole of humanity as well. Discernment begins at an individual level as you see how deeply your view of others is connected to your feelings. **Only when your personal feelings are witnessed and examined can you become more objective.** With the arising of Discernment come many gifts. Once you stop viewing life from a subjective emotional level a new landscape of feeling opens up within you.'

'Our DNA is an incredible substance – it contains all the memories of our entire species and even those earlier life forms from which we descended. **Like a fractal shard of God itself, DNA forms the living**

vibrating link to the beginning of life on Earth. Even more profoundly it connects us to the seed from which our Universe first sprouted. *Through the 13th Siddhi information from our collective past can be recovered.'*

*'These days most people use the word Empathy without grasping its deeper connotations. **The Siddhi of Empathy requires complete dissolution of the individuated self.** Once identification with one's form has been cut Empathy reveals itself as the background awareness of all living forms. In other words, we really are inside each other.'*

'Through the Ring of Purification the 13th Siddhi opens its eyes on a new world – a world in which the past has been magically transformed into a radiant new future. Human addiction to Desire ceases in this Siddhic state and it is said that one's spirit no longer returns to Earth but takes birth in higher spheres of existence.'

Gene Key 49 moves through the Shadow of **Reaction** to **Revolution** to **Rebirth**.

'As the higher frequencies penetrate the 49th Shadow we will move through a time of unprecedented change and upheaval. This is the Gift of Revolution. The 49th Shadow will be the first aspect of the human Shadow to mutate right down to the genetic level. The implications of this are huge as fewer and fewer humans are victims of their emotional reactions, violence will rapidly decrease in the world.'

*'Men and women of peace are infiltrating all races more than ever before. This Revolution is worldwide. Revolution occurs wherever stagnant energy is brought into awareness. There is a genetic Revolution underway right now – everything that is rotten in the 49th Shadow will be brought up to the surface. **The 49th Gift is a power that is already beginning to flood the awareness of many people across the globe.'***

*'There is a deep chemical connection between the 55th Siddhi and the 49th Siddhi, together they create the **Rebirth of Freedom.** The 49th Siddhi conceals an archetype that appears to be a part of all human evolution – that of Rebirth. The very bedrock of our society is founded upon a species that has always made decisions rooted in fear.'*

*'The only way for a new future to be created is to begin from scratch. Once in a while along the evolutionary chain a new species is born out of the old species – like the mythical phoenix – it has nothing in common with its parent. **It rises up out of the genetic material of the old and takes a whole new direction.** Every human being who has ever arrived at true enlightenment has experienced such a Rebirth. **The Siddhic State requires both a mystical and genetic divorce from that which came before.** Because you are reading these words, you are potentially one of these early flowerings. Is that not a beautiful thing to ponder?*

And Mars at 25⁰ Gemini is on Gene Key 12 known as **A Pure Heart** having the Shadow of **Vanity** the Gift of **Discernment** and the Siddhi of **Purity**.

*'The 12th Gene Key is part of the Codon Ring of Trials. **The 3 Gene Keys that make up this unique codon group are related to what science terms the 'stop' or 'terminator' codons.** When activated, this Codon Ring begins to unplug humanity from the illusory world of the outer senses. On a purely archetypal level, the three stop codons of this Ring of Trials, lay out the great dramatic script of evolution itself, **testing human beings on their road to self-realization.'***

'The 12th Gene Key along with its Shadow and Siddhi, is one of the most extraordinary and far-reaching archetypes in the human genetic matrix. Vanity is the first human vice and the last one to go in the advancement of consciousness. Whenever there is self-identification, there is Vanity.'

'Within the mystery of the 21 Codon Rings, this 12th Gene Key forms a ring of its own within the Ring of Trials, known as the Ring of Secrets. However, its secrets remain firmly locked away until you activate its highest frequency in the 12th Siddhi.'

'To discriminate is to know inherently what and who is healthy for you in life. Where Vanity is about only loving yourself, Discrimination is about loving the things and people outside yourself that are healthy for you. This 12th Gift is about feelings. If this Gift is a powerful aspect of your hologenetic profile, you will be strongly motivated and moved by feelings and emotions throughout your life. Your Gift is to communicate these feelings to others, and you may do this in a myriad of ways.' If you are strongly influenced by this Gift you will recognize the beauty of true expression, which means that you will also recognise when something or someone is not expressing true Soul.'

'The 12th Gift contains the teachings of transformation and death – the movement from one level of consciousness to another. Of all the Gene Keys this 12th Gift represents the mythic passage from one state to a higher state in which the stop codon kills your identification with your past, allowing you to be transformed - the transcendent enters your body and alters your chemistry leaving you radically and permanently altered.'

'With Vanity your lower self falls in love with itself and with Purity the Higher Self falls in Love with itself. You might say that Purity is when the Divine falls in Love with You. Your behaviour, your thoughts your feelings, the very air you breathe must resonate to one purpose – falling in Love with the Beloved. The Beloved is the Essence of your true Nature.'

'Everything in the Universe has at its core the same original Purity – we are all shards of a Divine crystal and as our forms go through their processes of polishing, so consciousness begins to remember itself through us.'

'In the ancient alchemical systems, the throat centre was seen as the greatest of all initiations. All the lower chakras including the heart are synthesised and purified in the throat. In this respect it represents the boundary of the known and unknown.'

'It is the abyss or Daath of the Kabbalah. The Being who has passed through the abyss and entered the sphere of the 12th Siddhi becomes once again like a child. It is the ultimate purification in which you meet your own death and are reborn in a higher sphere – into the Sphere of Divine Love.'

'You are so pure that it is not possible for you to exist as anything other than existence itself. In crossing the great Cosmic Throat Centre you are swallowed by Life itself.'

And Dwarf Planet Eris, which connects us to Universal Consciousness, is opposite to Mercury at the time of this New Moon creating a Kite Formation with these other planetary bodies. Eris is

on Gene Key 42 guiding us through this unknown time via the Shadow of **Expectation**, to the Gift of **Detachment** to the Siddhi of **Celebration**, known as **The Ring of Living and Dying**.

'True detachment is the ability to allow and accept life as it comes. Detachment does not mean to not feel. In fact, if you are truly detached you will feel more intensely than others because you will not have allowed your Expectation, positive or negative, to constrict the event you actually experience. Detachment presupposes a great love and trust in Life.'

'The 42nd Gift of Detachment births the process of letting go of control over your life, physically, mentally and emotionally. There is a great understanding and freedom that comes to every human being who surrenders deeply enough to their life. The Gift of Detachment represents the separating out process between the emotions and the mind and it takes place naturally as the frequency rises within the cells.'

'The 42nd Siddhi is about the transcendence of death. These are the sages who teach humanity about the illusion of death. They do not teach us through knowledge but through their attitude. This is a state beyond Detachment. The transition from the Shadow to the Siddhi, from Expectation to Celebration, does not occur within time. Whilst our physical form may decay and 'die' the essence of our consciousness is timeless, fluid, playful and unpredictable.'

'When a Being discovers the pure Maya of Life - the illusion that we are born and we die – as this great truth begins to permeate them, from the inside out, it literally kills off every aspect of their own identification with what they are. They become like a child again and life becomes Heaven on Earth.'

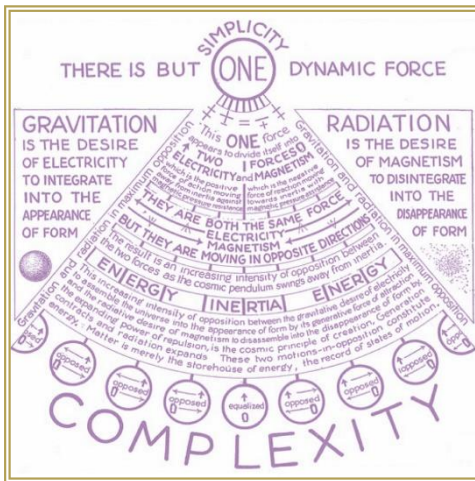

The six Siddhis of the Codon Ring of **Life and Death** contain the 3rd Siddhi of **Innocence**, the 20th Siddhi of **Presence**, the 23rd Siddhi of **Quintessence**, the 24th Siddhi of **Silence**, the 27th Siddhi **Selflessness** and also **Celebration** this 42nd Siddhi.

'The 3rd Siddhi brings the Innocence of the Eternal Child. The 24th Siddhi brings Silence, not a deathly silence, but the Silence of Light and Illumination. It is the Silence of Quintessence, of reaching the Heart of Hearts, the Essence within the Essence, the 23rd Siddhi. It also brings vast caring for everything, the kind of love that is Selfless and unconditional, the 27th Siddhi. Finally, this Ring brings the 20th Siddhi, pure Presence, a resting in the Eternal Now. When we discover this, we realise that we are eternal and cannot die. The body may die, but the indwelling Quintessence can never die.'

'The body may even not die, because when we break down the illusion, all manner of things become possible with the field of Celebration.....The cells of the body can be transfigured back into their Quintessence and literally cause us to ascend.'

'With the 42nd Siddhi there is only one manifestation occurring and this is the state of Celebration. Celebration is the direct manifestation of true Awakening.'

Looking outwards into the intensified unpredictability of these times it would be difficult to perceive the immense potential that is occurring side by side during these 'testing' times, but each one's Discernment will reveal this inner Truth.

Outer, complexity, instability and uncertainty has been building over these last months as energy prices have sky rocketed around the world, underpinning mounting inflation, all ‘fuelling’ the Shadow of Gene Key 32 where Mercury is right now, as was shared earlier

In many ways this chaotic time is reflected through the ‘Cosmic Push Pull’, as the North and South Nodes move through Gene Key 1 and Gene Key 2. Gene Key 1 is the prime Electro Yang Push of Energy and Gene Key 2 is the Magnetic Yin Pull of Matter, underpinning all Life on this Planet, which currently seems to be creating such division and conflict, as the human mind seeks to move beyond its current limited, understanding.

Dwarf Planet Ceres, at the time of this New Moon, is at 10° Virgo, trine to both the North Node and Uranus and sextile to the South Node, on Gene Key 40, **The Will to Surrender**, evolving through the Shadow of **Exhaustion**, to the Gift of **Resolve** to the Siddhi of **Divine Will**.

*‘When you activate the 40th Gene Key at a higher frequency, Exhaustion becomes a thing of the past. **When your Life Force is aligned you will discover that there is a vast amount of energy available to you.***

*‘Everything about this 40th Gene Key is about having boundaries and in order to create boundaries you have to be able to deny other people access to your energy. You have to be able to say No. **The correct use of this kind of isolation ensures that neither your energy nor your resources become depleted.***

‘The same forces that drive the Shadow also drive the Gift, but the result is completely different. The 40th Gift of Resolve is about becoming adept at giving to yourself. Ultimately it is about deep physical relaxation. It is a wonderful balance between serving the world and serving your own enjoyment.’

*‘True Resolve is not possible unless you know how to relax. **Rest allows the physical body to restore – relaxation allows all the subtle bodies to recharge as well.** With Relaxation our Mental and Emotional health are assured.’*

*‘At the highest frequencies the Gift of Resolve becomes transformed into pure Divine Will. In mystical understanding the qualities of the Divine are divided into three main Cosmic organs – Divine Mind, Divine Heart and Divine Will. **Divine Will is seen as the primary faculty out of which the other two emerge.***

*‘When a man or woman has attained the ultimate Siddhic state known as Enlightenment, an undeniable energy emerges from them – the pure energy of Consciousness itself. **Such people will follow no teaching or master but will travel their path absolutely alone.** When the 40th Siddhi speaks it will say that there is no path to God because there is no God outside of your aloneness.’*

‘The 40th Siddhi represents a code in human DNA that will transform humanity on the physical plane. The 40th Siddhi holds the key to complete physical relaxation in which every molecule of DNA inside your body is functioning at its optimal frequency.’

'The four Gene Keys in the Ring of Alchemy will transmute your DNA so that there is no longer any interference in your physical body – this means that your highest subtle bodies can manifest directly through your physical body. That is the real meaning of complete physical relaxation, it is a state beyond the comprehension of your mind. It is the direct manifestation of Divine Will.'

Pluto is the planetary energy of Divine Will and although the focus of the upcoming eclipse lies across Europe, the United Kingdom and out to Turkey, there is still a definite focus on the United States of America, as Pluto once again is in 'direct' motion and is moving slowly towards 27 Capricorn 33, where Pluto was at the time of the USA Independence Chart, making the third and final Return on the 28th of December 2022.

Equally, Pluto affects the Chinese Nation's 1912 chart, as the North South Nodal points are at 28^o Aries/Libra and Uranus is at 28^o Capricorn, so Pluto will be activating major changes and upheavals throughout that Nation. This transit for China started in the Spring of this year and will finally come to fruition by early 2024.

These are powerful and challenging times that we are passing through. What we are currently witnessing on the world stage is the expression of fixed ideologies coming from the human will – man made solutions to manmade problems - but as Einstein said, many years ago, *'You cannot solve a problem from the same consciousness that created it. You have to learn to see the World anew.'*

As we circle around the Sun, on Planet Earth, we are all in one giant Initiation Chamber, as the Cosmos impulses us to evolve into a Higher Consciousness through the Push Pull of Pure Light and Love. May we each assist this Alchemy and Rebirth, knowing the Vision, so that we may come to see through eyes that see the World anew, in a Celebration of all Life.

Love and Blessings to All
