

Cosmic Overview

Leo New Moon and Lion's Gate 2025

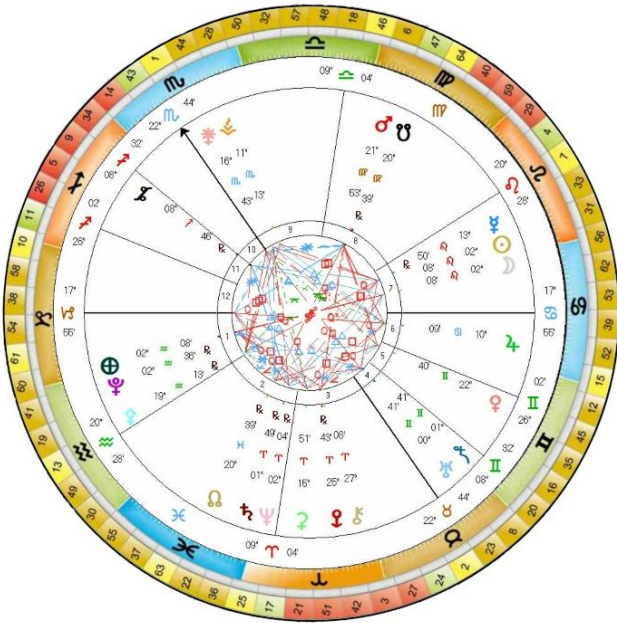

*Remember always that you are made of
Immortal Sparks of Divine Light - every
atom and cell of your body is glowing with that Light.*

Anon

*Goodness is our nature. Purity is our nature and that
Nature can never be destroyed.*

Swami Vivekananda

'I AM' the Light of the Soul

The New Moon at 2° Leo 58' will take place on the 24th or 25th of July depending upon where you live.

Prior to this, on the 7th of July, Uranus moved into Gemini, returning to Taurus in November until April 2026 where it stays until 2033. Uranus in Gemini has a different feel to Uranus in Taurus, it is more fluid and active, bringing sudden changes. Gemini rules the central nervous system, and Uranus activates and quickens our cells and atoms, like a particle accelerator, to mutate and awaken that which is required for the Soul's evolution held within the DNA.

At present, all of the Transpersonal Planets, Pluto, in Aquarius, Neptune, in Aries and Uranus in Gemini have moved into their new Zodiacal positions, along with Saturn, also now in Aries, and we, on Planet Earth, are learning to adapt and to acclimatise to these increased energetic impulses as they flow through our subtle auric field into our endocrine system.

This New Moon in the Constellation of Leo holds the impulse and essence of the **1st Ray of Divine Will and Power** and the **5th Ray of Concrete Knowledge**, whilst the Stellar Light of the Sun, the ruler of Leo, flows with the **2nd Ray of Love and Wisdom**, informing, and over lighting, both the Leo Personality and the Soul embodied individual. The Sun is also the primary focus and centre for the Life Force on the Monadic level – so all three levels, Body, Soul and Monad become aligned in Leo when fused within the **2nd Ray of Love and Wisdom**.

The Leo personality has a natural inclination to shine and to lead, however, the Fires of Leo act as a purifying element, assisted by both Pluto and Vulcan - 1st Ray Planets of radical transformation – in stripping away any hubris, and pride which may be influencing the personality.

These two planets, like Shiva, destroy anything that stands in the way of the evolutionary Plan, be it an individual or, a whole strata of entrenched belief and ideology, if they are not in alignment with Divine Will.

Souls who incarnated between 1939-1957 all have Pluto in Leo and have been on a life-long mission, consciously, or unconsciously to transmute the lower levels of personal focus and need into an awareness of our collective interdependence and our Soul's desire to be of Service, for the benefit of all, reflecting the humanitarian ideals of the Aquarian Age.

Over eons of time as we pass through cycles within cycles, as the Solar, Galactic and Universal Fields revolve and evolve, we are being impelled to remember that through the unfolding and evolution of our consciousness, we are an expression and extension of these Cycles of Universal Creativity and right now our purpose is to be heart open, receptive, balanced, and an anchor and a Way Shower at this time of change.

Just two days after this New Leo Moon, the Lion's Gate Portal will open us into greater proximity with the resonance and Light of the Universal Field, as the cycle of the Earth around the Sun, aligns with Sirius and the Orion Belt, through July 26th to August 12th, reaching its zenith on the 8th of August. Once again we are within this heightened period of intensified Pure Light, in which old fear-based beliefs are being stripped away, so that we might, as a collective, reveal the Soul quality of Universal, Unconditional Love.

Chart for the Leo New Moon 2025

The New Moon 24th July 2025 20:11 pm BST London UK

<https://www.timeanddate.com/moon/phases/>

For the last several months, Pluto ♇ on Gene Key 41 has been playing a central role at the time of the New Moons and here, once again Pluto is pivotal to the energetic pattern that is being held in the Cosmos for this New Moon.

Pluto brings an intensification and focus to all that it touches and here it is conjunct the Earth ⊕ opposite to the Sun ☉ and Moon ☾ as they flow out to all the other Cosmic bodies held within the Six-Pointed Star through various trines (120°) and sextiles (60°).

This is a New Moon that holds the blueprint for immense transformation, for bringing things to the surface, both internally and externally to create fundamental change. If we look at each of the Keys that the planetary pattern is holding we will get an insight into the interior transformation that is seeking to manifest as well as the potential outer experiences. For we are at a point in time and space when the past is returning to us to be integrated and realigned as Gaia spirals into higher resonance.

The Sun and Moon are on Gene Key 31, known as ***Sounding your Truth***, moving through the Shadow of ***Arrogance*** to the Gift of ***Leadership*** to the Siddhi of ***Humility***.

Sounding your Truth is not just about words that are spoken, it equally has to do with standing in the Presence of your Being, when the coherence of your field comes into Harmony, and Peace, to assist all.

*'At the Shadow level of frequency, we are limited by our thoughts and language. **We are 'programmed' by the language and thoughts that we have inherited.** These thoughts and language keep us confined within a narrow spectrum of intellect and understanding of what our true potentials are.'*

*'At the Shadow frequency humans think, speak and act as if they were separate from Nature, rather than being an organ of it. Real Arrogance comes from being cut off from our Divine Source, for words that are not rooted in a profound sense of wonder are always at some level arrogant. **To be arrogant is to act without realising that there are consequences for there are Cosmic Laws – Karmic Laws.** The 31st Gift, like all the Gifts, represents a huge step beyond the intellect and into the heart. It is the heart that separates the Shadow frequencies from the Gift frequencies, and in our current stage of evolution the heart is the hottest frequency there is.'*

*'The 31st Gift still carries an agenda, but this agenda is to help people out of the narrow mental confines of their own conditioning. Because the 31st Gift has its finger on the pulse of the collective patterns of humanity, it can have enormous influence over large numbers of people. **Certain human beings operating out of the 31st Gift can literally become the voice of the collective.***

*'Humility is not for the faint-hearted. It is therefore ironic that Humility is a word that has come to be associated with people of a saintly or virtuous manner. **But Humility has nothing to do with behaviour. Because the 31st Siddhi is truly humble, it has no agenda.** It does not matter what such a person does in life. They are content to leave the world exactly as it is.'*

*'Nonetheless such a person still carries the same genetic coding that requires they speak from the cutting edge of consciousness. The 31st Siddhi is rooted in the ancient tradition of the Oracle. **The Oracle is simply a voice box for the Divine.***

'The 31st Gene Key is part of the Codon Ring of No Return which refers to the great initiation from the 4th Causal Body into the 5th Buddhic Body. Once this leap of consciousness has been made, there is no possibility of return because your identity or ego will be erased.'

*'Once you have allowed the Siddhic frequency to command your voice, you have entered the first stage of Divine embodiment. **From this moment forwards, whenever you use the word I, it is the voice of Divinity itself speaking.** Such speech is pure transmission. It uses words to indicate the path beyond words.'*

The Earth is on Gene Key 41, and has come to join Pluto which has been activating this key for several months now - known as **The Prime Emanation**, it is motivating us to move through the Shadow of **Fantasy** to the Gift of **Anticipation** and ultimately to the Siddhi of **Emanation**.

*'The 41st Gene Key houses a truly remarkable archetype. **It has a very important function – it relates to what is known in genetics as the start codon.** At the Shadow level the 41st Gene Key centres around the issue of Fantasy and dreams – it is like holding the key to your dreams in your hands, but never turning the lock. **The evolutionary pressure that surges up in human beings carries our entire genetic history within it, all the way from the amoeba to Homo Sapien.***

*'The 41st Shadow represents the pressure to evolve to seek out new fields and new experiences. This evolutionary impulse is the secret to the 41st Gift – the Gift of Anticipation. **The more the frequency of your DNA rises you become more and more sensitive to the hidden properties in the world around you, in particular, linking into the morphogenetic field that communicates specific information across time and space.***

'The 41st Gift gives the gift of premonition or Anticipation which links to its partner the 31st Gift of Leadership. The greatest leaders are those who build upon the past whilst anticipating what is to

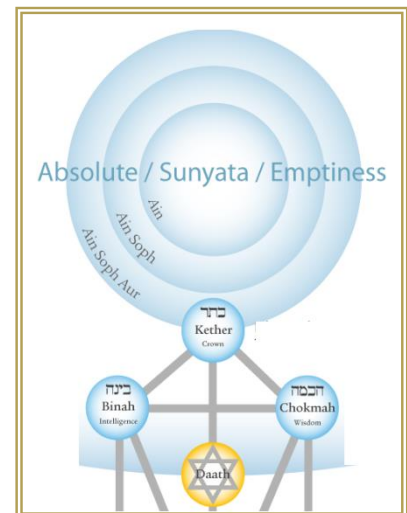

come. **The 41st Gift has a single genetic agenda it is always attuned to the next evolutionary energetic grid that is waiting to descend into form.** When you are able to maintain a high frequency through this 41st Gift you will be able to literally download all manner of beautiful things from the morphogenetic field.'

'Every start codon inside every single cell is electromagnetically linked to each other. **This is the foundation of the holographic body which in turn is linked to the holographic Universe.** The 41st Gene Key is the key to seeing that the physical body can equally be seen as a holographic mirror of the Universe.'

'As the Source of Being the 41st Siddhi is the Siddhi of Emanation. **Emanation is a word that has been used by many ancient metaphysical and mystical systems as a means for understanding something that is really unapproachable.'**

'One of the best known of these systems is perhaps the Kabbalah, whose central tenet is a map known as the Doctrine of Emanation. **In a nutshell the Doctrine of Emanation points towards a fractal model of the Universe in which everything is a mirror image of itself.'**

'The Cabbalists used the symbol of ten spheres or sephira, one emanating from another, to represent the various levels of Spirit descending into matter. **The ultimate Source known as the Ain Soph, represents the unnameable, inconceivable, limitless Light from which all emanates.** The Source has been given so many names by so many traditions as man has tried to understand it.'

'**What is fascinating about the 41st Siddhi is that it is the Source underlying all true Siddhic states.** No matter what manifestation comes through our genetics, they are all ultimately grounded through this Siddhi that is not a Siddhi. In many ways, this is the nameless Siddhi, but we call it Emanation because we have no other way of approaching it.'

'There is another interesting point that emerges from deep contemplation of this Gene Key. **Somewhere deep within your DNA lies a code whose sole purpose is to trigger the state we call Enlightenment.** In certain vehicles, the body picks up a specific set of secret genetic instructions and triggers the neurological process of enlightenment. It may come as a shock to many mystical seekers that this process cannot be triggered by what we do up on the surface. **Within the hologram of the Universe, Enlightenment is a spontaneous acausal non-event.** You could say that Grace triggers this process but the point is that no one knows why or when or to whom it will happen.'

Gene Keys, 31 and 41 along with the four Cosmic bodies, of the Sun, Moon, Earth and Pluto are the pivotal keystone from which all else unfolds for this New Moon. Key 31 speaks of how our programmed minds keep us held within a limitation of conditioned thought, whilst Gene Key 41 holds the Start Codon which ushers in the potential to move us out of lifetimes of repeating patterns of restriction. With Pluto so aligned to the Earth at this time the sense of intensity and transformation is likely to increase, and with Sedna[♂] and Uranus[♂] conjunct it suggests the quickening and breaking up of old recycled patterns that have been created over these last 11,4000 years giving access to the higher codes and frequencies of our DNA.

Sedna and Uranus remain, as for last month, on Gene Key 20, known as **The Sacred Om** moving through the Shadow of **Superficiality** to the Gift of **Self-Assurance** to **Presence**.

'**The 20th Shadow concerns how deeply consciousness incarnates into a human form.** In the case of the 20th Shadow very little consciousness can express itself at all, so that we see a very watered down reflection of life's real potential coming through human beings operating at this frequency.'

‘This aspect of the DNA is very ancient. The 20th Gene Key and its Shadow were developed in species that preceded human beings – primarily in the world of insects. Looking at insects we can see how incredibly busy they always seem to be – their only focus is to stay alive and to reproduce within a short time frame.’

‘There is a blind activity occurring and like the insects, at a Shadow level, human busyness lacks real presence. With the development of the neo cortex we began to think.’

‘A strange thing happens when we think – we leave the present moment. The illusion occurs because the mind can only think in a linear fashion. This is the trade-off of the incredible abilities of the mind – for all its genius it is limited to thinking within the domain of a false reality called Time.’

‘With Self-Assurance comes a profound surrender to life in every moment. As you begin to accept that life has its own plans and flow, you also begin to stop interfering with the process at a mental level. This Gift is in fact the precursor to a higher state of spiritual awareness.’

‘Your Self-Assurance is directly equivalent to your ability to escape being a victim of your mind. As you begin to learn the knack, you experience the subtle expansion of a meditative awareness – an ability to witness your mind without being caught up in it.’

‘An internal spaciousness grows and you no longer have to try to control life. What actually occurs with this Gift is that the awareness within your solar plexus begins to take over from your mind, opening the way for you to connect into a very powerful Universal power.’

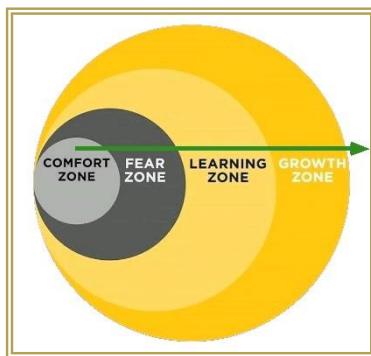

‘The true Siddhic state is one of complete relaxation. As you release deeper and deeper levels of tension, the high frequencies of The Presence force you to sigh until your body comes into a state of great ease. **Thoughts are irrelevant – there is nothing to say that is not superficial – for nothing is felt but the Presence itself.** When this occurs, the whole world created by the human mind is suddenly seen as utterly superficial. **The smallest thing such as a leaf or stone is understood to have more Life within it than all the greatest ideas of man.** When this Siddhi has flowered in a person it actually creates a subtle atmosphere around itself – a kind of silent ease that pervades the aura of the person and radiates out to all Creation.’

‘Mythically the 20th Siddhi is represented by the notion of the Breath of God, or the Word of God. Presence is the underlying nature of Being. In fact, it would actually be truer to name this Siddhi, The Presence, since the use of the definite article gives us the distinct impression that this is a state of consciousness that has nothing to do with any individual. **It is the manifestation of The Presence through a human vehicle.’**

Saturn♄ and Neptune♆ remain on **Gene Key 25** known as **The Myth of the Sacred Wound**, moving through the Shadow of **Constriction** to the Gift of **Acceptance** to the Siddhi of **Universal Love**.

‘There are certain Gene Keys which occupy a central seat in the genetic code and story of evolution, and the 25th Gene Key is one of those. It is a hub Gene Key. You might say it is the hub Gene Key. Its theme is love – it is also about the lack of love. Constriction exists wherever love is absent and it is the underlying source of all human suffering.’

‘Constriction is the physical manifestation of fear at an individual and Universal level. Constriction was felt by our ancestors as they struggled from their births to their deaths - a Sacred Wound that is wound around the very helix of all human DNA.’

*'As we learn to face our wounds our journey becomes clearer and easier- we begin to walk the path from fear to love and through Acceptance, the wound begins to unwind and another higher destiny opens before us. **Because this 25th Gift represents the portal to the true nature of the Universe as Love, it has incredible relevance for all human beings.***

*'Acceptance is based on taking the soft approach to life. In order to accept something about yourself, and especially something uncomfortable, it first must be recognised. **This kind of Acceptance takes place when you build up the courage to look into your own Shadow.** The only way to transform the Shadow is to have the courage to simply feel the fear.'*

*'The 25th Gift makes it difficult to hold any resentment, judgement or indeed worry about life – for now you are carrying the Seed of Love. You will walk through life with an air of another world about you, whilst at the same time being deeply grounded and open to others. **When you can finally accept everything in your life just as it is right now you will have embraced the human wound.***

*'The 25th Siddhi is a special Siddhi, whether it happens to be within your hologenetic profile or not. **Every Gene Key exists inside each of us and the 25th Gene Key is the primary archetype of Love.** The 25th Siddhi is Love itself as the Source of All, and in this sense, it can be called Universal Love.'*

*'All that Love locked away in our DNA. The DNA is just filtering it through the memory – the ancestral memory. **It is the embracing of the collective wound.** The 25th Siddhi is also one of the Seven Sacred Seals a mystical group of Gene Keys whose collective role is to heal the Sacred Wound within humanity. **The 25th Gene Siddhi is the 3rd Seal, and it heals the human wound of shame.***

*'The Sacred Wound that hides within each human being can be understood at three levels of consciousness – at the Shadow frequency, the wound maintains human suffering, at the Gift frequency the wound provokes humanity to evolve, and **at the Siddhic frequency the wound reveals humanity's true nature as an Expression of Universal Love***

*'Those Beings who have attained realisation through this 25th Siddhi become, in some form, legends. Whether Buddha or the Christ – the aura of such a person shines like a light down the centuries and is felt within the bloodlines of all future generations. **Every time someone attains the 25th Siddhi a great genetic Constriction is removed throughout Humanity.** The bodies of these people have undergone a radical transformation in order to be the receiver or chalice for pure consciousness.'*

As shared last month Saturn and Neptune in Aries have the potential to manifest the high frequencies of Agape Love, for this is the purpose of Life - to become an instrument of Pure Consciousness cleansed of old subconscious personal and collective entanglements and memories, that have been passed on from generation to generation. To be both a receiver and a transmitter of the Pure Light and Love of Source/Universal Consciousness and equally to realise our innate interconnection with Gaia, the Elemental Kingdoms and Nature.

The fifth point of the Star is held by a Cosmic body, far out in the Kuiper Belt. It is only in recent times, that we have consciously become aware of the Kuiper Belt and the Trans Neptunian bodies which we are now integrating into our awareness. Ceto has a close connection with Neptune, and water, but as a primal energy she refers to the earliest manifestations of Life and to the deep Feminine prior to the Patriarchal Age.

In Ancient Greek tradition, passed down through millennia, Ceto was the daughter of Gaia (Earth) and Pontus (Sea) and was a primordial Sea Goddess. Like Sedna, from the Inuit tradition, Ceto's domain is the deep, ocean and the creatures within the oceans, described by the Ancient Greeks as monsters. As such Ceto links to the deepest primal, subconscious imprints and ancient memories that are lurking within the collective group consciousness seeking release and transformation to bring back balance.

So where, as a Collective, are we radically out of balance – what is this Trans Neptunian body seeking to awaken from out of the shadows and bring to the surface so that we may come into a greater harmony?

Ceto, is activating Gene Key 14, known as **Radiating Prosperity**, moving through the Shadow of **Compromise** to the Gift of **Competence** to the Siddhi of **Bounteousness**.

*'In the I Ching, the 14th Hexagram is called **Possession in Great Measure** - a symbol of wealth, health and prosperity, which are themes linked to good fortune as well as to hard work.'*

'The I Ching hexagram is made up of 6 lines

- a combination of Yin and Yang – the unbroken lines depict the Yang, masculine, principle and the broken lines depict the Yin feminine principles.'

'When we look at this 14th Gene Key hexagram it has five Yang lines which makes it appear very Yang very masculine. In a way it is, but with one big difference; the Yin feminine line is in the most powerful position in the hexagram, the fifth line, which traditionally is the ruler of the hexagram.'

*'So here in the 14th Gene Key we see a huge creative force with the guidance of the deep feminine. This is the key to material success. **This is about a wealth generating force that is guided by an ideal of nobility, sensitivity and service.***

*'This is Possession in Great Measure and that is the definition of Love. **He or she who loves unconditionally generates, like the Sun, huge inner wealth and radiance.** Competence creates a powerful magnetic field and those who have the 14th Gift strongly activated in their hologenetic profile are often the driving force that can implement a particular vision or idea.'*

*'At the Siddhic level of consciousness, energy is transmitted through the individual via the medium of the morphogenetic field. **Morphogenetic fields are energetic grids that connect all creatures and particles of matter at a sub-atomic level.** The 14th Siddhi is the core archetype of your power as an individual. **It is the Siddhi of Bounteousness – the ultimate legacy of what it means to be a human.'***

*'When the 14th Siddhi flowers within a human being they become a driving force for humanity itself. Their every thought word and deed reaches deep into the morphogenetic field and guides the whole of humanity towards abundance. **The mass dawning of the 14th Siddhi would be the uniting of Heaven and Earth.** Not just a Golden Age, but a permanent state in which all humans take the helm together – a state in which individual power and collective power become one and the same – creating more and more abundance. **At this level, we need to view humanity as one large expanding genetic spiritual vehicle. That is the true definition of Bounteousness.'***

The final point of the Star is held by Thereus, a Centaur. Thereus orbits within the Asteroid Belt, out to Neptune and back to Jupiter, every 34 years, bringing ancient imprints back into our 3D consciousness. All of the Centaurs hold powerful primal energy, collective karmic patterns, and memories - in many ways they are the clearing house and messengers of earlier times.

Nothing is random in this Universe, there is a synchronicity to our discovering the Asteroid Belt and the Kuiper Belt, which occurred because sufficient Souls had raised their Consciousness to a frequency that would no longer require having to keep endlessly repeating shadow patterns that damage and destroy – rather they would transmute the negative entanglements to release the immense gifts that are held deep within each one of us. This is the *'Fork in the Road'* in which we are all participating and Thereus on Gene Key 46 gives an insight to the Shadow pattern and how we may best transmute these energetics, as we move through the Shadow of **Seriousness** to the Gift of **Delight** to the Siddhi of **Ecstasy**.

‘Seriousness takes you away from life and love and into issues of control and separation. The 46th Gene Key governs your relationship to your physical body. It is part of the codon group known as the Ring of Matter which programs the developmental process of incarnation from conception to the age of 21.’

‘The 46th Gene Key relates to your first seven-year cycle in which all your Shadow patterns are hotwired into your physical structure – your posture, your breathing patterns and your relationship to the physical world through touch.’

ROOT	0-7 years	Survival, primal needs, security, worthiness
SACRAL	8-14 years	Creativity, emotions, expression, sexuality
SOLAR	15-21 years	Empowerment, boundaries, confidence
HEART	22-28 years	Love, compassion, forgiveness, peace
THROAT	29-35 years	Truth, communication, self-expression
THIRD EYE	36-42 years	Intuition, wisdom, awareness
CROWN	43-49 years	Consciousness, spiritual connection

‘During the first seven years of a child’s life certain genes are switched on or off according to the environment they are in. When the child learns through their physical aura that life is safe and loving their body relaxes into its natural internal rhythm. At the Shadow level there is no trust in life. We can’t breathe with that Constriction. To forget our eternal nature is to take on a deep level of Constriction.’

‘There is a path out of pain. Seriousness is all about attachment. The deeper we are in the Maya, the illusion, the more attached and constricted we are. We can loosen our attachments beginning with our mind and its beliefs and opinions.’

‘The 46th Gift is the Gift of Delight. It is what happens when we discover the secret – that our acts, thoughts and words really do have an impact that returns to us. The 46th Gift is a great Gift of Love and lives through the heart.’

‘Delight comes only with a beginner’s mind, a certain innocence. When we have realised the truth of the principles of karma everything becomes simpler. There is a stage where the negativity of the Shadow has to be challenged inside us. It has to be transcended and replaced.’

‘To court Ecstasy, we have to become contemplative, we have to slow down. We have to pause so that we come once again into communion with the Elements, nature and each other.’

‘The new paradigm coming into the world is one of fusion, of the melding of Heaven and Earth, of the spiritual and the material. For the Great Change, to impact the whole of humanity the spirit must become human. This is what the Siddhi of Ecstasy is.’

‘People who manifest this Siddhi cannot go unnoticed in the world. The Love that swirls around them is so tangible that it can even be felt by people of the densest frequency. It is not that this 46th Siddhi is any more powerful than any other Siddhi, but that this manifestation of Divine consciousness is so close to the physical realm and it emerges through the physical body. Matter is penetrated completely by the Spirit.’

‘Such men and women – the ecstatics – have not always found it necessary to remove themselves from the world but have found their love within the world of ordinary life. Ecstasy comes in waves, in orgasms that travel through the Universal quantum field in which we live. The more people who experience such orgasmic energy coming through their higher bodies the more our planet will be transformed.’

Right now, all of us on Planet Earth are going through an immense transformation and initiation – we are being asked to open in Acceptance, Love and Surrender to all that has occurred through Time, so as to receive the Pure Light of Transformation that is flowing into Form.

To assist and understand the timing and the potential of this New Moon, you will see that the North and South Nodes ♏ along with Mars♂ are making a 'T Square' to Venus♀. The North and South Nodes refer to the unfolding of karmic timing – the North Node to that which is waiting to manifest and the South Node ♏ to the integration of the past so that the highest potentials, that we, as a collective consciousness, can attain are revealed.

The South Node and Mars are on Gene Key 47 known as **Transmuting the Past** moving through the Shadow of **Oppression** to the Gift of **Transmutation** to the Siddhi of **Transfiguration**.

'The 47th Shadow is the storehouse of human karma. What we term as karma really refers to memory, but not memory as we commonly understand the term. This is genetic memory carried in our blood from our ancestral lineage. **In genetics the 47th Shadow refers to what is called non-coding DNA or 'junk' DNA.'** **'The fact is that every human being carries the entire evolutionary memory of humanity within their body and is unconsciously driven by this memory. The 47th Shadow is an access portal through which these deep memories/fears flow into our waking consciousness.** This is why the ancient Chinese named this hexagram Oppression, because such fears become major burdens in our life if we do not face them directly.'

'It is through the Gift of Transmutation that the true purpose of your hidden genetic programming - the junk DNA – is finally revealed. Geneticists know that all life evolves through the process known as mutation. **Beneath what the left-brain scientists misread as chaos hides one of the great secrets of creation.** Until particle physics came into being, the word Transmutation was associated entirely with the ancient science of alchemy.'

'One might say therefore that mutation is a process of gradual change. When a human being faces his or her own Shadows, they open the door to the process of Transmutation. The alchemical process of Transmutation consists of an endless series of small mutations leading to a finite number of transmutations. **These Transmutations are huge turning points in your life.** To transmute is to make a quantum leap into a whole new dimension.'

'Our whole frequency begins to move into another realm. The intensity remains, but our life becomes at the same time softer, quieter and our effort begins to drop away. The Transfiguration actually begins at the higher reaches of the gift frequency, as our aura enter the state of absorption. What is occurring is that our genetic memory is being cleansed, purged, expunged.'

'As it falls away, a new being emerges in its midst and our karma becomes so purified that our biochemistry goes through some radical alchemical changes. Combinations of hormones are synthesised in our brain stem that were never possible before. They were waiting for the right genetic environmental signals. **Now the DNA can release those signals because the frequency of Light that is hitting its coding catalyses them.'**

*'The elements that make up your body were made in stars and you turn back into a star in your own mini supernova. **This is the Unio Mystica or Sacred Marriage** in which all your constituent elements dissolve back into one another and out of your base matter symbolic gold is formed.'*

*'**Humanity stands upon the threshold of one of its great Transmutations.** As a species we are moving through the symbolic time of our crucifixion and crucifixion precedes Transfiguration. **Our crucifixion means everything that is old must leave the world as a new Light emerges.** As each individual faces, embraces and transmutes the collective fear that lies within the heart of every human's DNA **we are Transfigured by Divine Grace – accessing the Divinity that lies within each and every one of us.'***

And the North Node, which is seeking to manifest, at this karmic time, through Gene Key 22, is known as **Grace Under Pressure** moving through the Shadow of **Dishonour** to the Gift of **Graciousness** to the Siddhi of **Grace**.

*'**From the point of view of the 22nd Gene Key every feeling mood or thought you have is put there directly by God for you to trust in it.** You do not have to act the energetic out, you can work to internally transmute, heal and integrate the resonance, but in subduing it or denying it you are Dishonouring and distrusting the feeling resonance.'*

*'Whenever you project negative emotional power at another you Dishonour both yourself and the other person. **One of the great Cosmic Laws is the Law of Divine Memory.'***

'This Law states that all thoughts feelings and acts are recorded everywhere within the body of the Universe.'

*'**The 22nd Gene Key relates to the Seventh Seal and is special.** It describes the process of Awakening as the direct intervention of Divinity coming down into your body.'*

*'**With the Gift of Graciousness you begin to disperse your own Karma and that of your ancestral DNA.** The Gift of Graciousness might also be called the Gift of the Soul.'*

*'**Above all else this is the Gift of living life from a place of deep Love.** It is a transformational field in which we are steadily refined, and it is all because we learn to stop dishonouring ourselves at the very deepest level.'*

*'Grace needs to be treated with the utmost respect. **As you see from the 22nd Shadow, there is nowhere you can hide in this Universe.** Everything is heard and recorded. Neither can you hide from Grace. **Grace is your true nature. It is your inheritance. It is the Soul of the World.** It is also a state that is beyond the Laws of our world.'*

*'**Grace is the breath of the Divine.** Grace is a Presence that descends on humanity and, like all the Siddhis, it requires that we meet it halfway, which for us humans may seem a long way. **This is after all a perfected state in which everything about you and your life will be changed permanently.** When true Grace descends it wipes out all your past karma in a flash. **It also wipes out the Karma of all your ancestors and all their ancestors.'***

*'If Grace touches you, you no longer have your own destiny but become a musical instrument played by the Cosmos. **With Grace all human emotion is instantly transformed into Love.** As a feminine Spirit, Grace calls upon each of us to listen and receive her message and blessings. Above all, remember this: **Through Grace, the Universe has but one single wish – for you to remember that you are Love and there is nothing in you but Love.'***

And Venus, which is so pivotal at this time as the focal point of the North and South Nodes, is on Gene Key 12 known as **A Pure Heart** evolving through the Shadow of **Vanity** to the Gift of **Discrimination** to the Siddhi of **Purity**.

*'The 12th Gene Key along with the 56th and 33rd is related to what science terms the stop or terminator codons. **Within the mystery of the 21 Codon Rings, this 12th Gene Key forms a ring of its own, within the Ring of Trials, known as the Ring of Secrets.** However, its secrets remain firmly locked away until you activate its highest frequency in the 12th Siddhi.'*

*'To discriminate is to know inherently what and who is healthy for you in life. Where Vanity is about only loving yourself, Discrimination is about loving the things and people outside yourself that are healthy for you. **Whenever there is self-identification, there is Vanity.** Vanity is elusive in that it goes beyond words and is hidden in silence as thoughts and feelings.'*

'Vanity, like pride, follows us to the mountain peaks of consciousness. If you are strongly influenced by this Gift you will recognize the beauty of true expression, which means that you will also recognise when something or someone is not expressing true Soul.'

*'The 12th Gift is about feelings. **Wherever you see true passion moving into the world, there you are seeing the influence of this 12th Gift.** It is both sweeping and consuming yet at the same time highly refined. Ultimately these people are driven by the myth of true love.'*

'The 12th Gift contains the teachings of transformation and death – the movement from one level of consciousness to another. Of all the Gene Keys this 12th Gift represents the mythic passage from one state to a higher state in which the stop codon kills your identification with your past, allowing you to be transformed; through tears and laughter, the transcendent enters your body and alters your chemistry leaving you radically and permanently altered.'

'The human yearning for true love is in reality a lower frequency of a permanent state existing at a higher level of consciousness. This state, called many names by many cultures, is essentially your pure nature, untarnished by human desire and beyond the dualistic mechanism of the mind. Only the higher mind, which is another expression for our heart, can begin to understand true Purity, the 12th Siddhi.'

*'With Vanity, your lower self falls in love with itself and with Purity, the Higher Self falls in Love with itself. **You might say that Purity is when the Divine falls in Love with You.** Your behaviour, your thoughts your feelings, the very air you breathe must resonate to one purpose – falling in Love with the Beloved. **The Beloved is the Essence of your true Nature.'***

'Everything in the Universe has at its core the same original Purity – we are all shards of a Divine crystal and as our forms go through their processes of polishing, so consciousness begins to remember itself through us.'

'Even the most evil of beings has at its core a shining pure heart which means that in truth, there is no evil – just progressive levels of density.'

*'In the ancient alchemical systems, the throat centre was seen as the greatest of all initiations. All the lower chakras including the heart are synthesised and purified in the throat. **In this respect, it represents the boundary of the known and unknown.** It is the abyss or Daath of the Kabbalah.'*

*'The Being who has passed through the abyss and entered the sphere of the 12th Siddhi becomes once again like a child. It is the ultimate purification in which you meet your own death and are reborn in a higher sphere – into the Sphere of Divine Love. **Purity is the very heart of Divine Love, the Soul of Existence.** You are so pure that it is not possible for you to exist as anything other than existence itself. **In crossing the great Cosmic Throat Centre you are swallowed by Life itself.'***

This is a moment in time in which the patterning of the planets, at the time of this New Moon, speaks clearly of a seeding, a realignment and an energetic streaming that is occurring, within and without, as both the Stop and Start Codons are being activated through the impulses that are flooding onto the Earth,

enfolding us in the Light of Transformation. Whether these realignments occur in the outer world, or in the inner, this is a time of fundamental change.

Deep within our dormant DNA lies vast potential that seeks remembrance and expression through the **Emanation of Presence**, held within each one of us, before 'Time' began, as we return full circle, back to the Radiant Light of Source, uniting Spirit and Matter, Heaven and Earth in **Humility, Purity** and **Universal Love** as the Divine Feminine, the Heart and Soul of Life, resurfaces into our collective consciousness.

All Love and Blessings
