

Cosmic Overview

Libran New Moon 2025

*Order is the very Essence of the Cosmos.
Only when man has ordered his life will he
realise the Eternal Order.*

'I AM' the Light that Moves to Rest

This month the New Moon takes place on the 21st of October at 28° Libra 21, following on from the Full Moon partial Solar Eclipse which took place on the 7th or 8th of September, along with the Equinox on the 22nd or the 23rd of September, depending on where you live.

So, as we enter into Libran energies we are in the process of integrating all that has been transpiring through these intensified 'Double Virgo Moon' weeks, which began on the 23rd of August, as the upgrading and realigning of our subtle energetic systems, within the etheric field, continues to unfold.

And this month, as social media has shared, the unfolding contains an unknown quantity as 3I Atlas, an interstellar body is passing through our Solar system, close to Mars, as this is being written, and 'closest' to the Sun on 29th of October.

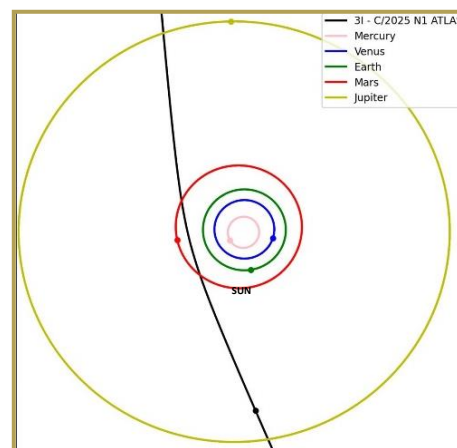

Closest, in this context, from a physical perspective, seems a bit of a misnomer, as 3I Atlas will be some 170,000,000 miles from the Sun at its closest point, yet from a metaphysical or quantum level, where all is interconnected and there is no such thing as 'space/time/distance' then 3I Atlas, which is said to be a comet created from the 'left overs' of another Star, in our Galaxy, is bringing in an ancient primordial energy, from deepest space, that will, on the subtlest levels, impact our Solar System, and indeed life on Earth, as comets have always been considered harbingers of change,

Comets come into the Solar System and then create an orbital path around our Sun taking different times to make an orbit – Haley's comet for example takes some 76 years, however, astronomers have said that 3I Atlas will not create an orbital path around the Sun, but will disappear once again into deep space, so Atlas it seems, in reality, is not a Comet, as such, but is an Intergalactic Stellar messenger.

Come what may, this one-off visit of 3I Atlas carries an Essence, that goes back to the beginnings of time, and it is no coincidence that as Atlas penetrates our Solar System, Uranus and Sedna are together at the start of Gemini. Gemini, ruled by planet Mercury, is associated with communication, logical thought processes (based on duality), which have become our inherited 'go to' mental beliefs and patterns.

Uranus connects to our Higher Mind, to our neocortex operating at optimum levels, when aligned with the Heart, and Sedna links to the brain stem, that carries the imprints of our journey through time and space. So, these two different aspects of our brain seem to have the potential to be brought into a synthesis, a balance, a reuniting of innate potentials, held within our DNA, that have been submerged within our dualistic thinking, that are waiting to come on stream, when we dive into the deep Silence of 'no mind', or pure Cosmic Consciousness.

We are entering a time when we have the potential to witness Life through the *Eyes of a Child*, rectifying misinterpretations, misunderstandings, and miasmas, that have encased us through eons of time, as we open ourselves in Innocence and Peace, to the awe and wonder that is held within the Universe that waits to manifest within and through the Heart of each one of us.

The secret of genius is to carry the Spirit of the child into old age.

Once again we see a very clearly defined Yod or 'Finger of God' (green dotted line) underpinning the planetary pattern. A Yod has been playing out since 23rd of August focussed on the Saturn ♄Neptune ♆conjunction and this month it continues with the Sun ☉ and Moon ☾ on Gene Key 50, which is where Mars ♂ was on the 21st of September at the time of the last New Moon. Last month the *Finger of God* was activating Saturn and Neptune, Uranus ♅ and Sedna ♁ all held within a Six-Pointed Star. However, this month the Yod is housed within a Grand Cross which gives an added momentum, focus and intent to the message that the Cosmos is reflecting to us.

We are passing through a time of immense change – a time of restructuring and renewal as our energetic systems are being refined and upgraded in Light, as we choose to consciously engage with, and come into alignment with the 50th Key of **Cosmic Order** which evolves the Shadow of **Corruption** to the Gift of **Equilibrium** to the Siddhi of **Harmony**.

'The 50th Gene Key is rooted in the Siddhi of Harmony and has to do with the patterns of Celestial harmony woven into all forms and realms. At the Shadow frequency, data that is processed by the human brain is translated through the medium of fear. As this occurs the data is corrupted, leading to a slanted manifestation in the world.'

'The Corruption is wound around our DNA and it is our karmic legacy. We all come here with karma, with ancestral baggage, genetic patterns that corrupt the true pattern of our nature. Fear causes misinterpretation, leading to reaction and counter-reaction – resulting in Chaos, the 3rd Shadow and programming partner of this 50th Shadow.'

‘The 50th Gene Key and programming partner, the 3rd Gene Key, are intimately connected in the cellular health of each of us – the 3rd Gene Key governs individual cell mutation and the 50th Gene Key holds the genetic blueprint for Equilibrium and wellbeing.’

*‘As we align ourselves with higher frequencies and learn to balance our emotions, use our mind creatively and our physical body wisely, so our DNA attunes us to a deeper Harmony that lies behind the world that our senses can see. The inner world, the spiritual world lies beyond the five senses. **Here in the 50th Gift is found the inner fulcrum upon which balances the quality of our cells, our lives and our future possibility for world peace.**’*

*‘To pick up its frequencies we have to develop what the Buddhists call equanimity – such a wonderful word. It means two things – to see from a higher view and to rest in the middle. **That is the challenge of the Gift and contemplation constantly brings us back to the higher view.** That view allows us to stay in the centre and become more anchored in our core stability, no matter what life throws at us.’*

‘Even shock has the capacity to lift us with Grace to another level of consciousness. As our equanimity, our Equilibrium becomes stable, we become unshakeable. We become truly peaceful and our life opens up to a higher reality, a harmony that lies hidden from view but is communicated continuously to us from every cell within our DNA.’

‘As this Harmony expands inside us, we begin to function through our higher bodies. Most of us only know our lower vehicles of the physical, emotional and mental bodies. We think that is all we are, but our higher trinity – the Causal, Buddhic, and Atmic bodies are our hidden instrumentation – they are our spiritual antennae. As we attune to the higher Harmony, so all our subtle bodies come into Harmony. The inner Light that they emit is communicated through resonance through our lower vehicles and we experience transformation. At the Siddhic level all imbalances within the subtle bodies must be destroyed in order that the cauldron of the physical body can become a vacuum.’

‘This is Harmony – a vibrational code that brings all elements within any system into perfect and permanent resonance. When this occurs within the DNA of a human being the body becomes a deep resonant chamber for the highest Universal frequencies and when the 50th Siddhi begins to break through in human beings an all-powerful current of Harmony begins to shower the people with whom they are allied. Deep and hidden issues are brought to light in order that social Equilibrium can occur.’

‘The 50th Siddhi brings awareness to our role within the hologram of the Cosmos. Every, planet, star, creature and blade of grass has a corresponding place within us. The entire Cosmos is reflected in us. As Above So Below. We become the ocean in the drop. We become everything and nothing.’

‘Through the 50th Gene Key humanity is destined to arrive at Cosmic Harmony, although such a concept will require a sustained period of Equilibrium before the scales finally activate the higher Harmony. We know this higher Harmony as Oneness with God.’

The Sun and Moon are opposite to the Earth ⊕ on Gene Key 3 and to Chiron ♄ and Eris ♀ on Gene Key 42 forming a Yod with Saturn and Neptune and Uranus and Sedna.

Gene Key 3 is known as ***Through the Eyes of a Child*** moving through the Shadow of ***Chaos*** to the Gift of ***Innovation*** to the Siddhi of ***Innocence***.

Right now as we look out onto the World you might describe the uncertainty, change and unpredictability as Chaos, but within this energetic field, if you can loosen the grip on clinging onto the past and perceived ‘safety’ and ***allow the environment to mutate you, the greatest magic is revealed to you, that in Chaos, there is, and always has been, a vast underlying transformative order.***

'The 3rd Shadow lies at the core of all our beliefs that the human individual is basically powerless in comparison to nature or the infinite. This 'separation' consciousness creates Chaos by resisting the very changes that are required in order to survive and thrive.'

'Innovation implies co-operation by its very nature. The path of Innovation broadly means to improve something through the introduction of a new element or elements. In other words, life itself is designed to transcend its own initial programming and discover new and higher forms of consciousness. Beyond selfishness and chaos lies co-operation and Innovation.'

'Innovation is far more exciting than simply being creative. It implies that you have permanently escaped the fear-based perspective of the Shadow frequency. Innovation thrives on optimism, although this is not the kind of optimism that is built upon hope. True optimism is the dynamic energy at the heart of creation. Through the 3rd Gift you begin to tap into the higher aspects within your DNA. It is not that the DNA itself changes, but the frequency passing through it activates its hidden programming.'

'The 3rd Gift also teaches us something wonderful about synthesis, which has to do with another often-overlooked human gift – the gift of play. When seen through the eyes of the 3rd Shadow children appear to create nothing but Chaos, but to the higher eyes of the 3rd Gift, a child is the living expression of genius. The child both mutates its environment (as any parent knows) but is also mutated by its environment.'

'The Gift of Innovation requires then that adults also allow themselves to be shaped by the environment. This means that they must be as open-hearted and open-minded as a child. All preconceived notions, dogmas, or beliefs must be discarded when they no longer serve the developing synthesis. As the 3rd Siddhi comes into the world, which it will do very shortly, a great remembering of our Innocence will emerge in humanity because the first vessels of the new human destiny will be the children.'

'The strange thing about these children is that the consciousness within them will never grow up and become serious. Their awareness will function in an entirely new and different way from our current brain-centred awareness. Their brain will be the environment itself – it will be inside every human being, creature, plant, stone and star.'

'We cannot yet imagine that kind of Cosmic consciousness, but it will soon come pouring into the world like a great breaking wave. The human brain was not designed to grasp insights as profound as these. The certainty of order within the Universe is a feeling that can only be captured by a more advanced system of awareness in human beings that our mystics have called by many names.'

'Above all it is equated with the human heart and the feeling of Love and Unity that lies between all creatures...the feeling of pure Love itself, which is the omnicentric manifestation of your eternal state of Innocence.'

So how are we being assisted to come into this clear field free of distortion and old imprinting? Both Chiron and Eris are recent additions to our conscious awareness - Chiron came into our awareness in 1977 and Eris in 2005 – as such you might say they are ***'the introduction of a new element or elements...to discover new and higher forms of consciousness.'***

Chiron has a high vibrational, Christos, frequency that encourages us to uncover and heal all that obscures the Truth and the Light of our Being, and Eris, named after the Greek Goddess of Discord and Strife, activates and intensifies the distortion of fear, when we have become lost and confused, separated from our true core Centre and Source. This combination of confusion, and potential healing, requires that we

mature sufficiently to move beyond dualistic thinking, understanding the chaos that we create when in misalignment, through fearful thoughts and feelings, and no longer project these energies out into, the morphogenetic field.

These two Cosmic Bodies are a clarion call for the time that we are passing through. When Chiron was discovered in 1977 it was on Gene Key 27 moving from the Shadow of **Selfishness** to the Gift of **Altruism** to the Siddhi of **Selflessness** which is the evolutionary energetic impulse over lighting Chiron's 50-year orbital cycle around the Sun, which will complete in 2027.

Dwarf Planet Eris, out beyond the Kuiper Belt, when discovered in 2005, was on Gene Key 51 moving through the Shadow of **Agitation** to the Gift of **Initiative** to the Siddhi of **Awakening**. Then in 2010 Eris moved onto Gene Key 42, known as **Letting Go of Living and Dying**, moving through the Shadow of **Expectation** to the Gift of **Detachment** to the Siddhi of **Celebration**, where she will remain until 2033.

These twenty-three years mark a fundamental evolutionary shift in human consciousness, which is being accelerated right now, as Chiron and Eris have both been closely aligned in Aries since April 2023, on this Gene Key – Gene Key 42. This year they were exactly conjunct in the middle of May, and they are now exactly conjunct again as I write this review, and will finally come together once more in March 2026 before Chiron moves on, in January 2027.

So, over these next months, these two Celestial Bodies, are creating a very direct Cosmic Mirror, as our inner state of individual and collective consciousness is directly reflected back to us – depending upon how, and what we engage with.

As we let go of our instinctive, fearful, mental reactions and come into inner peace and stillness, Eris out beyond the Kuiper Belt, and Chiron, as a messenger of higher Dimensional energy, lead us into a place of empowerment. We have the potential to move into the higher frequencies, contained within our DNA, as we let go of inherited fears - and Gene Key 42, links to one of the most entrenched fears in the human psyche.

'The 42nd Shadow is actually one of the Shadows at the source of all human mental fear because the 42nd Shadow concerns death. The notion of time and our response or reaction to its passing is rooted profoundly in this key. It links to the seventh-year cellular regeneration cycle in that every seven years something must die for the new cycle to begin.'

'The Eastern cultures have a huge advantage over the West because most of them have figured out the secrets of incarnation and reincarnation. It is a part of their culture and this makes a huge difference to the drama. Without this key insight we can really suffer more.'

'Imagine for a moment your body without any fears. We can close our eyes for a moment and conjure up what that might feel like, what that blissfulness feels like. We can touch the ecstatic realms where the mind lets go and thinking comes to an end.'

'And when thoughts do come, they are the thoughts of God so they only engender more bliss. We become like a child again and life becomes Heaven on Earth.'

'The 42nd Siddhi is about the transcendence of death. These are the sages who teach humanity about the illusion of death. They do not teach us through knowledge but through their attitude. This is a state beyond Detachment.'

'The 42nd Gene Key is one of six Siddhis (3,20,23,24, 27 and 42) in the Codon Ring of Life and Death. The 3rd Siddhi of Innocence brings the Eternal Child the 'puer eternis' Adam and Eve naked in the Garden. The 24th Siddhi brings Silence, not a deathly silence, but the silence of Light and Illumination. It is

the Silence of Quintessence, of reaching the heart of hearts, which is the 23rd Siddhi. It also brings vast caring for everything, the kind of love that is selfless and unconditional, the 27th Siddhi.'

'Finally, this Codon Ring brings the 20th Siddhi, pure Presence, a resting in the Eternal Now. When we discover this, we realise that we are Eternal and cannot die. The body may die, but the indwelling Quintessence can never die.'

'The body may even not die, because when we break down the illusion, all manner of things become possible within the field of Celebration. The cells of the body can be transfigured back into their Quintessence and literally cause us to ascend.'

Looking now at Sedna and Uranus, they remain, as for last month, on Gene Key 20, known as **The Sacred Om** moving through the Shadow of **Superficiality** to the Gift of **Self-Assurance** to the Siddhi of **Presence**. Uranus will remain on this key for the next few weeks before retrograding back to Gene Key 8 for a time, but Sedna will remain activating Gene Key 20, just like Eris, until finally leaving in 2033.

As shared in previous months, Sedna comes into her closest point to our Solar System, every 11,400 years to clear the patterning in the morphogenetic field and to raise it to the highest level for its next 11,400 year cycle. So, this particular Gene Key is really relevant, a focus point for our on-going journey, through time and space, both individually and collectively, as this Key holds the potential for a major evolutionary shift of Shadow energies as Eris and Sedna work together through these next years, in perfect Cosmic Order.

'We spend a great deal of our time living in the Shadow. Only at times do we pause to enjoy the Sun. But this is normal. It is the way of things. Evolution comes in its own time. The chop of this 20th hexagram - its shape - is like a tower or an arch. In ancient China these towers were all across the landscape and they are a symbol for gaining a higher view of the realm. The arch also suggests an opening, an invitation to move from one space into another - and that is what this Gene Key does - it calls us from within, to enter a higher path, a path of awareness.'

'The 20th Gene Key and its Shadow were developed in species that preceded human beings - primarily in the world of insects. Looking at insects, we see how incredibly busy they always seem to be - there is a blind activity occurring and like insects, at a Shadow level, human busyness lacks real presence. With the development of the neo cortex we began to think and a strange thing happens when we think - we leave the present moment. This occurs because the mind can only think in a linear fashion, in a false reality called Time.'

'With Self-Assurance comes a profound surrender to life in every moment. As you begin to accept that life has its own plans and flow, you also begin to stop interfering with the process at a mental level. What actually occurs with this Gift is that the awareness within your solar plexus begins to take over from your mind, opening the way for you to connect into a very powerful Universal power.'

'As you begin to learn the knack, you experience the subtle expansion of a meditative awareness. An internal spaciousness grows and you no longer have to try to control life.'

'The true Siddhic state is one of complete relaxation. Thoughts are irrelevant - there is nothing to say that is not superficial - for nothing is felt but the Presence itself. The whole world created by the human mind is suddenly seen as utterly superficial.'

'When this Siddhi has flowered in a person it creates a subtle atmosphere around itself - a kind of silent ease that pervades the aura of the person and radiates out to all Creation. It is the Manifestation of The Presence through a human vehicle.'

And, Neptune and Saturn together form the final part of the **Finger of God**, with Saturn now being on Gene Key 36, as it retrogrades back until January 2026 when it will once again join with Neptune on Gene Key 25, prior to their exact conjunction at 0° Aries in February 2026.

Saturn on Gene Key 36, known as **Becoming Human** moves through the Shadow of **Turbulence** to the Gift of **Humanity** to the Siddhi of **Compassion**.

*‘Turbulence can be physical, emotional and mental. **More often than not it is all three.** When watching the news or listening to the media this is pretty much all we see, the turbulent collective field of our planetary Shadow frequency, however...’*

*‘The potential suffering that exists on account of this Gene Key, is part of a genetic family known as the **Ring of Divinity**. This is a beautiful revelation, as each of the four Shadows of the Ring of Divinity, Dishonour GK22, Turbulence GK36, Weakness GK37 and Doubt GK63, has the potential to awaken the highest consciousness inside you. **This codon group in many respects is deeply connected to the true meaning of Christ Consciousness.**’*

*‘The Gift of Humanity truly understands emotions and consequently understands all people. **This is a Gift that can only be earned.** These are people who have looked deeply into their own Shadows and who have grappled with the challenges of their sexuality and emotions.’*

*‘As a living transmission, the 36th Gift carries a great teaching into the world – the celebration of **Humanity**. This Gift contains a natural spirituality – it is one of the most grounded of all the Gene Keys. **It is a bridge for the higher bodies of humanity to move down into the lower planes and transform them.**’*

*‘The deepest role of the 36th Gene Key is to help humans to become humane - it is their courage and deep acceptance of the life process that eventually gives rise to the highest of human expressions – the expression of **Compassion**.’*

*‘Those in whom this Siddhi has awakened tend to keep moving into those areas of life where the light is most darkened. **The simple presence of such people and the look in their eyes can trigger all manner of so-called miracles in those whom they meet.** These are the most heart-melting people ever to walk the face of the earth. Wherever they go, the true frequency latent within human suffering is immediately released and Compassion tears open people’s chests and explodes inside their hearts.’*

*‘Even the darkest of natures can be instantaneously brought to tears through the presence of this 36th Siddhi. At the Siddhic level your own suffering becomes so Universalised that it encompasses all humanity. **All boundaries of the self dissolve.**’*

Neptune remaining on Gene Key 25, is again pivotal in the cleansing of the misaligned energetic patterns that have been handed down to us all over generations - known as the **Myth of the Sacred Wound**, it moves through the Shadow of **Constriction** to the Gift of **Acceptance** to the Siddhi of **Universal Love**.

*‘There are certain Gene Keys which occupy a central seat in the genetic code and story of evolution, and the 25th Gene Key is one of those. **It is a hub Gene Key.** Constriction exists wherever love is absent and it is the underlying source of all human suffering.’*

*‘Pure fear is simply a collective thought form that hangs like a fog across the world. Constriction was felt by our ancestors as they struggled from their births to their deaths - a **Sacred Wound that is wound around the very helix of all human DNA.**’*

*'As we learn to face our wounds our journey becomes clearer and easier- we begin to walk the path from fear to love, and through Acceptance, the wound begins to unwind and another higher destiny opens before us. **Because this 25th Gift represents the portal to the true nature of the Universe as Love, it has incredible relevance for all human beings.'***

*'Acceptance is based on taking the soft approach to life. In order to accept something about yourself, and especially something uncomfortable, it first must be recognised. **This kind of Acceptance takes place when you build up the courage to look into your own Shadow.** The only way to transform the Shadow is to have the courage to simply feel the fear.'*

*'The 25th Gift makes it difficult to hold any resentment, judgement or indeed worry about life – for now you are carrying the Seed of Love. You will walk through life with an air of another world about you, whilst at the same time being deeply grounded and open to others. **When you can finally accept everything in your life just as it is right now you will have embraced the human wound.** The 25th Gene Key is the primary archetype of Love. **The 25th Siddhi is Love itself as the Source of All, and in this sense, it can be called Universal Love.'***

*'The 25th Siddhi is also one of the Seven Sacred Seals a mystical group of Gene Keys whose collective role is to heal the Sacred Wound within humanity. **The 25th Gene Siddhi is the 3rd Seal, and it heals the human wound of shame.** Every time someone attains the 25th Siddhi a great genetic Constriction is removed throughout Humanity. **The bodies of these people have undergone a radical transformation in order to be the receiver or chalice for pure consciousness.'***

And Pluto, creating an aspect of the Grand Cross, has moved back onto Gene Key 60 until early December, before Gene Key 41 is again activated through till the end of December 2027. Gene Key 60, known as **The Cracking of the Vessel**, moves through **Limitation** to **Realism** to **Justice**, connecting us into Galactic Consciousness, via the 1st Ray of Divine Will, bringing a powerfully transformative Plutonian focus to the key, as the energetic, impulse flows down through the Cosmos into the subtle etheric liquid Light of our DNA.

*'This Shadow of Limitation represents one of the most potent forces responsible for pulling humankind in the opposite direction of evolution. It is the counterweight of Life itself – the main reason for the death of magic is closed-circuit thinking, where the mind follows familiar patterns or systems of thought around and around without the ability to think beyond them. **As we begin to see that we're more than we allow ourselves to often believe, then that frequency, that vibration of possibility, begins to activate something inside us.** It is communicated to our DNA and we begin to open. **There is great capacity for magic in this Gene Key which may sound odd as it is called the Gift of Realism.'***

*'However, the only thing needed for magic to occur is some form of a structure and an open mind! **Common sense/Realism is not in opposition to magic.** It is common sense to remain open-minded to everything in the Universe because everything has at its core the same wondrous inner Light'*

*'Justice is not about retribution, it is a reward. It is given as Grace, not taken as punishment, and when it is given, freedom flows from it. **It is not an imposition or a limitation.** The 60th Siddhi holds an apt description of what happens when a human being becomes fully realised.'*

'At a certain point, our hearts open to our true Innocence and we begin to unlock other codes in our DNA that are ancestral rather than personal and we begin to transmute more global karma.'

*'Every time a being attains enlightenment through the 60th Siddhi, magic comes pouring through this Being and they become a phenomenon, a symbol of the breaking of form – **Masters who have attained the Body of Light.'***

The final aspect creating the Grand Cross, has Jupiter, the planet of expansion and Spiritual growth, on Gene Key 62, known as **The Language of Light** evolving us through the Shadow of **Intellect** to the Gift of **Precision** to the Siddhi of **Impeccability**.

'Intelligence is of the Heart, whereas intellect is of the mind. The human intellectual capacity to read, write and speak is both our greatest blessing and our greatest curse. Problems arise when we identify our lives with our thoughts, which we have been pre-programmed with throughout our upbringing. **Until we are able to step outside of this mental framework we are controlled by our language, thoughts and belief patterns.'**

'Precision happens when natural intelligence strikes a balance between the heart and the mind, but with one caveat, that the heart, the feminine principle, is given control over life. The masculine principle, the intellect, then moves into service of the feminine principle, which is about intuition, listening and receiving rather than thinking, expressing and transmitting.'

'As the Gift of Precision grows stronger it may seem as though the world gradually begins to come alive again. Intelligence recognises intelligence and with the mind out of the way the invisible essence that connects all beings is once again felt.'

'The 62nd Gene Key is genetically coupled with the 31st Gene Key forming the codon known as the Ring of No Return. This mystical name describes the evolutionary process that takes place when higher consciousness reaches the throat centre. **The throat centre is where the greatest human initiation occurs.** Once the higher involutory currents begin to use our voice to transmit their truths, you begin a process of detaching from your own identity.'

'The 62nd Gene Key allows access to the Universal Language of Light behind all forms. There is a deep magic woven into language – words become much more precise - as your language becomes purer you expose your heart to the world. Words spoken from Love are deeply healing. **This is why there is no return once you begin to speak your truth – you have broken away from the lower realms forevermore.'**

'The word Impeccable is often misunderstood when used in reference to true Masters. The most common mistake we make is to believe that one who manifests the Siddhi state must now behave in some kind of holy way. **However, Impeccability, simply means exempt from doing sin.** Pure consciousness is at play within the being, so whatever they say or do is beyond reproach.'

'The 62nd Siddhi concerns the use of language at a level beyond our ken. Every word has its frequency and vibration and the order and tone of your diction creates a certain aura. **At the Siddhic level words do not come via the mind anymore – they are not thoughts that become words. They emerge directly from the void, naked and pure.'**

'There is a Cosmometry behind life that choreographs all actions. The closer you come to full awakening the more harmoniously your life flows within this Cosmometry. When you finally merge into the ocean of consciousness you achieve complete oneness with the Divine.'

'Divine Cosmometry is the language of perfection. It is the manifestation of Impeccability in which your every movement and breath becomes an emanation of the Pure Light. **You have entered into the Language of Light – the Impeccable Beauty of Being.'**

And finally, before closing this Review, you will see below, that synchronistically, at the time of the New Moon, Mercury, ♀ which is the planet of communication, and Mars, ♂ which is the planet of personal will, are together in the sky, making a Grand Trine to Jupiter, Saturn and Neptune, strengthening the message and the relevance of how we choose to communicate. They are both at 20° Scorpio on Gene Key 43, known as **Breakthrough**, moving through the Shadow **Deafness** to the Gift of **Insight** to the Siddhi of **Epiphany**.

‘There is a natural process built into the lives of human beings – survival, service, and surrender. What is common to each of these three stages is the transformation process itself. At each level, it occurs in sudden leaps. We tend to move through long periods in which it appears that little about us alters and then suddenly, every now and again an experience or event occurs which utterly changes our lives.’

‘It is through the 43rd Gift that the spirit of the rebel is born. Every human being is born to be a rebel in the sense of filling a space in the world that cannot be duplicated by another. Without the spontaneous, the unexpected, we could not evolve. The rebel awakening through the 43rd Gift is immensely creative – he or she simply cuts a new pathway without worrying about where it is going. This is the deafness of genius – to simply be the conduit for creative insight.’

‘In Japanese culture one of the keywords for Insight is satori which implies a breakthrough from within. It is only when you trust your inner core that the breakthrough comes from deep within your cells. In this way your awareness turns inward without losing any of its worldliness, making you unique but integrated, profound yet accessible.’

‘As the human rebellious spirit comes alive your DNA attunes to higher and more refined frequencies. The 43rd and 34th Gene Keys are bonded in the ‘Ring of Destiny’. The secret of this codon ring is timing and through the ages, it has whispered a great truth into the ears of those whose insight is developed enough to hear it – life is a mystery in which chance and love dance together.’

‘When you Love totally, unconditionally, even chance is shown to be an illusion and the underlying Cosmic geometry is revealed behind all things. It is only then that your timing becomes perfect and that which appears to be random is understood as an aspect of the holographic Universe unfolding its myth through your Life.’

‘The 43rd Siddhi is one of the seven Gene Keys that provides a portal for Grace to move into the world of form. The 43rd Siddhi represents the opening of the 4th Seal which releases the profound human fear of rejection and opens the hearts of all individuals. This Siddhi has a powerful destiny – to create mass breakthroughs across entire gene pools – ultimately the Epiphany is an explosion in the human heart, an openness and acceptance of others and a Divine spirit of friendliness that is at the core of all human beings.’

‘With the 43rd Siddhi the only thing you know is that you know absolutely nothing. This knowing is so delightful to you that you will simply never be able to contain the wonder and beauty of it. You become deaf to everything but the Divine!’

We have yet to discover the seeding, and impregnation of Essence, that 3I Atlas will have upon our Solar System, but you can see that 2027 and 2033 are to be major turning points for us all, so over these upcoming weeks, months and years, may we learn to come into a still place, to quieten our minds, to look out onto Life from an inner **Harmony** and **Innocence**, where **Grace** will reveal the **Presence**, housed deep within each one of us, expressing in **Cosmic Order** as **Universal Love, Compassion and Celebration**.

All Love and Blessings
