

# Cosmic Overview

## Sagittarius New Moon 2025

*At the centre of the Universe dwells the Great Spirit.  
And that centre is everywhere - it is in each of us.*

Black Elk - Lakota Wisdom Keeper

*To the mind that is still, the whole Universe surrenders.  
Empty your mind of thoughts. Let your heart be at peace.  
Returning to the Source is serenity.*

Lao Tzu

## 'I AM' Directed Focussed Light

The New Moon will take place at 28° Sagittarius 24, on the 19<sup>th</sup> or 20<sup>th</sup> of December, depending upon where you are living.

As we come to the close of 2025 it would perhaps be helpful to have a review of what has been occurring over these last months.

In January 2025 the Lunar Nodes moved into Pisces Virgo where they remain until July 2026. The nodal points mark the collective karmic themes that are playing out and evolving. The Pisces Virgo resonance brings a Spiritual dimension into the collective awareness – a time of turning inwards, for inner growth, healing and realigning, to move beyond just a physical reality and perception of Life.

This has been and is a time of clearing any illusions and sense of victimhood and powerlessness that hangs like a mist in the collective field, stepping into accountability for our creations – into Sovereignty.

Saturn and Neptune will come together on the 20<sup>th</sup> of February 2026 at 0° Aries, beginning a new 36 year cycle, which marks a powerful reset in the collective consciousness. Saturn and Neptune echo the Nodal Points of Pisces Virgo in that structure and reality (Saturn) merge with dreams and spirituality (Neptune). This dynamic creates a powerful tension between idealism (Pisces) and practicality, (Virgo) within the individual (Aries) leading to both potential confusion and the opportunity to manifest long-held visions.

Since August 2025, assisting us all in this quantum leap of consciousness, the outer planets of Uranus, *Higher Mind*, Neptune, *Higher Heart* and Pluto, *Divine Will*, have been forming together in the sky as a Minor Grand Trine – which will continue until 2028. This harmonious over lighting of the Transpersonal Planets is bringing in higher frequencies and refinement into our auric bodies, and our subtle energetic system, as the background resonance moves us into higher states of awareness through 2026, 2027 and into 2028.

During December 31 Atlas is making its closest connection to Earth on the 19<sup>th</sup> when the Sun, as seen from Earth, will be at 27 Sagittarius, aligning Earth to the Galactic Centre when this Light will weave through the New Moon on the 20<sup>th</sup> to be anchored at the Solstice on the 21<sup>st</sup>.

Sagittarius flows with the **4<sup>th</sup> Ray of Harmony through Conflict**, the **5<sup>th</sup> Ray of Concrete Knowledge** and the **6<sup>th</sup> Ray of Devotion**, but at the Soul level, the Earth becomes the planetary energy that informs and rules Sagittarius, operating through the **3<sup>rd</sup> Ray of Active Intelligence**. This creates a subtle shift of energy where the intellect becomes more and more refined, resulting in clear intuitive knowing and perception. It is in this state of high resonance that Sagittarius can release a transformative impulse of Harmony through the **4<sup>th</sup> Ray**, bringing a resolution to internal conflict and duality, which is then reflected in the outer world.

As this awareness becomes more and more stabilised we identify and merge with higher Consciousness, no longer at the beck and call of the Astral Plane, and the ups and downs of duality, for the focus is now on consciously serving humanity as a fully embodied creative Being.

*Thoughts come and go - emotions come and go - find out what it is that remains.* Ramana Maharishi

# Chart for the Sagittarius New Moon December 2025

The New Moon 20<sup>th</sup> December 2025 01:42 am UT London UK  
<https://www.timeanddate.com/moon/phases/>

At the time of this New Moon you will see there are two T squares (red lines) and three Minor Grand Trines (blue lines). Firstly, the Uranus♅Neptune♆Pluto♇alignment, then there is Jupiter♃Uranus and Neptune, and finally Chiron♄Eris♅Venus♀Juno♃Sun☉Moon☾and Mars♂to Pallas Athena♃.

So, although these lines on the chart look fairly disjointed there is an inner cohesion occurring, for Minor Grand trines, unlike Grand Trines, which can remain quite static, require that action results from these flows of energy. This 'action' is also highlighted, and reinforced, by the energies of the two T Squares.

Certain patterns and beliefs in the psyche of humanity are being focussed on as Neptune remains on the same Gene Key supporting us to remember we are far more than the 'script' we believe ourselves to be.

Since March 2024, apart from three months at the end of 2024, Neptune has been activating Gene Key 25 before finally leaving in March 2027. Gene Key 25 known as the **Myth of the Sacred Wound**, moves through the Shadow of **Constriction** to the Gift of **Acceptance** to the Siddhi of **Universal Love** which is the state of consciousness that awaits us all when we awaken from the script.

*'The 25th Siddhi is one of the Seven Sacred Seals a mystical group of Gene Keys whose collective role is to heal the Sacred Wound within humanity. The 25th Gene Siddhi is the 3rd Seal, and it heals the human wound of shame. Every time someone attains the 25th Siddhi a great genetic Constriction is removed throughout Humanity. The bodies of these people have undergone a radical transformation in order to be the receiver or chalice for pure consciousness.'*

And Uranus, which has been primarily focussing on Gene Key 8, since May 2024, is activating the Light Codes within our DNA to move us beyond limiting inherited concepts and beliefs, to release any sense of the Shadows of **Mediocrity** and **Constriction**, for Gene Key 8, known as the **Diamond of the Self**, evolves to ultimately reveal the **Exquisiteness** which lies within the Heart of each one of us.

*'As an aspect of the genetic family known as the Ring of Water, the 8th Siddhi of Exquisiteness is chemically bonded to the 2<sup>nd</sup> Siddhi of Unity. These are the two great Feminine Gene Keys in the human genome drawing all human beings along their inevitable journey to self-realisation.'*

*'One of the great Mysteries of the 21 Codon Rings is found here. The Ring of Water forms a kind of eternal genetic knot with its polarity, the Ring of Fire. These two chemical families move us human beings along the trajectory of our destinies ensuring that our genetic material finds its opposite match.'*

*'Deep within the body these chemical families set the primal blueprint for the balance of all the opposing forces inside us. It is the crossfire of these two Codon Rings that the mystical figure of eight is forged within us. This eternal love knot deep within our planetary gene pool sets each man and each woman squarely on the human journey. The true symbolism of the number eight represents the timeless quest for the buried treasure that lies inside each of us – that elusive diamond of our true nature.'*

*'The 8th Siddhi of Exquisiteness is the natural revelation and manifestation of all the Siddhic states, for each Siddhi is holographic in the sense of being reflected within all other Siddhis. People of the 8th Siddhi are not leaders. They are examples. Exquisiteness is experienced when the Divine Essence begins to shine through the individual. In this state of Bliss you fall in love with your own pristine manifestation because it is through this uniqueness that the Divine currents can be accessed. This is the stage at which you achieve transcendence of your genetics.'*

Pluto is now on Gene Key 41 where it will remain until finally leaving in January 2029, having spent the last three years focussing primarily on Gene Key 60, in order to release any sense of **Limitation** that has been created by our minds, so that we might begin to embrace the Gift and Siddhi Consciousness, that is held in the morphogenetic field, waiting to be embodied through resonance and receptivity to the increased Light.

*'The 41st Gene Key houses a truly remarkable archetype. It has a very important function – it relates to what is known in genetics as the start codon. The more the frequency of your DNA rises you become more and more sensitive to the hidden properties in the world around you, in particular, linking into the morphogenetic field that communicates specific information across time and space.'*

*'The 41st Gift gives the gift of premonition or Anticipation which links to its partner the 31st Gift of Leadership. The greatest leaders are those who build upon the past whilst anticipating what is to come. The 41st Gift has a single genetic agenda – it is always attuned to the next evolutionary energetic grid that is waiting to descend into form. When you are able to maintain a high frequency through this 41st Gift you will be able to literally download all manner of beautiful things from the morphogenetic field.'*

*'Every start codon inside every single cell is electromagnetically linked to each other. This is the foundation of the holographic body which in turn is linked to the holographic Universe. The 41st Gene Key is the key to seeing that the physical body can equally be seen as a holographic mirror of the Universe.'*

*'As the Source of Being the 41st Siddhi is the Siddhi of Emanation. Emanation is a word that has been used by many ancient metaphysical and mystical systems as a means for understanding something that is really unapproachable. One of the best known of these systems is perhaps the Kabbalah, whose central tenet is a map known as the Doctrine of Emanation. In a nutshell the Doctrine of Emanation points towards a fractal model of the Universe in which everything is a mirror image of itself.'*

*'The Cabbalists used the symbol of ten spheres or sephira, one emanating from another, to represent the various levels of Spirit descending into matter. The ultimate source, known as the Ain Soph, represents the unnameable, inconceivable, limitless Light from which all emanates.'*

*'What is fascinating about the 41st Siddhi is that it is the Source underlying all true Siddhic states. No matter what manifestation comes through our genetics, they are all ultimately grounded through this Siddhi that is not a Siddhi. In many ways, this is the nameless Siddhi, but we call it Emanation because we have no other way of approaching it.'*

*'There is another interesting point that emerges from deep contemplation of this Gene Key. Somewhere deep within your DNA lies a code whose sole purpose is to trigger the state we call Enlightenment. In certain vehicles, the body picks up a specific set of secret genetic instructions and triggers the neurological process of enlightenment.'*

*'It may come as a shock to many mystical seekers that this process cannot be triggered by what we do up on the surface. Within the hologram of the Universe, Enlightenment is a spontaneous acausal non-event. You could say that Grace triggers this process but the point is that no one knows why or when or to whom it will happen. It is an Emanation that simply arises from an unknown Source.'*

Jupiter and Saturn, are currently held within these Minor Grand Trines, but they move more quickly through the Cosmos and as such do not remain on the same Keys for as long, but at present Jupiter, which is the Planet of expanded Consciousness is activating Gene Key 62, known as **The Language of Light** evolving us through the Shadow of **Intellect** to the Gift of **Precision** to the Siddhi of **Impeccability**.

*'Intelligence is of the Heart, whereas intellect is of the mind. The human intellectual capacity to read, write and speak is both our greatest blessing and our greatest curse. Problems arise when we identify our lives with our thoughts, which we have been pre-programmed with throughout our upbringing.'*

*'Until we are able to step outside of this mental framework we are controlled by our language, thoughts and belief patterns. Precision happens when natural intelligence strikes a balance between the heart and the mind, but with one caveat, that the heart, the feminine principle, is given control over life.'*

*'The 62nd Gene Key is genetically coupled with the 31st Gene Key forming the Codon known as the Ring of No Return. This mystical name describes the evolutionary process that takes place when higher consciousness reaches the throat centre. The throat centre is where the greatest human initiation occurs. Once the higher involutory currents begin to use our voice to transmit their truths, you begin a process of detaching from your own identity.'*

*'The 62nd Gene Key allows access to the Universal Language of Light behind all forms. Words spoken from Love are deeply healing. This is why there is no return once you begin to speak your truth – you have broken away from the lower realms forevermore.'*

*'The 62nd Siddhi concerns the use of language at a level beyond our ken. Every word has its frequency and vibration and the order and tone of your diction creates a certain aura. At the Siddhic level words do not come via the mind anymore – they are not thoughts that become words. They emerge directly from the void, naked and pure.'*

*'There is a Cosmometry behind life that choreographs all actions. The closer you come to full awakening the more harmoniously your life flows within this Cosmometry. When you finally merge into the ocean of consciousness you achieve complete Oneness with the Divine.'*

Saturn is the planet of manifestation, but equally the planet that seems to 'consolidate' any fears that lie within us until we face them. Saturn began activating Gene Key 36 in April this year and will remain on this Key until February 2026. Gene Key 36, known as **Becoming Human**, moves through the Shadow of **Turbulence** to the Gift of **Humanity** to the Siddhi of **Compassion**.

*'The Gift of Humanity truly understands emotions and consequently understands all people. **This is a Gift that can only be earned.** These are people who have looked deeply into their own Shadows and who have grappled with the challenges of their sexuality and emotions.'*

*'As a living transmission, the 36th Gift carries a great teaching into the world – the celebration of Humanity. This Gift contains a natural spirituality – it is one of the most grounded of all the Gene Keys. It is a bridge for the higher bodies of humanity to move down into the lower planes and transform them.'*

*'The deepest role of the 36th Gene Key is to help humans to become humane - it is their courage and deep acceptance of the life process that eventually gives rise to the highest of human expressions – the expression of Compassion.'*

*'Those in whom this Siddhi has awakened tend to keep moving into those areas of life where the light is most darkened. **The simple presence of such people and the look in their eyes can trigger all manner of so-called miracles in those whom they meet.** These are the most heart-melting people ever to walk the face of the earth. Wherever they go, the true frequency latent within human suffering is immediately released and Compassion tears open people's chests and explodes inside their hearts.'*

The third Minor Grand Trine has Chiron and Eris making a trine to Venus and Juno and a sextile to Pallas Athena. Eris far out in space began to connect with Gene Key 42 in August of 2004 and will finally leave this Key in 2032 – so a long time focussing on perhaps the deepest of fears that can become consolidated through Saturn. For Saturn in ancient times was known as Cronos the Keeper of Time and colloquially termed the 'Grim Reaper'. This 42<sup>nd</sup> Key known as **Letting Go of Living and Dying** moves through the Shadow of **Expectation** to the Gift of **Detachment** to the Siddhi of **Celebration**

*'The 42nd Shadow is actually one of the Shadows at the source of all human mental fear because the 42nd Shadow concerns death. The notion of time and our response or reaction to its passing is rooted profoundly in this key. **It links to the seventh-year cellular regeneration cycle in that every seven years something must die for the new cycle to begin.'***

*'Eastern cultures have a huge advantage over the West because most of them have figured out the secrets of incarnation and reincarnation. It is a part of their culture and this makes a huge difference to the drama. Without this key insight we can really suffer more.'*

*'Imagine for a moment your body without any fears. We can close our eyes for a moment and conjure up what that might feel like, what that blissfulness feels like. **We can touch the ecstatic realms where the mind lets go and thinking comes to an end.'***

*'And when thoughts do come, they are the thoughts of God so they only engender more bliss. **We become like a child again and life becomes Heaven on Earth.'***

*'The 42nd Siddhi is about the transcendence of death. These are the sages who teach humanity about the illusion of death. They do not teach us through knowledge but through their attitude. This is a state beyond Detachment.'*

**'The 42nd Gift of Detachment births the process of letting go of control over your life, physically, mentally, and emotionally. It is a wonderful letting go that travels deeper and deeper into your DNA as you gradually allow your Expectations of life to fall into the background. There is a great understanding and freedom that comes to every human being who surrenders deeply enough to their life. The Gift of Detachment represents the separating out process between the emotions and the mind and it takes place naturally as the frequency rises within the cells.'**

**'The 42nd Gene Key is one of six Siddhis (3,20,23,24, 27 and 42) in the Codon Ring of Life and Death. The 3rd Siddhi of Innocence brings the Eternal Child the 'puer eternis' Adam and Eve naked in the Garden.**

**The 24th Siddhi brings Silence, not a deathly silence, but the Silence of Light and Illumination. It is the Silence of Quintessence, of reaching the heart of hearts, which is the 23rd Siddhi. It also brings vast caring for everything, the kind of love that is selfless and unconditional, the 27th Siddhi.'**

**'Finally, this Codon Ring brings the 20th Siddhi, pure Presence, a resting in the Eternal Now. When we discover this, we realise that we are Eternal and cannot die. The body may die, but the indwelling Quintessence can never die. The body may even not die, because when we break down the illusion, all manner of things become possible within the field of Celebration. The cells of the body can be transfigured back into their Quintessence and literally cause us to ascend.'**

Pallas Athena on Gene Key 49 is evolving us through the Shadow of **Reaction** to the Gift of **Revolution** to the Siddhi of **Rebirth**. As Chiron is currently aspecting Pallas we have the potential to utilise this time to go within and heal our 'scripts' and 'projections' and in doing so to **Change the World from the Inside**.

**'The 49th Shadow of Reaction is one of the most powerful of all the 64 Shadows in terms of how it governs human behaviour. Unless there is some glimmer of awareness in this Shadow your raw emotions will absolutely rule your life and the decisions that shape your life.**

**'As the higher frequencies penetrate the 49th Shadow we will move through a time of unprecedented change and upheaval. This is the Gift of Revolution. The 49th Shadow will be the first aspect of the human Shadow to mutate right down to the genetic level. The implications of this are huge as fewer and fewer humans are victims of their emotional reactions, violence will rapidly decrease in the world. One also has to consider the environmental impact of this mutation occurring across all cultures. Men and women of peace are infiltrating all races more than ever before. This Revolution is worldwide.'**

**'The 49th Siddhi represents a huge leap in consciousness because it engenders a state of mystical divorce. There is a deep chemical connection between the 55th Siddhi and the 49th Siddhi, together they create the Rebirth of Freedom.**

**The 49th Siddhi conceals an archetype that appears to be a part of all human evolution – that of Rebirth. The very bedrock of our society is founded upon a species that has always made decisions rooted in fear. The only way for a new future to be created is to begin from scratch.'**

**'Once in a while along the evolutionary chain a new species is born out of the old species – like the mythical phoenix – it has nothing in common with its parent. It rises up out of the genetic material of the old and takes a whole new direction.'**

**'Every human being who has ever arrived at true enlightenment has experienced such a Rebirth. The Siddhic State requires both a mystical and genetic divorce from that which came before. Because you are reading these words, you are potentially one of these early flowerings. Is that not a beautiful thing to ponder?'**

Venus and Juno on Gene Key 11, as part of this Minor Grand trine, are also linking into the T square that is aligning with the Sun Moon and Earth at the time of this New Moon. Gene Key 11 known as the **Light of Eden** moves through the Shadow of **Obscurity** to the Gift of **Idealism** to the Siddhi of **Light**.

*'The 11th Shadow greatly limits a very specific functioning of the right hemisphere of the human brain – that aspect of the mind that does not see facts through language and number but grasps reality through intuition from the deep recesses of the brain.'*

*'The 11th Gift is one of the great keys of our present age. The more people can be encouraged to play with the imagery and creative power coming from the right hemisphere of the brain the healthier the world will become. **This Gene Key allows us to use the creative imagery of the right brain to create true magic in the world.** In the world of the 11th Gift, everything is a symbol of the endless pattern of great archetypes moving from the formless into form.'*

*'As we humans begin to think once again with our right brains, so we will bring much needed balance to the world of form. In accessing and honouring the gifts of the Divine Feminine and in balancing the left and right hemispheres of our brain we will once again re-awaken true harmony on Earth.'*

*'The 11th Siddhi has confused many people seeking the Light that this Siddhi promises. However, no one who attains this Siddhi does so except through travelling the darkest aspects of their psyches. **For the being that attains the 11th Siddhi, Light is everything.** If they become teachers, which is likely given their understanding of the mind, they continually reflect their own Light but at the same time guide others into their own darkness.'*

*'Through the 11th Siddhi, you will see the true nature of mind as emptiness or spaciousness and that mind, or no mind, is experienced through the brain as pure Light. It represents the transcendence of duality. As long as we see things in terms of good and evil we have embraced the fall.'*

*'In the future, the 11th Siddhi will crack open our perception of the world so that we may access the purified Light that is the Mind and Body of the Divine. The 11th Gene Key geometrically relates to the Galactic Centre. **It is through this Gene Key that the Galactic Light emerges that will trigger our DNA to release its Inner Light and catalyse the Siddhic states in many people.** This will also exponentially increase the frequency field of the whole of humanity.'*

The Sun Moon and Mars are conjunct to Venus and Juno, and are activating Gene Key 10 known as **Being at Ease** which moves through the Shadow of **Self-Obsession** to the Gift of **Naturalness** to the Siddhi of **Being**.

*'The Gift of Naturalness is a gift that waits within every single human being. It is the centre of your being and only through this centre can you express your own creative uniqueness. The life of every individual human being is a journey through the frequencies of this 10th Gene Key. **To be natural means to be yourself.** We are all trying to be who we are, but many of us have been conditioned to be other than who we are.'*

*'At the Gift level of frequency, there is a huge releasing of energy through your being and out into your life as all attempts at defining who you are begin to subside. The usual manifestation of this energy is an intense creativity coupled with a new sense of playfulness.'*

*'The 10<sup>th</sup> Gift of Naturalness can only dawn when Self-Obsession exhausts itself. The journey from Self Obsession to Naturalness passes through five phases. **The first great revelation that comes from the journey into your own unique nature is that you cannot be defined by any kind of a label.'***

*'Once you understand that you are neither your name, nor your actions, feelings, thoughts or beliefs, you realise that human nature is something far greater and wider than you ever suspected.'*

*'The second phase of becoming natural tends to be a deep inner questioning and questing in which you isolate yourself in some sense from your previous responsibilities and give time and space to understanding your own nature more. For most people this phase lasts a long time, falling in love with an endless quest for self-knowledge.'*

*The Gift of Naturalness is a softening of our edges, it is a great allowing, a great place of defencelessness*

*'The third phase marks a huge transition point in your life which can also be very challenging as you let go off all constructs with which you may have identified and from which you derived security.'*

*'Fortunately, this third phase swiftly becomes consolidated and integrated into your being and you enter a new dimension in which you become more and more relaxed.'*

*'The fourth phase is something like a rebirth as you externalise what is truly inside you for the first time in your life. It is a time of deep joyousness and purpose and it is only as you find this sense of relaxedness that you begin once again to feel truly natural.'*

*'The fifth phase of the process of becoming yourself manifests as the flowering of your differentiated individuated self.'*

**'The 10<sup>th</sup> Gene Key belongs to a chemical family known as the Ring of Humanity which includes the 10<sup>th</sup>, 17<sup>th</sup>, 21<sup>st</sup>, 25<sup>th</sup> 38<sup>th</sup> and 51<sup>st</sup> Gene Keys.** As one of the most complex Codon groups, this chemical family holds the keys to the great mythic story lines from all cultures. **These keys encapsulate all the mythic elements of what it means to be a human being.** Wounded from the outset (25) you must do battle with your shadows (38) overcome the limitations of your mind (17) surrender your need to control life (21) and find your true Self (10) before you can awaken (51).'

*'When the differentiated self has manifested its highest expression in the world through the 10<sup>th</sup> Gift, one final surprise awaits. There is a sixth phase to the process of becoming yourself that brings an end to the whole notion of self-knowledge.'*

*'At this Siddhic level everything dissolves – the only word that even gives a hint of what the 10<sup>th</sup> Siddhi holds is the word Being. In the expressions of the mystical traditions, this is sometimes known as the I Am consciousness, although the very use of the word I can be misleading. In the 10<sup>th</sup> Siddhi there is no sense of I – there is only pure consciousness expressed as Being.'*

The Earth on Gene Key 15, known as **An Eternally Flowering Self**, moves through **Dullness to Magnetism to Floresence.**

*'The 15th Gene Key is the key aspect of a complex set of genetic blueprints in human beings known as The Ring of Seeking. It is this codon in your genome that initiates your evolutionary journey from being unaware of your true nature to your eventual awakening as an expression of Divine form.'*

*'Magnetism is a frequency that moves far more slowly than most human beings are used to, especially in the modern world. One of the greatest challenges for modern humanity is to learn how to slow down. Trusting the natural ebb and flow of life's currents, the people embodying the Gift live closely with the Earth's natural rhythm and experience the wisdom and clarity of slowing down.'*

*'The 15th Gene Key is a powerful portal into life's mysteries. It is one of the Gene Keys that bridges humans with other life forms and in doing so it connects us profoundly to the living spirit of nature or Gaia. The 15th Gift represents the inner barometer within your DNA to the Schumann Resonance – the Earth's heartbeat.'*

*'The Gift of Magnetism makes a person physically glow with life force - it is a Gift filled with enthusiasm and openness and Love. There is a subtle shift in attitude that unlocks the hidden magnetic force in your DNA.'*

**'Harnessing the power of the natural world and magnetizing resource you begin to unlock the power in your aura to transmit and receive information between different life forms. Eventually as the frequency of your aura comes into perfect resonance it interlocks with the Earth Grid and your consciousness expands exponentially, becoming one with Gaia herself.'**

Time moves uniquely for all Life  
on Mother Earth.  
She has never been in a hurry.  
The power of Gaia  
is the power of greenness

Gene Key 15

**'Florescence is the ultimate flowering of your higher self.** Florescence cannot be chased, hurried or enforced. It is a state that occurs to humans sporadically, no one can predict if or when it will occur to a particular person.'

**'However, when it does arise that person is surrounded by light, magic and a tangibly magnetic aura. As the zenith of human magnetism, Florescence manifests like a supernova through the human aura and once begun it keeps expanding and expanding into deeper and deeper dimensions.'**

**'Florescence depends upon nothing. It cannot be created - not by meditation, good karma or by any form of effort, not even by effortlessness. Florescence is Grace.** This experience of Grace ends all seeking. It is an experience that is too spontaneous, too unpredictable and too wild for the mind to manage or control - it follows Nature's own organic rhythm. **When you come into perfect alignment with Gaia, then, in the words of Christ, you mystically Inherit the Earth.'**

Looking now at the second T Square you will see that Mercury is 90° away from both the North and South Nodal Points. So again the focus is upon our intellect, communication, and thought processes – to see whether we express ourselves consciously or unconsciously, discovering how our inner dialogue affects our outer lives and equally our Central Nervous System. Mercury is on Gene Key 9 known as the **Power of the Infinitesimal** moving through the Shadow of **Inertia** to the Gift of **Determination** to the Siddhi of **Invincibility**.

**'We are not here on Earth to have our dreams clipped, or tamed - we are here to make magic happen and we cannot do that unless we are focussed upon an over-arching ideal or vision. The Gift of Determination is built upon the rock of each and every small act. 'Every intentional act is an act of magic'. Even the smallest act has a spin off effect that ripples out into the Universe.'**

**'All the little acts that are done with Heart begin to build up an inner momentum that eventually becomes unstoppable. The force of the entire Universe begins to gather behind such a person. Instead of being tamed by Life, you forge your own direction and destiny by taming the smallest and inconsequential acts in your life.'**

**'The naturally flowing currents in your body begin to come into Universal harmony and as they do so, your brainwave cycles slow down and you enter a higher consciousness. 'The 9th Gift has an important connection to the power of magnetism.** This Gift employs the use of magnetism through aligning itself with true North – the inner direction and rhythm sought by the Universe as a whole.'

**'Invincibility can be defined as merging your individual awareness back into the consciousness of the Universe and the only force in the Universe that is truly Invincible is Love. Love only knows giving so it creates a vacuum which in turn continually floods with more Love. When a human being attains this Siddhi their life becomes an expression of the Invincible power of such a Love.'**

**'What the 9th Siddhi teaches is that every act that you make is of vast importance to the whole of evolution. Every intentional act is a magical act, setting in motion either creativity or decay.** Whenever you stand at the beginning of a journey, it is the first step that sets the tone of the entire journey whether that be a new day, a new job or relationship, and so you do well to remember this truth: those first few steps are critical to your evolution in the time ahead.'

**'Hold onto the dream inside you because it is that vision that will act as the lens to focus the power of magic and manifestation in your life.** These people have discovered the entire Universe exists within microcosmic form in the human body and they may become teachers of this truth.'

**'In this respect they can be masters of techniques wherein the macrocosmic can be mapped into the microcosmic. Such people become the focal point for an intense frequency of Divine Light with a very specialised task to fulfil on Earth.'**

The North and South Nodes are activating Gene Keys 63 and 64 and when the mind comes into stillness they carry the potential for **Truth** and **Illumination** to shine through the Mental Body, releasing all that has obscured the reality of what it is to be a human being.

GK 63 known as **Reaching the Source** moves through the Shadow of **Doubt** via the Gift of **Inquiry**, and GK 64 moves through the Shadow of **Confusion** to the Gift of **Imagination** which ultimately lead to the Siddhic states.

*'There is one Golden Rule with the 63rd Gift of Inquiry – if you inquire deeply enough into anything you will arrive at the revelation that you, the observer, are intricately bound with that which you observe.'*

*'At higher levels of frequency, you begin to enter the holistic domain of synthesis in which all phenomena are increasingly seen to affect each other. **This quantum world thus forces your Inquiry into a far more subjective territory – that of your inner self.'***

*'When you begin earnestly and honestly to question your own nature and purpose – you begin refining your physical and spiritual essence to such a height that you arrive at liberation or spiritual realisation. **The 63rd Gene Key is part of the Ring of Divinity.'***

*'It is Divine Doubt that drives you to follow a Spiritual path in the first place, to finally discover that Truth is simply the here and now in every moment at every stage of your life - it is Consciousness expressing itself. It is simply waiting to be realised, like a pearl within an oyster. Truth is your natural state - It is a drifting space, a total sinking into your Being and so beautifully simple - **Truth is the Eternal Moment of the Universe.** It is beyond our perception and yet it's closer than a heartbeat.'*

*'All natural energy or life force has an inbuilt programme to grow and evolve. **Imagination, the 64<sup>th</sup> Gift, is the expression of unimpeded life force coursing through your genetics.** Thus, when you release the quantum energy that was latent inside you, it begins to rise. As it rises the evolutionary force takes a hold of your mind and begins to 'paint' with it. **Imagination allows alchemy to occur inside your being and a truly creative individual is born.'***

*'All the energy that was going into your previously held thought processes is liberated and in some rare cases this sudden release of energy manifests as instant enlightenment. When Illumination floods your being, it also takes possession of your mind.'*

*'In this sense to be Illuminated means to think God's thoughts. **At this level the Mental Body gives way to the Causal Body.** At the Divine level your Causal Body/Soul becomes your physical vehicle. **This is the meaning of Transfiguration – when the Causal body draws the Physical body up into itself.'***

And finally, the last Gene Key that is playing such a pivotal role for us all, is Gene Key 20, known as **The Sacred Om** which has the potential to evolve us through **Superficiality** to **Self-Assurance** to **Presence**. Sedna moved onto this key in June 2023 and she will finally leave this key in May 2033. So, the message that is held within Gene Key 20 is really relevant, both individually and collectively, for us all at this time, as this Key holds the potential for a major evolutionary shift of our Shadow energies that were created in much earlier rounds of consciousness.

*'The 20th Gene Key and its Shadow were developed in species that preceded human beings – primarily in the world of insects. **Looking at insects, we see how incredibly busy they always seem to be – there is a blind activity occurring and like insects, at a Shadow level, human busyness lacks real presence.** With the development of the neo cortex we began to think and a strange thing happens when we think – we leave the present moment. **This occurs because the mind can only think in a linear fashion, in a false reality called Time.'***

*'With Self-Assurance comes a profound surrender to life in every moment. As you begin to accept that life has its own plans and flow, you also begin to stop interfering with the process at a mental level. An internal spaciousness grows and you no longer have to try to control life. On the contrary you now allow life to move you.'*

*'The 20th Siddhi is so unique that there is very little that can be said about it. Mythically the 20th Siddhi is represented by the notion of the Breath of God, or the Word of God. Presence is the underlying nature of Being. In fact, it would actually be truer to name this Siddhi, The Presence, since the use of the definite article gives us the distinct impression that this is a state of consciousness that has nothing to do with any individual. It is the manifestation of The Presence through a human vehicle.'*

*'The true Siddhic state is one of complete relaxation. Thoughts are irrelevant – there is nothing to say that is not superficial – for nothing is felt but the Presence itself. When this occurs, the whole world created by the human mind is suddenly seen as utterly superficial. The smallest thing such as a leaf or stone is understood to have more Life within it than all the greatest ideas of man.'*

*'The Presence is experienced as everywhere and inherent in everything and is where we get the term Omnipresence. When this Siddhi has flowered in a person it actually creates a subtle atmosphere around itself – a kind of silent ease that pervades the aura of the person and radiates out to all Creation.'*

*'The 20<sup>th</sup> Siddhi relates to the mystical nature of the octave – the transcendent note that begins, ends and links together all vibrations throughout the Universe in which we live. It is also the eighth colour – the pure white containing the other seven colours, and that which also brings us back to the number zero, the blackness out of which all form arises.'*

*'Above all, it is the Sacred Breath that unites the realms of both Light and Sound, allowing us to enter completely into consciousness as pure existence. It is the Sacred Om, the tone of the Divine.'*

*'As the breath of the Divine, it is the contemplation of God, Universal Consciousness, Source, on you. For that is what we are – we are God's contemplations. We think God is either present or absent in our lives. That is how it appears. But really the Divine is there all along. It is simply in a process of revelation, and it is revealed through Presence.'*

May the **Presence** be revealed through each of us as we end this momentous year and enter into a New Year that will ultimately unfold a **Celebration** of **Compassion, Universal Love, Invincibility, Truth and Illumination** as an expression and reflection of the **Truth** of our state of **Being**.

*All Love and Blessings*
