

Cosmic Overview

Aries New Moon 2026

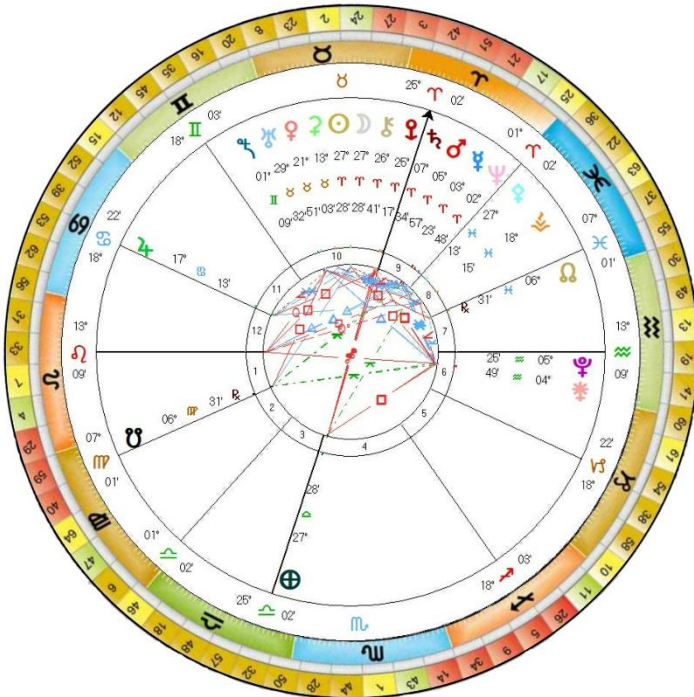

'And when you find yourself One with Existence, no knowledge is needed. In your Innocence, you will know all that is great, all that is beautiful, all that is true.'

'The wise man is not knowledgeable. His wisdom has a totally different quality. He sees. He is a seer. He is not informed, but he is transformed.'

Osho

'I AM' the Light of Light Itself'

The New Moon takes place at 27° Aries 29' on the 17th of April. In the UK, it takes place at 12:51 BST, so everywhere across the planet, other than some parts of New Zealand, will all be receiving this very energised Arian New Moon, on the 17th.

The Constellation of Aries flows with the **1st Ray of Will and Power** and the **7th Ray of Ceremonial Order and Magic**. When we have integrated and surmounted the lower levels of consciousness we take on the responsibility for the 'Right use of Will', and we are able to work with the Plan of Evolution.

At the lower levels Mars as the planetary ruler of Aries combines with the **6th Ray of Devotion** which creates so many ideologies and religious belief systems that create disharmony and discord

At the Soul level Mercury becomes the planetary ruler of Aries, combining with the **4th Ray of Harmony through Conflict** requiring that we use our minds and communicative abilities to bring about lasting peace that is based on a uniting of the opposites, which, at higher levels, is Mercury's purpose. Aries as '**The Light of Life Itself**' is a pure transmission, an emanation from Source, and it is through Aries that Divine Will descends to us both individually, and collectively via the Soul.

As has been stressed over these last months, if our actions and thoughts are directed towards the benefit of All then we become an exemplar and embodiment of the Will-to-Good.

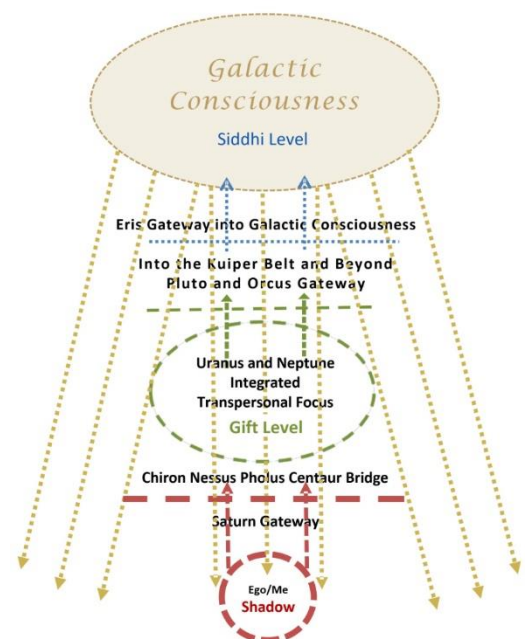

This is true Leadership, for the Pure Consciousness of Source, flowing down to Earth through the Constellations and Planetary systems, is at all times, working for the evolution and benefit of all Life on Planet Earth, and as we work, together with the Elemental, Etheric Kingdoms we restore the Plan for Earth.

Right now, humanity is in the process of merging into Galactic Consciousness, uniting and unifying with these high frequencies of Light, and equally with the magnetic core of Mother Earth, Gaia, which has so patiently held and nurtured all Life on this planet, throughout eons of time.

Between the Cosmos and Earth - the Sky and the Soil - we are awakening, uniting, and returning as the Bridge of Consciousness. All the paths that we have walked, all the cycles we have turned through, gather now into one silent sacred tapestry.

In that quiet radiance, something ancient stirs our very Essence as we are transformed - letting go of all mental judgments to simply Bless all Beings on this timeless journey - to open into our Hearts, in a state of Innocence, Grace and Serenity in which all fear, and duality dissipates, and disappears as an old dream.

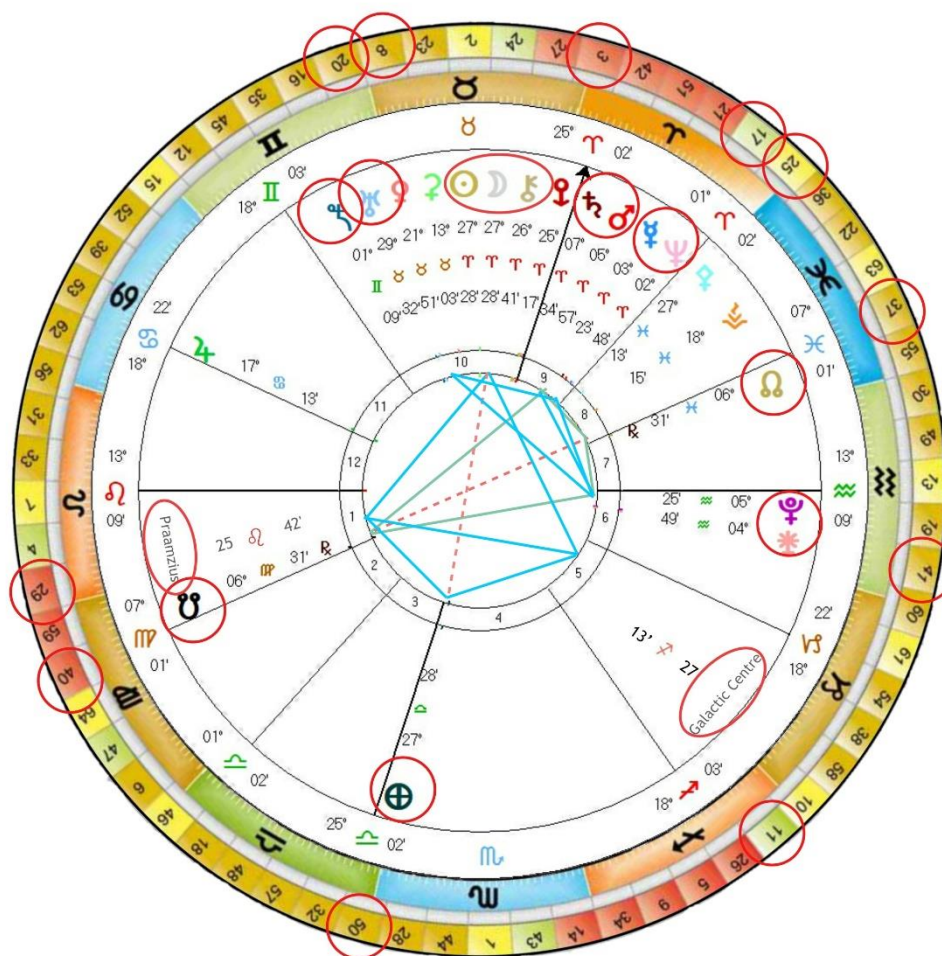

As these old, ingrained patterns are forgiven and released our DNA responds, revealing the higher Light encodements that are waiting to emerge and be embodied.

The blank canvas is not empty it holds infinite possibilities waiting for courage to touch it.

Chart for the Aries New Moon 2026

New Moon 17th April 2026 12:51 GMT London UK

<https://www.timeanddate.com/moon/phases/>

At the time of this New Moon, you will see that there is a powerful grouping of eight Cosmic Bodies in Aries – so this chart suggests a dynamic impulse of energy – Aries is Cardinal, ruled by the Fire Element which initiates action. All the planetary energies at this time are direct – no retrogrades – so this again suggests forward movement, without obstruction, and yet Mars♂ the planetary ruler of Aries is conjunct to Saturn♄ which asks that action is taken in a mature and measured fashion.

Mars conjunct Saturn speaks of strength and courage but suggests that actions must be balanced, as Saturn is the Lord of Karma, teaching us about emotional maturity, integrity, and self-discipline. So, although there is this tremendous impulse for outer action it is wise to turn inwards for deep self-reflection and inner guidance, so as to be able to stand calm, anchored, and steady if the outer world is shaking.

Before looking at this Mars Saturn conjunction, we will first look at Neptune♆ and Mercury☿ as Neptune remains as the pivotal point of the *Minor Grand Trine*, which continues to take place in the sky between Uranus♅ and Pluto♇. This Minor Grand Trine of Transpersonal planets is defining this period that we are passing through in a profound way – it is a blending and unifying of the Higher Heart, (*Neptune*), the Higher Mind, (*Uranus*), expressing as Divine Will, (*Pluto*) asking us all to move into an impersonal understanding of what is occurring on the planet, rather than reacting from a subjective personal opinion.

Neptune has been activating the 25th Gene Key since April 2024, and this month Mercury comes to join, which suggests that there may be an overwhelm of information. Communications that are illusory or deceptive coming from the media - or indeed, through our internal chatter that we feed into – all will be brought to light by both Pluto and Uranus. In some way the rose-coloured glasses will be removed as we recognise that many of the thoughts that we are holding keep us in a very limiting dimensional loop.

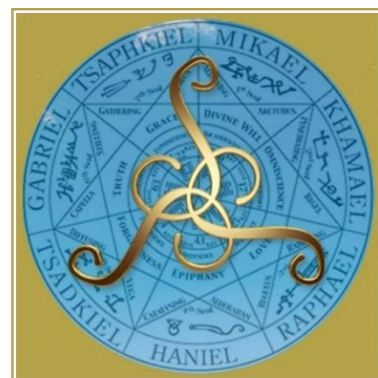

These are challenging times, and much is playing out on the world stage, but the best way to utilise this highly sensitized energetic is to come into an inner stillness, where compassion and kindness reside and old 'scripts' no longer hold sway. Gene Key 25, known as the **Myth of the Sacred Wound**, moves through the Shadow of **Constriction** to the Gift of **Acceptance** which ultimately reveals the Siddhi of **Universal Love**.

Acceptance is not denial or bypassing but is a deeply compassionate, understanding that each one acts according to their own level of consciousness and that the Shadow plays a significant role in the evolution of Consciousness as it builds up an unstoppable intensity for change to occur.

'At the Shadow frequency, the wound maintains human suffering, at the Gift frequency the wound provokes humanity to evolve and at the Siddhic frequency the wound reveals humanity's true nature as an Expression of Universal Love.'

*'The 25th Siddhi is one of the Seven Sacred Seals - a mystical group of Gene Keys whose collective role is to heal the Sacred Wound within humanity. **The 25th Gene Siddhi is the 3rd Seal, and it heals the human wound of shame.'***

*'The 25th Gift makes it difficult to hold any resentment, judgement or indeed worry about life – for now you are carrying the Seed of Love. You will walk through life with an air of another world about you, whilst at the same time being deeply grounded and open to others. **When you can finally accept everything in your life just as it is right now you will have embraced the human wound.'***

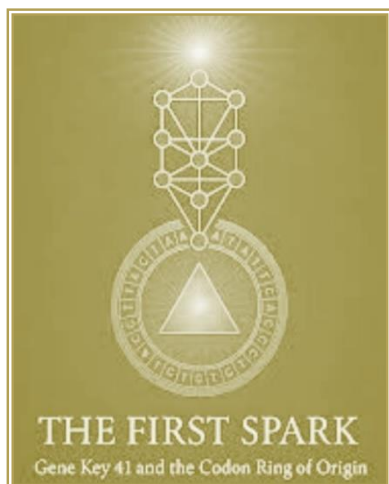

*'All that Love locked away in our DNA. The DNA is just filtering it through the memory – the ancient memory. **This is the embracing of the collective wound. It is the passage to Christhood, or Buddhahood.** We cannot 'get' there. **We just have to keep on opening, accepting, and the path leads us there of its own accord.** It is our natural state. It has a certain flavour, a certain peacefulness, Universal Love, Unconditional Love. **Every time someone attains the 25th Siddhi a great genetic constriction is removed throughout Humanity.** The bodies of these people have undergone a radical transformation in order to be the receiver or chalice for pure Consciousness.'*

Pluto, the planet of Transformation, remains conjunct Gene Key 41 and is joined by Juno, an asteroid, which holds the essence of the balanced electro-magnetic field, the harmonised Masculine and Feminine, Yin Yang principles that flow through our subtle energetic system and which are needed to come into alignment in order to hold higher frequencies of Light.

Juno and Pluto on Gene Key 41 known as **The Prime Emanation**, moves through the Shadow of **Fantasy** to the Gift of **Anticipation** and ultimately to the Siddhi state of **Emanation**.

*'The 41st Gene Key houses a truly remarkable archetype. It has a very important function – it relates to what is known in genetics as the Start Codon. **The evolutionary pressure that surges up in human beings carries our entire genetic history within it, all the way from the amoeba to Homo Sapien.'***

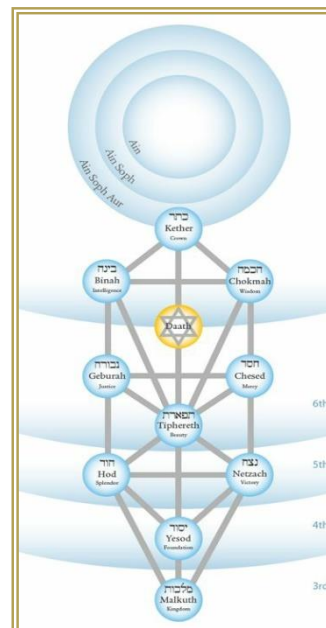

*'All this history carries an enormous weight inside you – it can drag you down, but it also urges you to want to break free. **The 41st Shadow represents the pressure to evolve to seek out new fields and new experiences.** This evolutionary impulse is the secret to the 41st Gift – the Gift of Anticipation. Every start codon inside every single cell is electromagnetically linked to each other. **This is the foundation of the holographic body which in turn is linked to the holographic Universe.***

*'What is fascinating about the 41st Siddhi is that it is the Source underlying all true Siddhic states. No matter what manifestation comes through our genetics, they are all ultimately grounded through this Siddhi that is not a Siddhi. **In many ways, this is the nameless Siddhi, but we call it Emanation because we have no other way of approaching it.'***

'As the Source of Being the 41st Siddhi is the Siddhi of Emanation. Emanation is a word that has been used by many ancient metaphysical and mystical systems as a means for understanding something that is really unapproachable. **One of the best known of these systems is perhaps the Kabbalah, whose central tenet is a map known as the Doctrine of Emanation.** In a nutshell the Doctrine of Emanation points towards a fractal model of the Universe in which everything is a mirror image of itself.'

'There is another interesting point that emerges from deep contemplation of this Gene Key. Somewhere deep within your DNA lies a code whose sole purpose is to trigger the state we call Enlightenment. In certain vehicles, the body picks up a specific set of secret genetic instructions and triggers the neurological process of enlightenment.'

'It may come as a shock to many mystical seekers that this process cannot be triggered by what we do up on the surface. Within the hologram of the Universe, Enlightenment is a spontaneous acausal non-event. You could say that Grace triggers this process but the point is that no one knows why or when or to whom it will happen.'

At the time of this New Moon, Uranus remains on Gene Key 8, where it has been for the last two years, but by the time of the Full Moon it will have moved into Gemini and on to Gene Key 20. Gene Key 8 reflects the message of Juno, giving an emphasis to our individual and collective need to bring the outward electrical, masculine, drive into harmony with the inner magnetic, reflective, feminine, qualities, of nurturance, which are key with so many planets currently in Aries.

Gene Key 8 is known as **The Diamond of the Self**, moves through the Shadows of **Mediocrity** and **Constriction**, to ultimately reveal the **Exquisiteness** which lies within the Heart of each one of us.

'As an aspect of the genetic family known as the Ring of Water, the 8th Siddhi of Exquisiteness is chemically bonded to the 2nd Siddhi of Unity. These are the two great Feminine Gene Keys in the human genome drawing all human beings along their inevitable journey to self-realisation. **The Ring of Water forms a kind of eternal genetic knot with its polarity, the Ring of Fire.'**

'These two chemical families move us along the trajectory of our destinies ensuring that our genetic material finds its opposite match. Deep within the body these chemical families set the primal blueprint for the balance of all the opposing forces inside us. It is the crossfire of these two Codon Rings that the mystical figure of eight is forged within us.'

'This eternal love knot deep within our planetary gene pool sets each man and each woman squarely on the human journey. The true symbolism of the number eight represents the timeless quest for the buried treasure that lies inside each of us – that elusive Diamond of our true Nature. The 8th Siddhi of Exquisiteness is the natural revelation and manifestation of all the Siddhic states, for each Siddhi is holographic in the sense of being reflected within all other Siddhis. **People of the 8th Siddhi are not leaders. They are examples.'**

'Exquisiteness is experienced when the Divine Essence begins to shine through the individual. In this state of Bliss you fall in love with your own pristine manifestation because it is through this uniqueness that the Divine currents can be accessed. **This is the stage at which you achieve transcendence of your genetics.'**

Over the last two and a half years Sedna has been, on and off, 0⁰ Gemini linking to the Sabian Symbol for **'A New Dimension of Reality'**, which Uranus will begin to activate on the 28th of April, as mentioned above. Sedna has now moved to 1⁰ Gemini 09' which has the Sabian Symbol keynote of **'A Rewarded Faith in Spiritual Blessings'** - the keyword for this degree is **Innocence**, and at the time of the New Moon this core quality is both emphasised and highlighted as the Sun ☉ Moon ☾ and Chiron ♄ are tightly conjunct Gene Key 3, which holds the Siddhi state of **Innocence**.

Sedna out in deep space on Gene Key 20, is known as **The Sacred Om** moving through the Shadow of **Superficiality** to the Gift of **Self-Assurance** to the Siddhi of **Presence** in which **Innocence** shines when the mind is quiet.

‘This aspect of the DNA is very ancient. The 20th Gene Key and its Shadow were developed in species that preceded human beings – primarily in the world of insects. Looking at insects, we can see how incredibly busy they always seem to be – their only focus is to stay alive and to reproduce within a short time frame. There is a blind activity occurring and like the insects, at a Shadow level, human busyness lacks real presence.’

‘With the development of the neo cortex we began to think and a strange thing happens when we think – we leave the present moment. The illusion occurs because the mind can only think in a linear fashion. This is the trade-off of the incredible abilities of the mind – for all its genius it is limited to thinking within the domain of a false reality called Time.’

‘Your Self-Assurance is directly equivalent to your ability to escape being a victim of your mind. As you begin to learn the knack, you experience the subtle expansion of a meditative awareness – an ability to witness your mind without being caught up in it. An internal spaciousness grows and you no longer have to try to control life. What actually occurs with this Gift is that the awareness within your solar plexus begins to take over from your mind, opening the way for you to connect into a very powerful Universal power.’

‘The true Siddhic state is one of complete relaxation. Thoughts are irrelevant – there is nothing to say that is not superficial – for nothing is felt but the Presence itself. When this occurs, the whole world created by the human mind is suddenly seen as utterly superficial.’

‘When this Siddhi has flowered in a person it actually creates a subtle atmosphere around itself – a kind of silent ease that pervades the aura of the person and radiates out to all Creation. The 20th Siddhi is the notion of the Breath of God, or the Word of God. Presence is the underlying nature of Being.’

‘It would actually be truer to name this Siddhi, The Presence, since the use of the definite article gives us the clear impression that this is a state of consciousness that has nothing to do with any individual. It is the manifestation of The Presence through a human vehicle.’

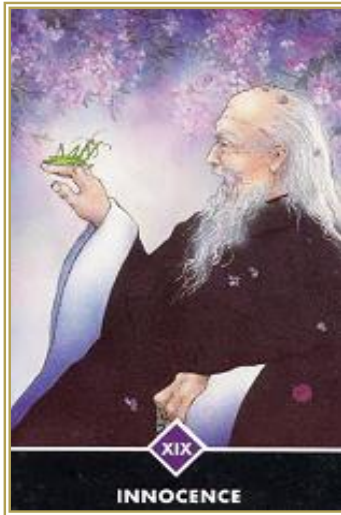

Looking now more closely at the position of the Sun Moon and Chiron – Chiron, activating the Soul, carries the essence of Christ Consciousness, and when conjunct the Sun and Moon, has the potential to bring healing to both the conscious and unconscious belief patterns held within the collective.

Chiron at the time of this New Moon, is also working directly with Neptune and Mercury in releasing and transmuting the Shadow of Shame held within the Central Nervous System that has kept humanity trapped in the Shadow for eons of time. The Sun Moon and Chiron on Gene Key 3, known as **Looking Through the Eyes of a Child**, moves through the Shadow of **Chaos** to the Gift of **Innovation** to the Siddhi of **Innocence**.

‘Individuals working from the Shadow of the 3rd Gene Key are trapped in a ‘separation’ consciousness by their own thoughts – thoughts that are coming from a primitive and defensive level. This ‘separation’ consciousness creates Chaos by resisting the very changes that are required in order to survive and thrive.’

‘The Gift of Innovation is far more exciting than simply being creative. It implies that you have permanently escaped the fear-based perspective of the Shadow frequency. Innovation also requires a deep sense of inner trust. All preconceived notions, dogmas, or beliefs must be discarded when they no longer serve the developing synthesis. The Gift of Innovation requires you to become as open hearted and open minded as a child.’

‘There are two kinds of Innocence – ignorant innocence that is like a new born baby, the infant that just expresses its beauty without awareness of itself. Then there is the wise Innocence, when the mind and heart have opened up again after a long search with much pain and travail.’

‘The wise Ignorance and the ignorant Innocence, they are the same – the same field. The only difference is awareness. Wise Innocence has come full circle. We don’t have to wait until we are old to be wise. Wisdom isn’t dependent upon age. Wisdom is dependent upon Love. How deeply can we Love.’

‘One day humanity will evolve towards its awesome final destiny of Global and Celestial harmony. As the 3rd Siddhi comes into the world, which it will do very shortly, a great remembering of our Innocence will emerge in humanity, because the first vessels of the new human destiny will all be children. The strange thing about these children is that the consciousness within them will never grow up and become serious.’

‘Their awareness will function in an entirely new and different way from our current brain-centred awareness. Their brain will be the environment itself – it will be inside every other human being, creature, plant, stone and star and it will soon come pouring into the world like a great breaking wave.’

‘The certainty of order within the Universe is a feeling that can only be captured by a more advanced system of awareness in humans that our mystics have called by many names. Above all it is equated with the human heart and the feeling of Love and Unity that lies between all creatures.’

The Earth at this time, opposite to the Sun Moon and Chiron, is on Gene Key 50, known as **Cosmic Order** moving through the Shadow of **Corruption** to the Gift of **Equilibrium** to the Siddhi of **Harmony**. The Earth at 27° Virgo 28’ has as the Sabian Symbol image **‘A Man becoming aware of Spiritual Forces Surrounding and Assisting him.’** The keyword for which is **‘Inner Assurance.’**

‘The 50th Shadow is the Shadow of Corruption. More often than not we think of political and social corruption, where those in positions of authority misuse and abuse their power for the purpose of personal gain. In examining the 50th Shadow, however, we need to consider the word Corruption in another context – that of data corruption. At the Shadow frequency, data that is processed by the human brain is translated through the medium of fear. As this occurs the data is corrupted, leading to a slanted manifestation in the world.’

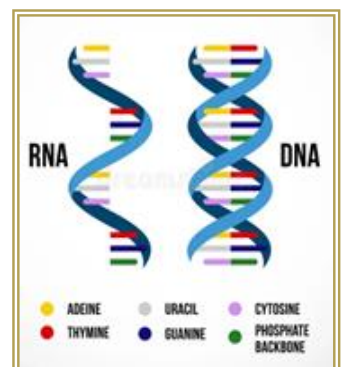

‘In genetics, this 50th Shadow has much to do with the way in which RNA copies DNA. RNA is a chemical substance similar to DNA whose role is to transcribe aspects of your genetic code in order that new proteins can be formed. In other words RNA is a messenger that reads and copies the instructions for life. In the process known as transcription messages can be misinterpreted before they are translated. This is exactly what occurs within human society – fear causes misinterpretation, leading to reaction and counter-reaction – resulting in Chaos, the 3rd Shadow and programming partner of this 50th Shadow.’

‘The 50th Gene Key and programming partner the 3rd Gene Key are intimately connected in the cellular health of each of us – the 3rd Gene Key governs individual cell mutation and the 50th Gene Key holds the genetic blueprint for Equilibrium and wellbeing.’

‘Here in the 50th Gift is found the inner fulcrum upon which balances the quality of our cells, our lives and our future possibility for world peace. As the Gift of Equilibrium this 50th Gift holds the key to deep inner peace.’

‘Creating Equilibrium is an ongoing process of balancing the opposites, but eventually the slide from one side to the other becomes smaller and smaller until perfect balance is achieved.’

‘This is Harmony – a vibrational code that brings all elements within any system into perfect and permanent resonance. The 50th Siddhi produces experiences that harmonise human awareness with Celestial or Universal Consciousness.’

*'At the Siddhic level all imbalances within the subtle bodies must be destroyed in order that the cauldron of the physical body can become a vacuum. **When this occurs within the DNA of a human being the body becomes a deep resonant chamber for the highest Universal frequencies.'***

*'This Gene Key is part of the Ring of the Illuminati – the term refers to a higher evolution of beings, but they are not separate from us - they are our higher nature personified. **As your higher bodies transmute your lower instincts and emotions so you come into the frequency field of their higher harmony.** When the 50th Siddhi begins to break through in human beings an all-powerful current of Harmony begins to shower the people with whom they are allied.'*

*'Deep and hidden issues are brought to light in order that social Equilibrium can occur. Through the 50th Gene Key humanity is destined to arrive at Cosmic Harmony, although such a concept will require a sustained period of Equilibrium before the scales finally activate the higher Harmony. **We know this higher harmony as oneness with God.'***

As we near the end of this Review, you will see looking at the chart that there is a Kite formation (blue lines) created between the Sun, Moon, and Chiron, opposite to the Earth and trine (120°) to a Cosmic Body called Praamzius, and also to the Galactic Centre.

The Galactic Centre at 27° Sagittarius links us to the rotational centre of our Galaxy, serving as a fixed point on which the Galaxy rotates. This region is also where clusters of stars are born. Spiritually, the Galactic Centre is like a Celestial lighthouse, emitting high-frequency Light onto this Plane that influences our evolution both collectively and individually. And, Praamzius is named after a Lithuanian God said to be the Omnipotent ruler of Time and Fate.

The Galactic Centre on Gene Key 11, known as the **Light of Eden**, and Praamzius, on Gene Key 29, known as **Leaping into the Void** seem to perfectly describe the time we are in, for we are a pivotal moment of merging with Galactic Consciousness as we move inexorably through time and space, stepping into the unknown.

Gene Key 11 moves through the Shadow of **Obscurity** to the Gift of **Idealism** to the Siddhi of **Light**

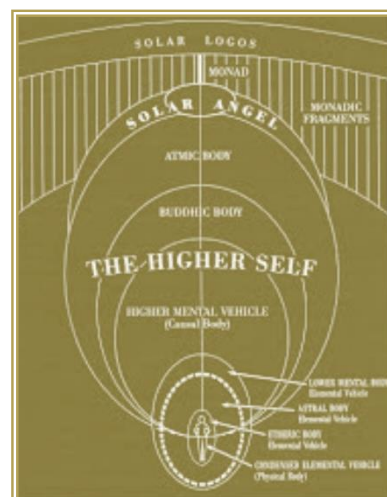

*'Through the 11th Siddhi, you will see the true nature of mind as emptiness or spaciousness and that mind or no mind is experienced through the brain as pure Light. It represents the transcendence of duality. **As long as we see things in terms of good and evil we have embraced the fall.'***

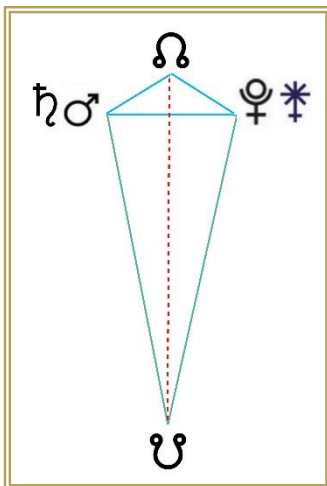

*'In the future, the 11th Siddhi will crack open our perception of the world so that we may access the purified Light that is the Mind and Body of the Divine. The 11th Gene Key geometrically relates to the Galactic Centre. **It is through this Gene Key that the Galactic Light emerges that will trigger our DNA to release its Inner Light and catalyse the Siddhic states in many people.** This will also exponentially increase the frequency field of the whole of humanity.'*

Praamzius moves through the Shadow of **Half-Heartedness** to the Gift of **Commitment** to the Siddhi of **Devotion**.

*'The more the frequency rises through the 29th Gene Key the more you find your commitments directed towards the service of others. **As the frequency gets higher and higher your Commitment takes on a devotional quality and begins to activate the Heart Centre.** As you allow the energy of Commitment to act itself out in the world, you begin to realise that an energy separate from your body is moving through you.'*

*'This high frequency energy is actually moving into your body from your higher bodies and in particular from the 5th body known as the **Buddhic body.** Bhakti Yoga refers to the path of Devotion, or the path of the Heart.'*

Returning now to the Mars Saturn conjunction that this Review began with you will see that Mars and Saturn form another planetary pattern - a *Yod*, or *Finger of God*, that links to Pluto and Juno and also to the North and South Nodes. A Yod is primarily an aspect of focussed Divine Will.

The South Node ♋ at the base of the Yod holds the energetic archetype that is seeking to find integration and resolve through Mars, Saturn, (GK 17) and Pluto and Juno (GK41) to be expressed through the North Node ♊ which shows an elevated way forward when the South Node is integrated.

The South Node is at 6° Virgo 40 on Gene Key 40 known as **The Will to Surrender** moving through the Shadow of **Exhaustion** to the Gift of **Resolve** to the Siddhi of **Divine Will** and the North Node at 6° Pisces 40 on Gene Key 37 is known as **Family Alchemy** moving through the Shadow of **Weakness** to the Gift of **Equality** to the Siddhi of **Tenderness**.

‘The 40th Gene Key and its Shadow concern the correct or incorrect use of the power of the human will. Whenever your actions are in alignment with the Universe the requisite energy is supplied from deep within your being – but when they are not flowing from your true source they are forced and your energy is depleted. There is a belief in the West that says if you want something enough you can always make it happen – it’s simply a matter of willpower. This is the kind of conditioning that the 40th Shadow feeds on.’

‘When your life force is aligned you will discover that there is a vast amount of energy available to you. Everything about this 40th Gene Key is about having boundaries and in order to create boundaries you have to be able to deny other people access to your energy. You have to be able to say No. The correct use of this kind of isolation ensures that neither your energy nor your resources become depleted.’

‘The same forces that drive the Shadow also drive the Gift, but the result is completely different. The 40th Gift of Resolve is about becoming adept at giving to yourself. Ultimately it is about deep physical relaxation. True Resolve is not possible unless you know how to relax. Rest allows the physical body to restore – relaxation allows all the subtle bodies to recharge as well. With Relaxation our Mental and Emotional health are assured.’

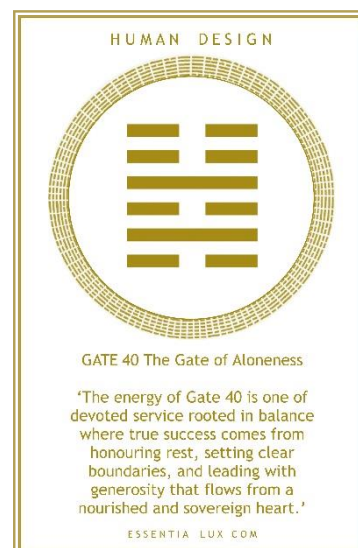

‘Resolve is more than just willpower or determination it is the flowering of your aloneness - for the 40th Gift thrives on solitude - the source of all your power lies in your love of being alone. Every human being has to eventually learn from this Gift of aloneness or of ‘All Oneness.’

‘At the highest frequencies the Gift of Resolve becomes transformed into pure Divine Will. In mystical understanding the qualities of the Divine are divided into three main Cosmic organs – Divine Mind, Divine Heart and Divine Will. Divine Will is seen as the primary faculty out of which the other two emerge.’

‘The 40th Siddhi represents a code in human DNA that will transform humanity on the physical plane. The 40th Siddhi holds the key to complete physical relaxation in which every molecule of DNA inside your body is functioning at its optimal frequency.

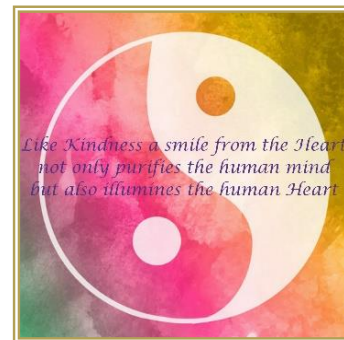

‘The four Gene Keys in the Ring of Alchemy will transmute your DNA so that there is no longer any interference in your physical body – this means that your highest subtle bodies can manifest directly through your physical body. That is the real meaning of complete physical relaxation, it is a state beyond the comprehension of your mind. It is the direct manifestation of Divine Will.’

The South Node on Gene Key 40 represents the collective karma that we bring to this moment in time and the level of integration and refinement of how we utilise Power, defines how we access the North Node (Gene Key 37) which will guide us, individually and collectively, into stepping onto, and into, a new direction, a different way of expressing power, a Pathway that will reveal both inner Balance and Equality of Mind and Heart.

The 37th Shadow represents the inequality between yin and yang forces on our planet. The natural tendency of evolution has been to favour the physically stronger – at low frequencies our genes know no other reality than the survival of the fittest. **However, now we have reached a stage in evolution in which physical strength no longer governs our future direction.'**

'The 37th Shadow is undergoing a major mutation and through the inner rebalancing within the human psyche the fabric of our society is being forced to change. It is in the human heart and its ability to grasp the holistic essence of life that our true collective future lies. In an individual human being this change translates as the mind serving the heart.'

'Our current age is truly an exciting time to be alive because this 37th Gift is giving birth to a new social paradigm all across our planet. It is in the 37th Gift of Equality that a great hope is presently arising for humanity. Equality is a living ideal that lifts people out of the game of victims and winners or strength and weakness. **When you operate out of this Gift you are living directly out of your heart and all else is secondary.'**

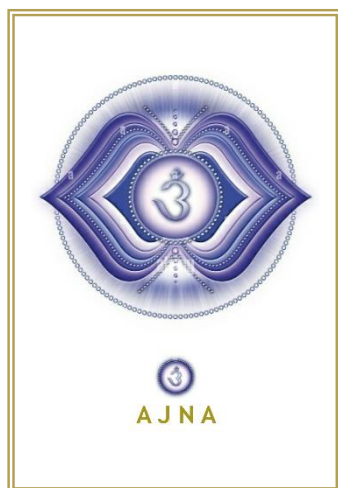

'The 37th Gene Key represents an evolutionary phase that is now coming to an end. The 37th Gene Key has emerged into our current world through the sacred sacrament of marriage. The marriage we see in the world today is but a shadow of the true inner ideal of marriage. On an individual level, marriage concerns the inner balance and union of yin and yang within each human being. The Siddhi of Tenderness is the awakened aura of this mystical union since tenderness is an energy devoid of tension or sexuality. It is in fact the transcendence of sexuality.'

'As we move beyond the tribal and blood definitions that have dictated our traditional lifestyle for so long, we will see how limiting our current definition of family really is. The 37th Siddhi is an upsurge of consciousness that will slowly unite human beings as the 55th Gene Key frees us from our victim consciousness. Tenderness is a force to be reckoned with and as its programming partner the 40th Siddhi of Divine Will testifies, it is a force that has us a set in its sights. In its very softness it is insurmountable, invincible and inevitable.'

And finally, Mars as the planetary ruler of Aries is highly significant at this time, for Mars is the planetary ruler of individual egoic will, and with Saturn conjunct, our opinions and actions will be reflected back to us to witness whether they are based on maturity and wisdom or fearful, 'them and us' belief patterns?

Both Mars and Saturn are on Gene Key 17, which moves through the Shadow of **Opinion** to the Gift of **Foresight** to the Siddhi of **Omniscience**.

'Our ability to base an Opinion on logical Judgment is one of the great powers of human beings. It is this combination that sets us apart from all other creatures and yet it is also what has pulled us away from the reality of our interconnectedness with all other creatures. **At the Shadow level this creates nothing but division because the mind is based on seeing and challenging narrow aspects of the whole, rather than the whole itself.'**

'At the Gift level the individual sees the futility of identifying with a specific opinion. Because the 17th Gift doesn't dictate direction in a person's life it is freed to do what it was always intended to do – to differentiate between those patterns that lower your frequency and those that raise it.'

'Once freed from the Shadow frequencies of mass consciousness the 17th Gift has the ability to see higher dimensions and realities - looking ahead to the future and linking one phase of evolution to another. It is working with the Gift frequency that the process known as the opening of the Third Eye begins.'

'This Gift brings access to a whole new inner language that circumvents the need for one-sided, dualistic expression. Thus, Far-Sightedness can be said to arise directly out of the heart rather than from the mind. **This 17th Gift is in fact the true instrument of human perception.'**

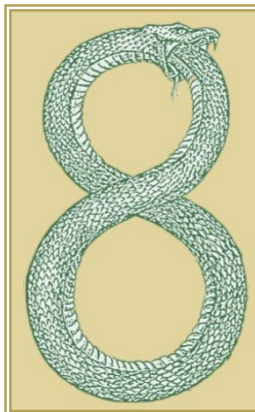

'At the level of the 17th Siddhi consciousness sees through you rather than you seeing through it. When the 17th Siddhi comes into the world it comes like a Divine afterthought. It is one of the seven powers of Grace.'

'It is where the body becomes an instrument for consciousness and there are no borders, levels, opinions or past lives, for the Siddhic level sees an endless fractal pattern of life – repeating over and over – the same but always new – the Serpent eating its own tail.'

'Through the 17th Siddhi of Omniscience, the human mind will finally see the perfection and beauty of our Oneness with all of existence and through the 18th Siddhi of Perfection we will actually bring that vision into full manifestation.'

'For the 17th Siddhi directly corresponds to the open 3rd eye. Where seeing and the seen are one. A single eye through which consciousness pours and where past present and future are a single eternal screen of consciousness. These are the true seers and oracles.'

As you can see these are powerful times, and just as Praamzius reminds us, on Planet Earth, we move through Space in divinely, orchestrated Cycles of Time, and right now we are in a Cycle of fundamental change. How we respond to these challenges and changes, however, comes down to individual perception and intent, and the image of the Ouroboros, *the Serpent eating its own tail*, is central to Seven Spiritual Truths that Mars conjunct Saturn, on Gene Key 17, are seeking to reflect and remind us of at this time.

1. The Ouroboros' circular shape embodies the concept of Eternity and the Infinite Cycle of birth, death, and rebirth.

2. The Ouroboros symbolizes the Unity of all things, material and spiritual, which never disappear but perpetually change form in an eternal, cyclical evolution. It portrays the idea of Oneness.

3. The act of the serpent consuming itself represents the process of self-reflection and personal growth.

4. In alchemical traditions, the Ouroboros represents the quest for immortality and the process of refining and transforming oneself to achieve an enlightened state. It signifies the Cycle of Purification and the integration of opposites – like the conscious and unconscious.

5. The Ouroboros embodies the idea of wholeness and completeness. The circle reflects a totality, encompassing everything within the Cycle of Existence.

6. The Ouroboros, depicted in a balanced, symmetrical form, symbolizes the Harmony and Equilibrium of Nature. It portrays the delicate balance between opposing forces and how they sustain the Cosmic Order.

7. The action of the Serpent consuming itself denotes the principle of Life coming from death or endings making way for new beginnings.

Theo Harrison

As we are all aware, we are living through a powerful turning point - we are standing at the threshold of the next Cycle of Time, and we here on Earth, have a unique vantage point, for this ongoing, unfolding, integration, and renewal of Consciousness.

So, whilst all may seem to be dissolving and in disarray, in the outer world, in remembering, and embodying, these Seven Truths that are constants, we can enter into a transpersonal, impersonal state of **Grace** and inner **Harmony**, so that the intensified Light that is flooding the Earth Plane can flow without interference or hindrance, through the Soul, into our etheric bodies and our DNA, ultimately revealing the **Timeless True Self** that sees all Life through the healed eyes of **Tenderness** and **Innocence**.

Love and Blessings to All
