As shared in the Lions Gate Review, '**Humanity is designed to move through a vast evolutionary cycle in which it is progressively purified**' as deep clearing and cleansing of collective, inherited belief patterns, that have been carried through generations, within our genetic cellular system, and bodies, are released.

The first thing to realise, not as a mental concept, but as a lived reality is that this period of time that we are passing through is both unique and extraordinarily transformative – a Blessing that is flowing to all. We are not separated in any sense from the pure Light of Universal Consciousness - we are here to remove all that eclipses the Light – to remember, to awaken and to feel this Presence flowing through every cell of our Being, and back out to all of Life.

If we look to the chart for this Solar Eclipse, following on from the Lions Gate, to see how it may assist us to create a greater understanding of our true Spiritual nature rather than the limited opinions that create such division, in the outer world, we find that the Sun and Moon are on Gene Key 4. Known as **A Universal Panacea**, it assists us to evolve through a state of **Intolerance** to **Understanding** to **Forgiveness**.

'The 4th Shadow, the Shadow of Intolerance, is rooted in the mind's habit of becoming tangled up with human emotion. The 4th Shadow is essentially a misuse of one of the great gifts of the human mind – logic. At a low frequency based on emotional reaction or over-reaction, this Shadow uses the power of distorted logic to support and uphold its volatile nature.

'At the Shadow level, you identify absolutely with your emotional state, which defines the way you live your life. Any unresolved emotional pattern is taken up by your mind and built into a highly intricate logical framework that masquerades as the absolute truth. It is through the 4th Shadow that opinions, judgments, and resentments are turned into convictions and certainties.'

*'The Gift of Understanding has nothing whatsoever to do with knowledge. Knowledge is what your mind thinks it needs in order to take away its permanent feeling of unease. But knowledge can never bring a sense of peacefulness. **Only true Understanding can bring peace along with it because true Understanding lies outside of the domain of the mind.** Understanding is of the whole being.'*

'The higher frequency of such Understanding also brings with it the urge to be of service to the world and you can use the mental alacrity of the 4th Gift to follow the dictates of your Higher Self. Through seeing all sides of any mental construct, the Gift of Understanding sweeps away the possibility of Intolerance and uses its gifts to create new roles or systems to bring positive change into the world.'

*'The 4th Gift is the launch pad for an even more refined frequency – the Siddhi of Forgiveness. **Forgiveness is born out of Understanding, but it occurs when a being makes a leap beyond Understanding.** Forgiveness is the thunderbolt that is released when a being attains Christ Consciousness - it melts the boundaries and borders of form. It falls upon you like a surprise and something inside you opens up that was previously choked.'*

*'There exists a great mystery about the power of Forgiveness concerning time. **Forgiveness represents an involving force rather than an evolving force because it literally comes from the future towards the past.** It is a Divine quality that descends, like Christ, into the world of form. In descending into human form, Forgiveness lays its hand upon all humanity and works its way back through time, burrowing into our collective past, releasing and freeing energy that has lain trapped and stagnant for aeons.'*

*'This is why the Siddhi of Forgiveness is often credited with being capable of inducing miracles, because it can release a karmic debt that has stagnated for generations. As one of the Seven Seals, the 4th Siddhi is a primary agent of Divine Grace. **As more beings bring this Siddhi into the world, they play their part in the releasing of humanity's collective karma.** Pure Forgiveness is a Universal panacea that radiates in every direction throughout time and space. **It really is a miracle.'***

The Earth on Gene Key 49 known as **Changing the World from the Inside** is moving through **Reaction** to **Revolution** to **Rebirth** is revealed when we remember that we are and always have been

*'The 49th Shadow of Reaction is one of the most powerful of all the 64 Shadows in terms of how it governs human behaviour. **Unless there is some glimmer of awareness in this Shadow your raw emotions will absolutely rule your life and the decisions that shape your life.** Over generational cycles this part of your DNA has been steadily evolving. Originally at its core, its more ancient purpose was to enable us to kill for survival.'*

'On an individual level, the current mutation passing through the 49th Shadow is changing the face of human relationships. As we begin to have a physical and emotional knowing that we are all interconnected through our auric field there will be no possibility of rejection or it will fundamentally change our relationship to each other.'

'As the higher frequencies penetrate the 49th Shadow we will move through a time of unprecedented change and upheaval. This is the Gift of Revolution. The 49th Shadow will be the first aspect of the human Shadow to mutate right down to the genetic level. The implications of this are huge as fewer and fewer humans are victims of their emotional reactions, violence will rapidly decrease in the world.'

*'One also has to consider the environmental impact of this mutation occurring across all cultures. **Men and women of peace are infiltrating all races more than ever before.** This Revolution is worldwide. Revolution occurs wherever stagnant energy is brought into awareness. There is a genetic Revolution underway right now, everything that is rotten in the 49th Shadow will be brought up to the surface.'*

‘There is a difference between reactionaries and true revolutionaries. Reactionaries base their reforms on their anger and fear, whilst the agents of the 49th Gift are not victim to their old emotional prejudices. They do not provoke further reaction but seek to resolve conflicts and at the same time implement radical changes and ideas based upon a grand vision for the future - a vision of deep goodwill towards all creatures.’

‘The 49th Siddhi represents a huge leap in consciousness because it engenders a state of mystical divorce. The very same energy configuration within our DNA that allows human beings to kill other life forms actually carries the impetus that will give birth to our total Freedom. There is a deep chemical connection between the 55th Siddhi and the 49th Siddhi, together they create the Rebirth of Freedom.’

‘The very bedrock of our society is founded upon a species that has always made decisions rooted in fear. The only way for a new future to be created is to begin from scratch. Once in a while along the evolutionary chain a new species is born out of the old species – like the mythical phoenix – it has nothing in common with its parent. It rises up out of the genetic material of the old and takes a whole new direction.’

‘Every human being who has ever arrived at true enlightenment has experienced such a Rebirth. The Siddhic State requires both a mystical and genetic divorce from that which came before. Because you are reading these words, you are potentially one of these early flowerings. Is that not a beautiful thing to ponder?’

The planetary alignments that have been occurring over the last months have been creating an intensification of Light that has been flooding through the Solar System. On July the 20th, Jupiter at 4^o Leo, on Gene Key 31, was exactly opposite to Pluto at 4^o Aquarius, aligning with the Minor Grand Trine of Uranus, Neptune and Pluto to form ‘Barbault’s Basket’, heralded a ‘reset window’ - a time for collective reorganization and rebirth, prior to the 8:8 Portal. Now, at the time of this Solar Eclipse, transiting Mercury ♀ moves onto Gene Key 31 at 5^o Leo, opposite Pluto pulling in the energy of Uranus and Neptune to create a similar ‘basket’ which would suggest that the reorganization and rebirth and Blessing, is now to be focussed through the Central Nervous System, (Mercury) directly activating our DNA.

Gene Key 31 moves through the Shadow of **Arrogance** to the Gift of **Leadership** to the Siddhi of **Humility**

‘Real Arrogance comes from being cut off from Divine Source. At the Shadow frequency humans think, speak and act as if they were separate from nature, rather than being an organ of it.’

‘The Gift of Leadership is really a gift of influence rather than an inherent predisposition to be a leader. The 31st Gift is known as Leadership only because that is the projection of the collective upon this Gene Key. The 31st Gift, like all the Gifts, represents a huge step beyond the intellect and into the heart. Only the heart really perceives the collective suffering that comes from being marooned in your intellect at the Shadow frequency.’

‘Thus, your natural urge is to help others escape that suffering in some way. Furthermore, since the 31st Gift is the gift of understanding the masses and the language of the Shadow frequency, it naturally uses this gift to help draw others out of the co-dependent victim patterns and relationships of the lower frequencies.’

‘Life is about letting go, the spiritual life even more so. To live right out of the fires of our heart, we will be humbled and humbled over and over. This is the beauty of a life lived at that level of consciousness. We enter another dimension. The 31st Siddhi is rooted in the ancient tradition of the Oracle. The Oracle is simply a voice box for the Divine. The Ring of No Return refers to the great initiation from the 4th Causal Body into the 5th Buddhic Body.’

*‘Once this leap of consciousness has been made, there is no possibility of return because your identity or ego will be erased. **Once you have allowed the Siddhic frequency to command your voice, you have entered the first stage of Divine embodiment.** From this moment forwards, whenever you use the word I, it is the voice of Divinity itself speaking.’*

As it was for the Lions Gate, Venus ♀ is still a central focal point for this Chart, but Venus is now on Gene Key 18, and is forming a hexagon (three Kites) connecting with Uranus, Neptune, Pluto, Mercury and asteroids Themis and Lutetia.

Gene Key 18 known as the **Healing Power of the Mind** moves through **Judgement** to **Integrity** to **Perfection**.

‘This Gene Key is about the physical, emotional and mental boundaries that you meet in your life. Because we are biologically imprinted in seven-year cycles, it is possible to say that we have not fully incarnated into our lives until the age of 21. In understanding what made you the way you are, you are able to release what does not serve you and equally you can assist others to release their conditioning.’

‘When you are free from the trap of the victim mind then Judgement becomes Integrity.’

‘Someone demonstrating the 18th Siddhi is above the victim mind – when they look at someone, even someone who appears genuinely evil, they will only see the Higher Self hidden in that person. By holding this high thought frequency they influence hidden currents of energy that raise the frequency of others. This is called Siddhic thinking and it involves thinking with the heart.’

‘The 18th Siddhi is the source of the tradition of the Bodhisattva Vow. The Bodhisattva Gene Keys keep returning to the planet as individual human beings whose sole purpose is to build this collective vision of Perfection on the material plane. As we will all one day see, the end of this story also happens to be the beginning of our Universal Life.’

The Transpersonal Planets of Uranus Neptune and Pluto remain as a Minor Grand Trine, with Sedna flowing through each of them, merging them in Galactic energy and resonance. Sedna’s closest return to our Solar system after an 11,000-year orbit, out in deep space, is a marker for the reawakening of the Sacred Feminine - the rising once more of primordial consciousness long buried within the collective unconscious.

For Sedna speaks not only of Cosmic cycles, but of the restoration of a deeper primal memory held within both the Earth and the human Soul which is also flowing through the transpersonal planets of Uranus, Neptune and Pluto down to Earth and through each one of us.

So, if we now look to the two asteroids, Themis and Lutetia, which are forming the 6th point of the hexagon at the time of the Solar Eclipse we find this sense of deep ancient memory reflected back to us.

Asteroid Lutetia, according to NASA, is about 4 billion years old, an extremely ancient survivor from the earliest formation of the Solar System. NASA believes she may have formed much closer to the Sun, from out of the material that eventually became the Earth, Venus, and Mercury, before appearing within the asteroid belt.

She is regarded as a remarkably primitive remnant of the Solar System's birth, and from an esoteric perspective, links us to primordial memory.

She carries the memory of the original design, not the story of what happened to humanity but the deeper pattern from which humanity arose.

Lutetia symbolically is a guardian of the Cosmic Blueprint reminding us that beneath every Cycle of Time and every incarnation lies an enduring geometry of Divine Design - she represents an unbreakable, core part of your Soul, an unshakeable Truth which lies within you.

Asteroid Themis represents Divine Law, Natural Order, Cosmic Justice, and Unbiased Truth. Named after the Greek Titaness of wise counsel, she embodies the concept of 'right action' and social order that is rooted in Natural Law rather than human-made legislation.

Themis reflects the inherent order woven into Creation itself - an order founded upon harmony, balance, and immutable Truth. Symbolised by the scales and the sword, she discerns with complete impartiality, separating what is aligned with the greater good from what has fallen out of harmony.

That these asteroids should come together at this particular moment feels deeply significant. As humanity stands at the threshold of revealing deeper levels of awareness and consciousness, Lutetia calls us to remember the original blueprint of our Being, while Themis invites us to live in accordance with the timeless Laws that sustain Life itself.

Together, they encourage a profound humility, reminding us that we are not separate from the greater Design, but intimate participants within an infinitely intelligent Universe whose Order, Wisdom, and Purpose have always been present waiting to be remembered.

Lutetia and Themis are activating Gene Key 34 which speaks to this ancient memory. Gene Key 34 is known as the **Beauty of the Beast** and moves through the Shadow of **Force** to the Gift of **Strength** to the Siddhi of **Majesty**.

*'The 34th Shadow carries a primal quality – it is ancient. **This primal power has its roots deep within our genetic past – the reign of the dinosaurs is an archetype of the power lying within the 34th Gene Key.** Despite our burgeoning intelligence, the 34th Shadow still lies within us as the urge to use Force to make things happen in life and it can be highly destructive when influenced by low frequency vibration.'*

*'**Force is always rooted in the mind whereas power comes from the sacral plexus – the belly.** Power is natural, grounded and universally connected to all life, whereas Force happens when you forget to trust in this true centre of pure awareness.'*

*'What is fascinating about the connection between the Shadow and the Gift of the 34th Key, is the incredibly fine line between these two activations of the same essential energy code. The Gift employs the same terrific primal vitality, but unlike the Shadow it does so through appropriate activities and correct timing. **The result is a creative manifestation of aligned Life Force.**'*

'Here in the 34th Siddhi, at its peak, the Siddhi of Majesty blossoms. This is the Majesty of the human form in motion and the form itself is pure awareness, which is why it cannot be awareness of something.'

*'It is through the 34th Siddhi that we get the idea of man as a God. **The great paradox is that if Gods were to assume the shape of humans they would never know they were Gods.** This is the true meaning of this 34th Siddhi - the Divine Essence of creation can only move freely through the body when the identity has ceased to exist.'*

*'Once you have entered the Siddhic frequency all fear is purged from your system and the pure awareness of your body's physical intelligence is revealed. **It is as though the entire Universe were moving through your body.** In the Ring of Destiny, the epiphany of the Higher Planes encounters and infuses the Majesty of the body on the lower planes. **The result is pure fusion as Spirit enters Matter and imbues it with Divinity.**'*

As shared in the Lions Gate Review, there are two charts to look at for the Solar Eclipse, and this is the second one. You will see that Haumea at 2° Scorpio 17 creates a Fixed Grand Cross with Pluto, Chiron and Mercury, as well as a Kite Formation with the North Node, Mars and Ceres and Chiron.

Haumea is a Dwarf planet located in the Kuiper Belt, taking about 285 years to complete an orbit around the Sun she acts as a transpersonal or generational timekeeper. Haumea can be seen as a 'Higher Octave' of Venus and Neptune. If Venus rules personal desire and values, and Neptune rules unconditional Love, then Haumea would seem to operate at a collective Soul level, acting as a bridge between human consciousness and the Sacred Laws of Nature that sustain all Life.

She is named after the Hawaiian Goddess of childbirth and fertility - deeply connected to indigenous wisdom and to our ability to be creative and to birth and bring ideas to life, for according to mythology, Haumea could birth new worlds, whilst being said to possess endless regenerative powers.

Presently we are experiencing Haumea through the lens of Scorpio, where Haumea remains for the next twenty-three years, indicating an ongoing, psychological purging, and transmutation of our collective trauma over these next years. In many ways, Haumea is challenging an entire generation to birth a new world by confronting and clearing all that has remained hidden within the Shadow patterns - echoing the message of Gene Key 49, where the Earth is at the time of the Eclipse, to *Change the World from the Inside*.

To do this, Haumea on Gene Key 28 known as **Embracing the Dark Side**, assists us to move through **Purposelessness** to **Totality** to **Immortality**, which Haumea will be activating over the next five years.

'This Shadow cuts to the core of the deepest of all human fears – for the 28th Gene Key holds within its Shadow the primal fear of death. The 28th Shadow represents everything that you do not wish to accept within your psyche, right down to your core fear of non-existence. Only as you reclaim each of these dark aspects of your inner being can you begin to assemble and manifest the true purpose of your life. This is the magic and true purpose of the 28th Shadow.'

'Totality means to live alongside fear – and to live with the unexpected and to stay open to continual change whilst remaining committed. The Gift of Totality means to embrace the whole of your nature and the whole of life – the pleasure and the pain.'

'To be total in the sense of this Gift means to live without allowing your mind to dictate your life. It is a mythic path – a path that Jung called individuation. Shamans would call it the retrieval or incarnation of your full Soul.'

'The Siddhi of Immortality requires that the individual surrender him or herself into his own deepest fears and is reborn as Pure Consciousness.'

'When a being attains this state through the 28th Siddhi, they take on a particular mythology – their specific gift is to highlight the fears of others wherever they go.'

'This is simply an aspect of their awakening operating through their genetics - thus, they are said to have the gift of casting out demons, because this is precisely what their aura does. Through its Grace, it highlights the darker, unaccepted aspects of one's nature and absorbs them into non-existence.'

'Inside our body lies a great secret - mystically speaking, it is found in the 2nd line of the I Ching of the 28th Gene Key. These lines are the coding patterns of all creation. In the original I Ching this line was represented by an old tree putting forth new roots...it represents a place within our DNA that will one day switch on a gene sequence that causes the body and its systems to replenish themselves...this is a secret that will only be unlocked through the very highest frequencies of Grace.'

'As already stated, this Siddhi contains the seed of the manifestation of Immortality in form – when the elements of our future vehicle will coalesce and form another kind of vehicle to house the higher consciousness of humanity. In this vehicle the 28th Siddhi will come into fruition and in doing so it will synthesise the animal soul of Gaia with the human soul, thus making an immortal body. At a physical level man must absorb his entire animal nature into himself in order for its true purpose to be shown. Only then will we see for the first time the nature of the beast.'

Haumea is opposite to Chiron on Gene Key 27 and trine to Mars conjunct Ceres on Gene Key 15. Chiron brings the potential to heal the wounds and traumas that are being brought to the surface, individually and collectively, and Mars conjunct Ceres brings immense vitality and energy as an abundance of supply to assist this healing all aligning to Haumea in this ongoing transformation, that is being seeded at the time of this Eclipse.

Gene Key 15 is known as an ***Eternally Flowering Spring*** moving through ***Dullness*** to ***Magnetism*** to ***Floresence***.

'The 15th Gene Key is such a powerful portal into life's mysteries. It is one of the Gene Keys that bridges humans with other life forms and in doing so it connects us profoundly to the living spirit of nature or Gaia. The 15th Gift represents the inner barometer within your DNA to the Schumann Resonance – the Earth's heartbeat. Just as Magnetism holds families of the same species together people with the 15th Gift feel a deep kinship with humanity.'

'The Gift of Magnetism makes a person physically glow with life force - it is a Gift filled with enthusiasm and openness and Love. Trusting the natural ebb and flow of life's currents, the people embodying the Gift live closely with the Earth's natural rhythm and experience the wisdom and clarity of slowing down. There is a subtle shift in attitude that unlocks the hidden magnetic force in your DNA.'

'Harnessing the power of the natural world and magnetizing resource you begin to unlock the power in your aura to transmit and receive information between different life forms. Eventually as the frequency of your aura comes into perfect resonance it interlocks with the Earth Grid and your consciousness expands exponentially, becoming one with Gaia herself.'

Gene Key 27 moves through the Shadow of ***Selfishness*** to the Gift of ***Altruism*** to the Siddhi of ***Selflessness***.

'Known as the Doctrine of Harmlessness, the 27th Siddhi of Selflessness has manifested in the lives of many saints throughout history but this is not about being a do-gooder. Selflessness is an absolute pure yearning to provide succour to others. There is no sense of self-consciousness in it. Such people have made a quantum leap and the Siddhic energy available to them is enormous.'

'Despite endlessly giving of themselves to others, they are not depleted, but are continuously nourished by the refined currents of the aura of Love surrounding them. The Mathematics of Love are built into the structures of all life but only when we discover these laws will human beings realise their highest potential.'

*'Inherent in the 27th Siddhi is the realisation of the Divine law of Philanthropy – the Love of Humanity. At the Siddhic level this Gene Key becomes capable of miraculous healing. As long as there is an ounce of life force within something, the vast love coming through the 27th Siddhi can revive it. **Because this Siddhi draws upon the entire bio-energetic field of Gaia it has the capacity to heal any disease or sickness.***

*'The 27th Siddhi represents the possibilities of spontaneous healing not just within the human life form, but in all life forms. A mutation in human DNA presupposes a whole string of interconnected mutations throughout the chain of life. **If we change, the whole of Gaia changes with us....** It is not something we can impose from the outside, but a quality that must emerge organically from the inside, and as it does, it will begin to allow our DNA to mutate and uncover its higher functioning.'*

So, at this Time of Cosmic Change, we remember that through every incarnation lies an enduring geometry of **Perfection** an unbreakable, unshakeable Truth that the Light has never left us - it has simply been eclipsed by all that we have inherited, believed, feared and defended.

As these ancient patterns rise to be seen and released, in **Humility** we embrace the ideals of **Forgiveness** and **Rebirth** revealing the **Majesty** of our Being. These are not simply distant spiritual ideals. They are the higher resonances encoded within our DNA, quietly waiting to flower as we remember that we are on a timeless journey to discover that we are not separate from Universal Consciousness, from Gaia, or from each other but rather we are co-creators with all of Life.

Love and Blessings to All
