

Cosmic Overview

The Lions Gate and Leo New Moon Total Eclipse 2026

Just as it is Fire's nature to burn, it is meditation's nature to heal, to bring Peace and to uplift you beyond your worldly environment.

Alice Coltrane

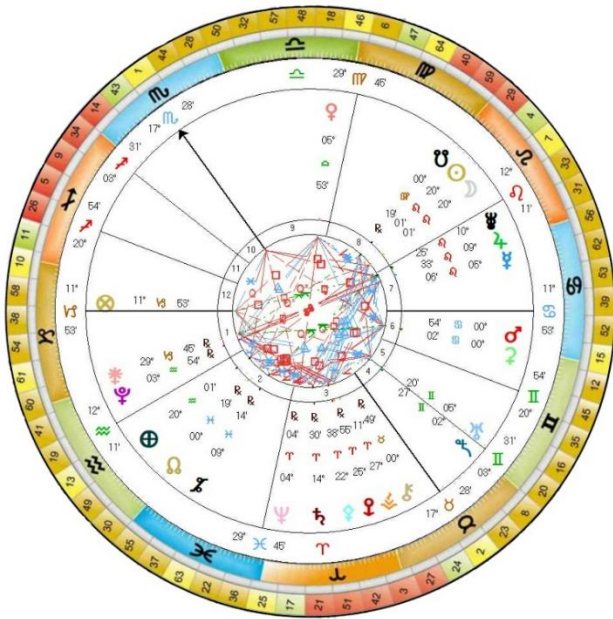

Passing through the Fire of meditation, everything that is not your authentic reality, everything that is borrowed, will be burned away.

Osho

The regenerated do not go to war, nor engage in strife - they are children of Peace.

Menno Simons

'I AM' the Light of the Soul

The New Moon will take place at 20⁰ Leo 01' on the 12th or 13th of August, depending upon where you live in the world.

August is seen as a powerfully transformative month astrologically, and this year is no exception. The Lions Gate reaches its maximum alignment on the 8th when the combination of the physical Sun and the Star Sirius acts as a Cosmic amplifier that expands, purifies, and accelerates the Light of human consciousness.

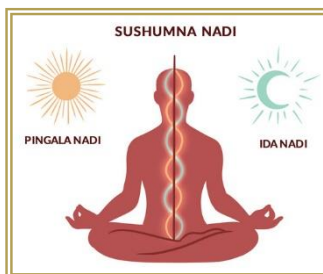

Then at the time of the New Moon on the 12th of August, there will be a Total Solar Eclipse which again amplifies, this cleansing, refining and realignment that occurs when the Sun and Moon merge together blending the conscious and subconscious – a window in which our consciousness can reorganise itself.

Eclipses reduce the dominance of our lower mind perception, allowing deeper levels of awareness to impress themselves upon the consciousness. A Total Solar eclipse is a moment when we can become more permeable, more receptive, to the greater evolutionary cycles. The usual dominance of the analytical mind softens, allowing ancestral memory, collective consciousness, and the primordial intelligence that is held within the Kuiper Belt realms to become more accessible.

If the Trans-Neptunian bodies carry the memory encodements of vast evolutionary cycles, then an eclipse appears to be one of the natural 'Gateways' through which these deeper frequencies are more readily received by humanity, a moment in time, when the timeless patterns held within the greater Cosmic field briefly come into closer alignment with the evolving consciousness of the Earth and of each receptive human being.

However, rather than a Solar Eclipse occurring to an individual, it becomes an invitation for the individual to consciously participate in an ongoing evolutionary process. At the time of an eclipse, instead of consciousness flowing primarily through the polarity of the mind, there is the possibility of a deeper still point emerging.

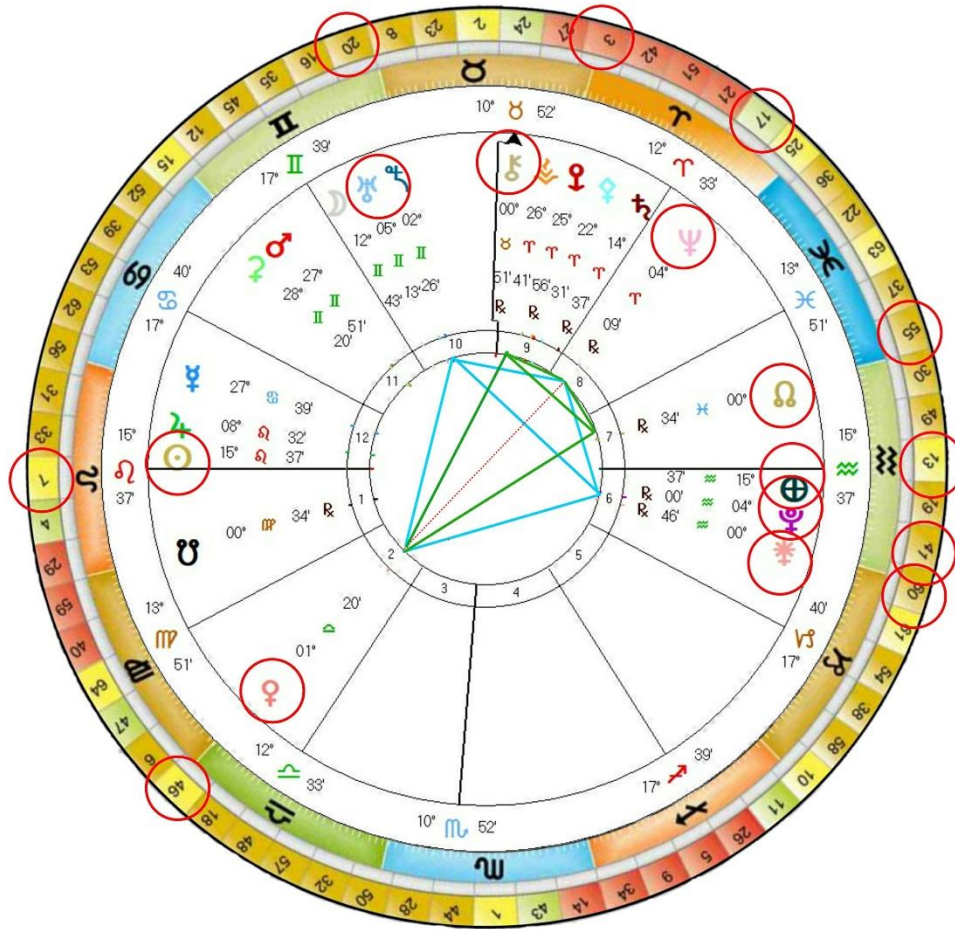

Many mystical traditions describe this Still Point as the doorway through which higher consciousness descends, not because we reach upward, but because our inner noise and fragmentation quieten.

On the micro level this inner stillness is reflected within the etheric levels of the Ida (Moon Feminine Magnetic), and Pingala (Sun Masculine Electric) coming into a state of balance and harmony so that the Sushumna (Spirit) channel may become aligned and receptive.

Millions of Souls born between 1939-1957 have Pluto in Leo. Their purpose is to bridge immense shifts of consciousness and change - to break the limiting thought forms of the past, revealing a new foundational field for humanity's group consciousness. Known as the 'Me' generation, the focus on the 'self' that took place when Pluto was in Leo has been evolving towards a 'Universality' that will reveal the 'Soul-Centred Exaltation' of Pluto in Aquarius, as the lower mind becomes fused with the Soul.

Chart for the Lions Gate at Giza 2026

The Heliacal Rising of Sirius 8th August 2026 05:22:42 am BST Giza Egypt

<https://www.timeanddate.com>

There will be a couple of charts to look at for the New Moon in Leo, but starting with the Lions Gate you will see that the Sun and Ascendant, at the time of the Heliacal Rising of Sirius in Egypt, is at 15° Leo 37' on Gene Key 7 and that Venus ♀, on Gene Key 46, is the pivotal planet at the time of the Lions Gate as it is activating a Kite formation via the Minor Grand Trine of Uranus ♃ Neptune ♆ and Pluto ♇.

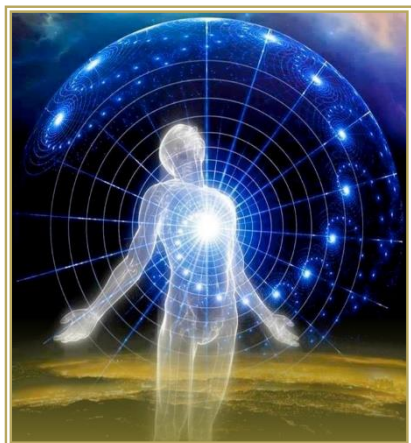

At the same time Venus forms a Yod, a Finger of God, with Chiron ♄ and the Mean North Node which is in the final days of Gene Key 55. By the 18th of August the Mean North Node ♏ will move into Aquarius, and onto Gene Key 30, (where the True North Node already is), so the Lions Gate is focussing the collective consciousness of humanity, as it moves through the Great Change, through a refinement, and an integration of heightened, emotional, Soul response to Life, which we are passing through right now.

Gene Keys 55 and 30, the keys holding the North Nodal point, speak of moving from **Victimhood** to **Freedom** through **Lightness** and **Rapture**.

*'As we begin the process of transcending our Shadows, miracles can occur in our lives. **Much of the 55th Gene Key concerns the future of our species as it moves through the Great Change.** Down the centuries much has been written, spoken and taught concerning the nature of higher consciousness. **We are now entering an era in which more and more people will have direct access to an experience of true higher consciousness.'***

*'There will be a genetic mutation that will slowly colonise our species. **The old human will literally be bred out of humanity.** This vast and dynamic change is being triggered by this 55th Gene Key and its related amino acid histidine. Soon there will be children born among us who carry the full mutation and who will spread it through the gene pool. **Freedom is the spirit of the 55th Gene Key - it is the spirit of humanity.'***

The True North Node on Gene Key 30, known as **Celestial Fire**, is part of the **Ring of Purification** moving through the Shadow of **Desire** to the Gift of **Lightness** to the Siddhi of **Rapture**.

'Humanity is designed to move through a vast evolutionary cycle in which it is progressively purified. Such purification can only take place through the Shadow frequency since this provides the raw material for a higher state of consciousness.'

'All Life follows a mythical script or storyline and you can only see your life from this expanded awareness when you have escaped feeling that you are a victim of it. As you move into the higher frequencies of the 30th Gift you begin to understand that beneath the thousands of desires that pass through your emotional system, each day, there is a single underlying desire that gradually becomes stronger and stronger – the desire to end your own suffering - this desire leads all human beings on the path of Spirituality and inner inquiry.'

'The 30th Siddhi and its partner the 29th Siddhi represent an archetypal stream within your DNA that causes powerful mutations in your endocrine system leading to states of great devotion and Divine Rapture. In the 22nd Gene Key there is a detailed description of the seven subtle bodies of the human aura. The process of transcendence through this 30th Gene Key directly mirrors the purification of the astral body (2nd) and its assimilation into the higher Buddhic body (5th).'

'The state of Divine Rapture is akin to being burned by the fires of Bliss over and over again. These are the people who are so flammable that the smallest thing will set them off and whoever comes near them will very likely catch their devotional energy, for the nature of the mutated Solar Plexus system, which is where the 30th Siddhi lies, carries this purified frequency out through the aura into the morphogenetic field. They have stepped willingly into the fires of annihilation - into the primal chaos of Divine Frequencies with just the desire to transcend.'

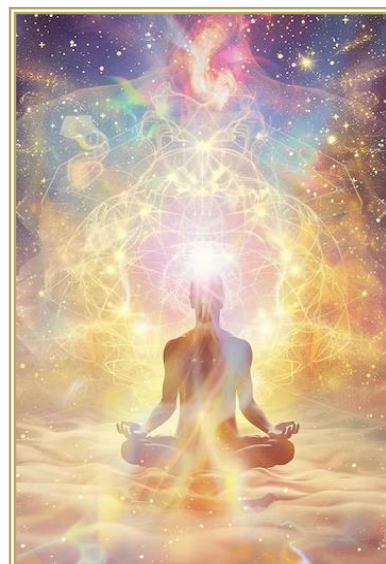

At the time of the 8:8 Lions' Gateway, Venus on Gene Key 46, is opposite to Neptune, and trine to both Uranus and Pluto, magnetising and absorbing the heightened, refined energies of these Transpersonal planets, assisting us to release the Shadow of **Seriousness** held within the collective consciousness, to move into the Gift of **Delight**, which ultimately will reveal the Siddhi of **Ecstasy**

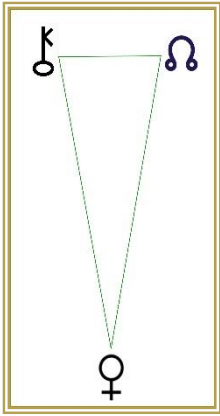

'The 46th Gene Key relates to your first seven year cycle in which all your Shadow patterns are hotwired into your physical structure – your posture, your breathing patterns and your relationship to the physical world through touch. When you move through life with an attitude of Delight and openness, whatever happens is correct. If your attitude remains open and accepting you will see that the Universe is at work in you. Synchronicity is an energy field available to all with or without the 46th Gene Key in their profile. The only prerequisite for tapping into synchronicity is this Delight.'

'Ecstasy is not a word that most people consider when they think of themselves and their lives. Yet it is this block at the mental level that keeps us at a frequency far from Ecstasy. If you can open your heart to receive the frequencies they represent, the frequencies will begin to seek you out, for Siddhic states are all a matter of magnetism.'

'People who manifest this Siddhi cannot go unnoticed in the world. The Love that swirls around them is so tangible that it can even be felt by people of the densest frequency. It is not that this 46th Siddhi is any more powerful than any other Siddhi, but that this manifestation of Divine consciousness is so close to the physical realm and it emerges through the physical body.'

'Matter is penetrated completely by the Spirit. Such men and women – the ecstasies – have not always found it necessary to remove themselves from the world, but have found their love within the world of ordinary life.'

Venus forms a Yod, a Finger of God, with both Chiron and the North Node. The North Node points towards humanity's evolutionary path, while Chiron reveals where our perceived wounds become the very doorway through which the Soul awakens.

Chiron has now returned to Taurus, the sign it occupied when it was first discovered in 1977. Symbolically, that discovery coincided with a profound shift in human consciousness, as increasing numbers of people began moving beyond purely personal development towards a more conscious participation with the Soul.

In June 2027, Chiron will complete its first full orbital cycle since its discovery, returning to 3°Taurus 08'. So, you could say that Chiron is presently passing through the symbolic twelfth house of its own evolutionary journey - a period of completion, integration, and preparation before a new cycle begins.

For almost fifty years, Chiron has accompanied humanity through an extraordinary era of awakening. During this time, the focus has gradually shifted from simply healing the wounds of the personality to recognising the timeless Presence that has always existed beneath them. The wound itself is no longer seen as the destination, but rather how the Soul becomes more fully embodied. Chiron serves as an initiator, reminding us of our essential nature beyond the stories we have inherited or created. It carries the impulse of Christ Consciousness - not as a distant ideal, but as the living Presence of Unconditional Love, that seeks expression through human life in miraculous ways.

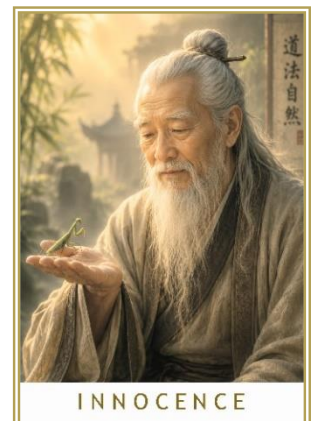

At this moment in time, Chiron is on Gene Key 3 which is known as ***Through the Eyes of Child*** moving through the Shadow of ***Chaos*** to the Gift of ***Innovation*** to the Siddhi of ***Innocence***.

'The 3rd Shadow lies at the core of all our beliefs that the human individual is basically powerless in comparison to nature or the infinite. This is the programming domain of both religion and science, the two cornerstones of human belief.'

'Individuals working from the Shadow of the 3rd Gene Key are trapped in a 'separation' consciousness by their own thoughts – thoughts that are coming from a primitive and defensive level. This 'separation' consciousness creates Chaos by resisting the very changes that are required in order to survive and thrive.'

'As a planetary consciousness we now stand before a great evolutionary fork, and humanity's response to this threshold must either lead us to chaos or to cosmos. Never before in history has the future of our entire planet and all its organisms hung in the balance of human behaviour. When you allow the environment to mutate you, the greatest magic is revealed to you, that in Chaos, there is, and always has been, a vast underlying transformative order.'

'Life itself is designed to transcend its own initial programming and discover new and higher forms of consciousness. Beyond selfishness and chaos lies co-operation and Innovation. The Gift of Innovation is far more exciting than simply being creative. It implies that you have permanently escaped the fear-based perspective of the Shadow frequency.'

'Innovation requires a deep sense of inner trust. In order to be truly innovative, you have to attain a very high frequency that allows you to go beyond the collective worldview. All preconceived notions, dogmas, or beliefs must be discarded when they no longer serve the developing synthesis. The Gift of Innovation requires you to become as open hearted and open minded as a child.'

'As the 3rd Siddhi comes into the world, which it will do very shortly, a great remembering of our Innocence will emerge in humanity. We are all really children – children of the Cosmos and our only real job is to let go of our seriousness and find the delight in every exquisite jewel that life places before us.'

'At the absolute zenith of its frequency, the 3rd Siddhi is about Innocence. This Siddhi reminds us that all of life, and that includes human beings, is essentially innocent. Life is Innocent, we are Life and therefore we are Innocent. One day Humanity will evolve towards its awesome final destiny of Global and Celestial harmony.'

Closing this part of the Cosmic Review, before reading about the New Moon Solar Eclipse on the 12th, gives an opportunity to integrate the message of this Lions Gate, that is flowing down through the Cosmos via the Sun and Sirius, into the Earth, so that we may more fully participate with the Eclipse.

Each year on the 8th of August, the Sun stands at approximately 15–16° Leo, the midpoint of the sign. In Esoteric Astrology, the middle degrees of a sign are understood to express its archetypal qualities with particular clarity and potency. In Leo, this is the radiant, courageous, heart of the Lion, where personal identity is invited to mature into Soul consciousness, allowing the individual to become a living expression of coherent Heart energy.

The White Lions of Timbavati beautifully embody this message. Beyond their extraordinary physical presence, they hold a sacred place within the oral traditions of the Sepedi-speaking peoples of the Timbavati region, the Zulu nation, and other Indigenous cultures of Southern Africa.

In Zulu tradition, the White Lion is known as Ngonyama Emhloph - '**The King of Kings**' - whose appearance heralds a time of profound significance when humanity is called to restore its relationship with the natural world, and the Elemental Kingdoms. Even the name Timbavati is traditionally understood to mean '**The place where something sacred came down from the Stars,**' reminding us of the enduring relationship between the Earth and the Cosmos.

This symbolism becomes even more striking when we recognise that, each year on the 8th of August, the Sun occupies Gene Key 7. It is as though the Lion's Gate carries a living transmission concerning the nature of true leadership. Gene Key 7 is known as **Virtue is its Own Reward** moving through the Shadow of **Division** to the Gift of **Guidance** where the Siddhi of **Virtue** lies waiting to be revealed.

'It is through the 7th Shadow that we are programmed to follow leaders and it is also through this Shadow that certain people are programmed to behave as leaders. The 7th Shadow of Division is one of the main reasons human society operates in hierarchies. This division is rooted far more deeply than our psychology – it is actually stamped upon our genes. As the mass consciousness of humanity operates at a low frequency, it does not recognise high frequency leaders, so it does not elect them to power.'

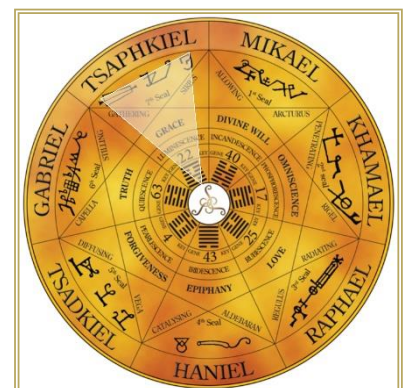

'The 7th Gift of Guidance rests upon the ideal of service. Great guides are great listeners. People with the 7th Gift have a powerful magnetic presence and just from being in their aura you can come to deep clarity about your own direction.'

'These people can in particular assist others to see future patterns – for their Guidance is in alignment with future needs. Often they lead from behind the scenes – for history show us that many of the greatest leaders pass unrecognised during their own lifetime.'

'Leadership is determined by genetics, but the quality of leadership is determined by the frequency passing through those genetics. Here in the 7th Siddhi we find visionary leaders, but far more importantly, we find virtuous leaders. The Kabbalists have a phrase – repairing the world – they say that when the Creator created the world he created a series of vessels to hold the Divine Light, but as the Light flowed down into these vessels they shattered and fell towards the realm of matter.'

Thus, we now live in a world of countless shards of the original vessels in which the Divine Light is trapped. They say that every virtuous act committed by a human being helps to repair one of these broken vessels. The 7th Shadow is the force that shatters the vessel, the Gift of Guidance begins the process of reuniting the shards and the one in whom the 7th Siddhi manifests becomes the Adam Kadmon – the perfected vehicle of Divine Realisation.'

The 7th Siddhi of Grace waits for a specific moment in time to awaken in the collective. **In the book of Revelation this 7th Siddhi is represented symbolically by the opening of the Seventh Seal, which precedes the return of Christ Consciousness.'**

The Earth at the time of each Lions Gate is on Gene Key 13 known as ***Listening Through Love*** having the purest Siddhi quality of ***Empathy***.

'The 13th Siddhi like its partner the 7th Siddhi has much hidden wisdom within it. Our DNA is an incredible substance – it contains all the memories of our entire species and even those earlier life forms from which we descended. Like a fractal shard of God itself, DNA forms the living vibrating link to the beginning of life on this planet. Even more profoundly it connects us to the seed from which our very Universe first sprouted.'

'It is through the 13th Siddhi that information from our collective past can be recovered. We are not just talking information here. The 13th Siddhi can unlock the essence of what it is to experience being a wild panther, or a strawberry, or a mollusc. The Siddhi of Empathy requires complete dissolution of the individuated self. Once identification with one's form has been cut Empathy reveals itself as the background awareness of all living forms.'

'Through the Ring of Purification the 13th Siddhi opens its eyes on a new world – a world in which the past has been magically transformed into a radiant new future. Human addiction to Desire ceases in this Siddhic state and it is said that one's spirit no longer returns to Earth but takes birth in higher spheres of existence.'

In closing this part of the Cosmic Review, it becomes clear that, at the time of the 8:8 Lions Gate, each year, the Sun, Sirius, the Lions, and Gene Keys 7 and 13 are all pointing towards the same timeless message, that deep within our cellular being Light is waiting to be remembered and revealed - that true Leadership is about becoming so inwardly aligned with the Soul that one's very Presence becomes a Blessing to the World, and that this is the inner pathway for every human being.

Love and Blessings to All
