'I AM' the Blended Dual Light

The New Moon will take place at 18° Virgo 25' on the 10th or 11th of September, depending upon where you live.

The New Moon in the Virgoan Constellation flows through the magnetic/feminine pulse of the 2nd Ray of Love and Wisdom and the 6th Ray of Devotion and the purpose of Virgo is to prepare, purify and heal the physical form so that it is more receptive to Light.

Virgo represents the Mother Principle, the magnetization or gathering in of information, consciousness, and awareness for the growth of the Soul.

At the personality level, Virgo, like Gemini, has Mercury as the planetary ruler, on the 4th Ray of Harmony Through Conflict. At the Soul Level, the Moon, on the 4th Ray of Harmony through Conflict rules, having as its purpose the dissolving of personal opinions.

Once the mind is cleansed of these inherited beliefs and opinions, it may once again be utilised for its true purpose - the directing of thought, both conscious and unconscious, to the restoration of harmony and health, which ultimately creates an inner stillness and silence resulting in the blending and balancing of Spirit and Matter.

Looking at the astrological symbol for Mercury you can see that it represents the inner alignment of the mental, emotional and physical bodies operating as one Soul focus into the outer world – for the Cross of Matter, the Circle of Spirit and the half Circle of the Soul all align to create the true essence of Mercury's impetus.

When aligned, and unobstructed, then the Light of Source can flow directly into the form. Virgo is involved with the synthesis of information, the mental realm, retaining only what is beneficial and releasing all that interferes with this free-flowing interchange of Light – known as sorting 'the wheat from the chaff.' All the words that are used to describe the Siddhis, speak of Qualities, States of Consciousness, that hold frequencies of Light that are absorbed into the vibrational Essence of Self.

Two millennia ago, Christ taught and demonstrated the power of pure Universal Loving Consciousness to radically change the atomic, physical world, and also to reveal the reality of the Light Body, held within the physical form and DNA, which we have called miracles.

These timeless teachings remain as pertinent as ever as we stand at the crossroads of a rapidly developing technological world. We are being guided to awaken and to remember all that is within our physical and etheric bodies which is held within our latent genetic codes.

For just as Jesus incarnated to usher in the Piscean Age, so we now collectively, as we enter into the Aquarian Age, are being asked to be the Organic Embodiment and Harvest of all that was shared and taught 2000 years ago, so that we may magnetise, and anchor the incoming Galactic energies through clear vessels for this next evolutionary Cycle.

Every cell in my body is strong, vibrant, and renewed by the Divine Life flowing through me. Joseph Murphy

At the time of this New Moon there is a Kite Formation formed between Uranus ♅ Sedna ♄ Neptune ♆ Pluto ♇ and Mercury ☿ which is also creating a Finger of God pattern with Chiron ♄ and Astrea ♂ which you may remember was the patterning that was occurring at the time of the Lion's Gate back on the 8th of August, but then it was Venus ♀ that was the focus for the outer planetary alignments.

As has been shared, the transpersonal planetary energies of Uranus, Sedna, Neptune and Pluto are forming a Minor Grand Trine in the sky until 2028 and so as the personal planets orbit the Sun when they come opposite to Neptune they create a Kite, which basically means that the personal planets are systematically being upgraded with the higher frequencies, flowing through the Galaxy, as they are impressed by the Minor Grand Trine.

In 2025 Mars Mercury and Venus, each created this Kite in August, September and October. This year Venus was opposite to Neptune from August 4th to the 12th with Mercury now in that position, to anchor the heightened transpersonal energies directly into our Central Nervous from September 11th to the 14th. Then in 2027 Mars Mercury and Venus will complete this Cosmic dance during July and September.

There is a precise Cosmic Orchestration occurring that is weaving Galactic Light directly into our etheric bodies and DNA. Sedna, as part of the Minor Grand Trine, out in deep space, is upgrading the energetic field for the next eleven-thousand-year orbit around the Sun, gathering up all that is not conducive for this next cycle, clearing away misaligned thought and emotion to enter into a more cohesive and coherent field.

You will see that at the time of this New Moon the Sun ☉ and Moon ☾ are at 18° Virgo 26 exactly conjunct a Trans Neptunian Body, called Chiminigagua. In mythic astrology, a TNO's meaning is derived from its discovery circumstances and its mythological namesake.

Chiminigagua's name comes from the Muisca people of the Colombian Andes. The Muisca are recognised to be one of four great civilisations alongside the Aztec, Mayan and Inca, each of which were heavily aligned to observing and understanding the Cosmos as Astronomers and Timekeepers.

The primary site for honouring Chiminigagua was the Sacred Sun Temple in Sogamoso, in the Andes mountains of Colombia. This temple acted as an astronomical observatory where priests used alignment markers to predict eclipses, seasons, and cycles.

According to the Muisca, unlike planetary bodies that represent specific functions of consciousness, such as Mercury for thought or Mars for action, Chiminigagua represents the Omnipresent, Primordial Source from which all functions and forms arise. Before the Universe came into manifestation, there was only darkness and the infinite void. Within this primordial stillness, Chiminigagua existed as pure, unmanifested Light. From this Source, Light was sent forth, giving birth to the Sun and Moon illuminating the Cosmos. Mythologically, Chiminigagua carries the archetypal theme of unmanifested potential becoming manifested Light - the invisible Source awakening into form.

The Sun Moon, and TNO Chiminigagua, are on Gene Key 47, which aligns perfectly with the mythology – for Gene Key 47 links to our non-coding DNA, or, put another way, the latent potential that is waiting to emerge. Gene Key 47 is known as **Transmuting the Past** moving through the Shadow of **Oppression** to the Gift of **Transmutation** to the Siddhi of **Transfiguration**.

'The 47th Shadow is the storehouse of human karma. What we term as karma really refers to memory, but not memory as we commonly understand the term. This is genetic memory carried in our blood from our ancestral lineage. In genetics the 47th Shadow refers to what is called non-coding DNA or 'junk' DNA. The fact is that every human being carries the entire evolutionary memory of humanity within their body and is unconsciously driven by this memory.'

'The 47th Shadow is an access portal through which these deep memories and fears flow into our waking consciousness. This is why the ancient Chinese named this hexagram Oppression, because such fears become major burdens in our life if we do not face them directly. The bottom line with the 47th Shadow is that unless you face your own unique fear archetypes you cannot open the portal to inner Transmutation that is the 47th Gift. Your suffering is a magic mirror – it's yours to own, to appreciate and to accept. Only when you finally stop trying to avoid it, can it show you its magic.'

'It is through the Gift of Transmutation that the true purpose of your hidden genetic programming - the junk DNA – is finally revealed. Geneticists know that all life evolves through the process known as mutation. Beneath what the left-brain scientists misread as chaos hides one of the great secrets of creation. The alchemical process of Transmutation consists of an endless series of small mutations leading to a finite number of transmutations. These Transmutations are huge turning points in your life. To transmute is to make a quantum leap into a whole new dimension.'

'Through this ongoing process of Transmutation you gradually sift through the junk DNA and in doing so you begin to see your life on a much wider level of reality. The only way to read these codes is to live them and as you do, they unwind and reveal their true purpose - to return you to the very Source of Consciousness from which you came.'

'The 47th Siddhi reveals the ultimate purpose of the non-coding DNA within the body, which actually does code for a process within the physical body. The Life of Jesus Christ is in fact the perfect mythic enactment of all the stages of alchemical transmutation ending in this state of Transfiguration.'

'The force of transmutation strips you emotionally and mentally to such an extent that it eventually reaches down into the physical matter of your body. The power of the myth then takes over and the very cells of your body begin to transmute into the pure light frequencies from which they are made. The elements that make up your body were made in stars and you turn back into a star in your own mini supernova.'

'Humanity stands upon the threshold of one of its great Transmutations. As a species we are moving through the symbolic time of our crucifixion and crucifixion precedes Transfiguration. Our crucifixion means everything that is old must leave the world as a new Light emerges. As each individual faces, embraces and transmutes the collective fear that lies within the heart of every human's DNA we are Transfigured by Divine Grace – accessing the Divinity that lies within each and every one of us.'

And right now, at the time of this New Moon the Earth is passing through Gene Key 22 which is known as **Grace Under Pressure** assisting us to move through the Shadow of **Dishonour** to the Gift of **Graciousness** to the Siddhi of **Grace** – the portal to the opening of the Seventh Seal.

'From the point of view of the 22nd Gene Key every feeling mood or thought you have is put there directly by God for you to trust in it. You do not have to act the energetic out, you can work to internally transmute, heal and integrate the resonance, but in subduing it or denying it you are Dishonouring and distrusting the feeling resonance.'

'At the Shadow level you are trying to change or fix your moods rather than allowing them to simply pass through your system naturally. If you do not take responsibility for your thoughts, words, actions and feelings then life simply sends the same forces back toward you again and again.'

'Whenever you project negative emotional power at another you Dishonour both yourself and the other person. One of the great Cosmic Laws is the Law of Divine Memory. This Law states that all thoughts feelings and acts are recorded everywhere within the body of the Universe.'

'Graciousness is a rare and beautiful quality that has a profound effect on everyone it touches. It means that whatever you do in life you always consider the feelings of others. Just like the Shadow, the 22nd Gift is extremely powerful in its effect upon others, but at this level the Gift of Graciousness can greatly help others to become free of their negative charged emotions. It is the ability to live life to the full, holding no feelings back, whilst at the same time having deep respect for the feelings of others'

'With the Gift of Graciousness, you begin to disperse your own Karma and that of your ancestral DNA. The Gift of Graciousness might also be called the Gift of the Soul. Above all else this is the Gift of living life from a place of deep Love.'

'As you see from the 22nd Shadow, there is nowhere you can hide in this Universe. Everything is heard and recorded. Neither can you hide from Grace, for Grace is your true nature. It is your inheritance. It is the Soul of the World. It is also a state that is beyond the Laws of our world. Grace is the breath of the Divine.'

'When true Grace descends it wipes out all your past karma in a flash. It also wipes out the Karma of all your ancestors and all their ancestors. Grace softens and puts an end to fear and leaves you in no doubt about your Divinity.'

'With Grace all human emotion is instantly transformed into Love. It is not a state with which most human beings are very familiar. As a species however we are moving into a new epoch that will be marked by Grace. As each of the seven seals is opened the world we have become used to will begin to drop away. In its place will rise, shining and resplendent, the new heaven and the new earth.'

'As a feminine spirit, Grace calls upon each of us to listen and receive her message and blessings. Above all, remember this: through Grace, the Universe has but one single wish – for you to remember that you are Love and there is nothing in you but Love.'

Mercury, which is central to this New Moon, as it connects to the Minor Grand Trine of Uranus, Neptune, and Pluto, and equally is at the apex of the Finger of God, directly opposite to Neptune, and connecting to Chiron, Astrea and the North Node.

Neptune is the higher octave of Venus and brings in a quality of unconditional Love and Grace, which requires us to heal (Chiron) the way in which we articulate our speech and thoughts, based on personal opinions and beliefs (*Mercury*) if we are to move into the next Golden Age (Astrea) and embody our Soul's purpose (North Node).

The combination of Mercury opposite to Neptune, focussing on Gene Key 46, moving through the Shadow of **Seriousness** to the Gift of **Delight** to the Siddhi of **Ecstasy** and Gene Key 25 guiding us beyond **Constriction** to **Acceptance** so that we may become the embodiment of **Universal Love**, is the central focus coming down through the Cosmos that will enable us to move into the next evolutionary cycle for humanity.

'The 46th Gene Key relates to your first seven-year cycle in which all your Shadow patterns are hotwired into your physical structure – your posture, your breathing patterns and your relationship to the physical world through touch.'

*'When you move through life with an attitude of Delight and openness, whatever happens is correct. **If your attitude remains open and accepting you will see that the Universe is at work in you.** Synchronicity is an energy field available to all with or without the 46th Gene Key in their profile. The only prerequisite for tapping into synchronicity is this Delight.'*

*'Ecstasy is not a word that most people consider when they think of themselves and their lives. Yet it is this block at the mental level that keeps us at a frequency far from Ecstasy. **If you can open your heart to receive the frequencies they represent, the frequencies will begin to seek you out, for Siddhic states are all a matter of magnetism.'***

*'People who manifest this Siddhi cannot go unnoticed in the world. **The Love that swirls around them is so tangible that it can even be felt by people of the densest frequency.'***

'It is not that this 46th Siddhi is any more powerful than any other Siddhi, but that this manifestation of Divine consciousness is so close to the physical realm and it emerges through the physical body.'

*'**Matter is penetrated completely by the Spirit.** Such men and women – the ecstasies – have not always found it necessary to remove themselves from the world, but have found their love within the world of ordinary life.'*

Neptune on Gene Key 25 is the **Myth of the Sacred Wound**, which is really the unresolved, painful, limiting belief systems that we have inherited from the collective consciousness into which we have been born.

*'At the Shadow frequency, the wound maintains human suffering, **at the Gift frequency the wound provokes humanity to evolve** and at the Siddhic frequency the wound reveals humanity's true nature as an Expression of Universal Love.'*

*'The 25th Siddhi is one of the Seven Sacred Seals - a mystical group of Gene Keys whose collective role is to heal the Sacred Wound within humanity. **The 25th Gene Siddhi is the 3rd Seal, and it heals the human wound of shame.'***

*'The 25th Gift makes it difficult to hold any resentment, judgement or indeed worry about life – for now you are carrying the Seed of Love. **When you can finally accept everything in your life just as it is right now you will have embraced the human wound.** The 25th Siddhi is Love itself as the Source of all and in this sense, it can be called Universal Love. It is the embracing of the Collective wound. All that Love locked away in our DNA. **The DNA is just filtering it through the memory – the ancient memory.***

'Every time someone attains the 25th Siddhi a great genetic constriction is removed throughout Humanity. The bodies of these people have undergone a radical transformation in order to be the receiver or chalice for pure Consciousness'

'This is the embracing of the collective wound. It is the passage to Christhood, or Buddhahood. We cannot 'get' there. We just have to keep on opening, accepting, and the path leads us there of its own accord. It is our natural state.'

Chiron remains on Gene Key 3, having entered that part of the sky in early April this year, which is where it will remain until 12th April next year. Chiron carries a high vibrational frequency more in tune with the Soul than the physical form and serves as an initiator, reminding us of our essential nature beyond the stories we have inherited or created. It carries the impulse of Christ Consciousness - not as a distant ideal, but as the living Presence of Unconditional Love.

Gene Key 3 is known as ***Through the Eyes of Child*** moving through the Shadow of ***Chaos*** to the Gift of ***Innovation*** to the Siddhi of ***Innocence***.

'The 3rd Shadow lies at the core of all our beliefs that the human individual is basically powerless in comparison to Nature or the Infinite. This is the programming domain of both religion and science, the two cornerstones of human belief.'

'Individuals working from the Shadow of the 3rd Gene Key are trapped in a 'separation' consciousness by their own thoughts – thoughts that are coming from a primitive and defensive level. This 'separation' consciousness creates Chaos by resisting the very changes that are required in order to survive and thrive.'

'As a planetary consciousness we now stand before a great evolutionary fork, and humanity's response to this threshold must either lead us to chaos or to Cosmos. Never before in history has the future of our entire planet and all its organisms hung in the balance of human behaviour. When you allow the environment to mutate you, the greatest magic is revealed to you, that in Chaos, there is, and always has been, a vast underlying transformative order.'

'Life itself is designed to transcend its own initial programming and discover new and higher forms of consciousness. Beyond selfishness and chaos lies co-operation and Innovation. The Gift of Innovation is far more exciting than simply being creative. It implies that you have permanently escaped the fear-based perspective of the Shadow frequency.'

'Innovation requires a deep sense of inner trust. In order to be truly innovative, you have to attain a very high frequency that allows you to go beyond the collective worldview. All preconceived notions, dogmas, or beliefs must be discarded when they no longer serve the developing synthesis. The Gift of Innovation requires you to become as open hearted and open minded as a child.'

'As the 3rd Siddhi comes into the world, which it will do very shortly, a great remembering of our Innocence will emerge in humanity. We are all really children – children of the Cosmos and our only real job is to let go of our seriousness and find the delight in every exquisite jewel that life places before us.'

'At the absolute zenith of its frequency, the 3rd Siddhi is about Innocence. This Siddhi reminds us that all of life, and that includes human beings, is essentially innocent. Life is Innocent, we are Life and therefore we are Innocent. One day Humanity will evolve towards its awesome final destiny of Global and Celestial harmony.'

Chiron is sextile to the asteroid Astrea which is on Gene Key 55, forming a Finger of God, or Yod with Mercury.

Astrea was said to be the last immortal to leave the Earth, before the darkening of the Light and the archetypal essence of this asteroid, named in her honour, is assisting us to awaken to the remembrance of the last Golden Age, which is ushering in a shift in humanity's consciousness, from an essentially material understanding of reality towards an awareness of the Light and Consciousness that lies within all matter.

Gene Key 55 moves through the Shadow of **Victimisation** to the Gift and Siddhi of **Freedom**.

'Our DNA holds our greater Self – the Cosmic part of each of us that transcends our mortal body has lain secretly hidden inside humanity for aeons. The 55th Gene Key allows us to contemplate and to quicken the actual process of awakening.'

*'At the Shadow level of Victimization as human beings we become our own worst enemy. We are not victims of our experiences we are victims of our attitude towards our experiences. **This human tendency to look for outer causes for our moods is the greatest addiction on our planet.** When we look to blame others we become caught in a web - we become addicted to the Drama and the Romance of life – the highs and the lows – **all rooted in your unconscious attitude to Life.***

*'As we begin the process of transcending our Shadows, miracles can occur in our lives. **Much of the 55th Gene Key concerns the future of our species as it moves through the Great Change.** Down the centuries much has been written, spoken and taught concerning the nature of higher consciousness. **We are now entering an era in which more and more people will have direct access to an experience of true higher consciousness.***

*'There will be a genetic mutation that will slowly colonise our species. **The old human will literally be bred out of humanity.** This vast and dynamic change is being triggered by this 55th Gene Key and its related amino acid histidine. Soon there will be children born among us who carry the full mutation and who will spread it through the gene pool. **Freedom is the spirit of the 55th Gene Key - it is the spirit of humanity.***

The North Node informs our spiritual purpose and direction, and has been on Gene Key 55 for several weeks but has now moved to Gene Key 30, requiring us to have moved beyond any sense of Victimization, if we are to become the embodiment of **Celestial Fire** radiating **Lightness** and **Rapture** - the Gift and Siddhi of Gene Key 30 when the Shadow of **Desire** has been integrated.

'The 30th Gene Key activates the Group Consciousness to hunger for experience. In our desire to experience life we make mistakes and gradually learn to evolve through trial and error.'

'Gene Key 30 is part of the Ring of Purification and it bonds with the 13th Gene Key Shadow of Discord and Pessimism. Humanity is designed to move through a vast evolutionary cycle in which it is progressively purified.'

'Such purification can only take place through the Shadow frequency since this provides the raw material for a higher state of consciousness. What the 30th Shadow of Desire does is emotionally fuel your mind to try and find a way of escaping the yearning, or at the very least venting it in some way.'

*'However, as every human being learns, the cycle of Desire is eternal. **Fighting an evolutionary force as powerful as Desire is what causes human beings so much suffering in the first place** – so what is the future for a race that is caught in such a paradox – as ever the answer lies within the higher Gift frequencies of this Gene Key. **There are two possible human responses to a paradox – either you become tense or you surrender to it.** The Gift of Lightness does not make you immune to desire, but neither does it cause you to react to desire. This is a Gift that knows desires do not necessarily have to be followed, but they do have to be felt.'*

*'As you move into the higher frequencies of the 30th Gift you begin to understand that beneath the thousands of desires that pass through your emotional system, each day, there is a single underlying desire that gradually becomes stronger and stronger – **the desire to end your own suffering.***

This desire leads all human beings on the path of Spirituality and inner inquiry. It is the desire to Ascend - to be free. The 30th Siddhi and its partner the 29th Siddhi represent an archetypal stream within your DNA that causes powerful mutations in your endocrine system leading to states of great devotion and Divine Rapture.'

'They have stepped willingly into the fires of annihilation - into the primal chaos of Divine Frequencies with just the desire to transcend. This desire creates Bhakti in the subtle fluidic emanation that rises in the body releasing the Shakti which is the Divine Essence that descends causing the state of Rapture.'

‘An internal spaciousness grows and you no longer have to try to control life. On the contrary you now allow life to move you. What actually occurs with this Gift is that the awareness within your solar plexus begins to take over from your mind opening the way for you to connect into a very powerful Universal power.’

‘The 20th Siddhi is the manifestation of The Presence through a human vehicle. Thoughts are irrelevant – there is nothing to say that is not superficial – for nothing is felt but the Presence itself. The Presence is experienced as everywhere and inherent in everything and is where we get the term Omnipresence. When this Siddhi has flowered in a person it actually creates a subtle atmosphere around itself – a kind of silent ease that pervades the aura of the person and radiates out to all Creation. The 20th Siddhi also relates to the eighth plane of reality, the true ground of our Divinity, known as the Logoic Plane.’

And, Pluto, on Gene Key 41 known as the ***Prime Emanation***, moves through the ***Shadow of Fantasy*** to the Gift of ***Anticipation*** to the Siddhi of ***Emanation***.

*'Emanation is a word that has been used by many ancient metaphysical and mystical systems as a means for understanding something that is really unapproachable. **One of the best known of these systems is perhaps the Kabbalah, whose central tenet is a map known as the Doctrine of Emanation.** In a nutshell the Doctrine of Emanation points towards a fractal model of the Universe in which everything is a mirror image of itself. The Cabbalists used the symbol of ten spheres or sephira, one emanating from another, to represent the various levels of Spirit descending into matter.*

‘The Ultimate Source, known as the Ain Soph, represents the unnameable, inconceivable, limitless Light from which all emanates. The Source has been given so many names by so many traditions as man has tried to understand it. What is fascinating about the 41st Siddhi is that it is the Source underlying all true Siddhic states. No matter what manifestation comes through our genetics, they are all ultimately grounded through this Siddhi that is not a Siddhi. In many ways, this is the nameless Siddhi, but we call it Emanation because we have no other way of approaching it.’

Across many of the world's ancient mystical traditions we find an echo of the same primordial mystery that within darkness there is a hidden Divine Presence from which that Light arises. At the time of this New Moon Chiminigagua's presence alongside the Sun and Moon, is reminding us of this inalienable Truth of the Divine Light that is waiting to be revealed. There is one further aspect to consider which will give further insight into how the higher resonances of Light may be revealed as we move into this next evolutionary cycle.

Venus conjunct to Haumea is opposite to Chiron and square to Pluto, (red lines) and they are activating Gene Keys 50 and 28. Venus back in August was at the apex of a Yod opposite to Neptune and Neptune as the higher resonance of Venus, is asking us to move beyond personal likes and dislikes to a more equitable state of mature Being.

Right now, Venus is on Gene Key 50 which reflects this, as this Gene Key is known as **Cosmic Order** and moves through the Shadow of **Corruption** to the Gift of **Equilibrium** to the Siddhi of **Harmony**.

'In genetics, this 50th Shadow has much to do with the way in which RNA copies DNA. RNA is a chemical substance similar to DNA whose role is to transcribe aspects of your genetic code in order that new proteins can be formed.'

'In other words, RNA is a messenger that reads and copies the instructions for life. In the process known as transcription messages can be misinterpreted before they are translated. This is exactly what occurs within human society – fear causes misinterpretation, leading to reaction and counter-reaction – resulting in Chaos, the 3rd Shadow and programming partner of this 50th Shadow.'

'The 50th Gene Key and programming partner the 3rd Gene Key are intimately connected in the cellular health of each of us – the 3rd Gene Key governs individual cell mutation and the 50th Gene Key holds the genetic blueprint for Equilibrium and wellbeing.'

'Here in the 50th Gift is found the inner fulcrum upon which balances the quality of our cells, our lives and our future possibility for world peace. As the Gift of Equilibrium this 50th Gift holds the key to deep inner peace. The 50th Siddhi produces experiences that harmonise human awareness with Celestial or Universal Consciousness. At the Siddhic level all imbalances within the subtle bodies must be destroyed in order that the cauldron of the physical body can become a vacuum. When this occurs within the DNA of a human being the body becomes a deep resonant chamber for the highest Universal frequencies.'

'As your higher bodies transmute your lower instincts and emotions so you come into the frequency field of their higher harmony. When the 50th Siddhi begins to break through in human beings an all-powerful current of Harmony begins to shower the people with whom they are allied. Deep and hidden issues are brought to light in order that social Equilibrium can occur.'

'Through the 50th Gene Key humanity is destined to arrive at Cosmic Harmony, although such a concept will require a sustained period of Equilibrium before the scales finally activate the higher Harmony. We know this higher harmony as oneness with God.'

Haumea, on Gene Key 28, is the Hawaiian Goddess associated with fertility and childbirth, whose mythology includes extraordinary powers of regeneration. Her principle is not resurrection of the old, but regeneration into the new, reminding us that Life continually recreates itself.

Gene Key 28 moves through the Shadow of **Purposelessness** to the Gift of **Totally** to the Siddhi of **Immortality**.

*'The Gift of Totality is a wonderful Gift to have and it belongs to anyone who really knows how to trust in life. **Totality means to live alongside fear – and to live with the unexpected and to stay open to continual change whilst remaining committed.** The Gift of Totality means to embrace the whole of your nature and the whole of life – the pleasure and the pain. To be total in the sense of this Gift also means without allowing your mind to dictate your life. **The Siddhi of Immortality requires that the individual surrender him or herself into his own deepest fears and is reborn as pure consciousness.'***

*'As you steadily embrace the various challenges that life brings, you gather and compound the various aspect of your psyche until you reach what Jung called individuation. **The shaman might call this process the retrieval or incarnation of your full Soul.'***

'When a being attains this state through the 28th Siddhi, they take on a particular mythology – their specific gift is to highlight the fears of others wherever they go.'

'This is simply an aspect of their awakening operating through their genetics - thus, they are said to have the gift of casting out demons, because this is precisely what their aura does. Through its Grace, it highlights the darker, unaccepted aspects of one's nature and absorbs them into non-existence.'

*'As was stated earlier this Siddhi contains the seed of the manifestation of Immortality in form. After all the Siddhis have dawned in humanity, and our collective body has begun to transmute into its future form, the Laws that hold our world together will dissolve. **At that time, elements of our future vehicle will coalesce and begin to form another kind of vehicle to house the higher consciousness of humanity. In this vehicle the 28th Siddhi will finally come to fruition.'***

At the time of this Virgo New Moon, as the Earth is blessed and bathed in the heightened frequencies of Light - restoring, rejuvenating, and regenerating our connection to the memories stored within our DNA through the Consciousness and **Emanation of Transfiguration, Grace, Innocence, Freedom, Rapture, Presence, Harmony and Immortality**, may we individually and collectively embrace the Primordial Shadow as we absorb and integrate the perfected, blended Unity, of the Dual Light, in which Spirit, Soul and Body become One, within an infinite Field of Stillness and Peace.

Love and Blessings to All
