'I AM' the Light that Shines in the Darkness

The first New Moon of 2025 will take place at 9⁰ Aquarius, on the 29th of January or the 30th of January for those further west in New Zealand.

January brought in a change of focus – the North/South Nodal points have moved out of Aries and Leo into Pisces and Virgo, which gives a different emphasis for us all over the next eighteen months. The North Nodal point in Pisces is guiding us to be creative and compassionate, to be the Spiritual Essence that we are, which is the reality of our Being, when within the stillness of our Heart.

Over lifetimes we have created, developed and played out many roles, believing in the identities that we have formed, but in Truth, beyond the personalities we are Infinite, and as we consciously move into the expanded Consciousness of the Galactic energies we are being assisted and encouraged to embody this Truth.

As our awareness expands into the vastness of the field in which we breathe and have our being our Consciousness is being expanded exponentially. As we strip the illusions, the collective karmic overlays, the mental chatter and the 'biographies' that we have carried for so long, we come into the Heart of Matter, an inner point of Peace, Stillness, and Spaciousness, that is then reflected back to us, beyond time and space as we merge with Source/God/Universal Consciousness – the All That Is.

The two-thousand-one hundred and sixty-year Aquarian Age marks the opening to this revolutionary and revelatory time on planet Earth for the upliftment of the Group Consciousness. As the old structures of belief are dismantling, Life is heralding in the Light within Matter that will transcend and transform the limitations of the past.

As we clear out the memory/history/patterning stored within our consciousness field, we begin to magnetise the higher frequencies of Light that are flowing through the Galactic Field, switching on our DNA to the higher frequencies that lie within us.

At the personality level, Saturn the **3rd Ray of Active Intelligence**, and Uranus the **7th Ray of Ceremonial Order and Magic** unite for this purpose, and when operating from the Soul level, Jupiter and the **2nd Ray of Love and Wisdom**, give the potential to magnetize and express the Essential Divinity of Humanity that is waiting to manifest through this epoch of Time.

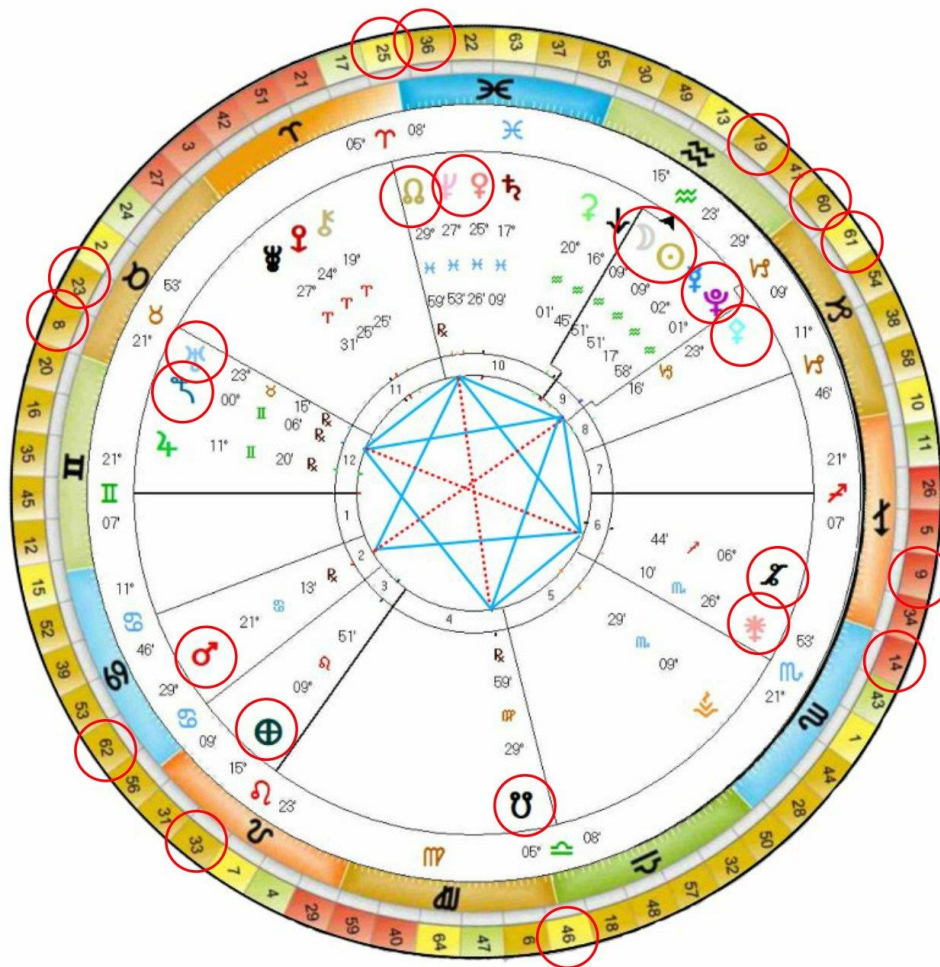

Two of the Laws of the Aquarian Age are **The Law of Right Human Relations** which culminates as **The Principle of Essential Divinity**. As this awareness continues to expand throughout humanity we magnetize these qualities of Life into our Being and we become the embodiment of Agape Love, the Pure Divine Love that resides within each one of us – a mirror of the *Waters of Life* that are irradiating, and flowing throughout the Galaxy to all Beings.

In the midst of movement and chaos keep stillness within you

In our local Universe, at the time of this New Moon the Sun ☉ Moon ☾ Mercury ☿ Pluto ♇ and Ceres ♁ are all in the Constellation of Aquarius, and Aquarius, as shared, is the resonance and essence that is underpinning and creating the Shift of the Ages, as we transform and expand into the next level of human potential. At the time of the New Moon the Six-Pointed Star still holds form in the sky – with Pluto Uranus ♁ Sedna ♁ South Node ♁ forming one part of this planetary pattern and Mars ♂ Venus ♀ the North Node ♁ and Neptune ♆ together with Pallas Athene ♀ making up the mirroring triangle.

Pluto and Mercury are on Gene Key 60. Known as the **Cracking of the Vessel** moving through **Limitation** to **Realism** to **Justice**, this key reflects all that is going on in the outer world, and at its height reveals that

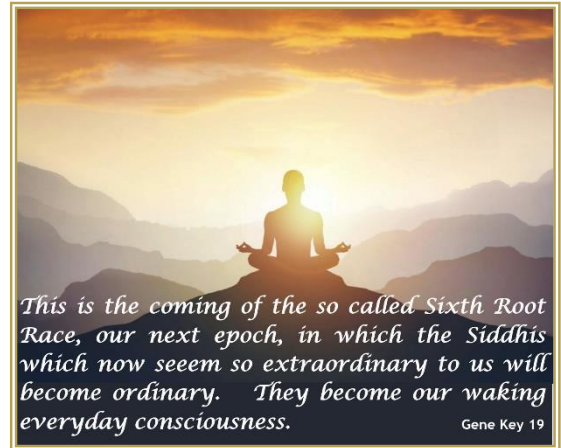

‘The 60th Siddhi holds an apt description of what happens when a human being becomes fully realised. At a certain point, our hearts open to our true Innocence and we begin to unlock other codes in our DNA that are ancestral rather than personal and we begin to transmute more global karma. The more our Being opens the more we are given. We may recall this Gene Key is part of the Ring of Gaia and it holds the karma of Gaia. When we are ready for that we get to be an agent of Divine Justice. All this is in the DNA and all those acts that came out of fear down the ages are stored as memory imprints, in our DNA which we agree to transmute on behalf of the whole. Ultimately becoming Masters who have attained the Body of Light.’

Gene Key 60 is pivotal in allowing spaciousness and Light to enter into our consciousness and genetic structure, so that Gene Key 19 known as **The Future Human Being**, may emerge through the collective. This month the New Moon is activating the 19th Key which moves through **Co-Dependence** to **Sensitivity** to **Sacrifice**.

Last month, at the time of the New Moon, Dwarf Planet Ceres was on Gene Key 19 and now the Sun and Moon are aligning on this Key.

'The 19th Gene Key is one of three primary portals along with the 62nd and 12th Genes that allow humanity access to other evolutionary kingdoms within nature. These kingdoms, which have often been referred to as the Angelic or Devic realms, are planes of consciousness that follow a similar evolutionary pattern to humanity but in parallel dimensions.'

'The 19th Gene Key behaves like a genetic marker in human DNA – when you hit a certain genetic frequency that marker activates the portal allowing information to cross clearly between these parallel worlds.'

'This Gift truly spans all realms and its future function, as we shall see, is to collapse the barriers that separate them – for these are the Shamans who fuse the ancient magical realms with the modern material plane. The path of frequency through the 19th Gift goes from Co-dependence to independence and finally to interdependence. Interdependence represents a quantum leap beyond the other two and its realisation is the future destiny of our species.'

'Through the 19th Gene Key, you can see how each level of frequency has to transcend itself entirely. In surrendering your small self, you attain the realization of your ultimately greater self - to Sacrifice your individual identity and experience yourself as one with all Life as well as the Creator of it.'

'Consciousness is now beginning to outstrip man and is reaching out for a higher form. But the new form must emerge out of the old one, so deep within Human DNA new mutations are being triggered. The 19th Siddhi contains the secrets of this mystical initiation. They are highly sensitised bridges to the new human and have the ability to siphon information about the new paradigm from behind the veil of the future into the present – they see the new form emerging and do their utmost to prepare people for the coming consciousness shift.'

The Earth at the time of the New Moon is on Gene Key 33 known as the **Final Revelation** moving through the Shadow of **Forgetfulness** to the Gift of **Mindfulness** to the Siddhi of **Revelation**.

'The 33rd Shadow is the great Shadow of our Forgetting. Along with the 12th and 56th Shadow, it is one of the three great tests we have to face in our evolution on this planet. Each of the 12th, 56th and 33rd Shadows are related to the three stop codons in the human genome. The 33rd Shadow governs all the endless cycles of existence and incarnations on this planet.'

'Around the energetic and etheric boundaries of our planet lies a great veil – the Ring Pass Not. This energetic grid connects the higher planes to the lower planes. It keeps humanity locked in these material forms until such time as the consciousness begins to spontaneously awaken of its own accord, at that point the frequency passing through the DNA rises above this atmospheric veil and our true Universal and Eternal nature is revealed.'

'Through the Ring of Trials you learn to discriminate (the 12th Gift) between that which keeps you trapped and that which brings freedom, by moderating your thoughts, feelings, speech, and actions. Equally, the 56th Gift of Enrichment shows you how easily you are distracted away from your true nature by your senses.'

'Thus, you begin to be drawn towards experiences that enrich your Spirit rather than experiences and addictions that stimulate or overstimulate your senses. Mindfulness is a very enriching experience process for the karma inside your very DNA is systematically transformed back into pure essence.'

*'Every stop codon in your DNA precedes a start codon of another strand of interlinked code. By opening us up to higher realities and angelic frequencies that lie beyond our physical DNA the 33rd Siddhi accelerates the evolution of human consciousness. **The 33rd Siddhi, is an access portal to these higher and wider realities that begin where you, the human being, come to an end**.'*

*'As you rise into higher and purer frequencies, the secrets of the higher realms are released sporadically into your lower nature and, over time, your physical DNA begins to mutate to accommodate these higher frequency wavelengths. **Once your DNA has mutated to sufficiently handle these higher frequencies permanently it is ready to receive the full force of the Siddhic realms.** The fullness of the Siddhic state causes time to disintegrate and memory along with it. You do not lose your physical memory, but rather your mind can no longer interfere with the purity of consciousness, which flushes the karma/sanskaras out of your whole being.'*

*'**Revelation is Light.** It always comes through Silence and light. The light of Revelation lies within us right now, as a seed growing quietly inside. It exists on a higher plane of being, the Causal Plane. **The Causal Plane and our Causal body is that part of our being that outlives death.***

*'This 33rd Gene Key loves to reflect on the past. It remembers the very beginning of the journey – that Golden Age when we lived in heavenly certitude merged with the creatures and beauties of nature. **In early forms, simpler forms before homo sapiens – and these early memories of our Edenic being linger in our DNA.***

*'Revelation triggers these cellular memories. **Revelation therefore connects us to the future as well.** We cannot remember the past without remembering the future, because the beginning and end curl around into each other. **This is the deep Revelation of Eternity.***

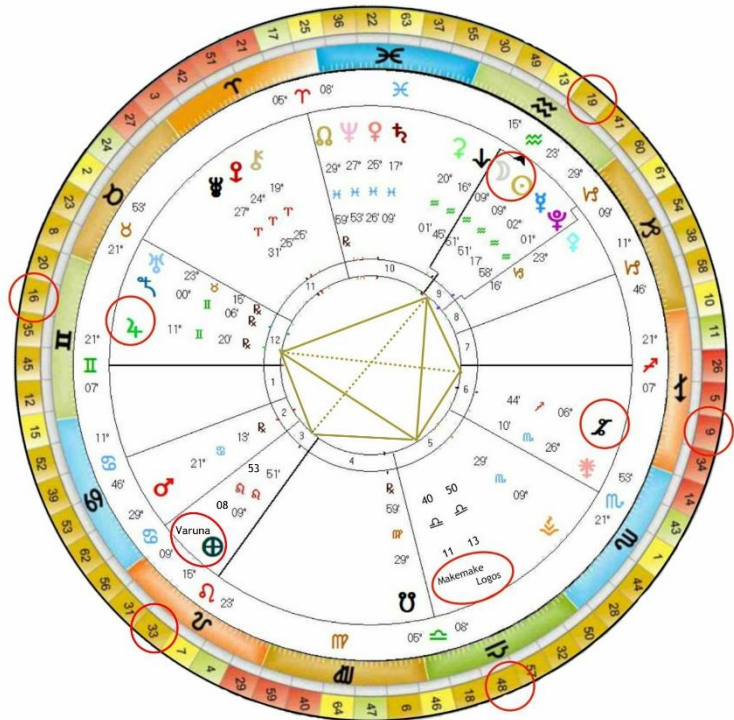

The South Node, Uranus and Sedna remain on the same keys as for last month – Gene Keys 46, 8 and 20 which continue to bring to the surface hidden information/secrets, past imprints and entrenched karmas, that have played out over eons of time, for release and transmutation. The goal and focus is on moving beyond division - to simply witness the state of consciousness that has been playing out on and behind the scenes, and to consistently hold the intent for all to come into a higher awareness, through Compassion and Forgiveness, rather than being caught in any outer drama.

Again, as before, the North Node is on the same Gene Key as for last month - GK 25 - though, as shared earlier the North Node has now moved into Pisces, which really assists this key moving through the Shadow of **Constriction** to the Gift of **Acceptance** to the Siddhi of **Universal Love**. Over the last two thousand years we have been moving through the Piscean Age which has been all about the development of Compassion and Acceptance, to become aware rather than reactive – so right now we are passing through a collective initiation.

Neptune remains on the same Gene Key too, GK 36, but this time Venus is conjunct Neptune. Venus links to our personal feelings and desires whilst Neptune is the higher octave of Venus and links to Compassion, Agape Love and an overall Universality which is very much a part of the Aquarian Age.

Gene Key 36 known as **Becoming Human** moves through the Shadow of **Turbulence**, to the Gift of **Humanity** to the Siddhi of **Compassion**. In the outer world, **Turbulence** will continue, but **Humanity** has the potential to grow, and to mature, to become the holders of **Compassion** as the embodiment of Peace and Wisdom.

Gene Key 9 is known as **The Power of the infinitesimal**, which is fitting as the energies of the TNOs take us into the subtlest of realms, to avoid any bypassing or projections and to shine a light into our deepest subconscious.

‘The Chinese Sage Lao Tzu said ‘The journey of a thousand miles begins with the first step’ although more accurately it might be said ‘The journey of a thousand miles begins beneath one’s feet’. This piece of wisdom concerns focussing on what lies right in front of you rather than concerning yourself with where the future might or might not take you.’

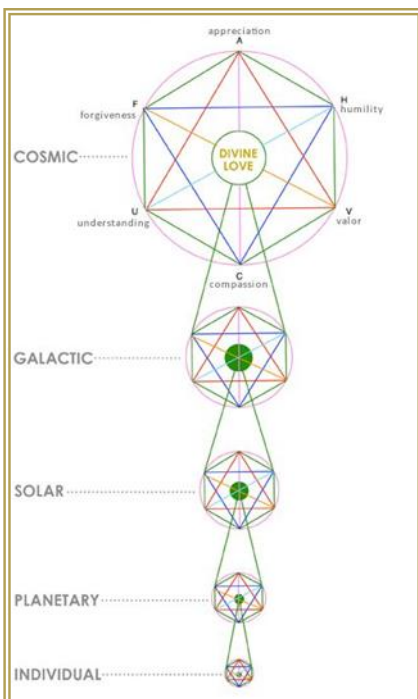

‘The 9th Shadow is about where you place that focus and primarily through your activity rather than your mind. There is something very magical about the 9th Gene Key – it holds one of the greatest secrets – how to stop your mind from undermining your natural Destiny.’

‘Sometimes when we look at the world it is as though we were standing before a vast mountain that stretches far, far above us. The dilemma of this Gene Key is perspective. If we are looking up at the whole mountain we can feel overwhelmed. If, however, we decide just to look down at our feet we will be captivated. The I Ching’s name for this Gene Key is **The Taming Power of the Small and it teaches us to focus on small changes, to bring our attention to the details that make up our life.’**

‘The Gift of Determination is built upon the rock of each and every small act. ‘Every intentional act is an act of magic’. Even the smallest act has a spin off effect that ripples out into the Universe – actions made out of resentment or fear reinforce the Shadow frequency, in both the individual and the World at large - whereas acts done in joy or service create more joy.’

‘All the little acts that are done with Heart begin to build up an inner momentum that eventually becomes unstoppable. The force of the entire Universe begins to gather behind such a person.’

‘Thus the 9th Gift reveals one of the great secrets of the Gift frequency, the more you tread the Path of the Heart the easier it becomes. Instead of being tamed by Life, you forge your own direction and destiny by taming the smallest and inconsequential acts in your life. The naturally flowing currents in your body begin to come into Universal harmony and as they do so, your brainwave cycles slow down and you enter a higher consciousness.’

‘The 9th Gift has an important connection to the power of magnetism. This Gift employs the use of magnetism through aligning itself with true North – the inner direction and rhythm sought by the Universe as a whole.’

‘Invincibility can be defined as merging your individual awareness back into the consciousness of the Universe and the only force in the Universe that is truly Invincible is Love. Love only knows giving so it creates a vacuum which in turn continually floods with more Love. When a human being attains this Siddhi their life becomes an expression of the Invincible power of such a Love.’

‘What the 9th Siddhi teaches is that every act that you make is of vast importance to the whole of evolution. Every intentional act is a magical act, setting in motion either creativity or decay. Hold onto the dream inside you because it is that vision that will act as the lens to focus the power of magic and manifestation in your life.’

We are living through extraordinary times – Cycles within Cycles – Worlds within Worlds. Our Planet, Mother Earth, orbits within the Solar System, and the Solar System orbits within the Galaxy and our Milky Way Galaxy orbits within the Cosmic Field and each of us is held within these Consciousness Fields of Light and Love. Right now each of these spheres are completing one Revolution, for our Solar System is completing a 240,000,000 year cycle around the Galactic Centre, and the Galaxy is also completing this cycle around the Cosmic point.

As humans we are interacting and interfacing with all of these cycles and worlds in our evolutionary journey, and as shared, ***even the smallest act has a spin off effect that ripples out into the Universe.*** We are weaving our consciousness into this field, whilst, at the same time, we are receiving higher frequencies of Light and Consciousness into our etheric systems, from the Cosmos, as we coalesce into higher states of awareness.

May this Aquarian Month bring us ever closer to being the ***Future Human Being***, bringing in the ***Revelation***, of the ***Universal Love*** and ***Compassion*** that pulses with ***Understanding*** and ***Forgiveness*** within the Heart of each one of us, and rippling out to the furthest reaches of the Cosmos, for the benefit of All.

Love and Blessings to All
