## Cancer New Moon 2023

*Your thoughts are a veil on the face of the Moon.  
So let them go, just let them fall into the water.*

Rumi

*In our consciousness there are many negative seeds and many positive seeds. The practice is to avoid watering the negative seeds and to identify and water the positive seeds every day.*

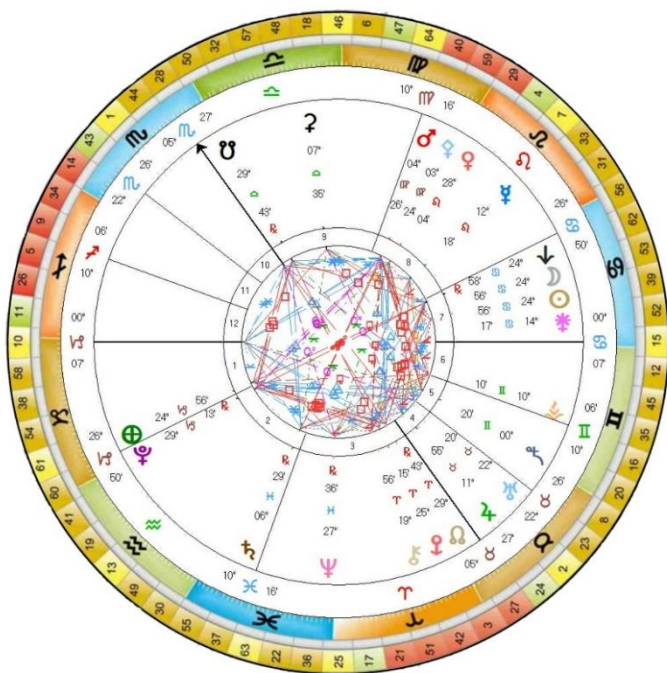

Thich Nhat Hanh

# 'I AM' the Light Within the Form

This month the New Moon takes place on the 17<sup>th</sup> or 18<sup>th</sup> of July, at 24<sup>o</sup> Cancer 56.

Cancer is of the Water Element, Feminine and links to the Moon and to the unconscious drives of the mass consciousness. The Moon, as a satellite of the Earth, has an extremely strong magnetic pull upon the Earth affecting not only the tides but also our subconscious memory banks.

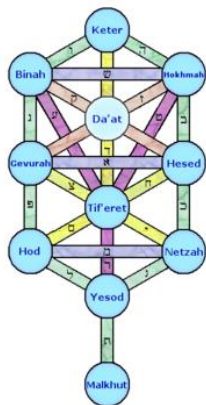

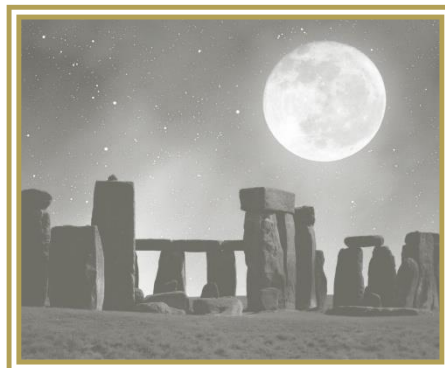

Every 29.4 days we go from New Moon to New Moon, as seen from the Earth, so each year, we experience 12.4 orbits of the Moon around the Earth and by the time each one of us is seven we will have experienced approximately 90 imprints of the mass consciousness thoughts and emotions on our individual astrological/genetic blueprint and our psyche, from out of which we create the personality. As the Jesuits said, *'Give me a child until the age of seven and I will show you the man.'*

Most of humanity is still firmly attached to their instinctual responses, to their early family conditioning and experiences and to the unconscious drives within the mass consciousness, which are constantly reinforced through the Lunar cycles that circle around the Earth.

At the personality level the Moon rules Cancer through the **4<sup>th</sup> Ray of Harmony through Conflict**, yet the Constellation of Cancer flows with the **3<sup>rd</sup> Ray of Active intelligence** and the **7<sup>th</sup> Ray of Ceremonial Order and Magic** seeking to lift humanity beyond the limited fears and beliefs that are held within the mass consciousness.

At the Soul level, the Cancerian is ruled by Neptune and the **6<sup>th</sup> Ray of Devotion**. At this level, the individual is not driven by like or dislike, by pain or by pleasure, but rather has become aware of making conscious choices that ultimately reveal and connect each one into Universal Love, underpinning and flowing through all Life.

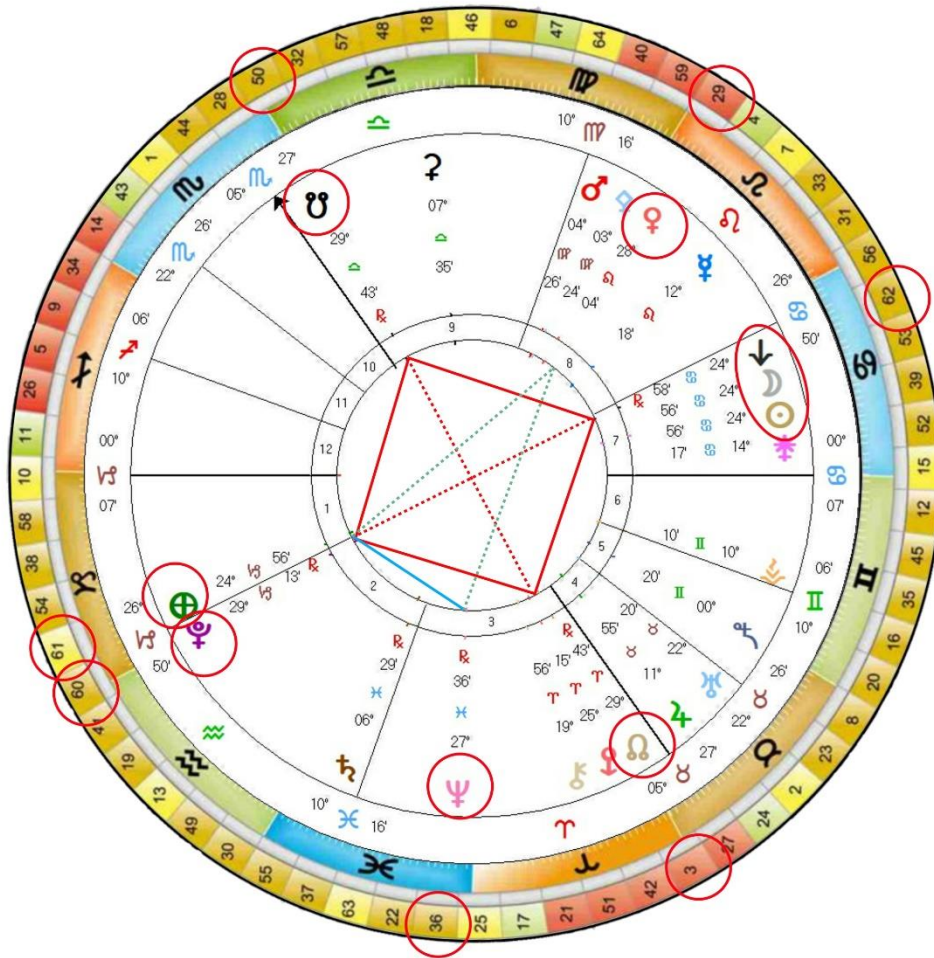

The magnetic pull of the Moon will keep drawing us back into old beliefs and desires that are created through duality consciousness, which is held within the Sacral Chakra, the Yesod on the Tree of Life, until we each move into the Light of Consciousness, the Sun, Tiferet. In Yesod, we are constantly pulled and 'fed' by our thoughts (Hod) and our feelings (Netzah), for good or ill.

The Cancerian journey moves through a sense of being totally emotionally subjective, focusing on security, home, and the close environment. As the frequency rises they become very aware of the 'other' and a sense of feeling at home wherever they are. Ultimately their home is the Whole of Life and the Love for all Life. At this stage, the Soul-centred individual becomes a channel for the Light of the World – compassionately nourishing and sustaining all Life upon the Earth.

*Life is all about repetition. To some it is continuous Peace and Harmony, to others it's endless chaos and despair.*

# Chart for the Cancer New Moon July 2023

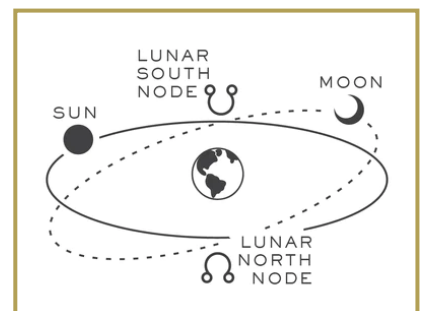

**New Moon 17<sup>th</sup> July 2023 19:32 BST London UK**  
<https://www.timeanddate.com/moon/phases/>

Before looking at the New Moon chart it is important to understand that the Moon is not responsible for the feelings, thoughts, and memory patterns of humanity, which we have created over lifetimes, all now stored within the mass consciousness. The Moon's purpose is to reflect back to us the state of our unconsciousness so that we might adjust, clear, and heal impulses that do not serve us individually or collectively - as such, each month, the Moon is guiding us to step into greater conscious awareness.

Whilst still focusing on the Moon, it is pertinent to mention that at the time of this Cancer New Moon, the Lunar Nodes have moved into new Signs, which will have an impact on our collective consciousness. For the last eighteen months the North Node had been in Taurus and the South Node in Scorpio – now the North Node is in Aries and the South Node is in Libra which they will be passing through until January 2025.

The Lunar Nodes are energetic vortexes that occur where the Sun's path crosses the Moon's orbit as seen from Earth. They also mark the place where Eclipses occur. The Lunar Nodes direct the energy of the Collective.

So, this is a shift, a new direction within the collective, and with this in mind, now let's look to see what this New Moon, with the insight of the Gene Keys, is wishing to manifest on Earth.

The Sun ☉ Moon ☾ and Vulcan ↓ are on Gene Key 62 opposite the Earth ⊕ and Pluto ♇ on Gene Keys 61 and 60 a making a 90° angle to the North ♋ and South Nodes ♌ on Gene Keys 3 and 50 creating a Cardinal Grand Cross. There is also a Finger of God created from Pluto to Neptune ♆ with Venus ♀ at the apex of the Yod.

This Cardinal Grand Cross is a focused, powerful moment in time – it has a sense of pressure and tension bringing a powerful surge of energy to shift stuck patterns of beliefs and behaviour. As we enter into the next eighteen months of the North Node passing through Aries, this is a call for the collective to step into their authority and to stand up for their individual rights, whilst at the same time embodying the balance and peace that is held within the higher frequencies of the South Node of Libra.

Looking first at Pluto which is integral to both planetary patterns – Pluto is the planet of Transmutation and Transfiguration and as it makes a 90° angle to all of the other points in the Cardinal Grand Cross then both individual and collective Karma is being brought to the surface to be released for clearing and healing. Pluto flows with the 1<sup>st</sup> Ray of Divine Will and as such comes with an intensity.

As shared last month, Pluto will be moving backwards and forwards from Capricorn to Aquarius until November 2024 when it will then remain in Aquarius for the next 20 years and this is adding to the tension, as the old orders and structures, (Capricorn), are seeking to hang onto their power base whilst the higher frequencies of Aquarius, seek to innovate and bring in a greater collective humanitarian Freedom.

All of this is in the melting pot which will be playing out through the next months and our individual and collective intent and actions will create the outcome.

Pluto out in deep space will remain on Gene Key 60 until April 2024 before briefly moving onto Gene Key 41 then back to Gene Key 60 until January 2025. So, this Gene Key is fundamental to what is being ‘stirred up’ right now within the collective consciousness, and although this key has been repeated many times, in previous New Moon reviews, allowing the imagery and thoughts of Gene Key 60 to once again enter deeply into our awareness, assists in a shifting of consciousness.

Known as the **Cracking of the Vessel** it moves us through a sense of **Limitation** to **Realism** to **Justice**.

***‘This Shadow appears wherever imagination and openness are stifled, or wherever men or women have forgotten who they are. Most people do not think magically; they do not leave the door ajar within their brains so that inspiration may creep in at any moment. The main reason for the death of magic is closed-circuit thinking. As we begin to see that we’re more than we allow ourselves to often believe, then that frequency, that vibration of possibility, begins to activate something inside us. It’s communicated to our DNA and we begin to open.’***

***‘There is great capacity for magic in this Gene Key which may sound odd as it is called the Gift of Realism. However, the only thing needed for magic to occur is some form of a structure and an open mind! Common sense/realism is not in opposition to magic. It is common sense to remain open-minded to everything in the Universe because everything has at its core the same wondrous inner Light.’***

***‘Justice is not about retribution, it is a reward. It is given as Grace, not taken as punishment, and when it is given, freedom flows from it. It is not an imposition or a limitation. It is an invitation, an opening. It is not up to us to punish. Life redresses the balance, and it is always about balance.’***

***‘The 60th Siddhi holds an apt description of what happens when a human being becomes fully realised. At a certain point our hearts open to our true Innocence and we begin to unlock other codes in our DNA that are ancestral rather than personal. We begin to transmute more global karma, and the more our being opens, the more we are given.’***

*'When a Being attains Self-realisation through the 60th Siddhi, something quite extraordinary happens, (and to the Shadow consciousness something very frightening). **The fundamental laws that govern physical existence are loosened and in some cases broken altogether.** Every time a being attains enlightenment through the 60th Siddhi, magic comes pouring through this being and they become a phenomenon, a symbol of the breaking of form – **Masters who have attained the Body of Light.'***

*'At a collective level, the 60th Siddhi will be one of the very last Siddhis to dawn. This is where the concept of a Judgment Day arises – as the 60th Siddhi begins to ignite in multiple beings it will be the ending of the world as we know it. **The laws that hold together the Earth will crack and our planet will begin to transmute.'***

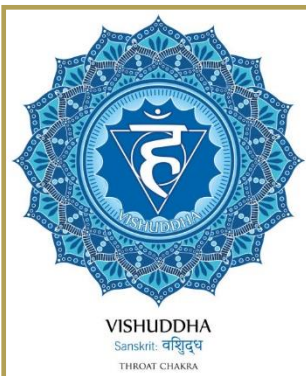

*'The 60th Siddhi has been known by certain esoteric schools as the Merkaba, or Chariot of Light. The true collective Merkaba is the Earth herself, the Spirit of Gaia, and the souls who hold this Gene Key hold the key to this ultimate magical experience.'*

*'**When we are ready for that, we get to be an agent of Divine Justice.** We take on the sins of our fractal, our fractal being the ancestral lineage we are born into. All this is in the DNA and all those acts that came out of fear down the ages are stored as sanskaras, memory imprints in our DNA. **Full realisation means we agree to transmute that on behalf of the whole.'***

Gene Key 62, where the Sun Moon and Vulcan are, and which is under the floodlight of Plutonian transmutation, is known as **The Language of Light** which moves through the Shadow of **Intellect** to **Precision** to **Impeccability**.

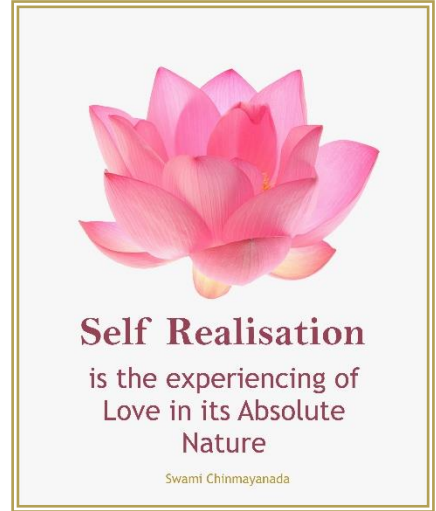

*'**Intelligence is of the Heart, whereas intellect is of the mind.** The human intellectual capacity to read, write and speak is both our greatest blessing and our greatest curse. Problems arise when we identify our lives with our thoughts, which we have been pre-programmed with throughout our upbringing. Until we are able to step outside of this mental framework we are controlled by our language, thoughts, and belief patterns.'*

*'**When we hear that ancient statement 'As Above so Below', that is the core foundation of the ancient worldview.** We live during the time of the Great Change, and to see the Maya is to step through it and out the other side. We will become aware of something profound as we keep contemplating this Gene Key – that there are two harmonies a false and a real one. The false one is the world we have created over the real one. 'The real one is nature; the rhythms of the seasons, the passage of the stars, the ebb and eddy of the waters and tides, the great rhythms – all working within principles and laws encoded within number – the 22 of the Kabbala, the 12 of Astrology and the 64 of the I Ching. **Number was Spiritual and it became the connecting rod that allowed us to enter the Divine.** We lived in a more merged existence because everything meant something.'*

*'The Gift of Precision is not nearly as boring as it sounds. Hermes, as a god of numbers was also god of magick for a reason. **The Gift of Precision is about aligning our life correctly with the Sacred principles – it is about awakening Love.'***

*'The 62nd Gene Key is genetically coupled with the 31st Gene Key forming the codon known as the Ring of No Return. This mystical name describes the evolutionary process that takes place when higher consciousness reaches the Throat Centre. **The Throat Centre is where the greatest human initiation occurs.'***

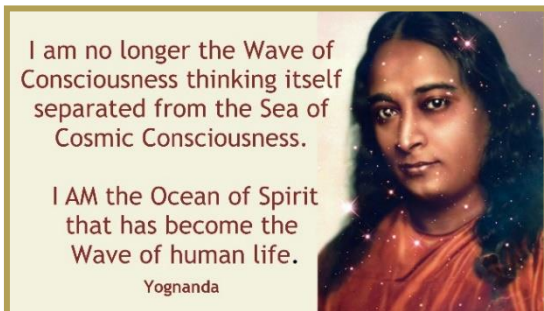

**'The 62nd Gene Key allows access to the Universal Language of Light behind all forms.** There is a deep magic woven into language – words become much more precise - as your language becomes purer you expose your heart to the world. Words spoken from Love are deeply healing. This is why there is no return once you begin to speak your truth – you have broken away from the lower realms forevermore.'

**'The 62nd Siddhi concerns the use of language at a level beyond our ken. Every word has its frequency and vibration and the order and tone of your diction creates a certain aura.** At the Siddhic level, words do not come via the mind anymore – they are not thoughts that become words. They emerge directly from the void, naked and pure.'

**'There is a Cosmometry behind life that choreographs all actions.** The closer you come to full awakening the more harmoniously your life flows within this Cosmometry. When you finally merge into the ocean of consciousness you achieve complete oneness with the Divine. Divine Cosmometry is the language of perfection. It is the manifestation of Impeccability in which your every movement and breath becomes an emanation of the Pure Light. **You have entered into the Language of Light – the Impeccable Beauty of Being.'**

The Earth is anchoring Gene Key 61 at the time of the New Moon, known as the **Holy of Holies** – at the Shadow level it expresses as **Psychosis** out of which **Inspiration** emerges to be finally revealed as **Sanctity**.

**'The loss of contact with reality is the background consciousness of almost all human beings.** Its key hallmark is that the individual so affected is usually unaware of the affliction. In the 61st Shadow, the true nature of the mind is obscured. **The dilemma is that you cannot fix the psychosis from within the psychosis.** The ancient civilizations called this perspective cloak thrown over the world the *maya* – the great illusion.'

**'Inspiration is what happens when you stop worshipping God and start becoming God.** Inspiration refers to a process that is very different from our normal understanding of the word – it is derived from the Indo-European word for breath and is connected to the Latin *spiritus* also meaning breath. The process of inspiration is a gradual releasing of your inner breath through the fabric of your reality and out into the world.'

**'Inspiration involves a powerful dismantling of the inner realities that have been built by your mind.** Inspiration comes when you place yourself directly in the firing line of the inner question that lies deep within each human being. Who Am I? **At first, you may seek answers outside yourself, but eventually you will have to turn deep inside to unfold the Hidden Truth that is awaiting your discovery.'**

**'This Gene Key represents a mystery hiding inside every single unit of matter within the Universe. The mystery is the mystery of Christ Consciousness, that quintessence of inner Light that holds all things together.** This codon ring shows that evolution is a force that is breaking out from inside of us and that to unlock its secrets we have only to look inside.

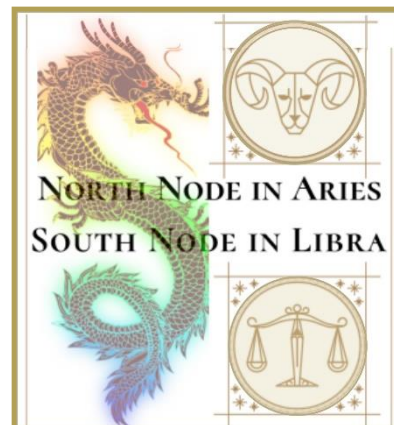

**'The Inspiration pouring through the higher reaches of the 61st Gift is a stream of sparks from a great transformation occurring within every human being who approaches the inner door. As you enter the field of the 61st Siddhi a huge pregnant silence descends and all your mental activity abruptly ceases. Here inner truth resides.** In Western mythic traditions, this is a place called by many names – the Covenant, the Grail, the Holy of Holies. In the East it is generally described as a state – enlightenment, nirvana, or samadhi. The 61st Siddhi is neither a place nor a state - it is the inner experience of Sanctity – of being one with the Divine. **Within this Siddhic state true reality dawns.** The process that creates humanity's mass Psychosis is no longer routed directly into the brain but is rerouted through the solar plexus system, which houses a far more advanced system of awareness.'

**'A human being who is embodying the 61st Siddhi is nothing but a human vehicle manifesting pure Universal Consciousness.'**

Over the last eighteen months, the South Node in Scorpio has brought to light the shadows that are created by the misuse of power, which has played out in many ways, from the war in Ukraine, to the clamp down on free speech. It has been a time for the collective to individually look deep within their own shadows and transform them – so that the Taurean North Node qualities might move beyond avarice and greed that has so tainted society – to value the gifts of the Earth, and the wellbeing that comes from feeling in tune with Nature - an inner harmony that is priceless - the true foundation for all health and prosperity.

Within each individual, over these last eighteen months there has been an opportunity for re-evaluating and realigning our core principles and values – and now that the Nodal points are just starting their journey passing through Libra and Aries, the inner work that has gone on over these last many months, will have a direct influence upon how we move through these next eighteen months.

Aries, on the North Node, speaks of the individual, the rights of the individual, and the courage to defend those rights as a unique Being within the collective, whilst acting within the integrated and balanced Libran Nodal qualities of peace, harmony, and justice.

The South Node at the time of the New Moon is at 29<sup>0</sup> Aries 48 on Gene Key 50, known as **Cosmic Order** moving through the Shadow of **Corruption** to the Gift of **Equilibrium** to the Siddhi of **Harmony**

*'The 50th Gene Key and programming partner the 3rd Gene Key are intimately connected in the cellular health of each of us – the 3rd Gene Key governs individual cell mutation and the 50th Gene Key holds the genetic blueprint for Equilibrium and wellbeing. Here in the 50th Gift is found the inner fulcrum upon which balances the quality of our cells, our lives, and our future possibility for world peace.'*

*'As the Gift of Equilibrium this 50th Gift holds the key to deep inner peace. Those who carry the 50th Gift as a Prime Gene Key have the innate ability to create harmony in a group without even thinking about it. Their true power is rooted in the high frequency that moves through their aura. This high frequency is created through honesty in which all hidden agendas are laid on the table. Without this no Equilibrium can ever be reached.'*

*'By trusting the individual to take responsibility for his/her own contribution to the group, a very powerful energy field builds within that group. Herein lies the great secret to humanity's future collective harmony – it can only be achieved through individual freedom and trust in the self-organising intelligence that emerges from that freedom.'*

*'The 50th Siddhi produces experiences that harmonise human awareness with Celestial or Universal Consciousness. At the Siddhic level all imbalances within the subtle bodies must be destroyed in order that the cauldron of the physical body can become a vacuum. When this occurs within the DNA of a human being the body becomes a deep resonant chamber for the highest Universal frequencies As your higher bodies transmute your lower instincts and emotions so you come into the frequency field of their higher Harmony.'*

*'When the 50th Siddhi begins to break through in human beings an all-powerful current of Harmony begins to shower the people with whom they are allied. Deep and hidden issues are brought to light in order that social Equilibrium can occur. Through the 50th Gene Key humanity is destined to arrive at Cosmic Harmony, although such a concept will require a sustained period of Equilibrium before the scales finally activate the higher Harmony. We know this higher harmony as oneness with God.'*

And the North Node, our collective spiritual focus at this time, is on Gene Key 3 known as **Through the Eyes of a Child** which holds the Shadow of **Chaos**, the Gift of **Innovation**, and the Siddhi of **Innocence** - the archetypal qualities that we are collectively navigating our way through at the start of this eighteen month journey.

*'The 3rd Shadow lies at the core of all our beliefs that the human individual is basically powerless in comparison to nature or the infinite. Individuals working from the Shadow of the 3rd Gene Key are trapped in a 'separation' consciousness by their own thoughts – thoughts that are coming from a primitive and defensive level. This 'separation' consciousness creates Chaos by resisting the very changes that are required in order to survive and thrive. **When you allow the environment to mutate you, the greatest magic is revealed to you, that in Chaos, there is, and always has been, a vast underlying transformative order.'***

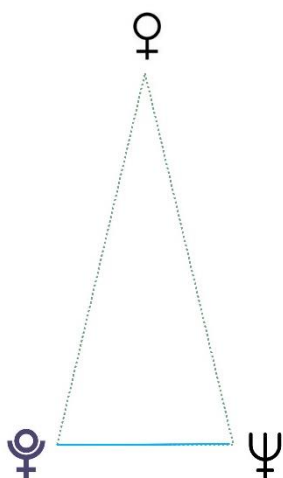

*'The Gift of Innovation is far more exciting than simply being creative. It implies that you have permanently escaped the fear-based perspective of the Shadow frequency.'*

*'**Innovation also requires a deep sense of inner trust.** In order to be truly innovative you have to attain a very high frequency that allows you to go beyond the collective worldview. All preconceived notions, dogmas, or beliefs must be discarded when they no longer serve the developing synthesis. **The Gift of Innovation requires you to become as open hearted and open minded as a child.'***

*'At the absolute zenith of its frequency, the 3rd Siddhi is about Innocence. This Siddhi reminds us that all of life, and that includes human beings, is essentially innocent. **Life is Innocent, we are Life and therefore we are Innocent.** One day humanity will evolve towards its awesome final destiny of Global and Celestial harmony. As the 3rd Siddhi comes into the world, which it will do very shortly, a great remembering of our Innocence will emerge in humanity. **We are all really children – children of the Cosmos** and our only real job is to let go of our seriousness and find the delight in every exquisite jewel that life places before us.'*

*'**Play and experimentation is the expression of genius and genius always finds a new solution to the challenges it meets along the way.** Your true home is not located within your body nor somewhere in the Universe; the centre you are looking for is the feeling of pure Love itself, which is the omniscient manifestation of your Eternal State of Innocence.'*

Also, as mentioned earlier, at the time of this New Moon there is a Yod, or Finger of God that is playing out through the planets of Pluto, Neptune and Venus. As for the last New Moon, Pluto, and Neptune remain on the same Gene Keys but now Venus at the apex of the Yod is seeking to merge and harmonise with both Pluto, the Higher Will, and Neptune, the Higher Heart, to fuse this heightened energy into our everyday personal interactions.

Neptune is on Gene Key 36, known as **Becoming Human** is seeking to move beyond the Shadow of **Turbulence** to the Gift of **Humanity** to reveal the **Compassion** that is the Siddhi state hidden within each Human Being.

*'**The deepest role of the 36th Gene Key is to help humans to become humane** - it is their courage and deep acceptance of the life process that eventually gives rise to the highest of human expressions – the expression of Compassion.'*

*'**This is the Siddhi that spans the chasm between Man and God, between being a victim and being enlightened.** In every mythic journey, there must always be a final trial. A moment of utter hopelessness and helplessness – these moments – these Darkenings of the Light – come to us in life not so much to test*

us, but to cut us so deeply within our own humanity that we are reminded of the awesome power of our own Compassion for all beings. **Those in whom this Siddhi has awakened tend to keep moving into those areas of life where the light is most darkened.** The simple presence of such people and the look in their eyes can trigger all manner of so-called miracles in those whom they meet.

**‘These are the most heart-melting people ever to walk the face of the earth.** Wherever they go, the true frequency latent within human suffering is immediately released and Compassion tears open people’s chests and explodes inside their hearts.’

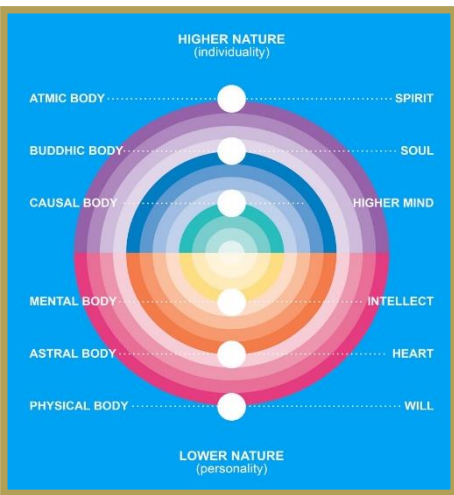

**‘Even the darkest of natures can be instantaneously brought to tears through the presence of this 36th Siddhi. At the Siddhic level your own suffering becomes so universalised that it encompasses all humanity. All boundaries of the self dissolve.’**

The Yod has a focus, intensity, and a potency that carries the energy of the 1<sup>st</sup> Ray of Will which is emphasized through Venus, which is triggering Gene Key 29, known as **Leaping into the Void** moving from the Shadow of **Half-Heartedness** to the Gift of **Commitment** to the Siddhi of **Devotion**.

**‘If you attempt anything half-heartedly you might as well not attempt it at all.** Without commitment, action lacks power or direction and above all, luck. This last comment may sound rather odd, but there exists a Universal Law that states that anything that is done with full commitment carries within it the seed of good fortune. Likewise, anything that is done without full commitment carries the seed of misfortune – there is no morality here - Life is simply asking for you to trust in Life.’

**‘The 29th Gift is not subject to the pressures of conditioning and expectation from others but opens into a deep connection to the direction of the life force within. This Gift inherently attunes to the cyclic flow of Life.** True Commitment is an energetic dynamic felt within your entire being rather than a social requirement. Commitment is akin to trust which can neither be forced nor willed. People with the 29th Gift in their hologenetic profile can be exceedingly lucky people. Their clear, committed decisions create the conditions for their own good fortune.’

**‘The more the frequency rises through the 29th Gene Key the more you find your commitments directed towards the service of others.** As the frequency gets higher and higher your Commitment takes on a devotional quality and begins to activate the Heart Centre. As you allow the energy of Commitment to act itself out in the world, you begin to realise that an energy separate from your body is moving through you.’

**‘This high frequency energy is actually moving into your body from your higher bodies and in particular from the 5th body known as the Buddhic body. Bhakti Yoga refers to the path of Devotion, or the path of the Heart.** Wherever such people go their heart is in constant meltdown from everything and everyone they meet. The 29th Siddhi of Devotion is an absolutely contagious Siddhi – wherever it goes it inspires Devotion in others.’

**‘This is the Siddhi of saying yes to life – it gives itself to absolutely anything or anyone that comes its way. The message of the 29th Siddhi is exactly this - trust your heart above all else and never worry about the consequences. To be devoted means to lie forever in the lap of the Divine.’**

And finally, you will see in the image opposite, that both Chiron ♄ and Eris ♁ are close to the North Node making a square aspect to each of the points in the Cardinal Grand Cross, which speaks of a potential that is unfolding during this Nodal Cycle of Aries and Libra. Eris links to our opening into expanded Universal Consciousness, leaving behind the Shadow frequencies and Chiron speaks of how, through our inner observation and healing, we will arrive at this heightened state of Awareness. Eris on GK 42, having the Shadow of **Expectation**, the Gift of **Detachment** and the Siddhi of **Celebration**, speaks of the core issue that holds us caught within the Moon's magnetic pull and the resolution of these overlaid patterns of 'belief' when true Detachment flowers.

***‘True detachment is the ability to allow and accept life as it comes. Detachment does not mean to not feel. In fact, if you are truly detached you will feel more intensely than others because you will not have allowed your Expectation, positive or negative, to constrict the event you actually experience. Detachment presupposes a great love and trust in Life.’***

*‘The 42nd Gift of Detachment births the process of letting go of control over your life, physically, mentally, and emotionally. The Gift of Detachment represents the separating out process between the emotions and the mind and it takes place naturally as the frequency rises within the cells. With Detachment comes both understanding and healing.’*

And Chiron on Gene Key 51 moves through **Agitation** to **Initiative** to **Awakening**.

***‘The 51st Gene Key is a portal. The Gift level is engaged whenever the human competitive spirit is put into the service of creativity. To follow your Initiative is to step off the beaten track and to follow the dictates of your own inner Being. It is not possible for a human being to awaken without first stepping fully into their creative independence. They close the book on all previous teachings and wisdom in order to discover what their individual truth is, rather than anyone else’s. A path that leads home – it is a path of heart leading into the Heart. This is the battle with your own fears but rather than being a struggle there is a leap into the Higher Self. It is the shock of Awakening from one level of being into another.’***

*‘Just as the Shadow creates agents of low frequency shock in the world, so the 51st Gift creates agents of positive shock in the world. These people come to awaken the collective consciousness out of its fear-based modality. They are not leaders – they are initiators.’*

***‘Awakening is a spontaneous evolutionary leap made possible by wider evolutionary forces operating throughout the entire Universe. Awakening is a sudden unexpected shock in awareness that is preceded by a mutative chain reaction throughout the cells and DNA. True Awakening does not come and go, but stays forever and see’s through everything. It is the permanent dissolving of the separate self as a physical mutation in the body - an experience that cannot be predicted or influenced.’***

***‘The 51st Gene Key is part of the Ring of Humanity and this Gene Key ensures that one day all of Humanity will awaken. In times to come this Siddhi will begin to awaken entire gene pools. There will come a time in which relationships will awaken, then families, then entire communities until finally humanity will awaken as an individual Cosmic Being and will see its own true nature. That single moment when humanity opens its true eyes for the first time will be the greatest single event in the history of Awareness itself.’***

Over these next eighteen months may we bring a **Commitment** to remember the **Justice, Sanctity, Innocence,** and **Compassion** that flows within Universal Consciousness, and also within our Being, so that we may **Awaken** to share and **Celebrate** this **Harmony,** this **Impeccable** state of Being, with All of Life.

*All Love and Blessings*
