Gemini New Moon 2025

*We can find Nature outside us only if we have first
learned to know her within us.
What is akin to her, within us, must be our guide.*

*However true it may be that we have estranged ourselves
from Nature, it is nonetheless true that we feel we are in her
and belong to her.... We must find the way back to her again.*

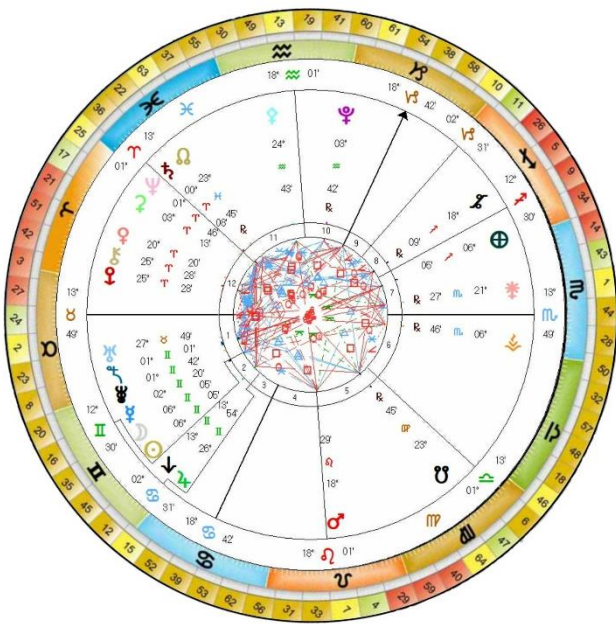

Rudolph Steiner

'I AM' the Light of Interplay

The New Moon in Gemini will take place on the 26th or 27th of May, depending upon where you live.

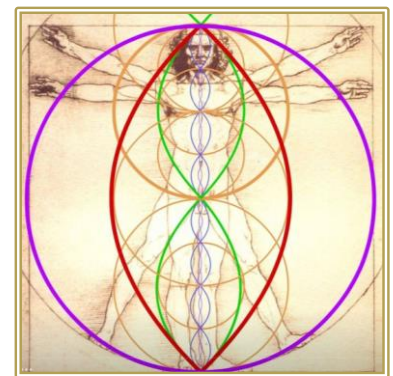

The constellation of Gemini flows with the 2nd Ray of *Love and Wisdom*. Gemini is a mutable Air sign, primarily concerned with interrelationship and connectedness, mutating and merging within the morphogenetic field to assist in creating an environment that sustains the evolution of the Soul.

Initially, the Geminian resonance is experienced through the planet Mercury, creating a versatile, and active mind having lots of mental interactions, which at first tends to codify, create, and to build, a duality consciousness as opposing forces interplay within the individual. However, through the course of time, and Life experience, as the individual evolves, Venus replaces Mercury as the planet of influence.

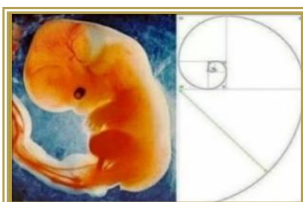

At the egoic level, Gemini links to Mercury through the 4th Ray of **Harmony through Conflict**, but from the Soul Level, Venus becomes the Planetary ruler flowing through the 5th Ray of **Concrete Knowledge** activating through the 2nd Ray of **Love and Wisdom** bringing integration and balance.

Gemini, also known as *The Twins*, continues its theme of Duality/Relationship through its interconnection to both the Central Nervous System and the Etheric Body. The Physical and Non-Physical. Through the synthesis of opposites, the electro-magnetic, male/female Ida/Pingala duality is brought into balance within the central Sushumna Channel at the Ajna Centre – also known as the Third Eye Centre.

As opposites and duality spring up throughout the consciousness, so markedly at this time, it is time to deeply understand the role of Nature and the Soul within this ever-expanding technological world. In reality, it is the Etheric Realm, the Angelic, Elemental Kingdoms which have direct connection into the Etheric Body, and the Life Force underpinning all form.

It is the canvas upon which all is built. It is also the unifying force that unites all humanity, as Spiritual Beings within physical form. It is the Angelic or Devic Realms, that assist this expansion of Consciousness, so pivotal at this 'crossroad in time'.

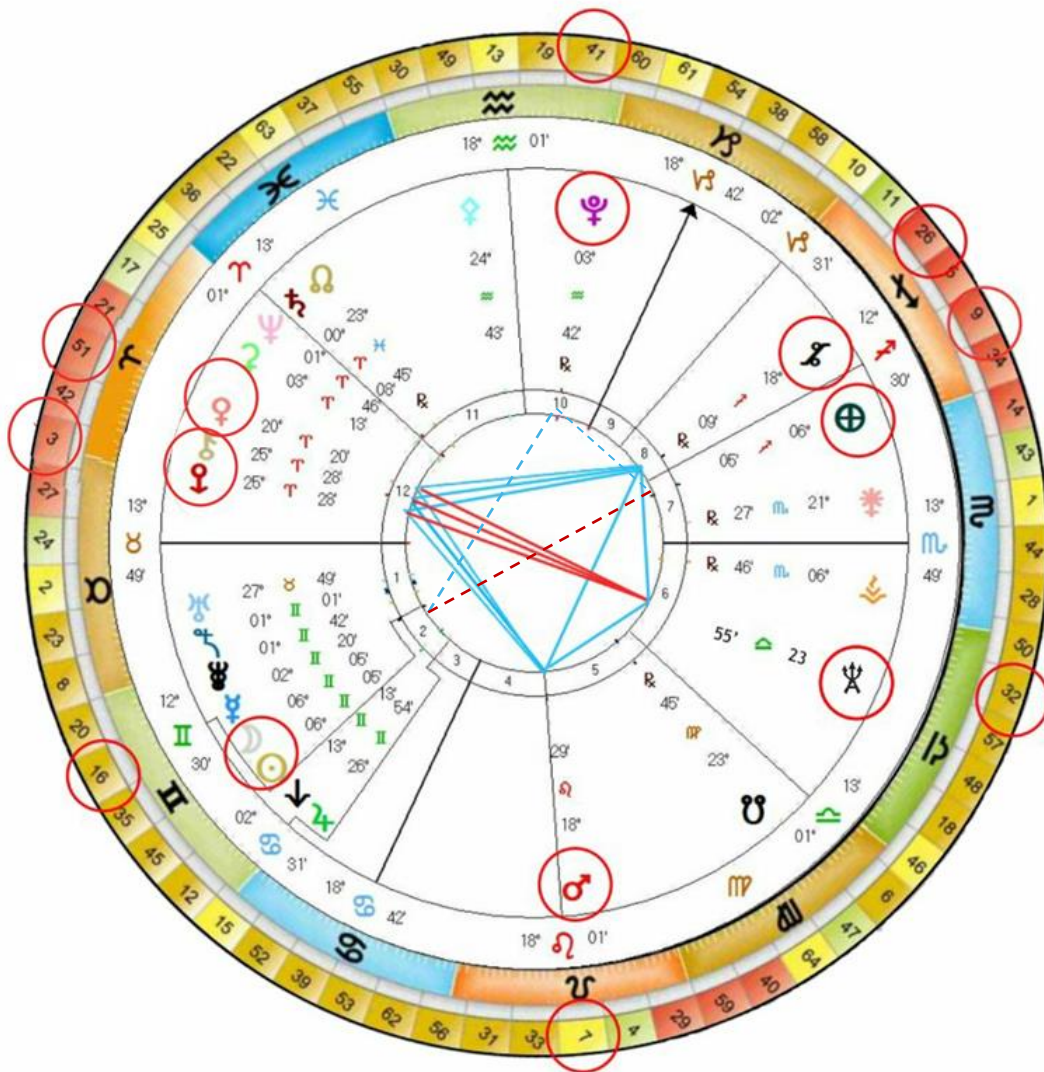

Whichever, Zodiacal Constellation of Light and Rays that we embody as an individual, within the positive/negative Twelve Spheres of the Cosmos, at the point of conception each one of us comes into this Realm as a pure spark of Divine Light and Consciousness, which is then overlaid with a cellular structure, creating this sense of separation as we identify with the outer appearance.

Right now as we pass through these intensified pulses, and frequencies of Light that are pouring onto and into the Earth plane, bringing past unresolved memories to the surface, we are being bathed in resonances that are here to remind us of our deeply rooted connection to the Natural World, and equally to Awaken us to the Light that we have held, throughout eons of Time and Space, for this Collective Remembering.

Nature does not hurry, yet all is accomplished

Chart for the Gemini New Moon 2025

New Moon 27th May 2025 04:02 BST London UK
<https://www.timeanddate.com/moon/phases/>

At the time of this New Moon the Sun ☉ and Moon ☾ are on Gene Key 16 known as **Magical Genius**, with the Earth ♂ on Gene Key 9, known as the **Power of the Infinitesimal**, highlighting and emphasising the power that our thoughts and internal messaging have on our actions and outer experiences. The Sun, Moon, and Earth are in aspect to Pluto ♇ on Gene Key 41 known as **The Prime Emanation**.

Looking at the chart above you will see, there is a very focused Kite being formed, but we will first look at Gene Keys 16, 9 and 41 as they underpin and anchor the intent for this New Moon.

Gene Key 16 moves through the Shadow of **Indifference** to the Gift of **Versatility** to the Siddhi of **Mastery**.

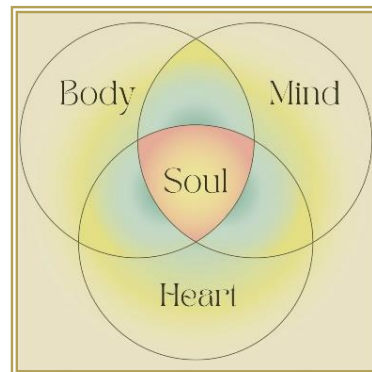

'At the Shadow frequency one of the most powerful and pervasive forces that keeps you from perceiving a higher reality is Indifference. Indifference is an expression of the collective frequency of humanity operating through your genetics. Indifference simply arises because the mass consciousness does not yet see its own true nature - that is, it doesn't yet realise itself as a holistic entity.'

'Versatility is driven by the dynamic energy of enthusiasm – the feeling that you are doing something thoroughly enjoyable, which also happens to improve people's lives and serve the whole. Versatility is a frequency and at this level natural abilities emerge with ease. At the 16th Gift level of frequency something remarkable occurs – no matter what your personal genetic makeup, you can draw upon any of the 64 Gifts through the Morphogenetic field that links all states of the same frequency together.'

'The 16th Gift learns holographically, using heart, body, and mind all synthesised. This Gene Key is all about excellence. Once Indifference is taken out of the equation, all that skill and natural talent can be used to serve the whole rather than individual fame and fortune.'

'To serve life is to respect every level of society. It is to revere the Chain of Life. It is to understand the interconnectedness of all things.'

'At the Siddhic level the issue of identifying with what you are doing is no longer relevant. At this heightened frequency of consciousness your identity is erased, and you become an empty vessel for Life.'

'The enthusiasm inherent in the 16th Gift also has its manifestation in the Siddhi, where it shows its true nature. Enthusiasm, deriving from the Greek meaning 'To be possessed by the breath of God', floods the human being and he/she merges with Divine currents, shattering their identification with the world of form.'

'The 16th Siddhi has an interesting connection to the 35th Siddhi of Boundlessness, and on closer analysis, one can see why. As one of the Miracle Siddhis, the 35th Siddhi's sole purpose is to expand the average human's perspective on life exponentially. The one who has attained this Siddhic level displays Mastery over Creation – their powerful actions, seen as miraculous, pull humanity out of Indifference.'

The Earth on Gene Key 9 evolves through the Shadow of **Inertia** to the Gift of **Determination** to the Siddhi of **Invincibility**.

'We are not on Earth to have our dreams clipped, or tamed - we are here to make magic happen and we cannot do that unless we are focused upon an over-arching ideal or vision. All the small steps, even washing, eating, cooking, and shopping will lead you in the direction of your vision, as long as you hold the focus.'

'The Chinese Sage Lao Tzu said 'The journey of a thousand miles begins with the first step'. This piece of wisdom concerns focusing on what lies right in front of you rather than concerning yourself with where the future might or might not take you.

'The 9th Shadow is about where you place that focus and primarily through your activity rather than your mind. There is something very magical about the 9th Gene Key – it holds one of the greatest secrets – how to stop your mind from undermining your natural Destiny.'

'The 9th Gift fuels all Determination. The Gift of Determination is built upon the rock of each and every small act. Every intentional act is an act of magic.'

'Even the smallest act has a spin-off effect that ripples out into the Universe – actions made out of resentment or fear reinforce the Shadow frequency, in both the individual and the World at large - whereas acts done in joy or service create more joy.'

'All the little acts that are done with Heart begin to build up an inner momentum that eventually becomes unstoppable. The force of the entire Universe begins to gather behind such a person. Thus, the 9th Gift reveals one of the great secrets of the Gift frequency – the more you tread the Path of the Heart the easier it becomes.'

'Instead of being tamed by Life, you forge your own direction and destiny by taming the smallest and inconsequential acts in your life. The naturally flowing currents in your body begin to come into Universal harmony and as they do so, your brainwave cycles slow down and you enter a higher consciousness.'

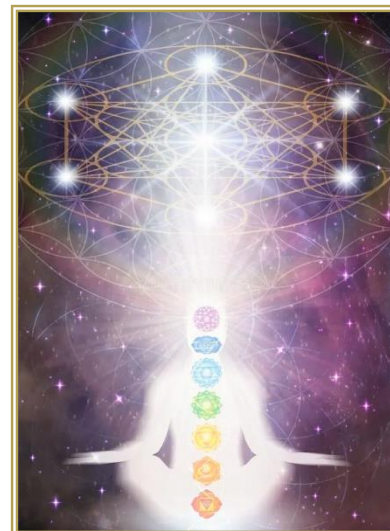

'The 9th Gift has an important connection to the power of magnetism. This Gift employs the use of magnetism through aligning itself with true North – the inner direction and rhythm sought by the Universe as a whole.'

*‘Invincibility can be defined as merging your individual awareness back into the consciousness of the Universe, and the only force in the Universe that is truly Invincible is Love. **Love only knows giving so it creates a vacuum which in turn continually floods with more Love.** When a human being attains this Siddhi their life becomes an expression of the Invincible power of such a Love.’*

‘It is fascinating to see how the higher programming matrix within our DNA is coded to awaken specific forces within us at specific times in our evolution. The 9th Siddhi belongs to a family of Siddhis that are interlinked through the human genetic structure by the amino acid known as threonine.’

‘Threonine brings together the 5th, 9th, 11th, and 26th Siddhis, which collectively unlock two very powerful themes of humanity’s higher nature – Time and Light. Known as the Ring of Light, these four themes – Invincibility, Timelessness, Light and Invisibility – form a kind of cross-coding message that is designed to operate across entire gene pools.’

‘There will come a time when humanity will awaken very quickly to its highest genetic frequency through the wavelengths of light carried by the aura. The end of our mental experience of time will therefore be triggered by human auras interacting with each other.’

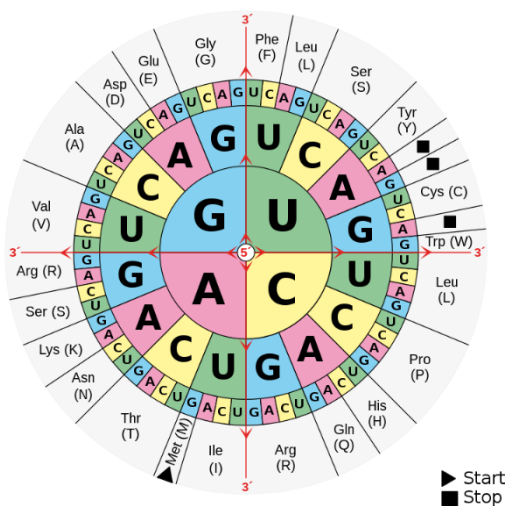

*‘In this respect, humanity will only become invincible when it realises its collective nature, at which point the individual becomes invisible in the sense of being completely porous to the indwelling group awareness. **What the 9th Siddhi teaches is that every act that you make is of vast importance to the whole of evolution.***

Pluto, the planet of Transmutation and Rebirth, remains as for the last New Moon, on Gene Key 41 moving through the Shadow of **Fantasy** to the Gift of **Anticipation** to the Siddhi of **Emanation**.

*‘The 41st Gene Key houses a truly remarkable archetype. **It has a very important function – it relates to what is known in genetics as the start codon.** At the Shadow level the 41st Gene Key centres around the issue of fantasy and dreams – it is like holding the key to your dreams in your hands, but never turning the lock. **The evolutionary pressure that surges up in human beings carries our entire genetic history within it, all the way from the amoeba to Homo Sapien.***

*‘The 41st Shadow represents the pressure to evolve to seek out new fields and new experiences. This evolutionary impulse is the secret to the 41st Gift – the Gift of Anticipation. **The more the frequency of your DNA rises you become more and more sensitive to the hidden properties in the world around you, in particular, linking into the morphogenetic field that communicates specific information across time and space.***

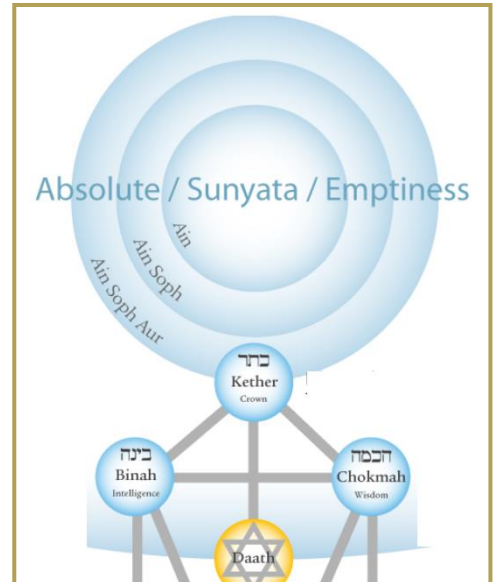

*‘The 41st Gift gives the gift of premonition or Anticipation which links to its partner the 31st Gift of Leadership. **The greatest leaders are those who build upon the past whilst anticipating what is to come.** The 41st Gift has a single genetic agenda – it is always attuned to the next evolutionary energetic grid that is waiting to descend into form.’*

‘When you are able to maintain a high frequency through this 41st Gift you will be able to literally download all manner of beautiful things from the morphogenetic field.’

*‘Every start codon inside every single cell is electromagnetically linked to each other. **This is the foundation of the holographic body which in turn is linked to the holographic Universe.** The 41st Gene Key is the key to seeing that the physical body can equally be seen as a holographic mirror of the Universe.’*

'As the Source of Being the 41st Siddhi is the Siddhi of Emanation. Emanation ord that has been used by many ancient metaphysical and mystical systems as a means for understanding something that is really unapproachable. One of the best known of these systems is perhaps the Kabbalah, whose central tenet is a map known as the Doctrine of Emanation. In a nutshell the Doctrine of Emanation points towards a fractal model of the Universe in which everything is a mirror image of itself.'

So, this is the powerful message that is underpinning this New Moon which has Mars, ♂ Astrea, ♄ Venus, ♀ Chiron, ♄ and Eris ♀ in a Grand Trine with the asteroid Atlantis ♄ creating a Kite formation which gives further understanding and insight into the potential of this moment in time.

*Depending on the frequency of light you allow to enter your DNA, different biochemical processes are initiated, affected and/or prevented inside your body by means of these codes. **The 26th Gene Key is unique within the Codon Group because it has to do with utilising light waves via the medium of the individual will.** When you get to the Gift level of the 26th Gene Key you learn a great secret – you learn the difference between will and intent.'*

*'At the lower frequency the 26th Shadow leads you to believe that you must exert huge willpower to attain your dreams in Life. At the Gift level your attitude invites in a higher waveband of Light into your DNA. **Over time prolonged attunement to these frequencies results in a frameshift mutation within your DNA.'***

'This 26th Siddhi dissolves all sense of individual will. surrender to this impulse renders the individual ego Invisible – not just your own ego but everyone else's egos as well.'

*'To dance with the 26th Siddhi is to let go of all agendas. Such people are invisible in a way that most cannot understand. **They are invisible because they do not care what others project onto them.** They do not seek to enlighten anyone, they do not really want to influence anyone at all. Ironically such people with no agenda have often left the greatest mark on the history of our consciousness.'*

This whole concept of projection is what has held humanity for so long, recreating the same dramas and karmas in their cycle of Life. At the time of this New Moon, this whole subject is being addressed as Eris out in the Galactic Field, aligns with Chiron in the sky.

Eris, according to Greek Legend, who rolled the golden apple, was the Goddess upon whom all projections of discord and difficulty were placed – a convenient clothes hanger on which to hang individual shadows that do not wish to be acknowledged. Eris was held responsible for the Trojan wars when, in effect, the actions of others played a central part. To enter into Galactic Consciousness, all individual Shadows need to be owned, transmuted, and integrated, and not projected outwards onto others.

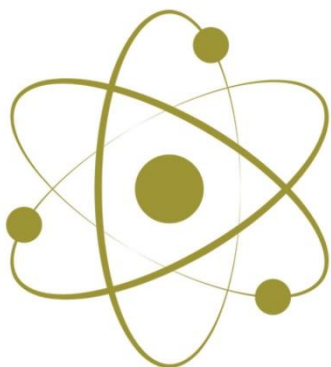

Chiron on Gene Key 3, conjunct Eris, is the healing, high frequency energy that lifts the individual beyond mental 'scripts' of right and wrong into Soul awareness of understanding, and compassion, based upon an overview of the larger picture. Gene Key 3 echoes this awareness, known as **Through the Eyes of a Child**, it moves through the Shadow of **Chaos**, to the Gift of **Innovation**, to the Siddhi of **Innocence**.

'The 3rd Shadow lies at the core of all our beliefs that the human individual is basically powerless in comparison to Nature or the Infinite. Individuals working from the Shadow of the 3rd Gene Key are trapped in a 'separation' consciousness by their own thoughts – thoughts that are coming from a primitive and defensive level. This 'separation' consciousness creates Chaos by resisting the very changes that are required in order to survive and thrive.'

*'The essence of the evolutionary impulse is this – in order to survive, life must embrace change. It must adapt and innovate. **Everything in the Universe is spinning.** All the spheres, all the stars, every photon, every cell, every atom, they all have a whirlpool at their core. Life breathes change into its lungs and exhales Innovation.'*

'The Gift of Innovation is far more exciting than simply being creative. It implies that you have permanently escaped the fear-based perspective of the Shadow frequency. Innovation also requires a deep sense of inner trust. In order to be truly innovative, you have to attain a very high frequency that allows you to go beyond the collective worldview. All preconceived notions, dogmas, or beliefs must be discarded when they no longer serve the developing synthesis. The Gift of Innovation requires you to become as open hearted and open minded as a child.'

This Siddhi reminds us that all of life, and that includes human beings, is essentially innocent. **One day humanity will evolve towards its awesome final destiny of Global and Celestial harmony.** As the 3rd Siddhi comes into the world, a great remembering of our Innocence will emerge in humanity. We are all children of the Cosmos, and our only real job is to let go of our seriousness and find the delight in every exquisite jewel that life places before us.

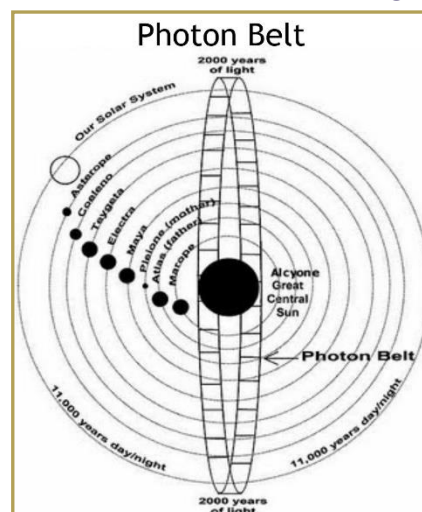

'As Einstein said: 'God doesn't play dice.' The human brain was not designed to grasp insights as profound as these. The certainty of order within the Universe is a feeling that can only be captured by a more advanced system of awareness in human beings, that mystics have called by many names.'

'Above all, it is equated with the human heart and the feeling of love and unity that lies between all creatures. Your true home is not located within your body nor somewhere in the Universe; the centre you are looking for is the feeling of pure Love itself, which is the omnicentric manifestation of your Eternal State of Innocence.'

And Venus, as part of this Kite Formation, close to Eris and Chiron, at 20⁰ Aries, is the esoteric ruler of Gemini, opening us to the level of the Soul. Venus is activating Gene Key 51, known as from **Initiative to Initiation** moving through the Shadow of **Agitation** to the Gift of **Initiative** to the Siddhi of **Awakening**.

*'The 51st Gene Key and its spectrum of frequencies contains some startling secrets regarding human behaviour as well as leading you towards the process or experience referred to as Awakening. Agitation which is the Shadow is ever-present. **Until we begin to look within we never realise the depth of our Agitation.** But behind our Agitation lies a huge energy of great potential and light.'*

*'It is as though our entire Solar System has been moving through a long period of Galactic eclipse. As we move out of eclipse, for the first time in millennia the light of the Galactic core is coming back into view. **The light from that core is already starting to stream back into our consciousness, and it is driving a new inner revolution.** We can see this as a metaphor but it is also true. It is what is happening externally and internally right now.'*

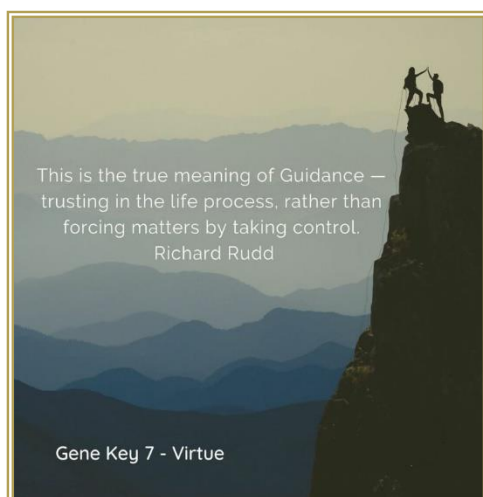

*'The 51st Gene Key as a genetic archetype is rather special. **The 51st Gene Key is a portal – the portal through the Shadow frequency leads to hell whereas the 51st Gift leads to a place of great personal empowerment and genius.** The Gift level is engaged whenever the human competitive spirit is put into the service of creativity. To follow your Initiative is to step off the beaten track and to follow the dictates of your own inner being.*

*'It is a journey into the underworld in which the traveller will confront many challenges and tests. A path that leads home – it is a path of heart leading into the Heart. **This is the battle with your own fears but rather than being a struggle there is a leap into the Higher Self.** It is the shock of Awakening from one level of being into another.'*

*'Awakening is a spontaneous evolutionary leap made possible by wider evolutionary forces operating throughout the entire Universe. Awakening is a sudden unexpected shock in awareness that is preceded by a mutative chain reaction throughout the cells and DNA. True Awakening does not come and go, but stays forever and see's through everything. **It is the permanent dissolving of the separate self as a physical mutation in the body - an experience that cannot be predicted or influenced.** Awakening is a series of softenings. Our awareness becomes more one pointed, but our heart and mind become softer and more open.'*

*'As part of the Ring of Humanity this 51st Gene Key ensures that one day all of Humanity will awaken. **In times to come this Siddhi will begin to awaken entire gene pools.** There will come a time in which relationships will awaken, then families, then entire communities until finally humanity will awaken as an individual Cosmic Being and will see its own true nature.'*

Mars is on Gene Key 7, whose Shadow of **Division** epitomises this period in time we are experiencing, as 'sides' gear up to stake their claim, determined to be 'right'. The Gift of this key is **Guidance** and the Siddhi holds the promise of **Virtue**.

*'The 7th Shadow of Division is one of the main reasons human Society operates in hierarchies. **This Division is rooted far more deeply than our psychology – it is actually stamped upon our genes.** Just as there are leaders, so too there must be followers, and these followers are equally influenced by the 7th Shadow.'*

*'True Leadership like true education does not impose itself on anyone. It is the Gift of being able to help others find their own way forward in life, rather than taking away their individual power. **This is precisely what is meant by the name of this 7th Gift – the Gift of Guidance.'***

*‘To truly guide another person or group of people you need to put aside your own opinions and judgments and listen intently to their needs. **Great guides are great listeners.** People with the 7th Gift have a powerful magnetic presence and just from being in their aura you can come to deep clarity about your own ‘direction.’*

*‘The 7th Siddhi is an energetic blueprint hidden inside each human being. True Virtue has nothing to do with morals or behaviour. Anyone can behave in a pseudo virtuous fashion, yet have none of the power of this Siddhi. **Leadership is determined by genetics, but the quality of leadership is determined by the frequency passing through those genetics.** Here in the 7th Siddhi we find visionary leaders, but far more importantly, we find virtuous leaders’.*

*‘The Kabbalists have a phrase – Repairing the World – they say that when the Creator created the world he created a series of vessels to hold the Divine Light, but as the Light flowed down into these vessels they shattered and fell towards the realm of matter. **Thus, we now live in a world of countless shards of the original vessels in which the Divine Light is trapped.**’*

‘They say that every virtuous act committed by a human being helps to repair one of these broken vessels. The 7th Shadow represents the force that shatters the vessel, the Gift of Guidance begins the process of reuniting the shards and the one in whom the 7th Siddhi manifests becomes the Adam Kadmon – the perfected vehicle of Divine Realisation.’

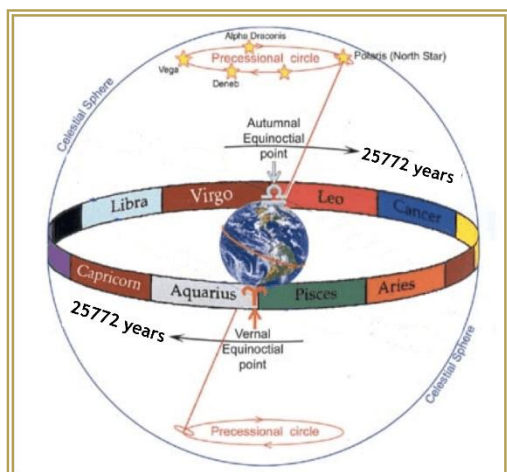

*‘**The 7th Siddhi waits for a specific moment in time to awaken in the collective.** In the book of Revelation this 7th Siddhi is represented symbolically by the opening of the Seventh Seal, which precedes the return of Christ consciousness.’*

And finally, we come to the asteroid Atlantis, the cosmic aspect in this particular moment in time that is holding a pivotal place in this Kite Formation. Atlantis resounds in the minds of many humans, many feel they had lives there, and others believe that it is just a myth. Whatever the feeling or belief, Atlantis holds a particular energy within the thought forms of the collective consciousness.

Plato wrote about Atlantis around 348 BC. In his account, he portrayed an ideal Society that existed many millennia before the Classic Greek period, sharing that it was a powerful and remarkable dynasty in which Atlanteans had access to extremely advanced technology. Initially it was a loving, harmonious place where everyone was treated as equal. But all of this changed as the idea of Oneness was lost and the incredible, advanced crystal technology was abused. The resulting degeneration of this noble civilisation led it into a war that culminated in its cataclysmic destruction, which Plato dates as 9,000 years previously to the time of his writing.

Now some 11,400 years later, by the Precession of the Equinoxes, which takes just under 26,000 years, we are entering into Aquarius opposite to the period of the Leo Age, which Plato wrote about, and which seems to be being reflected back to us, in many ways at this time, as technology expands so rapidly.

So once again, as we enter a period of intensified Light as we pass through the Photon Belt over these next Centuries, what is Atlantis, and our ancestors, seeking to share with us.

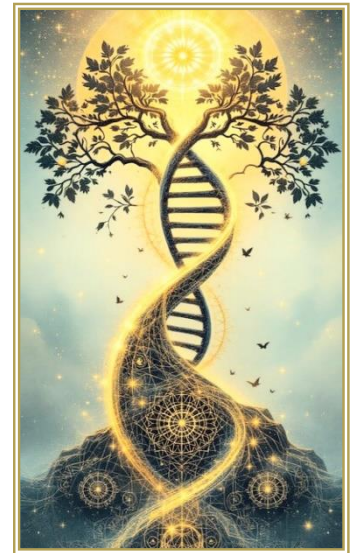

Atlantis is on Gene Key 32, known as **Ancestral Reverence** moving through the Shadow of **Failure** to the Gift of **Preservation** to the Siddhi of **Veneration**.

*‘One of the greatest fears for humanity is found in this shadow – the fear of Failure. **This fear has a deep biological root since it is built into your very DNA.** Our earliest ancestors had exactly the same fears as we do today, even though they may have manifested differently. Your individual fear of Failure is rooted in the collective fear of Failure to survive as a species.’*

*'The 32nd Gift is called the Gift of Preservation. It is a truly noble Gift because it is about seeing beyond your own little world, which means going beyond selfishness. **The 32 Gift is not about self-preservation but is about the Preservation of Life.** The 32nd Gift has the ability to assess the past, weeding out weaknesses and building upon strengths'*

'As we move into the 32nd Gift as a species, we will once again return to Nature. Nature represents the old rootstock. Its very wildness is its strength and we, humanity are the vibrant young shoot with its dreams of transcendence. As we rise above the fear and move beyond the selfish tendencies found in the Shadow frequency we become defenders and preservers of our Earth.'

'As we learn once again to honour where we have come from, the Earth will teach us how to move in harmony with its natural rhythms and cycles. As we listen to the great wisdom of our ancestors and of the indigenous tribal cultures, we will once again find our correct inner spirit.'

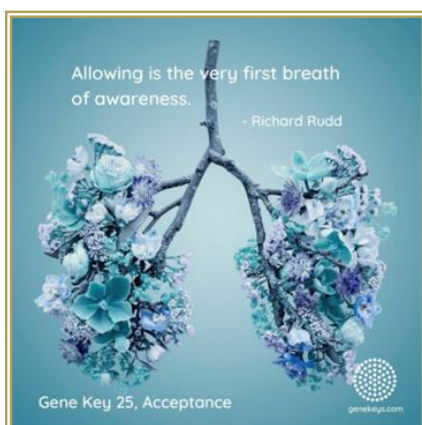

*'To attain a Siddhic state presupposes that fear has been entirely transcended. **Each of the 64 Gene Keys is essentially a process in which fear or anger is progressively transformed by being put to use in the service of the totality.** At a certain point, however the ancient genetic fears can be transcended altogether. The 32nd Siddhi is the state of Veneration. It is all that remains when fear has burned away.'*

*'Veneration is about being on a spiral ladder. You stand on the shoulders of those who have come before you and you allow those who will go beyond you to stand upon your shoulders in turn. **What you venerate is the chain itself as well as all the beings above and below you.** You realise that even the humblest insect is allowing you to stand upon the shoulders of its consciousness. This gives rise to a fathomless feeling of reverence for all sentient life.'*

*'Veneration is rooted in respect, reverence and gratitude for all aspects and forms of the One Consciousness behind Creation. The more you contemplate the 32nd Siddhi the more Veneration and reverence you will inevitably feel for all Life – you will begin to smell the perfume of Divine Consciousness in all forms of Life. **Eventually, no matter what is before you, all you will see is the Self, the Atman, the Divine Being, perfectly playing and weaving and evolving right before your very eyes.***

No matter which period of 'Time' that we are passing through the same truths hold. When we are in Balance, Harmony and Reverence with Nature, and all of Life, we prosper – when we forget this and allow our minds to develop pride, believing that we are separate and outside of this Cosmic Law, we fail. Right now, as I am writing this Review, Saturn, the keeper of Time, has just moved into Aries – the start of a new Cycle through the Constellations. Leaving behind any sense of victimhood, which may have coloured the collective consciousness over the last few years of Pisces, Saturn in Aries requires that our actions come from balance, maturity, integrity, and self-accountability, which results in Joy and Freedom.

Saturn at 0° Aries is on Gene Key 25 reflecting this reality back to us. Known as the **Myth of the Sacred Wound**, it moves through **Constriction to Acceptance to Universal Love**.

*'Constriction exists wherever love is absent.. **Constriction is the physical manifestation of fear at an individual and Universal level.***

*At the 25th Gift we arrive at one of the greatest and most powerful of all human Gifts, the Gift of Acceptance. **Because this 25th Gift represents the portal to the true nature of the Universe as Love, it has incredible relevance for all human beings.** Acceptance is based on taking the soft approach to life. This kind of Acceptance takes place when you build up the courage to look into your own Shadow. The state of Acceptance is akin to "Spiritual Springtime" where everything seems new again, flowing more easily and freely. **The 25th Gift makes it difficult to hold any resentment, judgement or worry – for now you are carrying the Seed of Love.'***

'The 25th Siddhi is Love itself as the Source of all and in this sense, it can be called Universal Love. The sacred wound that hides within each human being can be understood at three levels of consciousness – at the Shadow frequency, the wound maintains human suffering, at the Gift frequency the wound provokes humanity to evolve and at the Siddhic frequency the wound reveals humanity's true nature as an Expression of Universal Love.'

*'Those Beings who have attained realisation through this 25th Siddhi become, in some form, legends. Whether Buddha or the Christ – the aura of such a person shines like a light down the centuries and is felt within the bloodlines of all future generations. **Every time someone attains the 25th Siddhi a great genetic constriction is removed throughout Humanity.** The bodies of these people have undergone a radical transformation in order to be the receiver or chalice for pure consciousness.'*

As an expression of Universal Love we are embodied right now to merge with the higher frequencies of Light, to assist with the transmuting of the dense imprints of past traumas and fear, carried through lifetimes, that are held within the akashic field, so that the Pure Emanations of Love, Joy and Peace enfold, release and return All to Innocence.

Love and Blessings to All
