

Cosmic Overview

Gemini New Moon 2024

Everything is connected, balanced, and continually regenerated by Still Magnetic White Light

Walter Russell

On one level Life is effervescent and active. On another it is absolute stillness. It is the inner stillness that nourishes the outer activity.

Sadhguru

'I AM' the Light of Interplay

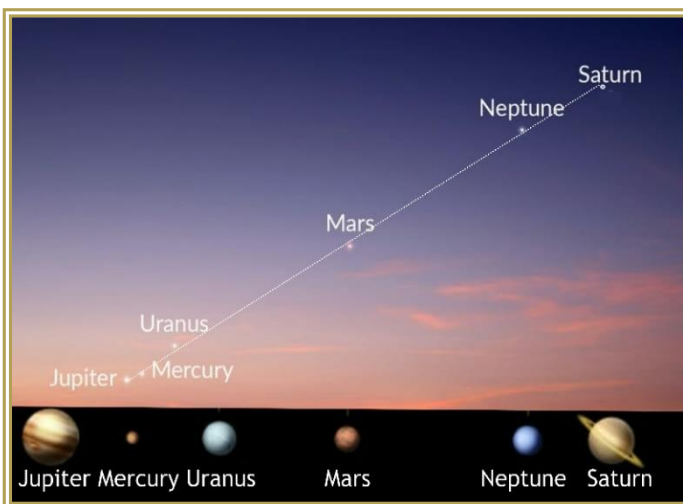

The New Moon will take place on the 6th or 7th of June, depending upon where you live, when the Sun, Moon, and also Venus will come conjunct at 16° Gemini opposite the Earth at 16° Sagittarius.

Gemini is an Air Sign and mutable, versatile and changeable. The Resonances of Light of the **2nd Ray of Love and Wisdom** and the **6th Ray of Devotion** which flow through the Constellation of Gemini assist in mutating and adjusting everything that is required for the evolution of the Soul, both individually and collectively.

The Second Ray is the primary Ray of this Solar System and as our Solar System is dualistic in nature the theme of duality is fundamental for us all. It is the electro-magnetic impulses that

flow from the Sun, out into all of Life that creates the 'push-pull' that underpins this dualism, this lack of constancy, and right now we are all being bathed in expansive electromagnetic frequencies, as witnessed through the aurora borealis, as the Sun erupts with mass coronal ejections, outpouring plasma magnetic energy into our atmosphere and equally into our cellular systems through the Ida, Pingala and Sushumna nadis, as we balance, integrate, and respond to this intensified evolutionary impulse.

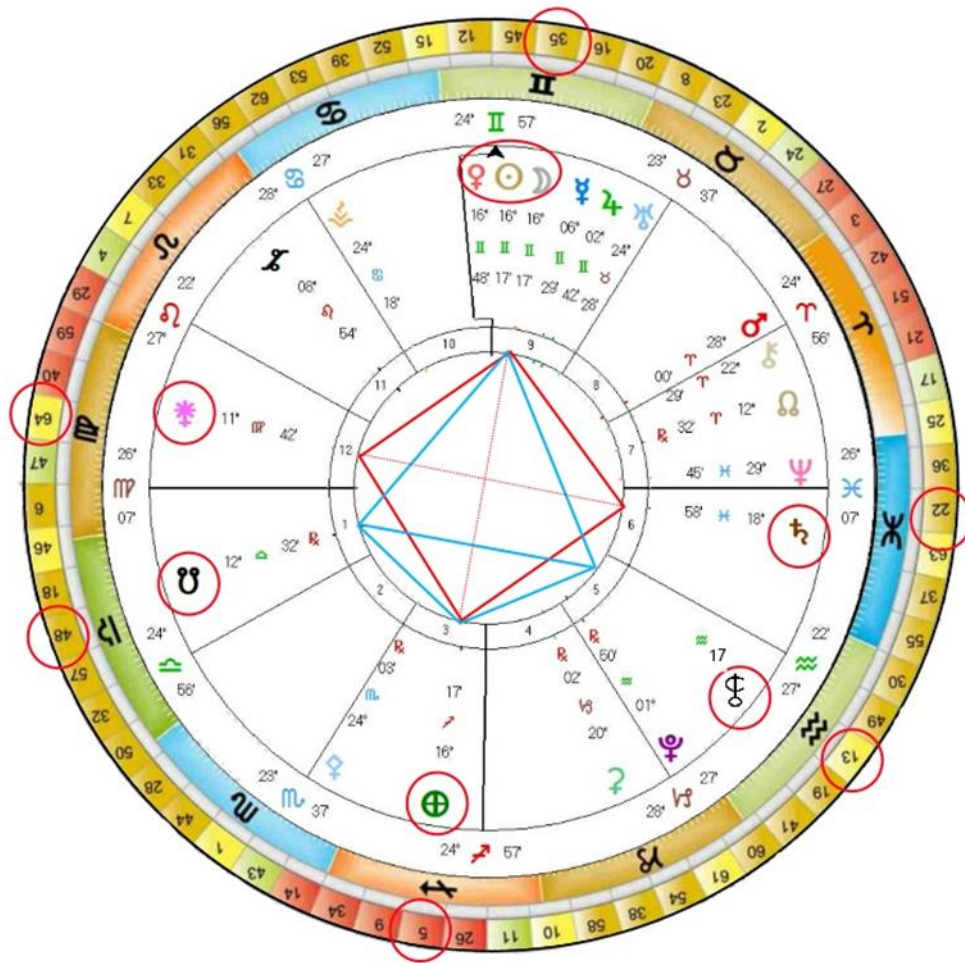

It is because of this lack of constancy, this unpredictability, that eventually, each one begins to search for inner harmony and stillness, which comes with the beginning of Soul awareness when the lower mind is no longer in the driving seat, but moves to the heart. Venus rules Gemini at Soul level which naturally seeks to harmonise. It is through Gemini that our thought forms, beliefs, and ideologies are transformed into higher intuitive awareness, in service to all.

As said, at the time of this New Moon, Venus is conjunct the Sun and Moon, but three days prior to that, there will be an alignment of six planets, visible in the Northern Hemisphere, just before dawn, on the 3rd of June. Jupiter, Mercury, Uranus, Mars, Neptune and Saturn form an ascending line in the sky. A similar 'Parade' of six planetary bodies occurred at the Solar Eclipse on 8th April. Reflecting perhaps, back to us, a theme of alignment and balance – a feeling of getting 'our ducks in a row' and enhancing our receptivity for the upcoming New Moon.

We will only understand the Miracle of Life when we allow the unexpected to happen Paul Coelho

Chart for the Gemini New Moon 2024

Gemini New Moon 6th June 2024 13:37 BST London UK
<https://www.timeanddate.com/moon/phases/>

At the time of this New Moon, there is a Mutable Grand Cross (red lines) and also a Kite Formation (blue lines). All of these points flow to the Sun ☉ Moon ☾ and Venus ♀ at 16 Gemini and the Earth ⊕ at 16 Sagittarius, so there is a real focus and emphasis upon these two Gene Key positions.

The Sun Moon and Venus are on Gene Key 35 known as **Wormholes and Miracles** moving through the Shadow of **Hunger** to the Gift of **Adventure** to the Siddhi **Boundlessness**

*'To break through the Hunger barrier is to break into the Heart. The hallmark of the Gift frequency is that it always involves Love. Love is the only force that can bring an end to the Hunger of the 35th Shadow. **With Love, serotonin production is increased and stabilised within the chemistry of the human brain.** With Love, the energy stored within the 35th Shadow is released into the human being instead of being squandered in the world.'*

'For humanity, progress means you have to evolve in your awareness and the next step beyond mental awareness is to leap into the higher awareness of the Heart. Love has nothing to do with another separate person, but is the connective tissue underlying all creation.'

*'The 35th Gene Key stands alone as an island within the human genome site - it is formed by only one codon, known as the **Codon of Miracles**, and in this sense, the 35th Gene Key is similar to the 41st Gene Key, known as the **Codon of Origin**, which represents the initiator codon that begins all human genetic processes.'*

'Like the 41st Gene Key, it is an aspect within humanity waiting for a specific time before it switches on. **Yet unlike the 41st Gene Key the ability to switch certain genes on and off does not always lie outside your grasp.** The 35th Gift is the only place within all human DNA that human beings have a choice in how their reality is constructed. As you might imagine, this is quite an important codon within human evolution.'

'This is the great Adventure that you take as the 35th Gift enters into your being – you enter a process of alchemical co-creation within your own body. As you raise your own consciousness through Love, these delicate chemical matrices begin to spontaneously form within your physiology. **To live with an open heart is to live in a perpetual state of Adventure.'**

'There is a hidden wormhole in the DNA - a shortcut to the Divine. **This is where pure unconditional Love can break all the laws of the Cosmos, including all genetic laws.** It is allowing human beings to take charge of their own evolution and outwit the global genetic programme.'

'The 35th Siddhi invites human beings to expand their consciousness so far that they leave the sphere of evolution altogether. Boundlessness is Consciousness. When the Siddhi of Boundlessness enters the world, it allows consciousness to penetrate right into the heart of matter, which bends the Laws of Matter.'

'Such a Siddhic Being represents a shortcut through evolution itself and many people can experience huge awakenings and miracles around such a Being. In this respect, the 35th Siddhi also finds a strong connection with the 22nd Siddhi of Grace, since it is Grace that decides when, where and to whom a miracle will occur.'

The Earth is on Gene Key 5 known as **The Ending of Time** moving through the Shadow of **Impatience** to the Gift of **Patience** to the Siddhi of **Timelessness**.

'It is the 5th Gene Key that really forms the backbone of the 64 Gene Keys. **Containing all the codes and patterns of life, the 5th Gene key represents the great digital library of consciousness in form.** Because the 5th Gene Key connects all life forms into a wider pattern, you have to learn to realise that nothing happens by chance. Everything is connected to everything else... **If you look at the state of the mass consciousness on our planet today you will see a Universal mutation underway.** Our entire species is undergoing a deep genetic quantum leap.'

'The antidote to Impatience is Patience. Patience is the natural ground of your Being, whereas Impatience arises out of fear and conditioning. **Patience is about trust.** If you trust in life, you will trust life in every moment, even the challenging moments, and in so doing you will always remain in the flow.'

'As a vital element of the chemical family known as the Ring of Light the 5th Gene Key plays a profound role within your genetics. **The amino acid, threonine determines the blueprint for how your individual cells trap light and convert it into energy.** The more you are able to settle into a deep trust and Patience with the rhythm of your life, the more your heart will open and you will begin to discover a higher functioning of your DNA – a code within a code.'

'Through the magnetism of your living aura you draw in or limit the frequencies of light deep into your cellular structure. **The more openhearted you are the more you magnetise higher frequencies into your DNA.'**

*'To live an open-hearted life is to operate at peak health and, therefore, override any genetic predispositions, as outlined in the map of the human genome. **What the Shadow frequency views as a problem may actually be a higher genetic mutation waiting to be unlocked.** Here at the highest Siddhic frequencies, codes can no longer be unlocked digitally, which means to say that the mind cannot comprehend them. **Only the human spirit can unlock the deepest secrets in your DNA.** It is in the 5th Siddhi that the great secret known as Enlightenment lies waiting. The highest code can only be awakened by the flood of high frequencies contained within the Spectrum of Light.'*

The more you open yourself to the higher frequencies of Light the more heightened the vibration becomes within your cellular DNA.** At the 5th Siddhic level, Patience itself is completely transcended and something wonderful happens - you as a separate entity cease to exist! Awakening usually occurs in a rhythmic manner in that your body is periodically flooded by higher Siddhic frequencies prior to full blown Enlightenment. As you approach the Siddhic threshold, the frequency of your body begins to approach the speed of Light and when your frequency does register at the speed of Light, **Time finally dissolves and Pure Being is experienced within a state of Timelessness.'

Saturn ♄ and Juno ♃ form the other aspect points of the Mutable Grand Cross. Saturn is the Gatekeeper into higher transpersonal consciousness when no longer trapped in an insular separated 'me' consciousness. Saturn requires an integrated and balanced persona that is grounded, centered, and balanced.

Juno requires the electro-magnetic pulse that flows through our etheric bodies to be finely tuned and in alignment with both the electro/masculine/+ impulses and the magnetic/feminine/-impulses, which are being intensified and heightened, at this time, through the mass corona ejections that are occurring.

Saturn is at 18^o Pisces on Gene Key 22 known as **Grace Under Pressure** moving through the Shadow of **Dishonour** to the Gift of **Graciousness** and to the Siddhi of **Grace**.

*'Evolution descends from above. **From the point of view of the 22nd Gene Key every feeling mood or thought you have is put there directly by God for you to trust in it.** You do not have to act the energetic out, you can work to internally transmute, heal and integrate the resonance, but in subduing it or denying it you are Dishonouring and distrusting the feeling resonance.'*

*'One of the great Cosmic Laws is the Law of Divine Memory. **This Law states that all thoughts feelings and acts are recorded everywhere within the body of the Universe.** The fact is that you cannot reach higher states of consciousness without first passing through your own Shadow.'*

*'The 22nd Gift is the Gift of Graciousness. Just like the Shadow, the 22nd Gift is extremely powerful in its effect upon others, but at this level, **the Gift of Graciousness can greatly help others to become free of their negatively charged emotions.** It is the ability to live life to the full, holding no feelings back, whilst at the same time having deep respect for the feelings of others.'*

'At the Gift level you see that all is interconnected – all things and all people. You realise at a deep level that we are all being listened to and you inherently know that if you do someone an injustice it will come back to you.'

*'This profound awareness of Karma means that a great deal of your work in life will lie in the sphere of relationships and the emotions. **With the Gift of Graciousness you begin to disperse your own Karma and that of your ancestral DNA.** The Gift of Graciousness might also be called the Gift of the Soul. Above all else this is the Gift of living life from a place of deep Love.'*

*'As you see from the 22nd Shadow, there is nowhere you can hide in this Universe. Everything is heard and recorded. Neither can you hide from Grace. Grace is your true nature. It is your inheritance. **It is the Soul of the World.** It is also a state that is beyond the Laws of our world. Grace is the breath of the Divine. Grace is a Presence that descends on humanity and, like all the Siddhis, it requires that we meet it halfway, which for us humans may seem a long way. This is after all a perfected state in which everything about you and your life will be changed permanently.'*

'When true Grace descends it wipes out all your past karma in a flash. It also wipes out the Karma of all your ancestors and all their ancestors. Grace softens and puts an end to fear and leaves you in no doubt about your Divinity. If Grace touches you, you no longer have your own destiny but become a musical instrument played by the Cosmos.'

'With Grace all human emotion is instantly transformed into Love. As a feminine spirit, Grace calls upon each of us to listen and receive her message and blessings. Above all, remember this: through Grace, the Universe has but one single wish – for you to remember that you are Love and there is nothing in you but Love.'

And Juno is at 11⁰ Virgo on Gene Key 64 moving through **Confusion** to **Imagination** to **Illumination**.

'Gene Key 64, when coming from a low frequency has a general background unease - this unease is the suffering of the whole world through the quantum field that connects us all. The more you listen into your body, the more you will attune to this collective sense of unease that is rooted in fear.'

*'Most people develop patterns from an early age to escape feeling this vast desert of world pain and the mind is the first line of defence. As long as we are addicted to thinking we can avoid fully feeling it. The Light that flows through the 64th Gene Key wants more than anything to enthuse and fire your mind with inspiration rather than Confusion. Confusion in itself is a perfectly natural state. **The ancient alchemists referred to it as the massa confusa – the chaos of the elements – the primal swirling that preceded the birth of the Universe.'***

*'Despite the reality of the pain we are born into as we enter a human body, there is good news. The solution is so simple. The suffering we feel – though real within the context of our physiology – is an illusion when it comes to our minds and our minds hold the key to its release. **Once you are willing to feel the pain – the miracle begins.***

*'All natural energy or life force has an inbuilt programme to grow and evolve. **Imagination is the expression of unimpeded life force coursing through our genetics.** Thus, when you release the quantum energy that was latent inside you, it begins to rise. As it rises the evolutionary force takes a hold of your mind and begins to 'paint' with it.'*

'Imagination allows alchemy to occur inside your being and a truly creative individual is born. Once the frequency of inner Light illuminates physical form, that form begins to ascend.'

*'It may or may not be able to ascend physically depending upon its genetic constituents. **Physical ascension is directly dependent upon Divine Will.** Only certain evolutionary human vehicles are equipped for this purpose. **This is the meaning of Transfiguration – when the Causal body draws the Physical body up into itself.** Only the higher codes of the Ring of Alchemy involve such rare occurrences.'*

'To be Illuminated by the 64th Siddhi is to remain empty, while being constantly flooded with the rainbow colours of the inner aurora – it is to be an easel for the Imagination of the Universe itself.'

As you will see this Mutable Grand Cross holds a specific and initiatory pulse – for the last few weeks Pluto has been on Gene Key 41, activating the Start Codon, which, like Gene Key 35, is a stand-alone key amongst the 64 Keys.

Pluto has now moved back to Gene Key 60, but as shared last month -

'The more the frequency of your DNA rises you become more and more sensitive to the hidden properties in the world around you, in particular, linking into the morphogenetic field that communicates specific information across time and space. The 41st Gift has a single genetic agenda – it is always attuned to the next evolutionary energetic grid that is waiting to descend into form. When you are able to maintain a high frequency through this 41st Gift you will be able to literally download all manner of beautiful things from the morphogenetic field.'

These activations are not random, but work in a beautifully orchestrated and precise way to bring more Light and Consciousness, sequentially, into our cellular system as we integrate these heightened frequencies in our journey around the Sun.

Continuing the focus now back to Gene Key 35, the South Node ♁ and a Centaur called Chariklo ♄ are 120° apart at the time of the New Moon, forming a Grand Trine (blue lines) with the Sun Moon and Venus at the apex with the Earth opposite.

As for last month the South Node remains on Gene Key 48 known as the **Wonder of Uncertainty** moving through **Inadequacy** to **Resourcefulness** to **Wisdom**

'This Shadow gives rise to one of the deepest human fears – the fear that we are inherently inadequate. The frequency that the 48th Shadow releases into the cells of your body emerges as a profound uncertainty about the future and your ability to handle it. The potential of this 48th Gene Key is urging us to dig deep into our Souls for collective and practical resolutions.'

*'In the years ahead we are going to have to understand this Gene Key and the hold that its shadow frequency has over us. Every human must eventually turn inward and look into this deepest fear – the fear of the void. **What we will discover is that the void is not empty and cold but warm, loving and bursting with light and wonder.'***

*'The secret of moving beyond the 48th Shadow lies in one word – Trust. **As you learn to trust life on a broader scale the well begins to reveal some of its secrets.** First, you must enter the well – by entering into this field of fear you slowly learn to stop being afraid of fear itself.'*

*'Instead of hiding from the darkness inside you, it is as though you finally lower a bucket down the well and then pull it up to see what it contains. What you discover is a wonderful surprise – the well has all manner of solutions to all manner of challenges – you will be amazed that so much Light can emerge from such a dark place. **This is the essence of the Gift of Resourcefulness.***

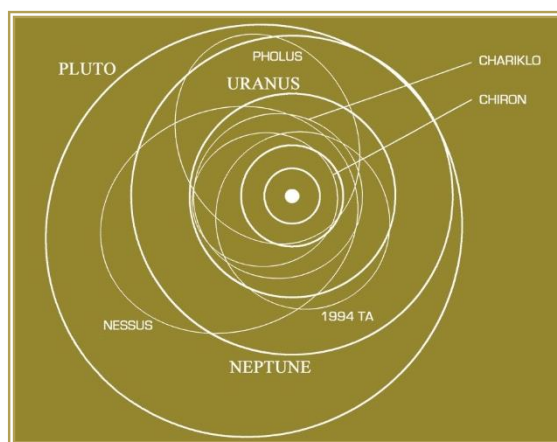

'The 48th Siddhi of Wisdom is one of the truly great Siddhis. Wisdom has been revered and sought by all cultures since the beginning of time. Most see Wisdom as some inner knowledge that allows the individual to see beyond the confines of normal awareness. However, the 48th Siddhi opens up the void inside you and you enter into a primal state of not knowing.'

'Everything about Wisdom is about being unsafe and unsecure. There is a great difference between being insecure and unsecure – in insecurity we are looking for safety, for answers - to be unsecured means to be released from fear altogether. It means to have stepped through the Group Consciousness of fear and to be more secure than can possibly be imagined. No fear of death, no fear of life.'

'Wisdom is feminine in essence deep and unfathomable. Water is a symbol for Wisdom because its nature is paradoxical – it is empty yet full, weak yet strong, resistant yet yielding. One who is truly wise is like water in all these ways – you are wise because you do not know you are wise, you are powerful because you do not care about power, you are fearless because you do not really exist!'

Chariklo is the largest known Centaur, having an orbital path between Saturn and Uranus like Chiron. At present, she is orbiting through the constellation of Aquarius where she will remain until 2028.

'Chariklo is considered a Celestial body of Grace, Healing, and Compassion – a reminder of the loving-kindness that lives within us all. She holds space for healing through a soft, calm presence. In mythology, Chariklo was believed to be a shapeshifter. She could morph between a Centaur and a water nymph.'

'Again, according to ancient Greek mythology, Chariklo was the daughter of Apollo and believed to be the wife of the Centaur Chiron.'

'Chiron's healing teaching asks that we integrate and resolve our wounds, turning them into portals of strength. Together, Chiron and Chariklo represent the healing qualities of the Divine Feminine and the Divine Masculine. These qualities are not about gender, they are instead, energetic expressions that when in balance, can bring a sense of harmony and unity to our mind, body, and soul.'

Tanaaz

So where is Chariklo right now? She is at 17⁰ Aquarius in a wide sextile aspect to Chiron, and is on Gene Key 13 known as **Listening Through Love** which seems to be a quality that is sorely needed on this Planet right now, as we move away from mental projections, judgments and fears, navigating through the Shadow of **Discord**, to the Gift of **Discernment** to the Siddhi of **Empathy**.

'Discernment emerges as your emotional nature comes more and more into awareness. As you realise how deeply in the thrall of desire you are, you begin to understand the whole of humanity as well. Discernment begins at an individual level as you see how deeply your view of others is connected to your feelings. Only when your personal feelings are witnessed and examined can you become more objective. With the arising of Discernment come many gifts. Once you stop viewing life from a subjective emotional level a new landscape of feeling opens up within you. Over time, your personal agendas become more lucid and you reclaim the ability to listen to others and the world from a broader perspective.'

'This feeling is the early manifestation of your future ability to transcend your emotional system - and it is experienced as optimism. Optimism is the gradual swelling of awareness within your solar plexus system transferred and projected outward onto the world.'

'Those with Discernment know in their bellies that this phase of our history must and will lead to a transcendent leap in consciousness, regardless of the fear based culture in which we live.'

'The 13th Siddhi like its partner the 7th Siddhi has much hidden wisdom within it. Our DNA is an incredible substance – it contains all the memories of our entire species and even those earlier life forms from which we descended. Like a fractal shard of God itself, DNA forms the living vibrating link to the beginning of life on this planet. Even more profoundly it connects us to the seed from which our very Universe first sprouted. It is through the 13th Siddhi that information from our collective past can be recovered.'

'These days most people use the word Empathy without grasping its deeper connotations. The Siddhi of Empathy requires complete dissolution of the individuated self. Once identification with one's form has been cut Empathy reveals itself as the background awareness of all living forms. In other words, we really are inside each other.'

'We are not just talking information here. The 13th Siddhi can unlock the essence of what it is to experience being a wild panther, or a strawberry, or a mullusc. Through the Ring of Purification, the 13th Siddhi opens its eyes on a new world – a world in which the past has been magically transformed into a radiant new future. Human addiction to Desire ceases in this Siddhic state and it is said that one's spirit no longer returns to Earth but takes birth in higher spheres of existence.'

This New Moon is speaking clearly to us of how all outer activity flows forth from our inner state of consciousness – and it is from the balance and harmony of these electromagnetic fields, the Heart/Mind, that Siddhic states arise, opening us to **Boundlessness** and **Timelessness** beyond past, present, and future into No Time.

May the Essence, Light and Love of the Consciousness of **Grace, Illumination, Wisdom** and **Empathy** open our Hearts to reveal this timeless and regenerative Miracle of Life.

Love and Blessings to All

2.6.2024
