## ‘I AM’ the Light of the Soul

The New Moon at 12<sup>0</sup> Leo 33' takes place for most, on the 4<sup>th</sup> of August, but for those in New Zealand it will occur just after midnight on the 5<sup>th</sup>.

We are currently in the time of the Lion's Gate and looking back to 2022 during this same period to see what had been written at that time I found - *'Right now we are in a time of great change, and realignment, which is being reflected in the current alignment of Mars, Uranus and the North Node at 18<sup>0</sup> Taurus, which takes place on July 31<sup>st</sup> 2022. Uranian energy speaks of Freedom and Truth – with Mars in the planetary alignment, this is quite likely to bring issues to a head - we are likely to witness some volatile activity, sudden unexpected events, truths being revealed, protests and marches - with financial situations fuelling unrest.'*

Both Uranus and Mars have moved on in their transiting pathways over these last two years, but over the 13<sup>th</sup> to 16<sup>th</sup> of July this year, Mars once again came back to conjunct Uranus, now at 26<sup>0</sup> Taurus and on the Fixed Star Algol. Algol has been given many meanings – linked to the Goddess Medusa and to the severing of her head. Medusa was also said to bring protection to Pallas Athena in battles. Whether the severing of the head is actual, or rather refers to the losing of a high-powered position, this archetypal theme was playing out at the time of the attempted assassination on the 13<sup>th</sup> of July in Butler Pennsylvania.

As with all energy that has not been integrated into our lives, initially, it comes with a more fatalistic, negativity, as was the case for Pluto and Chiron. Algol/Medusa is seen as the Dark Feminine, having great power and, as such feared, but equally, Algol has the potential to be expressed as a transformative experience, assisting our evolution into higher states of consciousness. Algol/Medusa also brings a protective quality and has the potential to bring revolutionary ideas and gifts into this world, held within the deepest subconscious.

The deep Shadow that is playing out in the world at this time, has been brought to the surface in no uncertain ways with a clear message - stop projecting anger and blame on each other – come together as a human race and stop being manipulated by inflammatory thoughts, whether by politicians, the media or our own mental inner and outer dialogue. It is time to let go of repetitive and obsessive thoughts – to be rooted in the Heart, centered and at peace as we journey into the 8.8.8 Lions Gate of Leo, when the energies of Sirius align with the Sun and impulse and magnify this Light once again.

Leo is Fixed Fire energy - ruled by the Sun. The Stellar Light of the Sun enfolds our Solar System in the *2nd Ray of Love and Wisdom*, whilst the Leo Constellation irradiates the *1st Ray of Divine Will and Power* and the *5th Ray of Concrete Knowledge*, ushering in the humanitarian ideals of the Aquarian Age.

*It is in the exploration of the darkness, the willingness to turn towards what is uncomfortable and difficult, that we discover our authenticity and power through deep transformation.*

## Chart for the Leo New Moon 2024

The New Moon 4<sup>th</sup> August 2024 12:12 pm BST London UK

<https://www.timeanddate.com/moon/phases/>

At the time of this New Moon there are two Kite Formations (*blue lines*) and a Yod, or of God, (*green lines*) formed by the planetary positions. The first Kite involves the Sun ☉ and Moon ☾ Jupiter ♃ Mars ♂ Earth ⊕ and South Node ♑. The placement of the Sun and Moon are at 12° Leo 33' which has the sense of completion '12' and Mastery '33'.

At the same time, the Sun and Moon are on Gene Key 33 known as **The Final Revelation** moving through the Shadow of **Forgetting** to the Gift of **Mindfulness** to the Siddhi of **Revelation**.

*'Most of us are familiar with the notion of karma. Perhaps not so well known, however, is the doctrine of the sanskaras. The sanskaras are the specific memories that you carry from life to life according to the karma you have taken on in this lifetime. They are far more than simple memories – they are a charge of kinetic energy stored in the sheaths of your consciousness, which over time determine the shape of your life and your destiny.'*

*'The 33rd Shadow is the great Shadow of our Forgetting. Along with the 12th and 56th Shadow, it is one of the three great tests we have to face in our evolution on this planet. Each of the 12th, 56th and 33rd Shadows are related to the three Stop Codons in the human genome. These Stop Codons are genetic markers inside your physical DNA that, when activated, begin to unplug you from the illusory world of the outer senses.'*

*‘Coming to a Stop Codon, to the 33<sup>rd</sup> Gene Key, is like coming to a clearing having wandered for months in a dense forest. It is like coming up for air. In the clearing there are always clues hidden in certain places about how to find our journey out of the forest. The 33rd Shadow governs all the endless cycles of existence and incarnations on this planet.’*

*‘Around the energetic and etheric boundaries of our planet lies a great veil – the Ring Pass Not. This is the energetic grid that connects the higher planes to the lower planes. It keeps humanity locked into these material forms until such time as the consciousness begins to spontaneously awaken of its own accord, at that point the frequency passing through the DNA rises above this atmospheric veil and our true Universal and Eternal nature is revealed*

*‘In the modern world we have become a rush of Forgetting. We have become obsessed with movement with evolutionary change. We are so absorbed in the screen, in what is rushing towards us, that we don’t engage with what has gone before. The 33<sup>rd</sup> Gene Key is adept at drawing sustenance from the past, from our mistakes, from our history. It is a Master of reflection and retreat. It is through Mindfulness that you discover how to purify your nature so that you no longer create negative karma.’*

*‘Through the Ring of Trials you learn to discriminate (the 12th Gift) between that which keeps you trapped and that which brings freedom, by moderating your thoughts, feelings, speech, and actions. Equally, the 56th Gift of Enrichment shows you how easily you are distracted away from your true nature by your senses. Thus, you begin to be drawn towards experiences that enrich your Spirit rather than experiences and addictions that stimulate or overstimulate your senses.’*

*‘Mindfulness is a very enriching experience and process for the karma inside your very DNA is systematically transformed back into pure essence – the natural state of Divine longing which becomes the very fuel that returns you to the true centre of Being.’*

*‘As you rise into higher and purer frequencies, the secrets of the higher realms are released sporadically into your lower nature and, over time, your physical DNA begins to mutate to accommodate these higher frequency wavelengths. Once your DNA has mutated to sufficiently handle these higher frequencies permanently it is ready to receive the full force of the Siddhic realms.’*

*‘The fullness of the Siddhic state causes time to disintegrate and memory along with it. You do not lose your physical memory, but rather your mind can no longer interfere with the purity of consciousness, which flushes the karma/sanskaras out of your whole being.’*

Transiting Jupiter, which is the Soul centred ruler of Aquarius, is now at 15<sup>o</sup> of Gemini and is activating Gene Key 35, where the Sun Moon and Venus were at the time of the Gemini New Moon on 6<sup>th</sup> June. Jupiter is about expansion and fusion the blending of the head and the heart to produce Wisdom. Gene Key 35 is known as **Wormholes and Miracles** moving through the Shadow of **Hunger** to the Gift of **Adventure** to the Siddhi **Boundlessness**

*‘To break through the Hunger barrier is to break into the Heart. The hallmark of the Gift frequency is that it always involves Love. Love is the only force that can bring an end to the Hunger of the 35<sup>th</sup> Shadow.’*

*‘With Love, serotonin production is increased and stabilised within the chemistry of the human brain. With Love, the energy stored within the 35<sup>th</sup> Shadow is released into the human being instead of being squandered in the world.’*

*'For humanity, progress means you have to evolve in your awareness and the next step beyond mental awareness is to leap into the higher awareness of the Heart. **Love has nothing to do with another separate person, but is the connective tissue underlying all creation.'***

*'The 35<sup>th</sup> Gene Key stands alone as an island within the human genome site - it is formed by only one codon, known as the **Codon of Miracles**, and in this sense, the 35<sup>th</sup> Gene Key is similar to the 41<sup>st</sup> Gene Key, known as the **Codon of Origin**, which represents the Initiator Codon that begins all human genetic processes.'*

*'Like the 41<sup>st</sup> Gene Key, it is an aspect within humanity waiting for a specific time before it switches on. **Yet unlike the 41<sup>st</sup> Gene Key the ability to switch certain genes on and off does not always lie outside your grasp.** The 35th Gift is the only place within all human DNA that human beings have a choice in how their reality is constructed. As you might imagine, this is quite an important codon within human evolution.'*

*'This is the great Adventure that you take as the 35th Gift enters into your being – you enter a process of alchemical co-creation within your own body. As you raise your own consciousness through Love, these delicate chemical matrices begin to spontaneously form within your physiology. **To live with an open heart is to live in a perpetual state of Adventure.'***

*'There is a hidden wormhole in the DNA - a shortcut to the Divine. **This is where pure unconditional Love can break all the laws of the Cosmos, including all genetic laws.** It is allowing human beings to take charge of their own evolution and outwit the global genetic programme.'*

*'The 35th Siddhi invites human beings to expand their consciousness so far that they leave the sphere of evolution altogether. Boundlessness is Consciousness. When the Siddhi of Boundlessness enters the world, it allows consciousness to penetrate right into the heart of matter, which bends the Laws of Matter.'*

*'Such a Siddhic Being represents a shortcut through evolution itself and many people can experience huge awakenings and miracles around such a Being. In this respect, the 35th Siddhi also finds a strong connection with the 22nd Siddhi of Grace, since it is Grace that decides when, where and to whom a miracle will occur*

Mars is the Soul-centred planet of Scorpio, and flows with the 6th Ray of Devotion. It is associated with personal will, drive, action and assertiveness, which at lower frequencies relates to the ego personality, focussed upon 'me', 'mine' and 'my' way, which perpetually erupts as personal and collective battles.

Mars is on Gene Key 16 at 9<sup>0</sup> Gemini known as **Magical Genius** evolving through the Shadow of **Indifference** to the Gift of **Versatility** to the Siddhi of **Mastery**.

*'At the Shadow frequency one of the most powerful and pervasive forces that keeps you from perceiving a higher reality is Indifference. Indifference makes us inhuman. Humanity is all about caring for each other and the world and it is about caring what happens in the future as well as the present. This is uniquely human, but the Shadow frequency drops us below this definition. Indifference simply arises because the mass consciousness does not yet see its own true nature - that is, it doesn't yet realise itself as a holistic entity. **However, our new awareness will enable us to identify as a single consciousness.'***

*'At the 16th Gift level of frequency something remarkable occurs – no matter what your personal genetic makeup, you can draw upon any of the 64 Gifts through the Morphogenetic field that links all states of the same frequency together. **To be versatile means to be multi-faceted.** Versatility is a frequency and at this level natural abilities emerge with ease. **This is the true meaning of this 16th Gift – it is the ability to tune into any Gift you need and make use of that Gift.'***

***'The Gift describes the process of the opening of the Heart. It opens, it closes, we open it again, it closes again. It is a stretching, a process, a learning. We are carving ourselves into Being. At a certain point our heart softens to such an extent that it is no longer necessary to close it off. To be a Master means to be a Master of living.'***

***'A Master, or Mastery, is the opposite end of the spectrum of indifference. A Master must be extremely sensitive, though not in a weak way. A Master feels everything – a Master is a receiver, an open book and the Master combines the focus of the yang with the receptivity of the yin. There is a wonderful softness to this 16<sup>th</sup> Siddhi.'***

***The 16th Siddhi has an interesting connection to the 35th Siddhi of Boundlessness. As one of the Miracle Siddhis, the 35th Siddhi's sole purpose is to expand the average human's perspective on life exponentially. The one who has attained this Siddhic level displays Mastery over Creation – their powerful actions, seen as miraculous, pull humanity out of Indifference.'***

The Earth, at the time of the New Moon, is on Gene Key 19 known as ***The Future Human Being*** moving through the Shadow of ***Co-Dependence*** to the Gift of ***Sensitivity*** to the Siddhi of ***Sacrifice***.

***'This Gene Key is about initiation – it is about opening our mind and heart up to other realms, other behaviours and other possibilities. The 19th Shadow of Co-dependence has its roots deep within our tribal past. Co-dependence refers to the state of consciousness below independence. To be independent means to rely only upon yourself, whereas to be Co-Dependent means to rely on outside agencies.'***

***'As long as man believes in a God outside of himself the frequency of our planet will remain at the level of the 19th Shadow. It is out of the 19th Shadow that all the world religions have been created. However, the 19th Shadow is currently undergoing a huge genetic mutation, which means that man's reliance on religion is also undergoing a transformation.'***

***'As this great reaction is occurring within the chemistry of our DNA – the old ways appear to tighten their grip on the only reality they have known. As we grow beyond Co-Dependence we discover that independence is an illusion, for in truth Life is, and always has been, interdependent. It is through the Ring of Gaia that we must and will eventually see and will live, once again, in union with all beings that share this planet Earth.'***

***'The 19th Gift is the gift of healing. In today's world, people with the 19th Gift are likely to use their Sensitivity in any field where people are working together in groups.... Their ability to unconsciously sense the needs of others means they are often seen as psychic. There is a heightened awareness of other worlds, realms and kingdoms of life forms and the ability to communicate with them.'***

***'The 19th Gene Key is one of three primary portals along with the 62nd and 12th Genes that allow humanity access to other evolutionary kingdoms within nature. These kingdoms, which have often been referred to as the Angelic or Devic realms, are planes of consciousness that follow a similar evolutionary pattern to humanity but in parallel dimensions. The 19th Gene Key behaves like a genetic marker in human DNA – when you hit a certain genetic frequency that marker activates the portal allowing information to cross clearly between these parallel worlds. This Gift truly spans all realms and its future function, as we shall see, is to collapse the barriers that separate them – for these are the Shamans who fuse the ancient magical realms with the modern material plane.'***

***'The path through the 19th Gift goes from Co-dependence to independence and finally to interdependence. Through the 19th Gene Key you can see how each level of frequency has to transcend itself entirely. In surrendering your small self, you attain the realization of your ultimately greater Self - to Sacrifice your individual identity and experience yourself as one with all life as well as the Creator of it.'***

**'The 19th Siddhi shares a profound connection with the 49th Siddhi of Rebirth.** These two Siddhis represent the key mystical process that will eventually overtake the human species - the ultimate realization that all sacrificial deaths lead to Rebirth. **Life is a living chain of Sacrifice.'**

**'Consciousness is now beginning to outstrip man and is reaching out for a higher form.** But the new form must emerge out of the old one, so deep within Human DNA new mutations are being triggered. **The 19th Siddhi contains the secrets of this mystical initiation.** They are highly sensitised bridges to the new human and have the ability to siphon information about the new paradigm from behind the veil of the future into the present – **they see the new form emerging and do their utmost to prepare people for the coming consciousness shift.'**

The final point creating this Kite Formation is the South Node, which holds the culmination of past collective Karma that is seeking to be transmuted and integrated into the highest frequencies for present awareness. The South Node is on Gene Key 18 known as **The Healing Power of the Mind** moving through the Shadow of **Judgment** to the Gift of **Integrity** to the Siddhi of **Perfection**.

**'The 18th Gene Key is psychologically extremely profound.** It is actually the basis of psychology as it holds the keys to human conditioning. This Gene Key is about the physical, emotional and mental boundaries that you meet in your life. Because we are biologically imprinted in seven-year cycles, it is possible to say that we have not fully incarnated into our lives until the age of 21. **The 18th Gene Key will continually bring you back to any recurring issues rooted in your childhood.'**

**'The 17th and 18th Gene Keys are partners and as such the Shadows of Opinion and Judgment create much misery in the world. The 18th Shadow, however, holds a key secret, that all judgement is a self-Judgement.** The key to raising this level of frequency is to realise that everything external in your life is a mirror of an internal process seeking resolution. As you move beyond the victim mind – your frequency rises, and your external and internal life reflect these changes.'

When you know the Oneness of Life,  
when you realize the Unity of Existence  
there is Love in your Heart and the  
Divine in your Experience.

Sadhguru

**'When you are free from the trap of the victim mind then Judgement becomes Integrity.** To uphold Integrity, you have to be courageous – you have to challenge anything or anyone who does not meet your high standards. **Integrity uses Judgement in an objective and impersonal way.** Judging from the heart is never cruel because Integrity has only one purpose - to serve the whole in the spirit of truth and compassion assisting other to step out of the victim mind.'

**'The 18th Siddhi is not often seen in the world today - it involves an archetype of Perfection.** If the 18th Gene Key is activated within your hologenetic profile then you will continue to lead humanity towards Perfection in any and every way you can conceive of. **Someone demonstrating the 18th Siddhi is above the victim mind – when they look at someone, even someone who appears genuinely evil, they will only see the Higher Self hidden in that person.**

**'By holding this high thought frequency they influence hidden currents of energy that raise the frequency of others. This is called Siddhic thinking and it involves thinking with the heart.** The 18th Siddhi serves a very mystical purpose – it heals the split in the mental plane itself bringing humanity closer and closer to its realisation of Oneness. The 18th Siddhi is the source of the tradition of the Bodhisattva Vow.'

**'The Bodhisattva Gene Keys keep returning to the planet as individual human beings whose sole purpose is to build this collective vision of Perfection on the material plane. As we will all one day see, the end of this story also happens to be the beginning of our Universal Life.'**

The second Kite Formation has Uranus  and Sedna  aspecting Pluto  Juno  and Neptune .

Uranus is still on the Fixed Star Algol which brings in a real focus and intensity to this chart. The bottom line is, are we going to raise the vibration to transform and transmute (Pluto) the negativities that are flowing through our airwaves day after day, that have been created over a 12,000 year period (Sedna) or are we going to witness more disharmony and chaos unfolding in the outer world.

Uranus is a transpersonal planet linking into the Higher Mind and the 7<sup>th</sup> Ray and, as an archetypal energy, it comes with a high frequency, somewhat erratic pulse, which creates sudden, spontaneous, unexpected outcomes. Uranian energy breaks up the status quo, old stagnant energetic patterns, belief systems - bringing in new concepts, and inventions through flashes of inspiration and intuitive insight.

Uranus is on Gene Key 8, known as **The Diamond of the Self** moving from the Shadow of **Mediocrity** to the Gift of **Style** to the Siddhi of **Exquisiteness**.

***'To break out of the heavyweight frequency of the 8th Shadow you have to take an exciting leap of faith in yourself. This 8th Gift catches people's attention because it brings something fresh into the world. The Gift of Style has little to do with our popular interpretation of this word – it has more to do with following your own unique, rebellious spirit out into the world. True Style cannot be measured by materialistic trappings nor can it be faked. It is the natural flowering of your individuality. To find your own style is to be yourself without concern about what others may think. True Style takes great joy in shattering the grey world of mediocrity that is considered the norm.'***

*'The individual surrenders the self to a creative process that controls the individual rather than the individual controlling the process. The 8th Gift is about manifesting individual dreams rather than simply dreaming about them. This Gift is wild, organic and unpredictable energy full of genius and quantum leaps. Such is the power of genius, for it carries within it more than just a new concept – it carries intent from a higher realm that is far beyond the individual through whom it manifests. Their only concern is to free more free thinkers – thus such people inherit a powerful mission in the world.'*

***'People of the 8th Siddhi are not leaders. They are examples. Exquisiteness is experienced when the Divine Essence begins to shine through the individual. In this state of bliss you fall in love with your own pristine manifestation because it is through this uniqueness that the Divine currents can be accessed.'***

***'This is the stage at which you achieve transcendence of your genetics. You remain differentiated at the level of form, but at the collective Universal level your awareness permeates all forms, making you both a drop in the ocean and the ocean itself.'***

*'There is an inner Light and Wisdom that has a powerful and liberating effect on others, freeing them from the structured systems. Such people create their path as they walk it. Their legacy to the world is to dismantle all concepts of how one should live or what one needs to do in order to attain any particular state. They sparkle like exquisite rare jewels. They shine like a diamond in the heart of creation and wherever they look, they see other diamonds in various states of clarity – each one unique, each one exquisite and incomparable.'*

And Sedna, that planetary body so deep out in space, coming ever closer to the Solar System, at the end of an 11,400 year cycle, is activating Gene Key 20, known as **The Sacred OM** moving through **Superficiality** to **Self-Assurance** to **Presence**.

OM is the primordial, original sound of the Universe – embodying the Supreme Absolute, Spiritual Truth, and Divine energy. It is the essence of the entire Cosmic Field.

**‘This aspect of the DNA is very ancient.** The 20th Gene Key and its Shadow were developed in species that preceded human beings – primarily in the world of insects. Looking at insects we can see how incredibly busy they always seem to be – their only focus is to stay alive and to reproduce within a short time frame. **There is a blind activity occurring and like the insects, at a shadow level, human busyness lacks real Presence.’**

**‘The 20th Shadow concerns how deeply consciousness incarnates into a human form.** The 20<sup>th</sup> Gene Key is pivotal in understanding the Gene Keys. **The original name in Chinese can be interpreted as Contemplation.** It means viewing , in the sense of viewing inwardly and of being viewed. **At the Shadow level of being it is about Superficiality and absence, about not being aware of things, or of oneself or others.** Contemplation is not just thinking. It is a whole way of being. **It is about viewing yourself from a higher level, an objective level.’**

**‘The Gift of Self-Assurance comes into being when a human being first learns to let go of their thinking as the authority in making decisions.** **With Self-Assurance comes a profound surrender to life in every moment.** As you begin to accept that life has its own plans and flow, you also begin to stop interfering with the process at a mental level. Self-Assurance marks the end of the human tendency to worry about life. **This Gift is in fact the precursor to a higher state of spiritual awareness.’**

**‘In its purest sense, the state of Self-Assurance is actually your own greater nature emerging.** **It is a sign that more consciousness is being allowed to incarnate into the physical vehicle.** Your Self-Assurance is directly equivalent to your ability to escape being a victim of your mind. As you begin to learn the knack, you experience the subtle expansion of a meditative awareness – an ability to witness your mind without being caught up in it. **An internal spaciousness grows and you no longer have to try to control life. The true Siddhic state is one of complete relaxation.’**

**‘As you release deeper and deeper levels of tension, the high frequencies of The Presence force you to sigh until your body comes into a state of great ease.** Mythically the 20th Siddhi is represented by the notion of the Breath of God, or the Word of God. **Presence is the underlying nature of Being.** In fact, it would actually be truer to name this Siddhi, The Presence, since the use of the definite article gives us the distinct impression that this is a state of consciousness that has nothing to do with any individual. **It is the manifestation of The Presence through a human vehicle.**

**‘The Presence is experienced as everywhere and inherent in everything and is where we get the term Omnipresence.** When this Siddhi has flowered in a person it actually creates a subtle atmosphere around itself – a kind of silent ease that pervades the aura of the person and radiates out to all Creation. **They send off radiations of harmony that touch all quadrants of the Universe.’**

Both Uranus and Sedna are 120° away from Pluto, the planetary portal to Galactic consciousness. It is the Planet of Transformation and Divine Will bringing in the focus of 1<sup>st</sup> Ray energy. At the time of the New Moon Pluto remains, until January 2025, on Gene Key 60 known as the **Cracking of the Vessel** moving through the Shadow of **Limitation** to the Gift of **Realism** and on to the Siddhi of **Justice**.

**‘As we begin to see that we are more than we allow ourselves to often believe, then that frequency, that vibration of possibility, begins to activate something inside us.** **It is communicated to our DNA and we begin to open.** There is great capacity for magic in this 60<sup>th</sup> Gene Key which may sound odd as it is called the Gift of Realism.’

***'Common sense/Realism is not in opposition to magic. It is common sense to remain open-minded to everything in the Universe because everything has at its core the same wondrous inner Light. The Siddhi of Justice is not about retribution, it is a reward. It is given as Grace, not taken as punishment, and when it is given, freedom flows from it.'***

***'It is not an imposition or a limitation. The 60th Siddhi holds an apt description of what happens when a human being becomes fully realised. At a certain point, our hearts open to our true Innocence and we begin to unlock other codes in our DNA that are ancestral rather than personal and we begin to transmute more global karma.'***

***'The more our Being opens the more we are given. We may recall this Gene Key is part of the Ring of Gaia and it holds the karma of Gaia. When we are ready for that we get to be an agent of Divine Justice.'***

***'We take on the sins of our fractal, our fractal being the ancestral lineage we are born into. All this is in the DNA and all those acts that came out of fear down the ages are stored as memory imprints, in our DNA which we agree to transmute on behalf of the whole.'***

***'Every time a being attains enlightenment through the 60th Siddhi, magic comes pouring through this Being and they become a phenomenon, a symbol of the breaking of form – Masters who have attained the Body of Light.'***

And Pluto is 120° away from Juno the asteroid that embodies the archetype and essence of integration and balance when the masculine and feminine qualities are in balance and the electro-magnetic system underpinning our physical form flows in alignment and harmony with the Heart.

Juno is on Gene Key 46 moving through ***Seriousness*** to ***Delight*** to ***Ecstasy***.

***'When you live your life from this Shadow you carry a black cloud over your head. It always seems to rain when you don't want it to because you are out of synchronisation with the whole. Seriousness is all about attachment. The deeper we are in the Maya, the illusion, the more attached and constricted we are. We cannot breathe with that constriction. To forget our eternal nature is to take on a deep level of Constriction.'***

***'To escape the low frequency of Seriousness, it takes a single, simple quality – Acceptance. Acceptance is the programming partner of the 46th Gift of Delight. Delight is the sense of freedom that emerges from an appreciation of the richness of being alive. This Gift is about feeling alive within the realm of matter. The 46th Gene Key also contains the germ of material success and failure.'***

***'This much sought after secret is founded upon the principle of synchronicity – the Law that binds together all free-moving objects in space and time. Free-moving in this context means accepting. When you move through life with an attitude of Delight and openness, whatever happens is correct. If your attitude remains open and accepting you will see that the Universe is at work in you. Synchronicity is an energy field available to all with or without the 46th Gene Key in their profile. The only prerequisite for tapping into synchronicity is this Delight.'***

***'The new paradigm coming into the world is one of fusion, of the melding of heaven and earth, of the spiritual and the material. Ecstasy is the highest frequency of the 46th Gene Key and it occurs only through the heart. It is, in fact, the true nature of Humanity.'***

*'There is actually no work more important on this Earth than play. When we become truly playful we reshape the nature of our Collective reality. **Ecstasy begins with the breath.** When we learn to breathe deeply, not in a forced way, but in a relaxed and open way, then the softness of life can approach us.'*

*'**Ecstasy is not a word that most people consider when they think of themselves and their lives.** Yet it is this block at the mental level that keeps us at a frequency far from Ecstasy.'*

*'If you can open your heart to receive the frequencies they represent, the frequencies will begin to seek you out, for Siddhic states are all a matter of magnetism.'*

*'People who manifest this Siddhi cannot go unnoticed in the world. **The Love that swirls around them is so tangible that it can even be felt by people of the densest frequency.***

*'It is not that this 46th Siddhi is any more powerful than any other Siddhi, but that this manifestation of Divine consciousness is so close to the physical realm and it emerges through the physical body. **Matter is penetrated completely by the Spirit.** Such men and women – the ecstatics – have not always found it necessary to remove themselves from the world, but have found their love within the world of ordinary life. **Ecstasy comes in waves, in orgasms that travel through the Universal quantum field in which we live.'***

Directly opposite to Juno at the time of this New Moon, is Neptune, the transpersonal planet of the higher vibration of Venus, linking into the Higher Heart and Unconditional Love. Neptune is on Gene Key 25 known as **The Myth of the Sacred Wound**, passing through the Shadow of **Constriction** to the Gift of **Acceptance** to the Siddhi of **Universal Love**. As mentioned, Gene Key 25 is the programming partner of Gene Key 46 and so these two Gene Keys are aligning at this time for maximum effect.

*'There are certain Gene Keys which occupy a central seat in the genetic code and story of evolution. This 25<sup>th</sup> Gene Key is one of those. It is a hub Gene Key. We might even say it is the hub Gene Key. Its theme is love. It is the very breath of Love. **It is also about lack of love and the journey to rediscover and remember Love.** The Shadow of Constriction is connected to two primary things – our breath and our thinking.'*

*'Here in the 25th Gift we arrive at one of the greatest and most powerful of all human Gifts, the Gift of Acceptance. **Because this 25th Gift represents the portal to the true nature of the Universe as Love, it has incredible relevance for all human beings.** Acceptance is based on taking the soft approach to life. **The flowering of Love follows the burgeoning of Acceptance.***

*'The only way to transform the Shadow is to have the courage to simply feel the fear. The state of Acceptance is akin to "Spiritual Springtime" where everything seems new again, flowing more easily and freely. **The 25th Gift makes it difficult to hold any resentment, judgement or indeed worry about life – for now you are carrying the Seed of Love.** You will walk through life with an air of another world about you, whilst at the same time being deeply grounded and open to others.'*

*'When you can finally accept everything in your life just as it is right now you will have embraced the human wound. The 25th Siddhi is a special Siddhi, whether it happens to be within your hologenetic profile or not. Every Gene Key exists inside each of us and the 25th Gene Key is the primary archetype of Love. **The 25th Siddhi is Love itself as the Source of all and in this sense, it can be called Universal Love.***

*'The sacred wound that hides within each human being can be understood at three levels of consciousness – at the Shadow frequency, the wound maintains human suffering, at the Gift frequency the wound provokes humanity to evolve and at the Siddhic frequency the wound reveals humanity's true nature as an Expression of Universal Love.'*

***'It is said that the greatest obstacle to realisation is the seeking of it. All spiritual paths begin with the urge to bring an end to personal suffering – it is the unacceptance of suffering that makes you seek. Eventually this revelation gives rise to the quantum leap to the Siddhic level of consciousness. Those Beings who have attained realisation through this 25th Siddhi become, in some form, legends.'***

Universal love unites us  
with every living particle  
in the cosmos.

*'Whether Buddha or the Christ – the aura of such a person shines like a light down the centuries and is felt within the bloodlines of all future generations. Every time someone attains the 25th Siddhi a great genetic constriction is removed throughout Humanity. The bodies of these people have undergone a radical transformation in order to be the receiver or chalice for pure consciousness.'*

And finally, for this New Moon, you will see that Venus ♀ is at the pivotal point of a Yod, a *Finger of God* that connects both Pluto and Neptune. In *Soul Centred Astrology* by Alan Oken he explains a Yod as expressing 1<sup>st</sup> Ray energy and that the planet that is at the apex of the Yod, in this case Venus, is the vehicle that will be expressing the 1<sup>st</sup> Ray. The natural and habitual karmic patterns of Venus need to establish some new focus of release for Venusian energy so that new forms of expression may be birthed into life.

Venus is the archetypal feminine energy underpinning human relationships, a love based on personal feelings and desires, romanticism and affection. Venus is also the energetic behind the aesthetics and beauty of the arts. Neptune, as the higher vibration of Venus, has a more impersonal, unconditional, overarching essence, which encompasses all, being expressed at this time through Gene Key 25 as Universal Love.

Pluto as the planet of Transformation and, equally as the 1<sup>st</sup> Ray, is playing a very prominent part in encouraging this move into new ways of expressing Venusian energy. So where is Venus at this time of the New Moon, during this pivotal Lion's Gate period? She is on Gene Key 29 known as ***Leaping Into the Void***, moving through the Shadow of ***Half-Heartedness***, to the Gift of ***Commitment*** to the Siddhi of ***Devotion***.

***'This 29th Gene Key is about human feelings. It's about sex and relating, failure and success, desire and expectation. At its Shadow level Half-Heartedness is about giving up at the first sign of trouble or discomfort and ultimately all half-heartedness is rooted in deep un-embraced fear. The 29th Shadow make you constantly worry about your decisions and where they might or might not lead you.'***

*'The 29th Gift is not subject to the pressures of conditioning and expectation from others but opens into a deep connection to the direction of the life force within. This Gift inherently attunes to the cyclic flow of Life. True Commitment is an energetic dynamic felt within your entire being rather than a social requirement. Commitment is akin to trust which can neither be forced nor willed.'*

*'People with the 29th Gift in their hologenetic profile can be exceedingly lucky people. Their clear, committed decisions create the conditions for their own good fortune. It is as though nature itself were taking control of their destiny and showing them the way ahead. That's the pure magic of the 29th Gift.'*

***‘The more the frequency rises through the 29th Gene Key the more you find your commitments directed towards the service of others. As the frequency gets higher and higher your Commitment takes on a devotional quality and begins to activate the Heart Centre. As you allow the energy of Commitment to act itself out in the world, you begin to realise that an energy separate from your body is moving through you.’***

***‘This high-frequency energy is actually moving into your body from your higher bodies and in particular from the 5th body known as the Buddhic body. Bhakti Yoga refers to the path of Devotion, or the path of the Heart. Wherever such people go their heart is in constant meltdown from everything and everyone they meet. The 29th Siddhi of Devotion is an absolutely contagious Siddhi – wherever it goes it inspires Devotion in others.’***

***‘This electrical, almost sexual aura creates considerable waves when it appears in the world – but these Masters are interested in only one thing – surrender into your heart. This is the Siddhi of saying yes to life – it gives itself to absolutely anything or anyone that comes its way. The message of the 29th Siddhi is exactly this - trust your heart above all else and never worry about the consequences. To be devoted means to lie forever in the lap of the Divine.’***

As you are aware, we are passing through the Lion’s Gate which marks a period from the 26<sup>th</sup> of July through to the 12<sup>th</sup> of August, with the 8<sup>th</sup> of August being the focal point. This is a moment in time that has been held for thousands of years as a moment of renewal. The Heliacal Rising of Sirius in ancient Egypt was a Sacred occasion marking the start of the New Year, coinciding with the flooding of the Nile - a time of prosperity and fertility.

A New Moon marks the start of a new cycle every month, but during this Lion’s Gate Portal, it is particularly potent as the heightened frequency and Light that is pouring into the Solar System carries an added impulse to any intent that is created through the group consciousness at this time.

This year the 8:8 becomes an 8:8:8 (8<sup>th</sup> August 2024) reflecting back to us any karmic imbalances that need to be reconciled. It is also a symbol of Abundance, Spiritual Enlightenment and the harmonious balance between the material and spiritual realms. Numerologically, ‘8’ encourages us to maintain a balanced, holistic approach in our lives, so that we nurture our physical, emotional, and spiritual well-being with equal attention. It is a reminder to stay grounded in the present moment whilst expanding our consciousness and connection to the Divine.

On the next page you will find the chart for the time of the dawn rising of Sirius and the Sun as seen from Giza in Egypt with a short description of the major imprint for this moment in time.

## Chart for the Lion's Gate 2024

The Heliacal Rising of Sirius 8<sup>th</sup> August 2024 05:22:42 am BST Giza Egypt  
<https://www.timeanddate.com>

The Sun and Ascendant, at the time of the Heliacal Rising of Sirius in Egypt, at 16° Leo, are on Gene Key 7 known as **Virtue is its Own Reward** – which asks us to move away from **Division to Guidance to Virtue**.

***'The 7th Gift of Guidance rests upon the ideal of service. To truly guide another person or group of people you need to put aside your own opinions and judgments and listen intently to their needs. Great guides are great listeners..... Often they lead from behind the scenes – for history show us that many of the greatest leaders pass unrecognised during their own lifetime.'***

***'Leadership is determined by genetics, but the quality of leadership is determined by the frequency passing through those genetics. Here in the 7th Siddhi we find visionary leaders, but far more importantly, we find virtuous leaders. The Kabbalists have a phrase – repairing the world – they say that when the Creator created the world he created a series of vessels to hold the Divine Light, but as the Light flowed down into these vessels they shattered and fell towards the realm of matter. Thus, we now live in a world of countless shards of the original vessels in which the Divine Light is trapped. They say that every virtuous act committed by a human being helps to repair one of these broken vessels.'***

***'The 7th Shadow is the force that shatters the vessel, the Gift of Guidance begins the process of reuniting the shards and the one in whom the 7th Siddhi manifests becomes the Adam Kadmon – the perfected vehicle of Divine Realisation. The 7th Siddhi waits for a specific moment in time to awaken in the collective.'***

***'In the book of Revelation this 7th Siddhi is represented symbolically by the opening of the Seventh Seal, which precedes the return of Christ Consciousness.'***

Notably, on this day, both Mercury, the planet of communication, and Venus the planet of relationship are together at 3° Virgo on Gene Key 59 which moves through **Dishonesty**, to **Intimacy** to **Transparency** which would seem to reaffirm the transformation that is ongoing, in how we choose to work with Venusian energy.

**‘Gene Key 59 demands that we do some deep inner spring cleaning. As we clean out our inner life and really look at our own vanity and our dishonesty in depth, we uncover layer upon layer of trauma stacked inside the cells of our body. Most humans are not yet aware of the trauma they carry – because they are still looking for resolution or some form of escape in their outer lives.’**

**‘Where does all this trauma come from? It is ancient. Every human being carries the wounding of the ancestors in their DNA. The DNA is the code of Life, and it contains all the memories of our past experiences. You can try and resolve it externally – that is noble but it won’t work unless the transformation of the discomfort has been done inside you. All the trauma that your body feels is yours to transmute and a great deal of these patterns are collective karma.’**

**‘The Gift of Intimacy is the process of one heart opening up to the Universal Heart. All relationships on our planet right now are clearing houses for this collective trauma that we have seen in the Shadow. It all has to come up to the surface to be purged. Relationships are the field through which humanity will make this great quantum leap into collective intelligence.’**

**‘Beyond the transmutation of the Shadow into the Gift lies a further transformation in which genetic mutations will take place within the brain chemistry of the pineal and pituitary glands. This process will lead to the dawning of the 59th Siddhi - the Siddhi of Transparency. The purpose of the 59th Gene Key is to breakdown all barriers that stand in the way of union.’**

**‘The ultimate role of the four Gene Keys, the 4th, 7th, 29th and 59th is to bring the human family into realisation of its state of higher union with all of Creation. The ultimate agenda is evolution – although the form of our world will continue to evolve, the Consciousness out of which it emerges can never and has never evolved. Only awareness can evolve and it is evolving very quickly through the transformations and mutations coming through the 59th Gift and Siddhi.’**

**‘When awareness has reached its ultimate expression it becomes a clear mirror for consciousness and this is what Transparency is. It reflects life without any additional comment – the ability to look upon the world without Judgment. This is the epoch we are now entering, in which the mutation of the solar plexus equates to the opening of our Planetary Heart Centre, when we once again remember that every man and woman is our genetic brother and sister and no single individual, family, tribe or nation is an island. We are One.’**

As you absorb, contemplate, and integrate all that is occurring during this period you will know that this is a truly powerful, transformational and purposeful time. As we each remain in **Integrity, Balance** and **Acceptance** of the karmic energies that are being brought to the surface for transformation we will ultimately become the Divine vessels of **Transparency** flowing with **Universal Love** touching every quadrant of the Universe.

Finally, to close, this is a message from Patricia Cota-Robles, received this morning, which echoes and is the essence of all that is shared in this Review.

*‘With every balanced Holy Breath I take, I AM empowering God’s Comprehensive Divine Love and the Immaculate Concept of the Family of Humanity setting aside our differences and coming together in Love, Oneness, and Peace with the Divine Intent of attaining our highest level of Excellence. And So It Is.’*

*Love and Blessings to All*
