

# Cosmic Overview

Leo New Moon 2023

*'Forgiveness is my function as the Light of the World'*

Course of Miracles

*'The energy of Life entering and leaving the body flows evenly throughout the Universe. With that current, the Mind of the Cosmos communicates with all things.'*

Ilchi Lee

# 'I AM' the Light of the Soul

The New Moon will take place on the 16<sup>th</sup> of August, following on from the annual alignment of the Lion's Gate Portal that began towards the end of July and lasted until the 12<sup>th</sup> of August reaching its peak alignment on the 8<sup>th</sup> of August.

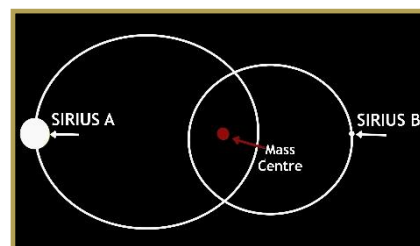

Before looking at this month's New Moon let's look a little more deeply at just what the Lion's Gate signifies and take a closer look at the impeccable design of the Cosmos.

The Lion's Gate days mark an alignment with the Star Sirius, also known as Alpha Canis Majoris or the Dog Star, which is the brightest star in the night sky in the constellation Canis Major. Sirius is a binary Star. In the opening image of Sirius A taken by the Hubble telescope it clearly shows Sirius B, the white dwarf binary star in the lower left-hand corner of the picture.

From late July to 12<sup>th</sup> August, at the heliacal rising, both the Sun and Sirius rise at the same time, and in the past the Egyptians used this rising of Sirius to calculate the annual flood of the Nile.

The white dwarf companion star to Sirius is invisible to the naked eye and it was not until 1862 that Sirius B was first sighted by telescope, yet the Dogon Tribe from Mali in West Africa have had knowledge and accurate information on the binary star in their ancient traditions and teachings – how they knew this, and know this, still remains a mystery to this day.

Sirius B takes 50 years to complete an orbit and it is said that the purpose of this Dwarf Star is to project the Energy and Light of Sirius A out through the Constellations and every 50 years to directly align and intensify this focus onto Planet Earth - (A) in the diagram below.

Each Lions Gate is a Cosmic activation that brings in an influx and intensification of Light, as the Sun aligns with Sirius, which every fifty years brings a further intensification and impulse. Each year when aligning to the Leo Constellation, as seen from Earth, at the time of the heliacal rising, we witness how the Solar System continuously assists in the evolution and unfolding of Consciousness. It is in becoming Self-Conscious, which is the central pathway for Leo, that we can become aware of our Universal Oneness and how we are all intimately co-creating within the Cosmos.

The Leo Constellation flows with the **1<sup>st</sup> Ray of Divine Will** linking to both Pluto and Vulcan and also, to the **5<sup>th</sup> Ray** which expresses **Concrete Knowledge** through the Mind that is flowing with the **2<sup>nd</sup> Ray of Love and Wisdom**. With this combination of Rays, there is a unification of Heart and Mind, Soul integration. This fusion creates an ongoing impulse that permeates our etheric bodies, bringing more light into the cellular system, to release the limitation, ignorance, and fear that has been created over eons of time.

*'Even though the body appears to be material, it is not. In the deeper reality, your body is a field of energy, transformation, and intelligence.'*

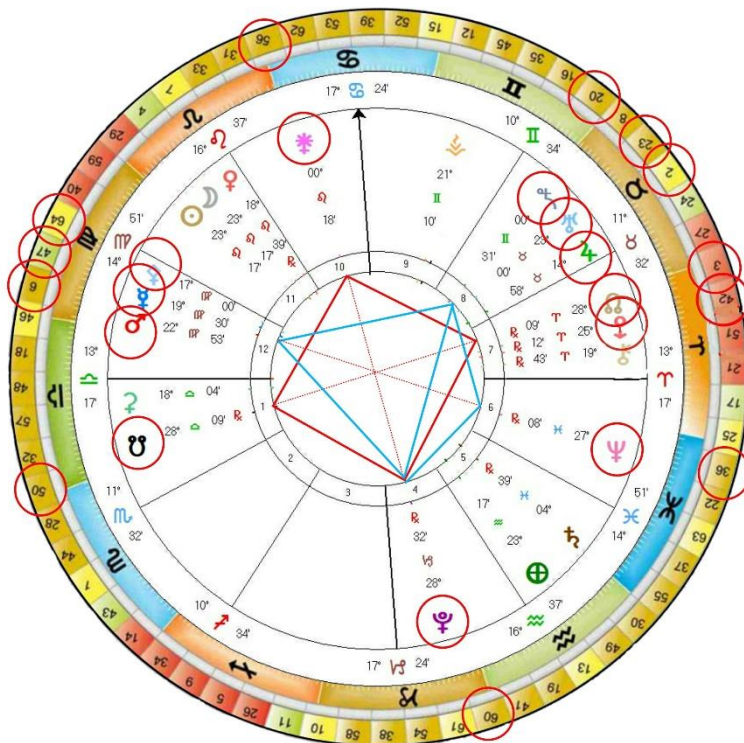

Deepak Chopra

# Charts for the Leo New Moon August 2023

New Moon 16<sup>th</sup> August 2023 10:38 BST London UK <https://www.timeanddate.com/moon/phases/>

There is a great fusion of energy occurring at this New Moon - so there are two charts to look at. Looking at the first chart you will see that there is a Mystic Rectangle and a Kite Formation being formed at the time of the New Moon. The Sun ☉ Moon ☾ and Venus ♀ are opposite to the Earth ⊕ and the S Node ♁ and Ceres ♃ are opposite to the N Node ♁ Eris ♃ and Chiron ♄. The Kite formation is created by the inclusion of Vesta ♃.

However, the same chart, also has a further Kite formation with a more focussed and directed energetic with Pluto ♃ opposite to Juno ♃ creating a Grand Cross with the North and South Nodes once again as a focal point.

This month, because of the sheer volume of the Gene Keys that are involved at the time of the New Moon, in order not to complicate the message and to simplify the overall Essence of what is being transmitted to us, we will begin with the Kite Formation in the lower Chart.

Pallas Athena ♃ Mercury ♀ and Mars ♂ are activating Gene Keys 64 **Illumination**, Gene Key 47 **Transfiguration**, and Gene Key 6 **Peace**, respectively, all opposite to Neptune ♆ on Gene Key 36 **Compassion**, which is a central message for us all. Our thoughts (Mercury) and actions (Mars) need to be centred within an enlightened overview (Pallas) if we are not to be caught in all of the drama that is unfolding. These three Gene Keys are working together at the time of this New Moon to assist us to move into higher loving awareness (Neptune).

**Illumination** emerges from the Shadow of **Confusion** through the Gift of **Imagination**.

*'When you are confused you are alone. It is as if the mind is opened to the primal chaos and pain – an overwhelm of subtle feelings and thoughts that disorientate and disempower. At every moment your thinking reflects the way in which the inner body is feeling. When coming from a low frequency there is a general background unease, this unease is the suffering of the whole world through the quantum field that connects us all.'*

*'Once you are willing to feel the pain – the miracle begins. As your inner spirit decides to face who you really are – the mind's long reign over you gradually begins to crumble. All natural energy or life force has an inbuilt programme to grow and evolve.'*

*'Imagination is the expression of unimpeded life force coursing through our genetics. Thus, when you release the quantum energy that was latent inside you, it begins to rise. As it rises the evolutionary force takes a hold of your mind and begins to 'paint' with it. Imagination allows alchemy to occur inside your being and a truly creative individual is born.'*

*'The 64th Siddhi is the Siddhi of Illumination. This is Imagination without the personal 'I'. When that 'I' ceases to need to exist magic comes shining through. When Illumination floods your being, it also takes possession of your mind. In this sense to be Illuminated means to think God's thoughts. At this level the Mental Body gives way to the Causal Body. At the Divine level your Causal Body/Soul becomes your physical vehicle.'*

*'Once the frequency of inner Light illuminates physical form, that form begins to ascend. It may or may not be able to ascend physically depending upon its genetic constituents. Physical ascension is directly dependent upon Divine Will. Only certain evolutionary human vehicles are equipped for this purpose. This is the meaning of Transfiguration – when the Causal body draws the Physical body up into itself.'*

Mercury is activating Gene Key 47 **Transfiguration**, which arises out of the Shadow of **Oppression** through the Gift of **Transmutation** which is a clear reminder to be aware of our thoughts and how we express them.

*'The 47th Shadow is the storehouse of human karma. What we term as karma really refers to memory, but not memory as we commonly understand the term. This is genetic memory carried in our blood from our ancestral lineage.'*

*'It is through the Gift of Transmutation that the true purpose of your hidden genetic programming - the junk DNA – is finally revealed. Geneticists know that all life evolves through the process known as mutation. Beneath what the left-brain scientists misread as chaos hides one of the great secrets of creation. Until particle physics came into being, the word Transmutation was associated entirely with the ancient science of alchemy. One might say therefore that mutation is a process of gradual change. When a human being faces his or her own Shadows, they open the door to the process of Transmutation.'*

*'The alchemical process of Transmutation consists of an endless series of small mutations leading to a finite number of transmutations. These Transmutations are huge turning points in your life. **To transmute is to make a quantum leap into a whole new dimension.'***

*'The 47th Siddhi reveals the ultimate purpose of the non-coding DNA within the body, which actually does code for a process within the physical body. The Life of Christ is the perfect mythic enactment of all the stages of alchemical transmutation ending in this state of Transfiguration.*

*The force of transmutation strips you emotionally and mentally to such an extent that it eventually reaches down into the physical matter of your body. **The power of the myth then takes over and the very cells of your body begin to transmute into the pure light frequencies from which they are made.'***

*'The elements that make up your body were made in stars and you turn back into a star in your own mini supernova. This is the Unio Mystica or sacred marriage in which all your constituent elements dissolve back into one another and out of your base matter symbolic gold is formed.'*

*'**Humanity stands upon the threshold of one of its great Transmutations.** As a species we are moving through the symbolic time of our crucifixion and crucifixion precedes Transfiguration. Our crucifixion means everything that is old must leave the world as a new Light emerges. **As each individual faces, embraces and transmutes the collective fear that lies within the heart of every human's DNA we are Transfigured by Divine Grace – accessing the Divinity that lies within each and every one of us.'***

Mars is activating Gene Key 6 which takes humanity on a journey through the Shadow of **Intolerance** to the Gift of **Harmony** and ultimately to **Peace**.

*'The 6th Shadow of Conflict is the single most influential Gene Key with regards to human communication. At its highest it has the potential for world peace, at its lowest, it is the root cause of all human Conflict. This Conflict stems from the emotional system and our inability to handle the voltage of extreme emotional states. **As long as you surrender your will to the emotional system, then you will be trapped by its volatile nature.'***

*'People displaying the 6th Gift are always attuned to the right timing of how to act and what to say through the strong resonance of their auric field. **These people feel physically into another person's aura - they can do this because it is a specific genetic gift and also because they are emotionally mature.'***

*'Emotional maturity means that your awareness operates even during the most profound emotional states. This 6th Gift is breaking down the barriers in human relationships and dismantling the borders and barriers that keep people apart from each other – **eventually and ultimately bringing peace to Earth.'***

*'The ultimate defence is emptiness. This is the essence of the wisdom taught by the great sages. In fact, it is the underlying nature of form itself once its true essence has been realised as consciousness. **Peace is an auric vibration that surrounds anyone in a Siddhic state.** Profound changes occur in your physical body before, during and after this realisation.'*

*'Since your outer walls have dissolved, the process is mirrored within your body chemistry and all inner conflict comes to an end. It is as though all the cells within your body make peace with each other and experience their own inner Garden of Eden. In this sense, the true Garden of Eden is the body itself. **The waves of Peace that accompany this event travel deep into the collective consciousness of all humanity.'***

Neptune, at the apex of the Kite, facilitates this potential as it flows with the higher vibration of Venus and activates the Higher Heart in unconditional Love. Neptune on Gene Key 36 holds the promise of **Becoming Human** rising out of the Shadow of **Turbulence** into the Gift of **Humanity** to ultimately become the embodiment of **Compassion**.

*'The 36th Shadow is an emotional battle that must be fought by every individual at certain times during their life. The 36th Shadow is the Dark Night of the Soul. **The potential suffering that exists on account of this Gene Key, is part of a genetic family known as the Ring of Divinity.** This is a beautiful revelation, as each of the four Shadows of the Ring of Divinity, Dishonour GK22, Turbulence GK36, Weakness GK37 and Doubt GK63, has the potential to awaken the highest consciousness inside you. **This codon group in many respects is deeply connected to the true meaning of Christ Consciousness.***

*'As a living transmission, the 36th Gift carries a great teaching into the world – the celebration of Humanity. **This Gift contains a natural spirituality – it is one of the most grounded of all the Gene Keys. It is a bridge for the higher bodies of humanity to move down into the lower planes and transform them.** It conveys the image of Christ descending into hell and absorbing its frequencies fully into your own being. **The deepest role of the 36th Gene Key is to help humans to become humane** - it is their courage and deep acceptance of the life process that eventually gives rise to the highest of human expressions – the expression of Compassion.'*

*'Those in whom this Siddhi has awakened tend to keep moving into those areas of life where the light is most darkened. **The simple presence of such people and the look in their eyes can trigger all manner of so-called miracles in those whom they meet.** These are the most heart-melting people ever to walk the face of the earth. Wherever they go, the true frequency latent within human suffering is immediately released and Compassion tears open people's chests and explodes inside their hearts. Even the darkest of natures can be instantaneously brought to tears through the presence of this 36th Siddhi. **At the Siddhic level, your own suffering becomes so universalised that it encompasses all humanity. All boundaries of the self dissolve.'***

Jupiter, ♃ Uranus, ♅ and Sedna, ♆ link together in the sky, with Uranus, at the midpoint of Jupiter and Sedna. The Shadow that Jupiter is activating is Gene Key 2 **Dislocation to** and the Shadow that is being brought to the surface by Sedna on Gene Key 20 is **Superficiality** both of which are clearly to be seen in the world today. So how might the transmutation of the Shadow held by Uranus, on Gene Key 23, assist in creating a higher expression for these three archetypal energies?

Gene Key 23 has **Complexity** as the Shadow, **Simplicity** as the Gift and **Quintessence** at the Siddhi level.

*'The more humans try to use their minds to create a feeling of security the more complicated and unsafe the world becomes. This Shadow creates misunderstanding and division in two ways – through individuals saying the wrong things and through them saying them at the wrong time.'*

*'The fear beneath the Shadow is of meeting intolerance and being excluded by others. **The difficulty for the 23rd Shadow is that it tends to make human beings know that they are right, which firmly closes the door on their being open to the views of others.** Some of the bloodiest wars on our planet have begun because of a few simple misconstrued words.'*

*'When Buddha introduced his great teaching known as the Eightfold Path, he spoke of Right Understanding which leads to Right Speech. **He hit upon the great and simple truth – that language flows directly out of your state of consciousness.** At higher levels of frequency your mind sees further and further and more clearly. **To be around someone exhibiting this Gift is a wonderful and powerful experience.'***

***'The 23rd Siddhi has an alchemical flavour to it – the ability to extract gold from base metal. People with this Siddhi are able to touch the gold hidden within other human beings. They can transmit the power of the awakened state through a word or a look or a gesture. This is the Midas touch. This is the true explanation of the secrets hinted at by alchemy – that the physical body itself contains the seed of the Siddhic consciousness.'***

*'It is concealed in your DNA and controlled by a hidden timing mechanism that is utterly spontaneous and out of your individual reach. Once this Siddhi has fully dawned inside a person they become an alchemical agent that over time refines all and extracts the Quintessence from the dross.'*

In understanding the power of thought and speech and as the shadow patterns of **Dislocation** (GK2) and **Superficiality** (GK 20) are alchemically transformed the higher frequencies of **Orientation** and **Self Assurance** emerge ultimately revealing the Siddhi states of **Unity** and **Presence** which lie dormant within the DNA of these Gene Keys.

*'Your Self-Assurance is directly equivalent to your ability to escape being a victim of your mind.'*

***'Presence is the underlying nature of Being. In fact, it would actually be truer to name this Siddhi, The Presence, since the use of the definite article gives us the distinct impression that this is a state of consciousness that has nothing to do with any individual. It is the manifestation of The Presence through a human vehicle. The true Siddhic state is one of complete relaxation.'***

Pluto ♃ on Gene Key 60 is not only the third point of this Kite but is also activating the Grand Cross. Pluto is the planet of Transmutation and Transformation and all on the planet Earth, right now, are passing through the Shadow energies of **Limitation** which Pluto is passing through until December 2025.

How we each experience this transit of Pluto through the 60<sup>th</sup> Gene Key over the next two and half years is ultimately down to each one's level of consciousness. In some ways there may be a sense of being 'pressured or 'squeezed' during this Plutonian transit as the name for this particular Gene Key is the **Cracking of the Vessel**

It is out of **Limitation** that the Gift of **Realism** rises and the Siddhi of **Justice** manifests.

***'This Shadow represents one of the most potent forces responsible for pulling humankind in the opposite direction of evolution. It is the counterweight of Life itself – the main reason for the death of magic is closed-circuit thinking, where the mind follows familiar patterns or systems of thought around and around without the ability to think beyond them.'***

***'As we begin to see that we're more than we allow ourselves to often believe, then that frequency, that vibration of possibility, begins to activate something inside us. It is communicated to our DNA and we begin to open.'***

***'There is great capacity for magic in this Gene Key which may sound odd as it is called the Gift of Realism. However, the only thing needed for magic to occur is some form of a structure and an open mind! Common sense/Realism is not in opposition to magic.'***

***'It is common sense to remain open-minded to everything in the Universe because everything has at its core the same wondrous inner Light.'***

***'Justice is not about retribution, it is a reward. It is given as Grace, not taken as punishment, and when it is given, freedom flows from it. It is not an imposition or a limitation. It is an invitation, an opening. It is not up to us to punish. Life redresses the balance, and it is always about balance.'***

*'The 60th Siddhi holds an apt description of what happens when a human being becomes fully realised. At a certain point our hearts open to our true Innocence and we begin to unlock other codes in our DNA that are ancestral rather than personal. We begin to transmute more global karma, and the more our being opens, the more we are given.'*

Pluto at the time of the New Moon is opposite to the asteroid Juno ✨ which reflects the energy of the Sacred Marriage the Unio Mystica which is spoken of in the 47<sup>th</sup> Gene Key – the balancing of the electromagnetic circuitry and the left and right hemispheres of the brain coming into alignment within each of us. We are being guided to use our time wisely, to be focussed, yet at ease, at this pivotal time in our evolutionary journey.

Juno is on Gene Key 56, with the Shadow of **Distraction**, the Gift of **Enrichment** and the Siddhi of **Intoxication**.

*'Distraction greatly impedes evolution - in the modern world we appear almost desperate to distract ourselves from who we really are.'*

*'Those with the 56th Gift have learned the difference between what feeds the human spirit and what saps it – they have learnt the art of self-discipline and they know how to get the most out of life. The 56th Gift has an alchemical flavour to it. Therefore the 56th Gift will take in all manner of low frequency waves because it knows how to transmute their energy into joy and purpose. The 56th Gift knows a great truth – true enjoyment is rooted inside your being rather than in the external. It is about appreciation and gratitude – the more grateful you are for every moment the more the moment comes alive for you.'*

*'One of the wonderful traits of those with this Gift is that they enrich others through what they have learned in life. At these higher levels, this 56th Gift of Enrichment is a Gift of Love, for the more you enrich the lives of others the more this Gift pours through their heart.'*

*'The Siddhi state of Intoxication is about being swallowed up by your own Love. Those rare beings that manifest this state are a law unto themselves – if you sit with them and lap up their laughter you become drunk on their exquisite frequencies. Such people are a reminder from the Source, that life is for love, for beauty, and for fun. There is a Love hiding within this Gene Key as awesome as anything anyone can imagine. If you allow life's arrows to pierce you one after another you will eventually find yourself Intoxicated by the Divine.'*

Both Pluto and Juno are linking directly into the North and South Nodes – the Spiritual Pathway for this moment in time. The South Node is on Gene Key 50 known as **Cosmic Order**. At the Shadow level there is **Corruption**, at the Gift **Equilibrium**, and at the Siddhi Level **Harmony**. The North Node on Gene Key 3 has the Shadow of **Chaos**, the Gift of **Innovation** and the Siddhi of **Innocence**. Although right now, all seems to be falling apart, the 50<sup>th</sup> Gene Key is a pivotal Gene Key – in the Wheel of Life it actually is a pivot, a breakthrough point.

*'The 50th Shadow is the Shadow of Corruption. More often than not we think of political and social corruption, where those in positions of authority misuse and abuse their power for the purpose of personal gain. In examining the 50th Shadow, however, we need to also consider the word Corruption in another context – that of data corruption.'*

*'At the Shadow frequency, data that is processed by the human brain is translated through the medium of fear. As this occurs the data is corrupted, leading to a slanted manifestation in the world. Our whole purpose in life is to root out these corrupted programmes and reboot the primary hard drive. That is the journey of awakening.'*

*'In genetics, this 50th Shadow has much to do with the way in which RNA copies DNA. **RNA is a chemical substance similar to DNA whose role is to transcribe aspects of your genetic code in order that new proteins can be formed.** In other words, RNA is a messenger that reads and copies the instructions for life. **In the process known as transcription messages can be misinterpreted before they are translated.'***

*'This is exactly what occurs within human society – fear causes misinterpretation, leading to reaction and counter-reaction – resulting in Chaos, the 3rd Shadow and programming partner of this 50th Shadow.'*

*'As we align ourselves with higher frequencies and learn to balance our emotions, use our mind creatively, and our physical body wisely, so our DNA attunes us to a deeper Harmony that lies behind the world that our senses can see.'*

*'Here in the 50th Gift is found the inner fulcrum upon which balances the quality of our cells, our lives, and our future possibility for world peace. This high frequency is created through honesty in which all hidden agendas are laid on the table. Without this no Equilibrium can ever be reached.'*

*'When the 50th Siddhi begins to break through in human beings an all-powerful current of Harmony begins to shower the people with whom they are allied. Deep and hidden issues are brought to light in order that social Equilibrium can occur. **Through the 50th Gene Key humanity is destined to arrive at Cosmic Harmony, although such a concept will require a sustained period of Equilibrium before the scales finally activate the higher Harmony.** We know this higher harmony as Oneness with God.'*

Eris ♃ is on the North Node on Gene Key 42. Eris lies far out in deep space, linking us into Galactic Conscious, and if we are to align ourselves with higher frequencies and to be present to all that is occurring, then the Gift of Gene Key 42, which is **Detachment** assists us to birth the Siddhi of **Celebration**.

*'True detachment is the ability to allow and accept life as it comes. Detachment does not mean to not feel. In fact, if you are truly detached you will feel more intensely than others because you will not have allowed your Expectation, positive or negative, to constrict the event you actually experience.'*

*'Detachment presupposes a great love and trust in Life. The 42nd Gift of Detachment births the process of letting go of control over your life, physically, mentally, and emotionally. It is a wonderful letting go that travels deeper and deeper into your DNA as you gradually allow your Expectations of life to fall into the background.'*

*'Eventually there must be a complete letting go. This is what initiation calls out of us, and there are levels of endings as well. **The big ending is when we let go of death and dying.** The Codon Ring of Living and Dying contains the codes to unpick the mystery of how and when the Spiritual Essence, the Soul, enters and leaves the form, the maya, the body.'*

*'It is funny that we generally only celebrate things at the beginning or the end. We don't usually celebrate something in the middle, but this Siddhi is about celebrating in the middle. **It is about every moment becoming a Celebration.'***

*'These are the sages who teach humanity about the illusion of death. They do not teach us through knowledge but through their attitude. **Celebration is the direct manifestation of true Awakening.'***

This **Celebration** of Life awakens the **Innocence** that is waiting to unfold at the highest frequencies of Gene Key 3 held by the North Node.

*'At the absolute zenith of its frequency, the 3rd Siddhi is about Innocence. **This Siddhi reminds us that all of life, and that includes human beings, is essentially Innocent.** Life is Innocent, we are Life and therefore we are Innocent. One day humanity will evolve towards its awesome final destiny of Global and Celestial harmony. As the 3rd Siddhi comes into the world, which it will do very shortly, a great remembering of our Innocence will emerge in humanity. **We are all really children – children of the Cosmos and our only real job is to let go of our seriousness and find the delight in every exquisite jewel that life places before us.'***

And Chiron ♄ which is conjunct Eris, and the North Node, brings in the potential for the healing of this primary wound – the fear of death – that brings so much internal stress and anxiety. Chiron is activating Gene Key 51 which offers the opportunity to move beyond the Shadow of **Agitation** ultimately to realize the Siddhi of **Ascension**.

In the Chart to the left, you will see that Chiron is opposite to both the South Node and Ceres and 120° degrees from the Sun and Moon and Venus, and 60° degrees apart from the Earth creating a Mystic Rectangle. These Cosmic bodies embody the central message for us all at this time. As karma from so many lifetimes, going back into the time of Atlantis, is coming up for all to see, to be balanced, integrated and forgiven, the Sun and Moon on Gene Key 4 reflect this state back to us.

Known as **A Universal Panacea**, GK 4 moves through the Shadow of **Intolerance** to the Gift of **Understanding** to the Siddhi of **Forgiveness**.

*'Only true Understanding can bring peace along with it because true Understanding lies outside of the domain of the mind. Understanding is of the whole being.'*

*'The higher frequency of such Understanding also brings with it the urge to be of service to the world and you can use the mental alacrity of the 4th Gift to follow the dictates of your Higher Self. **Through seeing all sides of any mental construct, the Gift of Understanding sweeps away the possibility of Intolerance and uses its gifts to create new roles or systems to bring positive change into the world.'***

*'Forgiveness is born out of Understanding, but it occurs when a being makes a leap beyond Understanding. **Forgiveness is the thunderbolt that is released when a being attains Christ Consciousness - it melts the boundaries and borders of form.** It is a Divine quality that descends into the world of form, releasing and dissolving the karma held within ancestral bloodlines.'*

*'As one of the Seven Seals, the 4th Siddhi is a primary agent of Divine Grace. The Siddhi of Forgiveness is often credited with being capable of creating miracles because it can release the bonds that have held generations tethered within karmic debt. **Pure Forgiveness is a Universal panacea that radiates in every direction throughout time and space. It really is a miracle.'***

The Earth, on Gene Key 49, known as **Changing the World from the Inside** is the journey that we are all on, moving through the Shadow of **Reaction**, to the Gift of **Revolution** to the Siddhi of **Rebirth**.

*'As the higher frequencies penetrate the 49th Shadow we will move through a time of unprecedented change and upheaval. This is the Gift of Revolution. The 49th Shadow will be the first aspect of the human Shadow to mutate right down to the genetic level. The implications of this are huge as fewer and fewer*

humans are victims of their emotional reactions, violence will rapidly decrease in the world. One also has to consider the environmental impact of this mutation occurring across all cultures. **Men and women of peace are infiltrating all races more than ever before. This Revolution is worldwide.'**

**'The 49th Siddhi conceals an archetype that appears to be a part of all human evolution – that of Rebirth. The very bedrock of our society is founded upon a species that has always made decisions rooted in fear. The only way for a new future to be created is to begin from scratch.'**

**'Once in a while along the evolutionary chain a new species is born out of the old species – like the mythical phoenix – it has nothing in common with its parent. It rises up out of the genetic material of the old and takes a whole new direction.'**

**'Every human being who has ever arrived at true enlightenment has experienced such a Rebirth. The Siddhic State requires both a mystical and genetic divorce from that which came before. Because you are reading these words, you are potentially one of these early flowerings. Is that not a beautiful thing to ponder?'**

We are passing through momentous times that hold the potential for great shifts of consciousness and Vesta ♃ on GK 45 speaks of the ultimate potential of **Cosmic Communion** – from the Shadow of **Dominance** to the Siddhi of **Communion** through the Gift of **Synergy**.

**'It seems like a long way from Dominance to Communion. No matter how hard we try, the old patterns creep back. It begins whenever we allow the fear in, our fear of lack and mistrust in the whole. We have to remember that we are safe.'**

**'We remain victims of the Shadow of Dominance whilst we live for ourselves rather than each other. We live during an uncomfortable transitional era. As the old family-based tribal system is beginning to crumble around our ears we are left with a profound social instability. This does not mean to say we cannot bring about a revolution and improve the old system, but this system will be built on Love not fear.'**

**'The 45th Gift of Synergy requires a leap of faith out of fear-based thinking and control by a single person. This leap out of the old fear-based territorial thinking will require that those who hold positions of power and authority have to risk giving their authority away. For someone in a position of true power to give complete authority to another is to perform an act of pure alchemy.'**

**'In the 45th Siddhi all the various strands of human DNA finally come together – no sense of being separate from others. It is the Cosmic gathering point for higher consciousness – Humanity operating as one Consciousness. It is the mechanics of the mystical state of Communion. Communion involves the direct imbibing of Divine Consciousness. To enter this great Initiation is to die into the second aspect of the Sacred Trinity – the Christ.'**

This revolution of consciousness is reflected back to us in the final Gene Key of these planetary patterns, by Venus, on Gene Key 7, known as **Virtue Is It's Own Reward** moving through the Shadow of **Division** to **Guidance** to **Virtue**.

**'True Leadership like true education does not impose itself on anyone. It is the Gift of being able to help others find their own way forward in life, rather than taking away their individual power. This is precisely what is meant by the name of this 7th Gift – the Gift of Guidance. At the Gift level of frequency, we see the move away from fear towards service.'**

*'Leadership is determined by genetics, but the quality of leadership is determined by the frequency passing through those genetics. **Here in the 7th Siddhi we find visionary leaders, but far more importantly, we find virtuous leaders.'***

*'The Kabbalists have a phrase – Repairing the World – they say that when the Creator created the world he created a series of vessels to hold the Divine Light, but as the Light flowed down into these vessels they shattered and fell towards the realm of matter.'*

*'Thus, we now live in a world of countless shards of the original vessels in which the Divine Light is trapped. **They say that every virtuous act committed by a human being helps to repair one of these broken vessels.** The 7th Shadow represents the force that shatters the vessel, the Gift of Guidance begins the process of reuniting the shards and the one in whom the 7th Siddhi manifests becomes the Adam Kadmon – the perfected vehicle of Divine Realisation.'*

*'**The 7th Siddhi waits for a specific moment in time to awaken in the collective. In the book of Revelation this 7th Siddhi is represented symbolically by the opening of the Seventh Seal, which precedes the return of Christ consciousness.'***

And finally, leaving Saturn to the last, which is not involved, as such, in the Kite formations or Mystical Rectangle, but is simply standing alone, making a 60° sextile to the North Node, which carries the momentum for our next spiral of consciousness, is on Gene Key 55 and speaks of the inner transmutation that is occurring within each of us.

*'**As we begin the process of transcending our Shadows, miracles can occur in our lives. Much of the 55<sup>th</sup> Gene Key concerns the future of our species as it moves through the Great Change. We are now entering an era in which more and more people will have direct access to an experience of true higher consciousness. There will be a genetic mutation that will slowly colonise our species. The old human will literally be bred out of humanity.'***

*'**Freedom is the spirit of the 55th Gene Key - it is the spirit of humanity.** As your awareness stretches, the spirit of Freedom breaks down the barriers in your life. All aspects of Life are interconnected, so a breakthrough at the source of your being will ripple out into all areas, some that you perhaps didn't even remember existed. This Freedom is born out of one's absolute trust in Life.'*

*'**We stand on the cusp of a Siddhic supernova – the incarnation of the Divine Feminine spirit.** The end result of this in flowing of the Divine Feminine will result in the purification of all the fractal lines throughout humanity, resulting in a burning up of the collective karma in our DNA and the eventual eradication of all disease on the physical plane.'*

The intensification of Light which occurred at the time of the Lions Gate is unfolding through this New Moon, which is particularly powerful, encouraging us all to assist in the cleansing and releasing of the past – to be at **Peace** so that **Rebirth** and **Celebration** might arise through **Forgiveness** and to remember, that when we embrace and transmute the collective fear that lies within the heart of every human's DNA we are Transfigured by Divine Grace and Alchemy is created bringing Heaven to Earth.

*Love and Blessings to All*
