

Cosmic Overview

Libra New Moon 2023

As long as the mind and ego control the direction of creating there will always be problems in the outer world, for the ego thinks only of itself and lives in duality.

But when the heart is in control, everything comes back to balance, for the heart feels and knows only the Oneness of Life.'

Drunvalo Melchizedek

'I AM' the Light that Moves to Rest

This month the New Moon occurs on the 14th or 15th of October, depending upon where you are in the world, at 21° Libra 07'.

This New Moon forms an Annular Solar Eclipse which is focused upon the USA, Canada and South America. It is part of an Eclipse Cycle that began in June 1248 and will complete in July 2492.

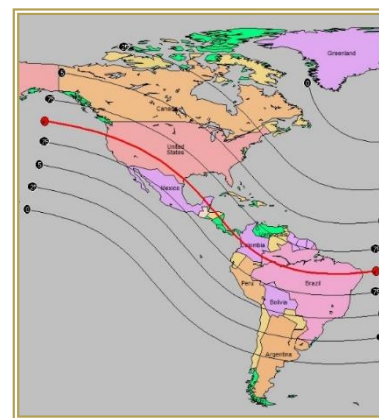

This is a powerful eclipse, with Pluto being in square, 90° away from the Sun and Moon the North and South Nodes and Mars. Pluto was also 90° away from Mars at the time of its inception in 1248, so this is like a continuing echo reverberating out through the airwaves.

Pluto is all about release and transmutation – letting go of old patterns of thought and beliefs that have echoed through the group consciousness for millennia that no longer serve.

The Path of the Eclipse falls upon America, and Pluto, which will be at 27° Capricorn 32, is an additional focus, on the USA at the time of this eclipse, for it will have returned for a final time, to where it was at the time of the 1776 Declaration of Independence. Central to the Independence Charter that underpins the Government of America are the words 'We the People'. All that was laid out in the Declaration of Independence is going through the finest of Cosmic scrutiny, a purging, to see if it still holds true to the founding principles that were forged at that time.

However, Pluto has a wider remit, for *We the People*, wherever we may live in the world, over these last five months, as Pluto has been moving retrograde, have each been given the opportunity to take a deep dive into our own internal 'Government', to monitor our inner thoughts and feelings, from a place of Loving overview, to see how we are staying balanced, discerning and aware, whatever may be occurring in the outer world.

On the 10th of October Pluto moves forward in the sky and is likely to bring more turbulence to the surface prior to the eclipse a few days later, so anchoring within the Libran archetypes of Balance, Peace and Harmony assists us to maintain our inner and outer equilibrium. In 'reality' we are witnessing two levels of consciousness/timelines playing out, which was highlighted at the time of the Saturn/Pluto conjunction on 12th January 2020 as old power structures, that seek to control, and which are no longer serving the highest good, are being brought to Light, to be released and transmuted, via Pluto and the 1st Ray.

The Libran Constellation flows with the 3rd Ray, ruled by the Earth and Saturn, the Libran personality by the 5th Ray, ruled by Venus and the Soul embodied Libran, by the 7th Ray, which is ruled by Uranus. Libra is the personification of the *Law of Right Human Relations*. The ultimate path for the Libran is to embody these Rays and to blend and balance Will/Power and Love/Wisdom to all opposing situations, promoting and creating ideas and solutions that benefit humanity and that create Peace on Earth.

Chart for the Libra New Moon October 2023

New Moon 15th September 2023 02:39 BST London UK

<https://www.timeanddate.com/moon/phases/>

At the time of this New Moon there is a strong T Square occurring between Pluto ♃ the Sun ☉ Moon ☾ and South Node ♃ and also the North Node ♄ Eris ♃ and the Earth ♁.

This chart is infused with the 1st Ray of Divine Will, emanating through Pluto, and as the Earth is put under the microscope to irradiate all that is out of balance with Cosmic Order, back to the Truth and Essence of Life, that has been carried through Time and Space for generations, we are being required to make choices - to uphold all that resonates with the Natural World and our Heart and Soul knowing.

The Sun and Moon and the South Node are on Gene Key 32 known as **Ancestral Reverence**. The South Node, which links to our collective ancestral past and to the memories held within the collective, makes this position of Gene Key 32 particularly relevant. The 32nd Shadow holds the memories of **Failure** and moves through the Gift of **Preservation** to the Siddhi of **Veneration**.

'Our earliest ancestors had exactly the same fears as we do today, even though they may have manifested them differently. Your individual fear of Failure is rooted in the collective fear of Failure to survive as a species. Our collective fear of survival is almost entirely projected onto the amount of money we have. The 32nd Shadow drives our modern society and keeps humans operating at a low level of frequency by means of this fear. Although the fear of this Shadow has its roots deep within the human immune system, it is the mind that reacts to it and feeds of it.'

'If you are not aware of the power of your mind, then your mind will run your life which means fear will run your life. As our ancient ancestors discovered Failure really means one thing – to be isolated. To raise the Consciousness of the mind is to escape the grip of all fear – this does not mean that fear will disappear, but at that frequency you will no longer react to it.'

'The 32 Gift is not about self-preservation but is about the Preservation of Life. The secret of this Gift is the instinctive ability to balance restraint (what to keep alive) and risk (what to change). The 32nd Gift has the ability to assess the past, weeding out weaknesses and building upon strengths.'

'As we move into the 32nd Gift as a species, we will once again return to Nature. Nature represents the old rootstock. Its very wildness is its strength and we, humanity are the vibrant young shoot with its dreams of transcendence. As we rise above the fear and move beyond the selfish tendencies found in the Shadow frequency we become defenders and preservers of our Earth.'

'To attain a Siddhic state presupposes that fear has been entirely transcended. The 32nd Siddhi is the state of Veneration. It is all that remains when fear has burned away. Veneration is the state that occurs when you see and know your place within the great Living chain of Life Veneration is about being on a spiral ladder. You stand on the shoulders of those who have come before you and you allow those who will go beyond you to stand upon your shoulders in turn.'

'What you venerate is the chain itself as well as all the beings above and below you. You realise that even the humblest insect is allowing you to stand upon the shoulders of its consciousness. This gives rise to a fathomless feeling of reverence for all sentient life. Veneration is rooted in respect, reverence and gratitude for all aspects and forms of the One Consciousness behind Creation.'

'The more you contemplate the 32nd Siddhi the more Veneration and reverence you will inevitably feel for all Life – you will begin to smell the perfume of Divine Consciousness in all forms of Life. Eventually, no matter what is before you, all you will see is the Self, the Atman, the Divine Being, perfectly playing and weaving and evolving right before our very eyes.'

As for the last several weeks, Eris remains on Gene Key 42, but this month Eris is joined by both the North Node and the Earth. As has been shared over these last weeks, Eris lies within Galactic Consciousness, and with the North Node, which is our Spiritual Pathway and the Earth joining with Eris, on Gene Key 42, at the time of the Eclipse, it would seem that we are being directly opened into this expanded field of Consciousness.

Gene Key 42 known as ***Letting Go of the Living and Dying*** moves through the Shadow of ***Expectation*** to the Gift of ***Detachment*** to the Siddhi of ***Celebration***.

'Detachment, which is the Gift of Gene Key 42, presupposes a great love and trust in Life True detachment is the ability to allow and accept life as it comes. Detachment does not mean to not feel. In fact, if you are truly detached you will feel more intensely than others because you will not have allowed your Expectation, positive or negative, to constrict the event you actually experience.'

'The 42nd Siddhi is about the transcendence of death. These are the sages who teach humanity about the illusion of death. They do not teach us through knowledge but through their attitude. This is a state beyond Detachment. The transition from the Shadow to the Siddhi, from Expectation to Celebration, does

not occur within time. **Whilst our physical form may decay and 'die' the essence of our consciousness is timeless, fluid, playful, and unpredictable.'**

'Eventually, there must be a complete letting go. This is what initiation calls out of us, and there are levels of endings as well. **The big ending is when we let go of death and dying.** The Codon Ring of Living and Dying contains the codes to unpick the mystery of how and when the Spiritual Essence, the Soul, enters and leaves the form, the maya, the body.'

'It is funny that we generally only celebrate things at the beginning or the end. We don't usually celebrate something in the middle, but this Siddhi is about celebrating in the middle. **It is about every moment becoming a Celebration.'**

Pluto, the planet of Transmutation and Transformation, remains on Gene Key 60, known as **The Cracking of the Vessel** and, as shared last month, all on planet Earth, right now, are passing through the Shadow energies of **Limitation** until December 2025. During this period, we have the potential to transmute this energy into the Gift of **Realism** and the Siddhi of **Justice**.

'**This Shadow represents one of the most potent forces responsible for pulling humankind in the opposite direction of evolution.** It is the counterweight of Life itself – the main reason for the death of magic is closed-circuit thinking, where the mind follows familiar patterns or systems of thought around and around without the ability to think beyond them.'

'**As we begin to see that we're more than we allow ourselves to often believe, then that frequency, that vibration of possibility, begins to activate something inside us.** It is communicated to our DNA and we begin to open.'

'**There is great capacity for magic in this Gene Key which may sound odd as it is called the Gift of Realism.** However, the only thing needed for magic to occur is some form of a structure and an open mind! **Common sense/Realism is not in opposition to magic.** It is common sense to remain open-minded to everything in the Universe because everything has at its core the same wondrous inner Light.'

'**Justice is not about retribution, it is a reward. It is given as Grace, not taken as punishment, and when it is given, freedom flows from it.** It is not an imposition or a limitation. It is an invitation, an opening. It is not up to us to punish. **Life redresses the balance, and it is always about balance.'**

'The 60th Siddhi holds an apt description of what happens when a human being becomes fully realised. **At a certain point, our hearts open to our true Innocence and we begin to unlock other codes in our DNA that are ancestral rather than personal.** We begin to transmute more global karma, and the more our being opens, the more we are given.'

Mercury ♀ is close to the Sun and Moon at this time and is opposite to Chiron ♂ and in a wide square to Pluto, which speaks of the healing and transmuting of the activity of the mental body – the conscious and unconscious thoughts that maintain the limited status quo. At the time of an eclipse, past memories are erased and new potentials are available - only problem being that humanity tends to just continue with the old thoughts. So at the time of this eclipse we are being encouraged to envisage, feel, and intend a glorious future for humanity, as karmic patterns from the past are released and forgiven.

Chiron holds the archetype of the 51st Gene Key, known as **Initiative to Initiation** holding the Shadow of **Agitation** the Gift of **Initiative** and the Siddhi of **Awakening**, whilst Mercury is on Gene Key 57 known as

The Gently Wind, working through the Shadow of **Unease** to the Gift of **Intuition** to the Siddhi of **Clarity**. The core problem that is seeking resolution and healing in the consciousness and subconsciousness of humanity, has been amplified and heightened since the Saturn Pluto conjunction, and the ongoing 'pandemic' that began at that time, and the solution to the core problem is found in these two Gene Keys.

*'At the Shadow frequency of the 51st Gene Key the perceived randomness of life creates a deep insecurity in human beings because of an underlying fear that something bad could happen to you at any moment. Shocks are a part of all human life but at the Shadow level the possibility and fear of shock continually unnerves us. **There is a profound lack of trust in life.** And the Shadow frequency of the 57th Gene Key manifests as the fear of the unknown - what might be coming in the future. **There is a continuous Unease that can manifest as anxiety and which gets amplified by the morphogenetic field connecting humanity.'***

*'Just as the Shadow creates agents of low frequency shock in the world, so the 51st Gift creates agents of positive shock in the world. **These people come to awaken the collective consciousness out of its fear-based modality.** They are not leaders – they are initiators.'*

*'As your frequency rises so you gradually heal the many layers of your inner being. The 57th Gift of Intuition is basically your body's system for interacting harmoniously with the outer world. You are able to make positive use of the natural guidance system known as the 6th sense or intuition. **You are attuning yourself to the gentle and subtle voice within and living with greater ease and flow.** You are integrating your life by trusting and following your inner guidance and being connected to the Universal 'quantum field.'*

At times of intense change the quality most needed is gentleness.

Gene Key 51, Initiative

*'The 51st Gene Key is part of the Ring of Humanity and this Gene Key ensures that one day all of Humanity will awaken. In times to come this Siddhi will begin to awaken entire gene pools. There will come a time in which relationships will awaken, then families, then entire communities until finally humanity will awaken as an individual Cosmic Being and will see its own true nature. **That single moment when humanity opens its true eyes for the first time will be the greatest single event in the history of Awareness itself.'***

*'Clarity is about seeing this softness at the heart of all things. **When you live your life in harmony with this softness you come into accord with what the ancients called the Tao – the transcendence of the opposites.** This 57th Siddhi like all the Siddhis, contains the mystery of the Feminine principle, even though it is beyond duality itself. **This Siddhi holds the secrets of miraculous healing through its special ability to attune to the subtleties of physical DNA.** Such gentleness opens the heart and leads to transcendence.'*

Turning now to look at the Kite Formation, we find the asteroids Astraea♁ and Vesta♃ are together in the sky, as they were for the last New Moon, but now they are on Gene Key 52, known as **The Still Point**, and in truth, stabilizing and stilling the resonance of trauma that is flowing around the planet, as we oscillate from one 'crisis' to the next, is a real focus for this point in time.

Vesta links to the Light within – the 'Spiritual Flame' that we carry through each incarnation – giving the power of transformation and Astraea, known as the Goddess of Justice and Innocence, holds a utopian vision of the potential for Earth, when in alignment with Divine Order. The last of the Immortals to leave Earth, it is said that when she returns she will usher in a Golden Age, bringing an end to human suffering.

Gene Key 52 moves through the Shadow of **Stress** to the Gift of **Restraint** to the Siddhi of **Stillness**.

'Stress is a collective pressure not a personal pressure. It is an energy field generated by every human being alive. The collective or extended phenotype of humanity is shaped by fear which creates an environment that puts the physical organism under great Stress. **The 52nd Shadow is deeply connected with the function of the adrenal glands – the flight or fight response.** Until human beings experience their unity with all of creation they will create and be driven by this underlying Stress.'

'This Gift has the potential to slow down time – to take the Stress out of the environment. At its deepest level, it contains the seed that will one day bring all human beings into a perfect organizational unity. This seed contains all the necessary ingredients that will be needed in the journey ahead for it is the seed of your individual destiny.'

'The seed of a Yew Tree and a Sunflower are similar in size. However, whilst the Sunflower will grow to its full size within the space of a few months, the Yew Tree may take ten years to reach the height of the Sunflower, but it may live as long as five thousand years.'

'The stored up energy and potential within a human being is infinite in its proportions, but its potential must be managed economically and allowed to expand and grow in an organic fashion. **The Gift of Restraint is about non-interference.** When you apply this to your own life, you have to accept yourself as part of a far greater flow than you can see and as such you have to accept that there are times when you will feel deeply restrained. **To live this seed fully you must ask yourself 'How can I be of the greatest service to humanity.'**

'An interesting phenomenon occurs at the highest level of frequency that may help us understand why the Siddhic state transcends frequency altogether. When a being attains realisation through the 52nd Siddhi, some intriguing things occur. **Since all frequency and energy patterns are experienced as stopping you find yourself sitting at the heart of all creation.** The incredible sheath of fear and stress created by the world aura can no longer touch you.'

'Along with this Stillness you experience the 58th Siddhi of Bliss, the programming partner of the 52nd Siddhi. Stillness and Bliss are derived from a higher functioning of your genetics. At the Siddhic level adrenaline is transmuted into rarefied hormones and neurotransmitters that induce Bliss and Stillness throughout the body. **This influx of Stillness into our planetary aura will allow many millions of people to follow their true destiny into far wider service of the whole.'**

Mars♂ is on Gene Key 50, 120⁰ away from Astraea and Vesta as part of the Kite formation. Mars refers to our personal will, to our drive, and to our ego. Gene Key 50 known as **Cosmic Order** takes us on a journey through the Shadow of **Corruption** to the Gift of **Equilibrium** to the Siddhi of **Harmony**. Last month the South Node was on this Gene Key referring to the collective, but now with Mars activating this key, each one of us has an individual decision and choice to make as to how our actions will affect the whole.

'At the Shadow frequency, data that is processed by the human brain is translated through the medium of fear. As this occurs the data is corrupted, leading to a slanted manifestation in the world. In genetics, this 50th Shadow has much to do with the way in which RNA copies DNA. RNA is a chemical substance similar to DNA whose role is to transcribe aspects of your genetic code in order that new proteins can be formed.'

'In other words RNA is a messenger that reads and copies the instructions for life. In the process known as transcription messages can be misinterpreted before they are translated. This is exactly what

occurs within human society – fear causes misinterpretation, leading to reaction and counter-reaction – resulting in Chaos, the 3rd Shadow and programming partner of this 50th Shadow.’

‘The 50th Gene Key and programming partner the 3rd Gene Key are intimately connected in the cellular health of each of us – the 3rd Gene Key governs individual cell mutation and the 50th Gene Key holds the genetic blueprint for Equilibrium and wellbeing. As we align ourselves with higher frequencies and learn to balance our emotions, use our minds creatively, and our physical body wisely, so our DNA attunes us to a deeper Harmony that lies behind the world that our senses can see.’

‘Here in the 50th Gift of Equilibrium is found the inner fulcrum upon which balances the quality of our cells, our lives and our future possibility for world peace. This high frequency is created through honesty in which all hidden agendas are laid on the table. Without this no Equilibrium can ever be reached. Herein lies the great secret to humanity’s future collective Harmony – it can only be achieved through individual freedom and trust in the self-organising intelligence that emerges from that freedom.’

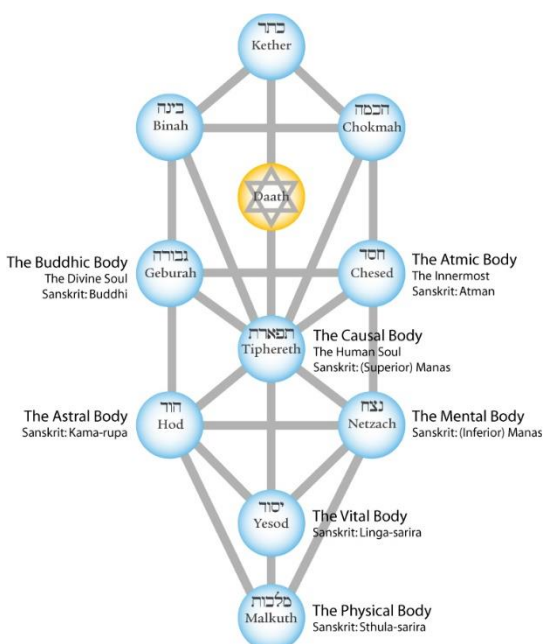

The 50th Siddhi produces experiences that harmonise human awareness with Celestial or Universal Consciousness. At the Siddhic level all imbalances within the subtle bodies must be destroyed in order that the cauldron of the physical body can become a vacuum. When this occurs within the DNA of a human being the body becomes a deep resonant chamber for the highest Universal frequencies.’

‘When the 50th Siddhi begins to break through in human beings an all-powerful current of Harmony begins to shower the people with whom they are allied. Deep and hidden issues are brought to light in order that social Equilibrium can occur. Through the 50th Gene Key humanity is destined to arrive at Cosmic Harmony, although such a concept will require a sustained period of Equilibrium before the scales finally activate the higher Harmony. **We know this higher harmony as Oneness with God.**’

Juno ♆ and Venus ♀ are both 60 degrees away from Mars and also Astraea and Pallas, and 180 degrees from Saturn ♄ at the apex of the Kite.

Juno on Gene Key 29 and Venus on Gene Key 59 continue the theme of Honesty and Transparency allied with Commitment which is key to breaking the patterns of the past.

‘The secret to all Commitment lies in the way in which you begin. It is the energy behind your actions that creates your future rather than the actions themselves. **True Commitment is an energetic dynamic felt within your entire being rather than a social requirement.** Commitment is akin to trust which can neither be forced nor willed. People with the 29th Gift can be exceedingly lucky people. Their clear, committed decisions create the conditions for their own good fortune.’

‘As the frequency gets higher your Commitment takes on a devotional quality and begins to activate the Heart Centre. As you allow the energy of Commitment to act itself out in the world, you begin to realise that an energy separate from your body is moving through you. This high frequency energy is actually moving into your body from your higher bodies and in particular from the 5th body known as the Buddhist body. Bhakti Yoga refers to the path of Devotion, or the path of the Heart. **To be devoted means to lie forever in the lap of the Divine.**’

And Venus, on Gene Key 59, has at its highest potential Clear Seeing, or **Transparency**

*'Beyond the transmutation of the Shadow into the Gift lies a further transformation in which genetic mutations will take place within the brain chemistry of the pineal and pituitary glands. **This process will lead to the dawning of the 59th Siddhi - the Siddhi of Transparency.'***

*'The purpose of the 59th Gene Key is to breakdown all barriers that stand in the way of union. **The ultimate role of the four Gene Keys, the 4th, 7th, 29th, and 59th is to bring the human family into realisation of its state of higher union with all of Creation.***

*'The ultimate agenda is evolution – although the form of our world will continue to evolve, the Consciousness out of which it emerges can never and has never evolved. **Only awareness can evolve and it is evolving very quickly through the transformations and mutations coming through the 59th Gift and Siddhi.** When awareness has reached its ultimate expression it becomes a clear mirror for consciousness and this is what Transparency is. **It reflects life without any additional comment – the ability to look upon the world without Judgment.'***

*'This is the epoch we are now entering, in which the mutation of the solar plexus equates to the opening of our Planetary Heart Centre, when we once again remember that every man and woman is our genetic brother and sister and no single individual, family, tribe or nation is an island. **We are One.'***

Saturn, is known as the Lord of Karma and Initiation, and, as for last month, Saturn is still retrograde, but this month the position of Saturn is key to the overall planetary patterns that are created at the time of the New Moon. Saturn is at the apex of the Kite Formation and also links into the North Node and Eris and the South Node and Mars, and to Vesta and Astraea as well as to Juno and Venus via a Mystic Rectangle.

As shared at the beginning of this Review this is a very powerful New Moon Eclipse and with Eris and Mars on the North and South Nodal points, Eris asks that we own and take responsibility for our own shadows rather than projecting them onto the other - onto the 'enemy.'

Eris, known as the Goddess of Chaos and Strife, seeks to disrupt and change the order, to sever any ingrained patterns, chains, and structures that serve only a few rather than the many, and from that change to create a better world.

At the Shadow level, Eris can express through humanity as a *'No-holds-barred fight for continued existence that is fundamental in all natural process, and for making a stand for what one believes, even if violence is involved. As the sister of Mars, the God of War, Eris willingly sought the battle.'* Astrograph

So, Saturn, in many ways, is holding the balance between the Utopian dream and the harsher reality of life on Earth that runs through two levels of consciousness and timelines, with Pluto and Chiron ultimately and eventually, healing and transmuting dysfunction into Wisdom. Saturn remains, as for last month, on Gene Key 55, moving from **Victimhood to Freedom.**

*'**The 55th Gene Key holds the key to our liberation and Freedom. Our DNA holds our greater Self – the Cosmic part of each of us that transcends our mortal body has lain secretly hidden inside humanity for aeons. The 55th Gene Key allows us to contemplate and to quicken the actual process of awakening.***

'As we begin the process of transcending our Shadows, miracles can occur in our lives. Much of the 55th Gene Key concerns the future of our species as it moves through the Great Change. Down the centuries much has been written, spoken and taught concerning the nature of higher consciousness.'

*'We are now entering an era in which more and more people will have direct access to an experience of true higher consciousness. **There will be a genetic mutation that will slowly colonise our species. The old human will literally be bred out of humanity.'***

*'We have to let go of all agendas, hidden or otherwise. We carry a lot of hidden agendas, all aimed at validating our separate existence. **Much of the 55th Gene Key concerns the future of our species as it moves through the Great Change.'***

*'The early shattering of the sense of separateness will take place through intimate relationships. When the first relationships experience dual enlightenment, we will know that the deepest wound of all has been finally healed. **The wound symbolised by the fall of Adam and Eve.** These Sacred Marriages will have an unbelievable energy field around them – they will naturally rise in Love from a position of Pure and Divine Union – both sharing the same auric field.'*

'We stand on the cusp of a Siddhic supernova – the incarnation of the Divine Feminine spirit. The end result of this inflowing of the Divine Feminine will result in the purification of all the fractal lines throughout humanity, resulting in a burning up of the collective karma in our DNA and the eventual eradication of all disease on the physical plane.'

At the time of this New Moon and Eclipse may we hold a **Clear** Vision and Prayer, for all of humanity, that the past be released and forgiven so that **Harmony** may arise through the **Veneration** and **Devotion** for all of Life, as the Earth is bathed in **Stillness** and **Transparency** holding the keys of **Justice** and **Freedom** and **Awakening**.

Love and Blessings to All
