## Aquarius New Moon 2024

*“We must be willing to let go of the life we had planned, so as to have the Life that is waiting for us. The old skin has to be shed before the new one can come.”*

Joseph Campbell

# 'I AM' the Light that Shines in the Darkness

At the time of the New Moon, on the 9<sup>th</sup> or 10<sup>th</sup> of February, depending upon where you live, the Sun and Moon will come together at 20° Aquarius 40.

As shared in last month's Review, Pluto is now in Aquarius having moved into 0° Aquarius, just after midnight on the 21<sup>st</sup> of January (UK Time) to conjunct with the Sun, also at 0° Aquarius – fusing the Solar Light with the transformative 1<sup>st</sup> Ray Galactic energy of Pluto – a powerful searchlight to bring to the surface all that is not in balance and that is seeking to be realigned, to move beyond inherited, old repeated patterns based on fear.

The first part of February is an intense period, for Mercury, the Moon, Mars, and Venus, will each pass across Pluto at 0° Aquarius and our individual and collective personal resonances will merge with Pluto - the Gatekeeper into Higher Consciousness.

On the 5<sup>th</sup> of February, transiting Mercury will pass over Pluto - on the 8<sup>th</sup> of February, the Moon will be at 0° Aquarius, just before the New Moon on the 9<sup>th</sup>. Then on the 14<sup>th</sup> of February, Mars transits across Pluto and on the 17<sup>th</sup> of February Venus too passes across Pluto – so all of the personal planets – our collective thoughts, feelings and actions will pass through this Plutonic laser light prior to the Full Moon on 24<sup>th</sup> of February, giving access to old subconscious patterns as they erupt into the collective field.

As has been shared over many months now, we are here to be a coherent field - to stabilize and to uplift the collective consciousness as we transition through this Initiation. To be a counterbalance to all the upheaval and pain that is erupting within the world. To be the yeast that raises the morphogenetic field.

Pluto intensifies all that it touches and with each of the personal planets passing through this *Eye of a Needle* in quick succession, this is a time to hold and Be the Love within the Chaos – a channel of Neutrality and Peace for all, whilst old memories and karmic patterns continue to unfold across the world.

Two of the Laws of the Aquarian Age are ***The Law of Right Human Relations*** which culminates as ***The Principle of Essential Divinity***. At the personality level, Saturn the ***3<sup>rd</sup> Ray of Active Intelligence***, and Uranus the ***7<sup>th</sup> Ray of Ceremonial Order and Magic*** unite for this purpose and when operating from the Soul level, Jupiter and the ***2<sup>nd</sup> Ray of Love and Wisdom***, give the potential to magnetize and express the Essential Divinity of Humanity that is waiting to manifest through this epoch of Time.

As this awareness continues to expand throughout humanity the Soul qualities of Life will be magnetised into expression and more and more individuals will become aware of the Divine Consciousness that flows within each one of us and equally throughout the Life Force to all Beings.

There is a God part in you. The Consciousness. The pure Self. Learn to listen to the voice of that Power. Amit Ray

# Chart for the Aquarian New Moon 2024

**New Moon 9<sup>th</sup> February 2024 22:59 GMT London UK**

The Sun ☉ and Moon ☾ and the Earth ⊕ are at 20° Aquarius 40 and 20° Leo 40, forming a T Square to Uranus at 19° Taurus 10 – as well as forming two kites with Vesta ♁ Sedna ♁ the South Node ♁ and North Node ♁ and Eris ♁.

Looking at the T Square first with Uranus making a 90° angle to the Sun and Moon and Earth this adds to the tension and unpredictability of the present time which can be expressed in many ways, through the elemental kingdoms as volcanic activity or earthquakes.

At its core, Uranus is about truth and freedom based on an egalitarian approach to life. It is not based on dictatorial edicts. We are witnessing this playing out at the moment in Texas where the Texan government are in conflict with the Federal government over the border issue. It is also playing out throughout Europe at this moment in time as the Farmers have taken to the streets to protest and to block highways with their tractors as they take on the EU legislature which is seeking to limit their farming practices. These are the outer manifestations of much deeper, profound changes that are taking place.

Uranus can bring breakthroughs and breakdowns – fundamentally it is seeking to create a radical shift of expanded awareness, to reawaken people to the truth that we are each a sovereign being, a unique expression of Universal Consciousness evolving into the fullness of this knowing.

The Sun and Moon on Gene Key 49 reflect all that is occurring through Pluto and the personal planets as it is known as **Changing the World from the Inside** moving from the shadow of **Reaction** to the Gift of **Revolution** to the Siddhi of **Rebirth**.

*'Here in the 49th Shadow we find the sleeping genetic trigger for the process that begins our collective ascent to higher consciousness. **In order for human beings to awaken to a higher reality, this trigger or switch lying in the 49th Shadow must be activated.** Over generational cycles this part of your DNA has been steadily evolving. Originally at its core, its more ancient purpose was to enable us to kill for survival – the more tribal your mentality is, the easier it is to emotionally detach from others.'*

**'As the higher frequencies penetrate the 49th Shadow we will move through a time of unprecedented change and upheaval. This is the Gift of Revolution. The 49th Shadow will be the first aspect of the human Shadow to mutate right down to the genetic level. There is a genetic Revolution underway right now – everything that is rotten in the 49th Shadow will be brought up to the surface. The 49th Gift is a power that is already beginning to flood the awareness of many people across the globe.'**

*'There is a difference between reactionaries and true revolutionaries. Reactionaries base their reforms on their anger and fear, whilst the agents of the 49th Gift are not victim to their old emotional prejudices. **They do not provoke further reaction but seek to resolve conflicts and at the same time implement radical changes and ideas based upon a grand vision for the future - a vision of deep goodwill towards all creatures.'***

*'The 49th Siddhi represents a huge leap in consciousness because it engenders a state of mystical divorce.... **The 49th Siddhi conceals an archetype that appears to be a part of all human evolution – that of Rebirth.** The very bedrock of our society is founded upon a species that has always made decisions rooted in fear. The only way for a new future to be created is to begin from scratch. **Once in a while along the evolutionary chain a new species is born out of the old species – like the mythical phoenix – it has nothing in common with its parent.** It rises up out of the genetic material of the old and takes a whole new direction. **The Siddhic state requires both a mystical and genetic divorce from that which came before.'***

The Earth is on Gene Key 4 a **Universal Panacea** moving through the Shadow of **Intolerance** to the Gift of **Understanding** to the Siddhi of **Forgiveness**. As these old subconscious patterns are acted out in the outer world, the gift of **Understanding** becomes paramount to allow for **Forgiveness** for all

**The Gift of Understanding has nothing whatsoever to do with knowledge.** Knowledge is what your mind thinks it needs to take away its permanent feeling of unease. But knowledge can never bring a sense of peacefulness. Only true Understanding can bring peace along with it because true Understanding lies outside of the domain of the mind. **Understanding is of the whole being.** 'When you have the feeling of visceral understanding deep in your belly, your mind is no longer hampered by the need to defend your viewpoint. **Through seeing all sides of any mental construct, the Gift of Understanding sweeps away the possibility of Intolerance and uses its gifts to create new roles or systems to bring positive change into the world.'**

*'Forgiveness is born out of Understanding, but it occurs when a being makes a leap beyond Understanding. **Forgiveness is the thunderbolt that is released when a being attains Christ Consciousness - it melts the boundaries and borders of form.** It falls upon you like a surprise and something inside you opens up that was previously choked. There exists a great mystery about the power of Forgiveness concerning time. **Forgiveness represents an involving force rather than an evolving force because it literally comes from the future towards the past.'***

*'It is a Divine quality that descends, like Christ, into the world of form. In descending into human form, Forgiveness lays its hand upon all humanity and works its way back through time, burrowing into our collective past, releasing and freeing energy that has lain trapped and stagnant for aeons. This is why the Siddhi of Forgiveness is often credited with being capable of inducing miracles, because it can release a karmic debt that has stagnated for generations.'*

*'As one of the Seven Seals, the 4th Siddhi is a primary agent of Divine Grace. As more beings bring this Siddhi into the world, they play their part in the releasing of humanity's collective karma. Pure Forgiveness is a Universal panacea that radiates in every direction throughout time and space. It really is a miracle.'*

As for last month, Uranus is on Gene Key 23 – **The Alchemy of Simplicity** – moving through the **Shadow of Complexity** to the Gift of **Simplicity** to the Siddhi of **Quintessence**.

*'Complexity is the result of the human mind trying to control its environment. The more humans try to use their minds to create a feeling of security the more complicated and unsafe the world becomes. This Shadow creates misunderstanding and division.'*

*'A good metaphor for Simplicity is flying an airplane - in the clouds the mind finds only Complexity and it goes around in circles trying to find the way out. In these lower frequency clouds you pick up static all the time. At higher levels of frequency your mind sees further and further and more clearly. At the level beyond the clouds the world mind is left below and you begin to move in to more silence. To be around someone exhibiting this Gift is a wonderful and powerful experience.'*

*'Things you thought were problems somehow dissolve in their presence and through their insight and clear language, difficult things become easy – you relax in their presence. Their true genius lies in the economy of their language and the originality of their expression. Theirs is the noblest truth of all - the Gift of Simplicity.'*

*'The 23<sup>rd</sup> Siddhi is a reminder. Stay with the Simple. Quintessence is a wonderful word. It is about the fifth element, the alchemical mystical substance... People with this Siddhi are able to touch the gold hidden within other human beings. They can transmit the power of the awakened state through a word or a look or a gesture. This is the Midas touch.'*

*'Every person has a unique key that opens them to a higher state of consciousness and the people of this Siddhi hold all the keys. They do not necessarily know that they hold the keys – they simply respond spontaneously to each person and in so doing they touch the core of that person.'*

*'The Quintessence is everywhere. It is in everything. It is the heartbeat of Consciousness. This is the true explanation of the secrets hinted at by alchemy – that the physical body itself contains the seed of the Siddhic consciousness. It is concealed in your DNA and controlled by a hidden timing mechanism that is utterly spontaneous and out of your individual reach. The real power of the 23<sup>rd</sup> Siddhi is in its direct transmission in the flesh. Once this Siddhi has fully dawned inside a person they become an alchemical agent that overtime refines all and extracts the Quintessence from the dross.'*

Looking now at the first Kite you will see that the South Node flows to Vesta through the Sun Moon and Earth. The South Node is on Gene Key 57 and Vesta is on Gene Key 45. The South Node holds the collective accumulated karma from previous lifetimes and Vesta represents the Inner transmuting threefold Flame/Light held within each human life form, throughout these lifetimes.

As for last month, the South node continues to activate the 57<sup>th</sup> Gene Key, known as the **Gentle Wind** moving through the Shadow of **Unease** to the Gift of **Intuition** to the Siddhi of **Clarity**.

***‘The 64 Shadows are all states of consciousness governed by fear. The Shadow frequency of the 57th Gene Key manifests as the fear of the unknown - what might be coming in the future. There is a continuous Unease that can manifest as anxiety and which gets amplified by the morphogenetic field connecting humanity. There is a strategy of seeking security through the mind that perpetuates more insecurity.’***

*‘To understand more precisely what we mean when we use the word fear, it may help to reduce it to a certain range of frequencies. **Even light can be reduced down to a sonic signature.** At the highest level, we humans are quite simply made up of layers of flickering and alternating sound waves. **From the point of view of the 57th Gene Key, everything in life is acoustic and every human being is like an acoustic tuning fork.’***

*‘If fear-based states fall into a particular waveband then we can see how easy it might be to adjust our own frequency and raise ourselves above this fear band. This does indeed sound easy. **However, we have to remember that Humanity collectively vibrates within the fear band frequencies.** Therefore, as human beings, we are each under enormous pressure to resonate within these same frequencies.’*

***‘As your frequency rises so you gradually heal the many layers of your inner being. The 57th Gift of Intuition is basically your body’s system for interacting harmoniously with the outer world. Here you experience a deeper sensitivity to everything and everyone around you. You are able to make positive use of the natural guidance system known as the 6th sense or Intuition.’***

*‘Trusting your instinctual awareness, you are able to perceive beyond the physical senses. Now you are using intuition as your most innate and powerful compass. You are attuning yourself to the gentle and subtle voice within and living with greater ease and flow. You are integrating your life by trusting and following your inner guidance by being connected to the Universal quantum field.’*

***‘At the higher reaches of the 57th Gene Key you begin to access the ability to tune your clairaudience beyond the borders of time. The essence of gentleness is one of the greatest secrets to life. Consciousness is the gentlest most subtle phenomenon. This is why the ancient sages so frequently likened it to water or wind – elements of such subtlety and softness that they can penetrate everything.’***

***‘Clarity is about seeing this softness at the heart of all things. When you live your life in harmony with this softness you come into accord with what the ancients called the Tao – the transcendence of the opposites. This 57th Siddhi like all the Siddhis, contains the mystery of the Feminine principle, even though it is beyond duality itself.’***

***‘This Siddhi holds the secrets of miraculous healing through its special ability to attune to the subtleties of physical DNA. Such gentleness opens the heart and leads to transcendence. If you allow it, it will transport you immediately into the world of the eternal Now. When someone attains enlightenment through this 57th Siddhi it manifests through them in an extraordinary and beautiful way – they become a tuning fork for the Divine Presence.’***

Vesta, on Gene Key 45, known as **Cosmic Communion** evolves through the Shadow of **Dominance** to the Gift of **Synergy** and ultimately to the Siddhi of **Communion**.

*(Vesta is one of the four major asteroids within the Asteroid Belt, which are the remnants of a planet, whose orbital path once lay between Mars and Jupiter according to mathematical calculations made by Johann Bode in 1772 known as Bodes Law.)*

***'We remain victims of the Shadow of Dominance whilst we live for ourselves rather than each other. It is a fear-based system focussed upon the oppression and dishonouring of other human beings. We live during an uncomfortable transitional era. As the old family-based tribal system is beginning to crumble around our ears we are left with a profound social instability. This does not mean to say we cannot bring about a revolution and improve the old system, but this system will be built on Love not fear.'***

***'The 45th Shadow of Dominance lies at the heart of this whole evolutionary tendency to operate out of hierarchies. The human need to find a place of security in the hierarchical chain is based upon Dominance. The repressive side of the 45th Shadow is made up of all those individuals who bow their heads to authority. These individuals allow their spirits to be dominated by those higher than themselves within the hierarchy.'***

***'Beyond hierarchy lies a far more expansive concept. Synergy is a beautiful word – it can be applied across many dimensions and has many meanings. We come into Synergy when we are in a state of trust. All the codons within us create a harmonic resonance. It is like when a magnet is put beneath a piece of paper that is covered with iron filings. Beautiful, organised patterns are formed, but the magnetic field itself is invisible. The universe is like that; trust is like that. Synergy takes place like this at an individual level within the chemistry of our DNA, it also takes place collectively as we come into alignment with others.'***

***'Synergy, unlike hierarchy, recognises the need for both individual and group empowerment, so it operates at a far higher frequency than the hierarchical model. The 45th Gift of Synergy requires a leap of faith out of fear-based thinking and control by a single person. This leap out of the old fear-based territorial thinking will require that those who hold positions of power and authority have to risk giving their authority away. For someone in a position of true power to give complete authority to another is to perform an act of pure alchemy.'***

***'The traditional notion of Communion is rooted in the Christian rite of sharing bread and wine in memory of Christ's last supper. When Christ spoke the words 'This is my body' he was speaking from a collective level. Humanity is a collective body that is united through its bloodlines in a common ancestry.'***

***'In the 45th Siddhi all the various strands of human DNA finally come together. It is the Cosmic gathering point for higher consciousness – Humanity operating as one Consciousness. The Siddhi of Communion involves the direct imbibing of Divine Consciousness. In entering into this field of frequency, you are transcending all sense of being separate from others.'***

The second Kite formation has the North Node and Eris at the apex of the Grand Trine on Gene Key 51 and Gene Key 42. Gene 51 known as ***Initiative to Initiation*** moves through ***Agitation to Initiative to Awakening***.

***'The 51st Gene Key and its spectrum of frequencies contains some startling secrets regarding human behaviour as well as leading you towards the process or experience referred to as awakening. At the Shadow level there is innate human competitiveness with the need to be first in order to feel superior to others.'***

***'The 51st Gene Key as a genetic archetype is rather special. The 51st Gene Key is a portal – the portal through the Shadow frequency leads to hell whereas the 51st Gift leads to a place of great personal empowerment and genius. The Gift level is engaged whenever the human competitive spirit is put into the service of creativity. To follow your Initiative is to step off the beaten track and to follow the dictates of your own inner being. It is not possible for a human being to awaken without first stepping fully into their creative independence.'***

***'They close the book on all previous teachings and wisdom in order to discover what their individual truth is, rather than anyone else's.'***

*'It is a journey into the underworld in which the traveller will confront many challenges and tests. **A path that leads home – it is a path of heart leading into the Heart.** This is the battle with your own fears but rather than being a struggle there is a leap into the Higher Self. It is the shock of Awakening from one level of being into another. Just as the Shadow creates agents of low frequency shock in the world, so the 51st Gift creates agents of positive shock in the world. **These people come to awaken the collective consciousness out of its fear-based modality.** They are not leaders – they are initiators.*

*'Awakening is a spontaneous evolutionary leap made possible by wider evolutionary forces operating throughout the entire Universe. Awakening is a sudden unexpected shock in awareness that is preceded by a mutative chain reaction throughout the cells and DNA. True Awakening does not come and go, but stays forever and see's through everything. **It is the permanent dissolving of the separate self as a physical mutation in the body - an experience that cannot be predicted or influenced.'***

*'Each of the 64 Siddhis has its own particular behavioural pattern of awakening, but the 51st Siddhi is the ground beneath every one of these 64 codes. **The 51st Gene Key is part of the Ring of Humanity and this Gene Key ensures that one day all of Humanity will awaken.***

*'In times to come this Siddhi will begin to awaken entire gene pools. There will come a time in which relationships will awaken, then families, then entire communities until finally humanity will awaken as an individual Cosmic Being and will see its own true nature. **That single moment when humanity opens its true eyes for the first time will be the greatest single event in the history of Awareness itself.'***

Eris, on Gene Key 42, is a dwarf planet outside of the Kuiper Belt within Galactic Consciousness and shares that if we are to enter into this higher state of awareness then we will need to **Let Go of the Living and Dying** and move beyond the Shadow of **Expectation**, to the Gift of **Detachment** to embody **Celebration**.

*'True detachment is the ability to allow and accept life as it comes. Detachment does not mean to not feel. In fact, if you are truly detached you will feel more intensely than others because you will not have allowed your Expectation, positive or negative, to constrict the event you actually experience. **Detachment presupposes a great love and trust in Life.'***

*'The 42nd Gift of Detachment births the process of letting go of control over your life, physically, mentally, and emotionally. It is a wonderful letting go that travels deeper and deeper into your DNA as you gradually allow your Expectations of life to fall into the background. **There is a great understanding and freedom that comes to every human being who surrenders deeply enough to their life.** With Detachment comes both understanding and healing.'*

***The 42nd Siddhi is about the transcendence of death.** These are the sages who teach humanity about the illusion of death. They do not teach us through knowledge but through their attitude. This is a state beyond Detachment.'*

*'Whilst our physical form may decay and 'die' the essence of our consciousness is timeless, fluid, playful, and unpredictable. The DNA helix uses human forms to continually reshape and reinvent itself. It is like some Cosmic serpent that endlessly keeps shedding its skin and our bodies/forms are those skins.'*

*'When someone has entered the doorway of death deeply enough within themselves they discover the pure Maya of life – **the illusion that we are born and we die** – and as this great truth begins to permeate them, from the inside out, it literally kills off every aspect of their own identification with what they are.'*

*'The one in whom the realisation of this Siddhi has dawned is filled with laughter and all they want to do is to share this laughter with others. This laughter rocks the whole vehicle since it emerges from the source of Creation. With the 42nd Siddhi, there is only one manifestation occurring and this is the state of Celebration. **Celebration is the direct manifestation of true Awakening.'***

And finally, looking now at Pluto, ♃ which is fundamental to all that is occurring during this phase of the Moon, you will see that Pluto is on 0° Aquarius on Gene Key 60 known as the **Cracking of the Vessel** moving through the shadow of **Limitation** to the Gift of **Realism** and to the Siddhi of **Justice**.

Pluto first moved onto this Gene Key in March 2021, then back into GK 61 for a few months, before returning to GK 60 on 15<sup>th</sup> January 2022. It will briefly move into Gene Key 41 in April this year before coming back onto Gene Key 60 until the end of 2025. So, this is the ongoing Plutonian focus underpinning the energetic, transformational, impulse flowing down through the etheric liquid Light of the DNA.

*'This Shadow of Limitation represents one of the most potent forces responsible for pulling humankind in the opposite direction of evolution. It is the counterweight of Life itself – the main reason for the death of magic is closed-circuit thinking, where the mind follows familiar patterns or systems of thought around and around without the ability to think beyond them.'*

*'As we begin to see that we're more than we allow ourselves to often believe, then that frequency, that vibration of possibility, begins to activate something inside us. It is communicated to our DNA and we begin to open. There is great capacity for magic in this Gene Key which may sound odd as it is called the Gift of Realism.'*

*'However, the only thing needed for magic to occur is some form of a structure and an open mind! **Common sense/Realism is not in opposition to magic.** It is common sense to remain open-minded to everything in the Universe because everything has at its core the same wondrous inner Light. **Justice is not about retribution, it is a reward.** It is given as Grace, not taken as punishment, and when it is given, freedom flows from it. **It is not an imposition or a limitation.** The 60th Siddhi holds an apt description of what happens when a human being becomes fully realised.'*

*'At a certain point, our hearts open to our true Innocence and we begin to unlock other codes in our DNA that are ancestral rather than personal and we begin to transmute more global karma. Every time a being attains enlightenment through the 60th Siddhi, magic comes pouring through this Being and they become a phenomenon, a symbol of the breaking of form – **Masters who have attained the Body of Light.'***

Over this period of the Lunar cycle, and onwards, from all that has been shared, we are going to witness many changes, for we are in a time of transition. Old karma and ancient patterns are being released – so this is a time for Understanding on a Cosmic level so that the Grace of **Forgiveness** may flow throughout humanity ultimately bringing **Awakening** and **Rebirth**.

*All Love and Blessings*
