## Aries New Moon 2024 Total Eclipse

*'There is no greater mystery to me than that of  
Light travelling through darkness.'*

# 'I AM the Light of Life Itself'

In this month's Review, which is covering the Total Solar Eclipse that occurs at the time of the New Moon in Aries on the 8<sup>th</sup> or 9<sup>th</sup> of April, we will also be looking at the Jupiter/Uranus conjunction that will be taking place on the 20<sup>th</sup> or 21<sup>st</sup> of April, depending upon where you live.

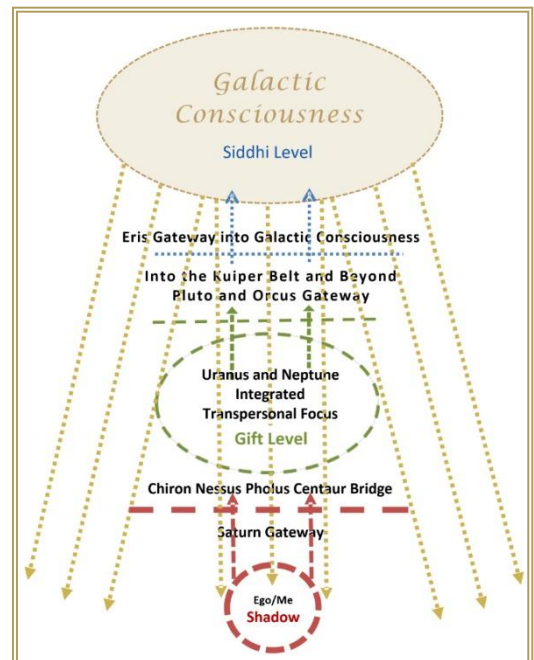

Prior to the New Moon in Aries, we will have experienced the Spring /Autumn Equinox which took place on the 19<sup>th</sup> or 20<sup>th</sup> of March, followed by a Lunar Penumbral Eclipse on the 25<sup>th</sup>. The Equinoxes and the Solstices are markers in time for the 'Cosmic Clock' as the Earth cycles around the Sun in its yearly orbit, passing through each of the twelve Constellations of the Zodiac. Each of the Constellations holds the Essence and Quality of a Divine Virtue that flows through the Solar System seeking expression on Earth.

Each year at the time of the Equinox, when the Sun passes through 0<sup>o</sup> Aries, for the Northern Hemisphere, it marks the official start of Spring, and for the Southern Hemisphere the start of Autumn, but whether North or South, both hemispheres are bathed in equal hours of day and night, as the Sun is directly overhead the Earth's Equator, which creates this yearly balance of Light and Dark across the Earth.

The Pure Consciousness at Source that flows down to Earth through the planetary system, is at all times, working for the benefit of all Life on Planet Earth. It is the way in which humanity, through their own levels of consciousness, receive and respond to this energy, that creates the division and discord in the outer reality. For it is the collective Group Consciousness that underpins and creates the outer manifestations that occur on Earth, not planetary alignments.

The Constellation of Aries flows with the **1<sup>st</sup> Ray of Will and Power** and the **7<sup>th</sup> Ray of Ceremonial Order and Magic**. When an individual has integrated and surmounted the lower levels of consciousness they take on the responsibility for the right use of will.

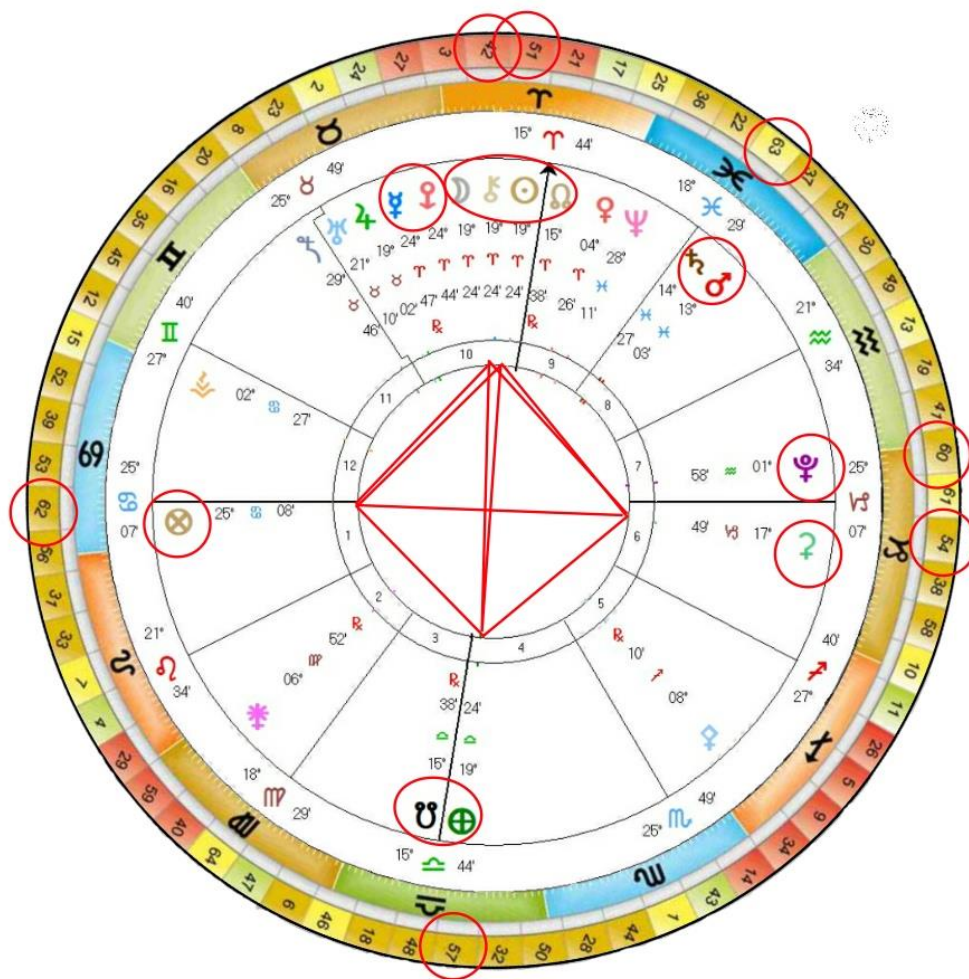

As such they are able to work with the Plan of Evolution and are in touch with their role for its unfoldment. Their actions and thoughts are directed toward the benefit of All – they become an exemplar and embodiment of the *Will-to-Good*. This is the true mark of Leadership.

# Chart for the Arian New Moon Solar Eclipse 2024

**New Moon 8<sup>th</sup> April 2024 13:22 CDT San Antonio Texas USA**  
<https://www.timeanddate.com/moon/phases/>

At the time of the New Moon there are five Cosmic bodies in Aries, the Sun ☉ Chiron ♄ the Moon ☾ Eris ♁ and Mercury ☿ as well as the North Node ♁, so this makes for a very dynamic New Moon, and the Solar Eclipse will, of course, intensify this energy. The energy of the eclipse often manifests just before the eclipse, as well as at the time of the eclipse and continues to have an underlying effect, or signature, over the upcoming six months.

This sense of a charged energetic is also reflected in the Cardinal Grand Cross that occurs, with the South Node ♁ Earth ⊕ Ceres ♃ Pluto ♇ and the Path of Fortune ⊗ with Mercury and Eris exact at 24 Aries also being drawn into the Cardinal Cross.

With Jupiter ♃ and Uranus ♅ being so close together there is a sense of sudden change, an unpredictability, sudden revelations, shocks that may well be expressed when Jupiter and Uranus become exactly conjunct on the 19th /20th of April. Jupiter and Uranus represent Truth, a desire for freedom, and the rights of individuals and with Saturn ♄ and Mars ♂ equally close on Gene Key 63 the desire for Truth to be expressed would seem to underpin this chart.

The USA has been a focus for recent eclipses and it would seem to indicate some radical realignments and adjustments are likely physically, emotionally and consciously.

You will see that the New Moon Chart is set for Texas rather than the UK. This is because this Total Solar eclipse, known as Saros 139, will be crossing America starting from Mexico and then moving up North across fifteen States, from Texas to Maine and parts of Canada.

Back in August of 2017 there was another Total Solar Eclipse, Saros 145, which also passed right down across the USA and you will see the path of the upcoming Eclipse will cross that path close to St Louis in Missouri.

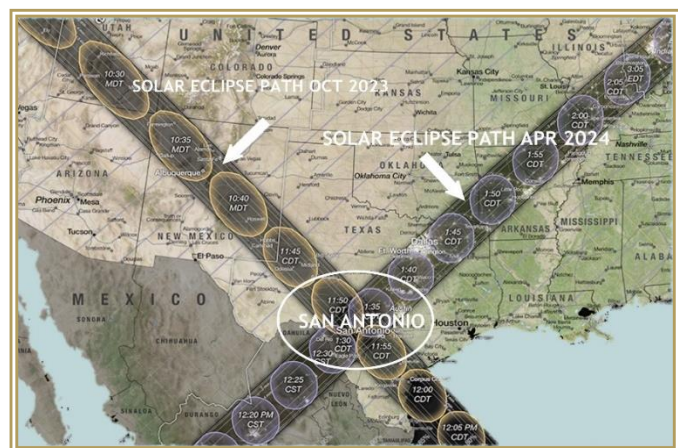

However, this 2024 eclipse path will pass over more cities and densely populated areas than the 2017 path did. An estimated 31.6 million people live in the Path of Totality this year, compared to 12 million in 2017.

Just six months ago, on 14<sup>th</sup> October 2023 another Solar Eclipse, Saros Cycle 129, crossed America moving South, from Oregon down through Texas, Mexico, Guatemala, Belize, Honduras and on to Brazil.

You will see that these two Eclipse Paths cross at San Antonio Texas. The 2023 Eclipse had a very powerful Pluto influence which was/is seeking resolution - it is about the use of power – how it is utilised. So, you could say that San Antonio, and St Louis, are in some way focal points for all that has been unfolding in the USA over these last seven years, and indeed around the world, that needs to be brought into a higher state of resonance and integration and resolution.

The Cosmic Review shared at the time of the October 14<sup>th</sup> Solar eclipse that *'All that was laid out in the Declaration of Independence is going through the finest of Cosmic scrutiny, a purging, to see if it still holds true to the founding principles that were forged at that time'*. This is an ongoing, unfolding, situation and Texas and Missouri would seem to be the crucible for changes that are occurring. Recently, old echoes re-emerged as Texas, has challenged the Federal Government over their rights to overrule government policy.

It is also notable that just a week before the 2023 Eclipse on the 14<sup>th</sup> of October, on the 7<sup>th</sup> of October, violence erupted in Israel, which has culminated in the ongoing conflict and tragedy in Gaza. Wherever we are all living, on this beautiful Planet, we deserve to live in Peace.

So how do Eclipses function? What is their purpose? Each Saros Eclipse cycle starts at either the North or South Pole and gradually moves down or up across the Earth for around 1,200 years. This upcoming eclipse cycle began in 1501 and will complete its cycle across the Earth in 2,763.

As the Eclipses move across the Earth, every 18 years, plus 10 to 12 days, they play a vital role, for there is a symbiotic transference of consciousness, as the pure Light of the Sun merges with the ingrained memory patterns of humanity, reflected back to Earth by the Moon.

As such, the Eclipses release stored, trapped energy that is held within the Earth plane, for transmutation and release, so that the ley lines and vortices may be maintained and upgraded. Humanity, as the 'acupuncture needles' on Earth, assist or hold back this evolution and Cosmic cleansing, through our emotional and mental beliefs and reactions - for we are the anchors on Earth, the chalices that receive the Light from the Constellations, transmitting this Light down to the core of the Earth and back out to the sky.

So, with all that as background for this up coming New Moon, what insights are held deep within our cellular system, in our subtle etheric bodies and DNA that gives further clarity at this powerful and transformative time?

The North Node, Sun, Chiron, Moon and MC are all on Gene Key 51 moving through **Agitation**, to **Initiative** to **Awakening**. This Gene Key has been the focus for the last several weeks, with the Chiron/North Node conjunction on 5<sup>th</sup> March, and now at the time of the Eclipse this Gene Key remains the central focus. Chiron links to the Soul of our Being and when we have been living from a purely material perspective, which limits the reception of Light, then transits of Chiron can erupt into our consciousness, initially as a sense of wounding, but ultimately bringing deep healing.

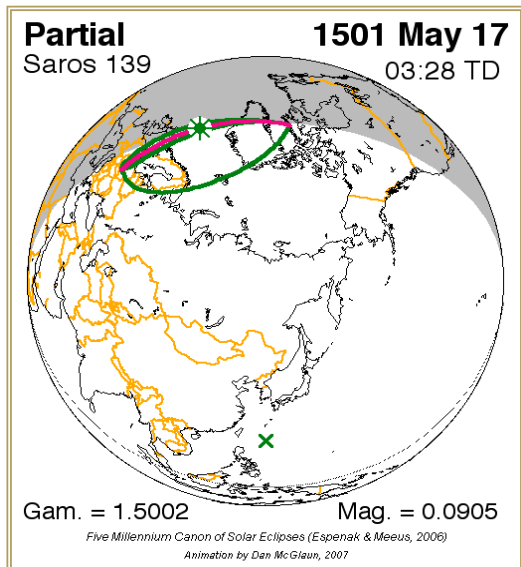

*'The reason that the 51st Shadow creates such a disturbance in the energy field of human beings is quite simply because life is beyond our control. **Unforeseen events will occur in your life from time to time and these events can radically change your destiny.** At the Shadow frequency the perceived randomness of life creates a deep insecurity in human beings because of this underlying fear that something bad could happen to you at any moment.'*

*'The 51<sup>st</sup> Gene Key as a genetic archetype is rather special. The 51<sup>st</sup> Gene Key is a portal – the portal through the Shadow frequency leads to hell whereas the 51<sup>st</sup> Gift leads to a place of great personal empowerment and genius.'*

*'To follow your Initiative is to step off the beaten track and to follow the dictates of your own inner being. It is not possible for a human being to awaken without first stepping fully into their creative independence. **These people come to awaken the collective consciousness out of its fear-based modality. They are not leaders – they are initiators.'***

***'Awakening is a spontaneous evolutionary leap made possible by wider evolutionary forces operating throughout the entire Universe. Awakening is a sudden unexpected shock in awareness that is preceded by a mutative chain reaction throughout the cells and DNA. True Awakening does not come and go, but stays forever and sees through everything. It is the permanent dissolving of the separate self as a physical mutation in the body - an experience that cannot be predicted or influenced.'***

Before moving on from this Gene Key, the image for 19 Aries 22, where the North Node, Sun, Chiron and Moon are, as described in *The Astrological Mandala* by Dane Rudhyar is:

**'A young girl feeding birds in the Winter'** in which it shares that *'Nature's seasonal rhythms imply an oscillation between living and dying. Through creative imagination man can 'fly over' the cycle and discover means not only to escape from the fatality of seasonal decay or deprivation but to assist other living entities to survive through crises. Man can maintain the life of spirit steady through all crises, if like a young girl he is widely open to the promptings of love and sympathy.'*

The Keynote for this degree is **'Overcoming Crises through Compassion'** and the theme of this degree is **'The Transmutation of Life into Love.'**

The Earth and South Node, are on Gene Key 57 which moves from **Unease** to **Intuition** to **Clarity**. It appears that generations of unease is seeking to be released and transmuted at this time.

**'The Shadow frequency of the 57th Gene Key manifests as the fear of the unknown - what might be coming in the future.** *There is a continuous Unease that can manifest as anxiety and which gets amplified by the morphogenetic field connecting humanity. To understand more precisely what we mean when we use the word fear, it may help to reduce it to a certain range of frequencies. From the point of view of the 57th Gene Key, absolutely everything in life is acoustic. Even light can be reduced down to a sonic signature. At the highest level, we humans are quite simply made up of layers of flickering and alternating sound waves.'*

*'As the foundational aspect of the Ring of Matter, the 57th Gene Key governs the cycle of gestation and your genes build your body at the frequency of the energetic field in which your mother lives. As your frequency rises so you gradually heal the many layers of your inner being. The 57th Gift of Intuition is basically your body's system for interacting harmoniously with the outer world.'*

**'Here you experience a deeper sensitivity to everything and everyone around you.** *You are able to make positive use of the natural guidance system known as the 6th sense or intuition.'*

**'At the higher reaches of the 57th Gene Key you begin to access the ability to tune your clairaudience beyond the borders of time.** *Consciousness is the gentlest most subtle phenomenon. Clarity is about seeing this softness at the heart of all things. When you live your life in harmony with this softness you come into accord with what the ancients called the Tao – the transcendence of the opposites.'*

*'This 57th Siddhi like all the Siddhis, contains the mystery of the Feminine principle, even though it is beyond duality itself. This Siddhi holds the secrets of miraculous healing through its special ability to attune to the subtleties of physical DNA. Such gentleness opens the heart and leads to transcendence. If you allow it, it will transport you immediately into the world of the eternal Now. When someone attains enlightenment through this 57th Siddhi it manifests through them in an extraordinary and beautiful way – they become a tuning fork for the Divine Presence.'*

At the time of this eclipse, Mercury and Eris are together at 24 Aries on Gene Key 42. Mercury links to how we communicate, to how we think and use language, and how this also affects our central nervous system. Dwarf planet Eris, out beyond the Kuiper Belt in Galactic Consciousness, requires that we take responsibility for our thoughts and words, and teaches us we can no longer project fear,

blame or anger out onto others, if we are to step into higher consciousness. At the time of the eclipse Mercury will be retrograde which encourages us all to inner reflection.

Gene Key 42 known as **Letting Go of the Living and Dying**, moves through the Shadow of **Expectation**, to the Gift of **Detachment**, to the Siddhi of **Celebration**.

**‘True detachment is the ability to allow and accept life as it comes. Detachment does not mean to not feel. In fact, if you are truly detached you will feel more intensely than others because you will not have allowed your Expectation, positive or negative, to constrict the event you actually experience. Detachment presupposes a great love and trust in Life. The 42nd Gift of Detachment births the process of letting go of control over your life, physically, mentally, and emotionally. It is a wonderful letting go that travels deeper and deeper into your DNA as you gradually allow your Expectations of life to fall into the background.’**

**‘Even though you cannot immediately see the outcome of a given situation, you know that it is connected to a prior situation and bridges to another situation ahead in the future.’**

**The 42nd Siddhi is about the transcendence of death. These are the sages who teach humanity about the illusion of death. They do not teach us through knowledge but through their attitude. This is a state beyond Detachment. The transition from the Shadow to the Siddhi, from Expectation to Celebration, does not occur within time. Whilst our physical form may decay and ‘die’ the essence of our consciousness is timeless, fluid, playful, and unpredictable. The DNA helix uses human forms to continually reshape and reinvent itself. It is like some Cosmic serpent that endlessly keeps shedding its skin and our bodies/forms are those skins.’**

**‘When someone has entered the doorway of death deeply enough within themselves they discover the pure Maya of life – the illusion that we are born and we die – and as this great truth begins to permeate them, from the inside out, it literally kills off every aspect of their own identification with what they are. With the 42nd Siddhi, there is only one manifestation occurring and this is the state of Celebration. Celebration is the direct manifestation of true Awakening.’**

Looking, now at the other planets that create the Grand Cross in this chart, Dwarf planet Ceres is on GK 54, moving through the Shadow of **Greed** to **Aspiration** to **Ascension**. Ceres carries the essence of nurturance and protection, fertility and motherhood. Ceres holds an essential kindness and simplicity, caring for the Earth and teaching the need to treat all creatures with respect and reverence.

**‘The 54th Shadow is one of the great pressures that drive humanity. There is a drive to want more and at its shadow frequency this Gene Key can become blind Greed. The primal energy behind the 54th Shadow was essential for the survival of early human tribal cultures. This means that at a certain evolutionary point, Greed will have served its purpose and will need to be transcended.’**

**‘If Greed is pursued to its furthest limits without transcendence, it becomes self-destructive, for it focuses solely upon power, status, recognition, wealth, and material gain. There is a fine line between Greed and Aspiration the 54th Gift. When the 54th Shadow transforms into a higher**

**frequency the Gift of Aspiration is born.** Aspiration here refers to the energy to aspire to something beyond the material realm. Aspiration contains within it the seed of all Higher Consciousness.'

**'The 54th Gift aspires to a higher vision of prosperity.** Here we see ambition moving beyond the personal and into the communal. These Souls want their entire community to thrive in order that they can draw more and more people up the hierarchy away from the self-destructive patterns of the lower frequencies. The Gift of Aspiration has some other fascinating qualities connected to the transformation of energy into more rarefied frequencies. **The 54th Gift has to do with the way in which memory is transferred and stored in our cells.** As the energy of the Gift of Aspiration reaches higher frequencies it becomes Spiritual.'

**'The 54th Siddhi of Ascension is a very particular path.** It concerns the transformation of the gross currents within the body into more and more refined currents – **the continual alchemical transformation of matter into Spiritual essence.** Here the base energy of ambition is experienced at its highest frequency and becomes the continual pressure to keep ascending up the hierarchy. Not the social or material hierarchy, but the spiritual evolutionary ladder which consciousness itself ascends on the return to its own Source.'

**'True Ascension is activated automatically through the lower frequency of Aspiration.** All personal cultural and genetic memory is burned from the body. Kundalini is likened to a fire – a liquid fire which burns the water molecules within the physical body vaporising them to create a steaming process in which spiritual essence is refined.'

After a certain period of time, sometimes spent in physical agony, stillness reigns over the body and you experience the purity of consciousness without thought. This process continues until the physical body becomes more and more translucent. **One aspires and sooner or later one Ascends.'**

And Pluto, the planet of transformation, that brings a 1<sup>st</sup> Ray focus and intensity to 1<sup>o</sup> Aquarius, is on Gene Key 60, which is known as the **Cracking of the Vessel** moving through **Limitation** to **Realism** to **Justice**. Pluto will be on this key on the 8<sup>th</sup> but on the 11<sup>th</sup> will move briefly onto Gene Key 41, **The Prime Emanation**, for just over a month before returning to Gene Key 60 until 31<sup>st</sup> January 2025.

**'As we begin to see that we're more than we allow ourselves to often believe, then that frequency, that vibration of possibility, begins to activate something inside us. It is communicated to our DNA and we begin to open.** There is great capacity for magic in this 60<sup>th</sup> Gene Key which may sound odd as it is called the Gift of Realism.'

**'Common sense/Realism is not in opposition to magic. It is common sense to remain open-minded to everything in the Universe because everything has at its core the same wondrous inner Light.** The Siddhi of Justice is not about retribution, it is a reward. **It is given as Grace, not taken as punishment, and when it is given, freedom flows from it.'**

*'It is not an imposition or a limitation. The 60th Siddhi holds an apt description of what happens when a human being becomes fully realised. At a certain point, our hearts open to our true Innocence and we begin to unlock other codes in our DNA that are ancestral rather than personal and we begin to transmute more global karma.'*

*'Every time a being attains enlightenment through the 60th Siddhi, magic comes pouring through this Being and they become a phenomenon, a symbol of the breaking of form – Masters who have attained the Body of Light.'*

The final angle of the Grand Cross, for San Antonio, is created by the Path of Fortune and the Ascendant point, at 25<sup>o</sup> Cancer on Gene Key 62, known as **The Language of Light** moving through the Shadow of **Intellect to Precision to Impeccability**.

*'The 62 Gift of Precision is far beyond the realm of the Intellect, which is based on mere knowledge. Precision happens when natural intelligence strikes a balance between the heart and the mind, but with one caveat, that the heart, the feminine principle, is given control over life. As the Gift of Precision grows stronger it may seem as though the world gradually begins to come alive again. Intelligence recognises intelligence and with the mind out of the way the invisible essence that connects all beings is once again felt.'*

*'The 62nd Gene Key is part of the Codon Ring known as the Ring of No Return. This mystical name describes the evolutionary process that takes place when higher consciousness reaches the throat centre. The throat centre is where the greatest human initiation occurs. Once the higher involutions begin to use our voice to transmit their truths, you begin a process of detaching from your own identity. The 62nd Gene Key allows access to the Universal Language of Light behind all forms.'*

*'The 62nd Siddhi concerns the use of language at a level beyond our ken. Every word has its frequency and vibration and the order and tone of your diction creates a certain aura. At the Siddhic level words do not come via the mind anymore – they are not thoughts that become words. They emerge directly from the void, naked and pure.'*

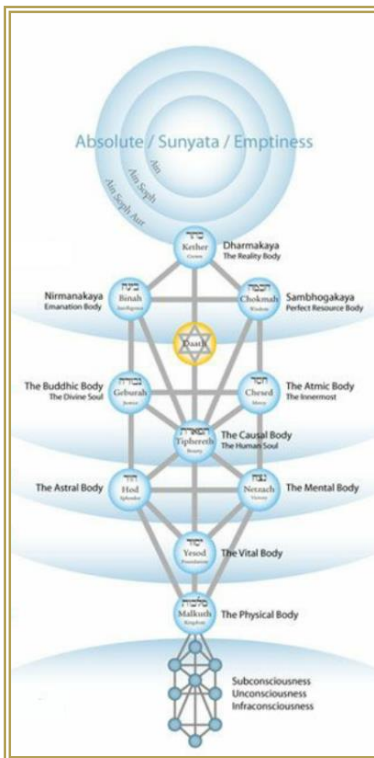

*'There is a Cosmometry behind life that choreographs all actions. The closer you come to full awakening the more harmoniously your life flows within this Cosmometry. When you finally merge into the ocean of consciousness you achieve complete oneness with the Divine. Divine Cosmometry is the language of perfection.'*

*'It is the manifestation of Impeccability in which your every movement and breath becomes an emanation of the Pure Light. You have entered into the Language of Light – the Impeccable Beauty of Being. There is a deep magic woven into language – words become much more precise - as your language becomes purer you expose your heart to the world. Words spoken from Love are deeply healing. This is why there is no return once you begin to speak your truth – you have broken away from the lower realms forevermore.'*

And finally, before looking at the Jupiter and Uranus conjunction just a little about the role of Gene Key 41 which Pluto will move to on the 11<sup>th</sup> of April for the next few weeks.

'The 41st Gene Key houses a truly remarkable archetype. It has a very important function – it relates to what is known in genetics as the start codon.'

'The more the frequency of your DNA rises you become more and more sensitive to the hidden properties in the world around you, in particular, linking into the morphogenetic field that communicates specific information across time and space. The 41st Gift has a single genetic agenda – it is always attuned to the next evolutionary energetic grid that is waiting to descend into form. When you are able to maintain a high frequency through this 41st Gift you will be able to literally download all manner of beautiful things from the morphogenetic field.'

'Every start codon inside every single cell is electromagnetically linked to each other. This is the foundation of the holographic body which in turn is linked to the holographic Universe. The 41st Gene Key is the key to seeing that the physical body can equally be seen as a holographic mirror of the Universe. As the Source of Being the 41st Siddhi is the Siddhi of Emanation. Emanation is a word that has been used by many ancient metaphysical and mystical systems.... One of the best known of these systems is perhaps the Kabbalah, whose central tenet is a map known as the Doctrine of Emanation.'

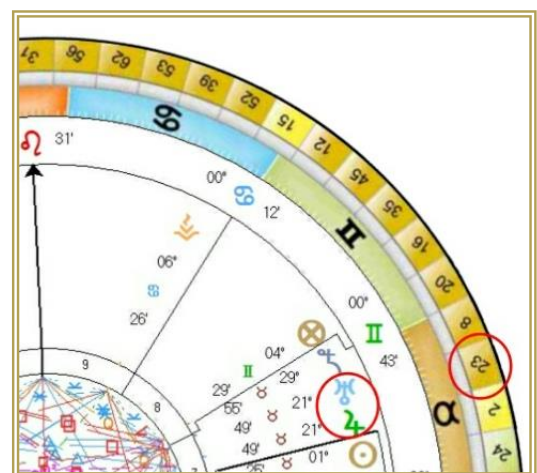

'In a nutshell the Doctrine of Emanation points towards a fractal model of the Universe in which everything is a mirror image of itself. The Cabbalists used the symbol of ten spheres or sephira, one emanating from another, to represent the various levels of Spirit descending into matter. The ultimate source, known as the Ain Soph, represents the unnameable, inconceivable, limitless Light from which all emanates. In many ways, this is the nameless Siddhi, but we call it Emanation because we have no other way of approaching it.'

--oOo--

The Jupiter Uranus conjunction will take place on the 20<sup>th</sup> or 21<sup>st</sup> of April and it will take place at 21<sup>o</sup> Taurus 47 on Gene Key 23 a few days before the Full Moon on the 23<sup>rd</sup> or 24<sup>th</sup> of April.

Known as **The Alchemy of Simplicity** evolving out of the Shadow of **Complexity** to the Gift of **Simplicity** to the Siddhi of **Quintessence**.

'The 23rd Shadow is one of the most potent contemporary Shadows driving humanity in our present age. It is the Shadow of Complexity. Complexity is the result of the human mind trying to control its environment.'

'The more humans try to use their minds to create a feeling of security in the world the more complicated and unsafe the world becomes. The fear beneath the Shadow is of meeting intolerance and being excluded by others. The difficulty for the 23rd Shadow is that it tends to make human beings know that they are right, which firmly closes the door on their being open to the views of others.'

*'At an individual level, this Shadow creates misunderstanding and division in two ways – through individuals saying the wrong things and through them saying them at the wrong time. This human trait has been around for as long as language has been around and it is responsible for some of the most horrendous events in human history.'*

*'When Buddha introduced his great teaching known as the Eightfold Path, he spoke of Right Understanding which leads to Right Speech. **He hit upon the great and simple truth – that language flows directly out of your state of consciousness.** The 23rd Gift communicates precisely, clearly and with great economy. The power of Simplicity is to create efficiency wherever it goes.'*

*'A good metaphor for Simplicity is flying an airplane - in the clouds the mind finds only Complexity and it goes around in circles trying to find the way out. **In these lower frequency clouds you pick up static all the time.** At higher levels of frequency your mind sees further and further and more clearly. **At the level beyond the clouds the world mind is left below and you begin to move into more silence.'***

*'To be around someone exhibiting this Gift is a wonderful and powerful experience. Things you thought were problems somehow dissolve in their presence and through their insight and clear language, difficult things become easy – you relax in their presence. Above all they are wonderfully clear communicators and advisers... **Theirs is the noblest truth of all - the Gift of Simplicity.'***

*'The 23rd Siddhi has an alchemical flavour to it – the ability to extract gold from base metal. **People with this Siddhi are able to touch the gold hidden within other human beings.** They can transmit the power of the awakened state through a word or a look or a gesture. **This is the Midas touch.** Every person has a unique key that opens them to a higher state of consciousness and the people of this Siddhi hold all the keys. They do not necessarily know that they hold the keys – they simply respond spontaneously to each person and in so doing they touch the core of that person.'*

*'This is the true explanation of the secrets hinted at by alchemy – that the physical body itself contains the seed of the Siddhic consciousness. It is concealed in your DNA and controlled by a hidden timing mechanism that is utterly spontaneous and out of your individual reach. The real power of the 23rd Siddhi is in its direct transmission in the flesh. **Once this Siddhi has fully dawned inside a person they become an alchemical agent that overtime refines all and extracts the Quintessence from the dross.'***

As you can see, there is an immense amount of activity occurring in the Cosmos right now, with the Lunar Eclipse, Solar Eclipse Jupiter Uranus conjunction all holding potentials that cover many possibilities, which will manifest in manifold ways as Mother Earth births these higher frequencies.

Much has been written and spoken about this eclipse and there are so many thoughts floating around that can overstimulate the mind so I am enclosing a link here that I received the other day that speaks to both the synchronicities and complexities that are held within this eclipse but also speaks to a powerful, peaceful, yet simplicity of approach that echoes all that is held in this Review.

Before ending I would like to end with the image from Dane Rudhyar for where the Jupiter Uranus conjunction is taking place, which also aligns with the channelling that is given by Anne Tucker in the above link.

The image is '**A White Dove Flying Over Troubled Waters**' and the Keynote for this degree is '**The Spiritual inspiration that comes to the individual in the overcoming of crisis.**'

*'Here we are confronted with a symbol of guidance - the dove flying over troubled waters reminds one of the story of Noah and the Ark. Noah met his and mankind's crisis courageously and in complete obedience. The test completed, he received the dove's message. It is a message from the Holy Spirit announcing a new Dispensation. This symbolic scene can be applied to personal crises resulting from emotional upheavals or from the irruption of unconscious forces and impulses into the consciousness – if the crisis has been faced in the right spirit.'*

Dane Rudhyar goes on to say that this image relates to '*The rhythm of Cosmic God ordained Cycles that reveals its conclusive beat through a living and concretely significant sign – **A Reward to the Faithful.***'

We are passing through profound times - times of initiation and purpose that hold the seeds of **Awakening, Ascension, and Celebration** as together we **Emanate**, through **Grace** and **Compassion**, the state of **Impeccability** in which our every thought, movement and breath has the potential to become an emanation of the Pure Light.

*All Love and Blessings*
