

Cosmic Overview

Capricorn New Moon 2024

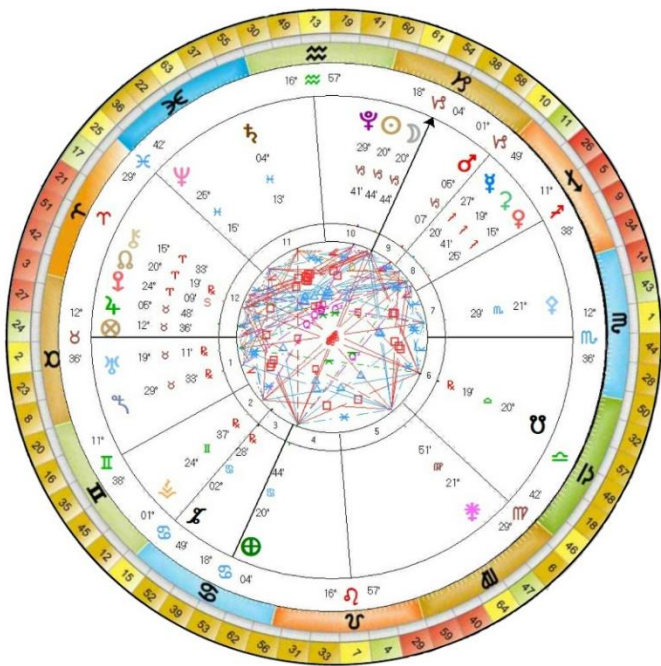

Inside the Chaos build a Temple of Love

Anon

*'All the powers of the Universe are already ours.
It is we who have put our hands before our eyes and
cry that it is dark.'*

Swami Vivekananda

'I AM' the Light of Initiation

At the time of the New Moon, on the 11th of January, the Sun and Moon will come together at 20° Capricorn 44.

For the last fifteen years, ever since Pluto moved into Capricorn, in January 2008, we have all been going through an Initiation of individually discovering what it is that has true value. During these last years, we have been encouraged to refine and transmute our sense of self/Self. Most of this 'work' has been going on internally at the level of the Core Self – stripping away the karmic patterns that have been inherited, allowing for a clarification and an awakening of Consciousness.

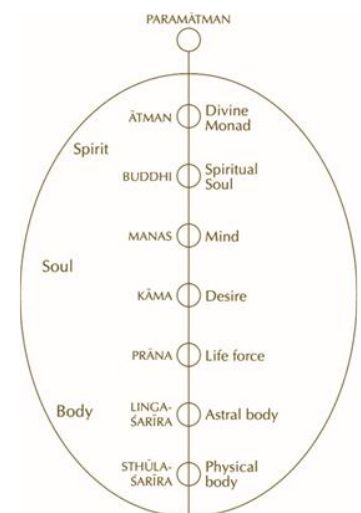

Pluto will finally move out of the Constellation of Capricorn on the 24th of November this year, moving into Aquarius until March 2043.

Pluto represents power and the misuse of Power. Capricorn is ruled by Saturn, and on this material plane, it has to do with structure, authority, and what could be called the 'status quo', or the 'Establishment'. As Pluto, the planet of transformation, moved into these Capricornian thought forms, and energetics, the Global financial crisis culminated in 2008 - then in 2020 Saturn and Pluto came together in Capricorn at the start of the Covid Pandemic – again bringing in another radical disruption to our daily lives.

Capricorn, as the constellation of Manifestation, and Initiation, links to the **1st Ray of Divine Will**, the **3rd Ray of Active Intelligence** and the **7th Ray of Ceremonial Order and Magic**. This combination of the three Rays, that are held within Capricorn, creates the ability to eliminate anything that has been previously created that is not serving a higher purpose. Out of this disruption and chaos, new green shoots will appear, as we collectively choose to create a future based on Eternal Truths and Cosmic Law.

The 7th Ray is not only one of the Rays of Capricorn, but it also underpins the Aquarian Age, through the planet Uranus, which rules Aquarius. As we have been on the cusp of the Aquarian Age for many years now the influence of 7th Ray is taking precedence. The 7th Ray is essentially an agent of fusion and blending and co-ordination.

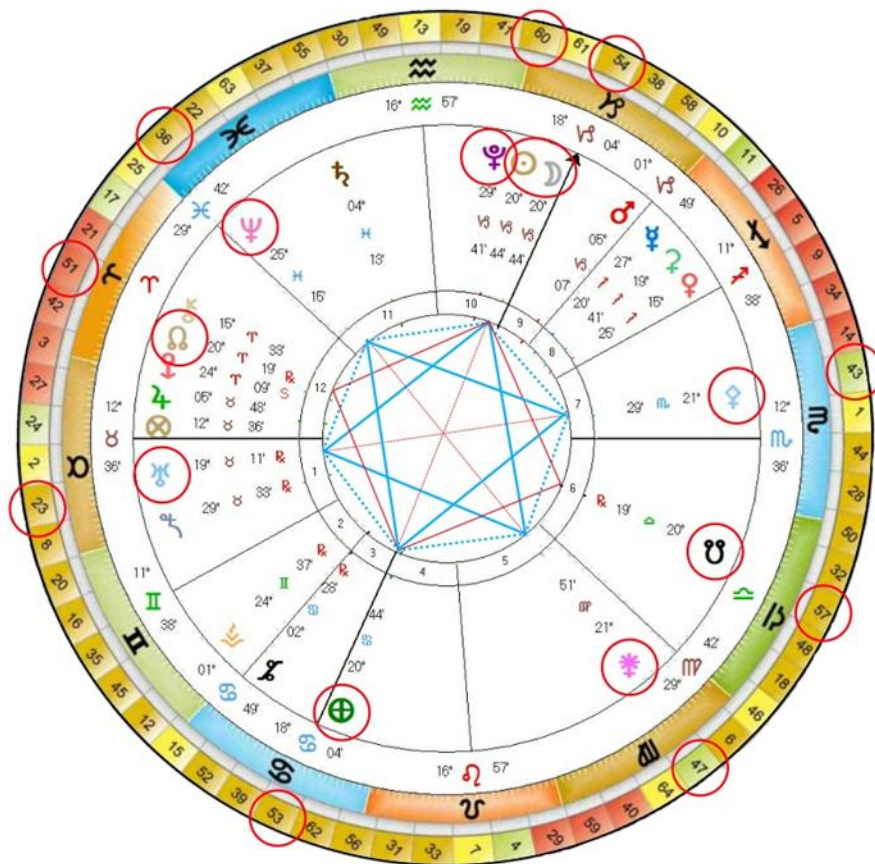

It is through the 7th Ray that the fusion of the Soul and the personality, then the Soul and the Monad unfolds. The 7th Ray works on the Etheric level, and will reveal the Truth, as a living reality, that Universal Life, Divine Consciousness, interpenetrates all Life, and as scientists and mystics join together in a greater understanding of the Radiant Light Matter that underpins all cellular structure, a fundamental shift will occur within the consciousness. A groundbreaking, holistic shift, that will radically redefine our understanding of what it is to be a human being and one that will dispel any sense of separation.

Greed blinds us from recognizing the true value of what we already possess. ’

The Alchemist - Paulo Coelho

Chart for the Capricorn New Moon 2024

New Moon 11th January 2024 11:57 GMT London UK
<https://www.timeanddate.com/moon/phases/>

At the time of this New Moon there is a perfect Six Pointed Star created, with the Sun ☉ and Moon ☾ flowing down to Juno ♃ and across to Uranus, ♅ and the Earth, ⊕ flowing to both Neptune ♆ and Pallas Athena ♀. The Sun Moon and Earth are held in a Cardinal Grand Cross by the North ♋ and South Nodes ♏.

The above chart clearly shows energy flowing down through the Cosmos in balance and harmony, and yet, as ever, disruption and discord continues to unfold through the Shadow Consciousness of humanity. As we begin 2024 this New Moon asks that we each stand in this balance and harmony for each one has a part to play in the transmutation that is occurring on planet Earth.

As this will be the last time Pluto will be in Capricorn, at the time of a Capricornian New Moon, for around another 240 years, it is a good time to take stock of all that Pluto, over these last fourteen years, has been bringing to the surface, both collectively and individually, to break down and transform, regarding power and the abuse of power, and individual human rights.

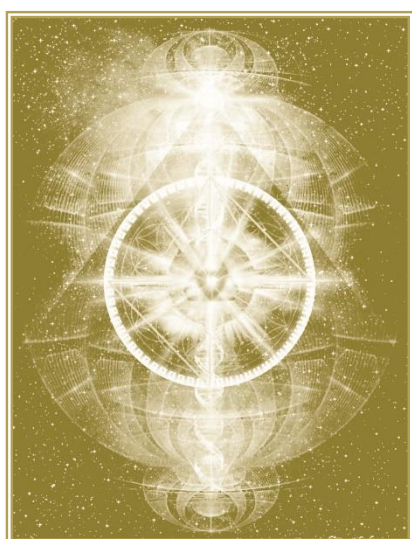

In times of great transition, each one of us plays our pivotal part in the rebirth, as we strip away all that impedes the transmission of the Essence and Resonance of our true Being. As the inner and outer structures fall away we are here to bridge the vision into Being – where Love replaces fear and Peace replaces war. We incarnated for this period of time - the birthing of a Golden Age.

This is the focus at the time of the New Moon, as the Sun and Moon are on Gene Key 54 which moves through the Shadow of **Greed**, to the Gift of **Aspiration** to the Siddhi of **Ascension**.

'The 54th Shadow is one of the great pressures that drive humanity. It is important to remember that none of these Shadow frequencies are really negative. The primal energy behind the 54th Shadow was essential for the survival of early human tribal cultures. This means that at a certain evolutionary point, Greed will have served its purpose and will need to be transcended.'

'When the 54th Shadow transforms into a higher frequency the Gift of Aspiration is born. Aspiration here refers to the energy to aspire to something beyond the material realm. Aspiration contains within it the seed of all Higher Consciousness.'

'The 54th Gift has to do with the way in which memory is transferred and stored in our cells. As the energy of the Gift of Aspiration reaches higher frequencies it becomes Spiritual

'The 54th Siddhi of Ascension is a very particular path. It concerns the transformation of the gross currents within the body into more and more refined currents – the continual alchemical transformation of matter into Spiritual essence. Here the base energy of ambition is experienced at its highest frequency and becomes the continual pressure to keep ascending up the hierarchy. Not the social or material hierarchy, but the spiritual evolutionary ladder which consciousness itself ascends on the return to its own Source.'

'As this Inner Light returns to Source, it has to burn through all the collective memory held in its DNA. Every single cell of our being has to become free, thus before we can ascend fully, we must transmute every being to whom we are connected.'

'That's what Ascension refers to. It is given only very rarely to those rare orchids that have refined their human energies over much time and along the way lost all their hard edges. To ascend beyond the human form is to enter into the Divine Tenderness of the Great Mother. A Higher dimension opens up, a wormhole - and a new species reveals itself just as the old one sacrifices and burns away.'

The Earth on Gene Key 53 known as **Evolving Beyond Evolution** moves through the Shadow of **Immaturity** to the Gift of **Expansion** to the Siddhi of **Superabundance**

'The human mind has enormous difficulty seeing itself as a collective organism that is deeply embedded in Nature and the Earth. This sense of separateness, of being alone, underlies the primal fear of death. At the Shadow level, this fear is an inner yoke bound to human intention and intention is like the arrow you load into the bow of your actions. If the arrow is bent through fear it will miss its target.'

'The old folk saying that most of us have heard many times before – 'Begin as you mean to go on' - although a cliché it is a piece of wisdom very appropriate to the 53rd Shadow, which concerns the energy inherent in all beginnings. Immaturity is nothing more than loading bent arrows into your bow and because of this, no matter how well meaning, your actions, at this frequency, they can only lead to further disharmony

'It is through the two Shadows of Greed and Immaturity that humanity must finally awaken to its nature as a single organism. As you come to understand this vast and sweeping insight, your heart begins once again to open and trust in Life just as it is – with no opinion, no judgement, no attachment and above all, no fear.'

'The 53rd Gene Key really does represent the driving force of evolution as consciousness burrows deeper and deeper into the material life. The Gift of Expansion demands that individuals transcend their personal opinions, views and attempts to understand what is going on. It takes enormous trust to allow your life to truly expand because it appears to the mind to become more complex, whereas, in fact, it is moving into greater synthesis.'

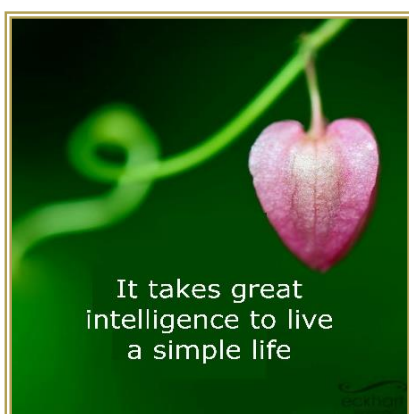

'Expansion is a process of transcending and including. In a human being, the expansion of frequency can only occur in one way – through the heart. The 53rd Gift has the quality of bhakti or devotional energy. As you allow awareness to expand it opens your heart. You see the evolutionary impulse in all of life – all interconnected – all one. Once you make this shift into your heart you are continually replenished and expanded.'

'To one who has awakened through the eyes of the 53rd Siddhi humankind is both a Being and a Becoming. The form endlessly evolves awareness and expands, but the Consciousness never changes. And here we humans have made a basic error – we have identified with the instrument of our awareness, which expands according to the Laws of Evolution. We are indeed entering a new evolutionary phase right now in which human awareness seems ready to make a great quantum leap in terms of its expansion, but even though awareness may expand, Consciousness does not expand since it is already everywhere and everything and even everywhen.'

'Beneath the form, Consciousness never changes or evolves or expands or contracts. It simply is. Superabundance is a space beyond frequency, but we can only describe it as a very high frequency at which there is nothing left to do in the world. The 53rd Siddhi represents the state beyond and behind awareness known as Pure Consciousness.'

'This Gene Key links to the Ring of Seeking, however at a certain point you have to let go of your seeking as the awareness inside expands outside the form. At this stage known as Enlightenment the great and final leap occurs – it is the leap into Pure Consciousness and the end of evolution itself.'

Uranus and Juno create the 1st Grand trine of the Six Pointed Star. Uranus is the planet of innovation, truth and humanitarian principles. It is on Gene Key 23 known as the Alchemy of Simplicity – moving through **Complexity to Simplicity to Quintessence.**

'The 23rd Shadow is one of the most potent contemporary Shadows driving humanity in our present age. It is the Shadow of Complexity. Complexity is the result of the human mind trying to control its environment. The more humans try to use their minds to create a feeling of security the more complicated and unsafe the world becomes.'

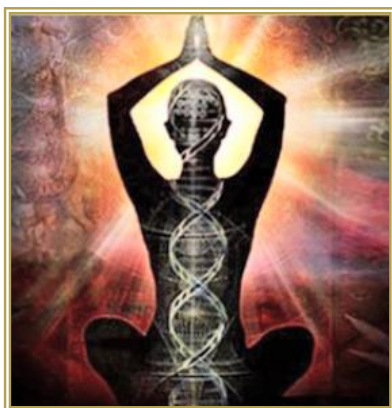

*'When Buddha introduced his great teaching known as the Eightfold Path, he spoke of Right Understanding which leads to Right Speech. **He hit upon the great and simple truth – that language flows directly out of your state of consciousness.***

*'The 23rd Gift communicates precisely, clearly, and with great economy. The power of Simplicity is to create efficiency wherever it goes. **To be around someone exhibiting this Gift is a wonderful and powerful experience.** Things you thought were problems somehow dissolve in their presence and through their insight and clear language, difficult things become easy – you relax in their presence.'*

*'Above all, they are wonderfully clear communicators and advisers. Their true genius lies in the economy of their language and the originality of their expression. **Theirs is the noblest truth of all - the Gift of Simplicity.***

*'The 23rd Siddhi has an alchemical flavour to it – the ability to extract gold from base metal. People with this Siddhi are able to touch the gold hidden within other human beings. **They can transmit the power of the awakened state through a word or a look or a gesture. This is the Midas touch.** Every person has a unique key that opens them to a higher state of consciousness and the people of this Siddhi hold all the keys. They do not necessarily know that they hold the keys – they simply respond spontaneously to each person and in so doing they touch the core of that person.'*

'This is the true explanation of the secrets hinted at by alchemy – that the physical body itself contains the seed of the Siddhic consciousness. It is concealed in your DNA and controlled by a hidden timing mechanism that is utterly spontaneous and out of your individual reach. The real power of the 23rd Siddhi is in its direct transmission in the flesh.'

'Once this Siddhi has fully dawned inside a person they become an alchemical agent that overtime refines all and extracts the Quintessence from the dross.'

Juno, linking to the Divine Masculine/Feminine - a balanced electro-magnetic circuitry is on Gene Key 47, continuing the theme of alchemy, as this Key is known as **Transmuting the Past** moving through the Shadow of **Oppression** to the Gift of **Transmutation** to the Siddhi of **Transfiguration**.'

'In genetics the 47th Shadow refers to what is called non-coding DNA or 'junk' DNA. The fact is that every human being carries the entire evolutionary memory of humanity within their body and is unconsciously driven by this memory.'

'The 47th Shadow is an access portal through which these deep memories/fears flow into our waking consciousness. The bottom line with the 47th Shadow is that unless you face your own unique fear archetypes you cannot open the portal to inner Transmutation that is the 47th Gift.'

*'This is the Siddhi that spans the chasm between Man and God, between being a victim and being enlightened. **In every mythic journey, there must always be a final trial.** A moment of utter hopelessness and helplessness – these moments – these Darkenings of the Light – come to us in life not so much to test us, but to cut us so deeply within our own humanity that we are reminded of the awesome power of our own Compassion for all beings.'*

*'Those in whom this Siddhi has awakened tend to keep moving into those areas of life where the light is most darkened. The simple presence of such people and the look in their eyes can trigger all manner of so-called miracles in those whom they meet. These are the most heart-melting people ever to walk the face of the earth. At the Siddhic level, your own suffering becomes so universalised that it encompasses all humanity. **All boundaries of the self dissolve.'***

Pallas Athena on GK 43 known as **Breakthrough** moves through the Shadow of **Deafness** to the Gift of **Insight** to the Siddhi of **Epiphany**.

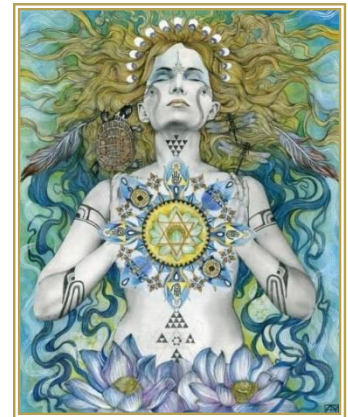

*'There is a natural process built into the lives of human beings – survival, service, and surrender. What is common to each of these three stages is the transformation process itself. **At each level, it occurs in sudden leaps.'***

*'It is through the 43rd Gift that the spirit of the rebel is born. **Every human being is born to be a rebel in the sense of filling a space in the world that cannot be duplicated by another.** The wonder of the human being is this unpredictable, spontaneous liquid genius. As individuals when we awaken to our true creative potential, that which is hidden in our DNA, begins to rise up and pull us out of the survival Shadow frequency. It is then we enter into the stage of service.'*

*'The service that the 43rd Gift brings into the world is rebellion. The rebel awakening through the 43rd Gift is immensely creative – he or she simply cuts a new pathway without worrying about where it is going. **This is the deafness of genius – to simply be the conduit for creative insight.'***

'As the human rebellious spirit comes alive your DNA attunes to higher and more refined frequencies. The 43rd and 34th Gene Keys high are bonded in the 'Ring of Destiny'. The secret of this codon ring is timing and through the ages, it has whispered a great truth into the ears of those whose insight is developed enough to hear it – life is a mystery in which chance and love dance together.'

'When you Love totally, unconditionally, even chance is shown to be an illusion and the underlying Cosmic geometry is revealed behind all things.'

'It is only then that your timing becomes perfect and that which appears to be random is understood as an aspect of the holographic Universe unfolding its myth through your Life.'

'The 43rd Siddhi is one of the seven Gene Keys that provides a portal for Grace to move into the world of form. The 43rd Siddhi represents the opening of the 4th Seal which releases the profound human fear of rejection and opens the hearts of all individuals.'

*'This Siddhi has a powerful destiny – to create mass breakthroughs across entire gene pools – ultimately the Epiphany is an explosion in the human heart, an openness and acceptance of others and a Divine spirit of friendliness that is at the core of all human beings. **You become deaf to everything but the Divine!***

The North and South Nodes, link to the Sun Moon and Earth in a Grand Cardinal Cross – the South Node is on Gene Key 57 and the North Node on Gene Key 51. The South Node links to the collective karma that is being processed at this time, which has **Unease** at the Shadow level, rippling through the airwaves, **Intuition** as the Gift and **Clarity** as the Siddhi.

'The 64 Shadows are all states of consciousness governed by fear. From the point of view of the 57th Gene Key, everything in life is acoustic and every human being is like an acoustic tuning fork. The Shadow frequency of the 57th Gene Key manifests as the fear of the unknown - what might be coming in the future. There is a continuous Unease that can manifest as anxiety and which gets amplified by the morphogenetic field connecting humanity. There is a strategy of seeking security through the mind that perpetuates more insecurity This fear and anxiety about the future can make it difficult to live in the moment locking you into a low frequency.'

'Of all the 64 Gene Keys few have such a profound connection to individual human health as this 57th Gene Key. As the foundational aspect of the Ring of Matter, the 57th Gene key governs the cycle of gestation and your genes build your body at the frequency of the energetic field in which your mother lives. As your frequency rises so you gradually heal the many layers of your inner being.'

'The 57th Gift of Intuition is basically your body's system for interacting harmoniously with the outer world. Here you experience a deeper sensitivity to everything and everyone around you. You are able to make positive use of the natural guidance system known as the 6th sense or intuition. Trusting your instinctual awareness, you are able to perceive beyond the physical senses. Now you are using intuition as your most innate and powerful compass. You are attuning yourself to the gentle and subtle voice within and living with greater ease and flow.'

'At the higher reaches of the 57th Gene Key you begin to access the ability to tune your clairaudience beyond the borders of time. The essence of gentleness is one of the greatest secrets to life. Consciousness is the gentlest most subtle phenomenon. This is why the ancient sages so frequently likened it to water or wind – elements of such subtlety and softness that they can penetrate everything. Clarity is about seeing this softness at the heart of all things. When you live your life in harmony with this softness you come into accord with what the ancients called the Tao – the transcendence of the opposites.'

'This 57th Siddhi like all the Siddhis, contains the mystery of the Feminine principle, even though it is beyond duality itself. This Siddhi holds the secrets of miraculous healing through its special ability to attune to the subtleties of physical DNA. Such gentleness opens the heart and leads to transcendence. If you allow it, it will transport you immediately into the world of the eternal Now. When someone attains enlightenment through this 57th Siddhi it manifests through them in an extraordinary and beautiful way – they become a tuning fork for the Divine Presence.'

The North Node on Gene Key 51 known as from **Initiative to Initiation** moves through the Shadow of **Agitation** to the Gift of **Initiative** to the Siddhi of **Awakening**.

*'The 51st Gene Key and its spectrum of frequencies contains some startling secrets regarding human behaviour as well as leading you towards the process or experience referred to as Awakening. The 51st Gene Key as a genetic archetype is rather special. **The 51st Gene Key is a portal – the portal through the Shadow frequency leads to hell whereas the 51st Gift leads to a place of great personal empowerment and genius.'***

'To follow your Initiative is to step off the beaten track and to follow the dictates of your own inner being. It is not possible for a human being to awaken without first stepping fully into their creative independence. They close the book on all previous teachings and wisdom in order to discover what their individual truth is, rather than anyone else's. It is a journey into the underworld in which the traveller will confront many challenges and tests. A path that leads home – it is a path of heart leading into the Heart.'

*'This is the battle with your own fears but rather than being a struggle there is a leap into the **Higher Self**. It is the shock of Awakening from one level of being into another. Just as the Shadow creates agents of low frequency shock in the world, so the 51st Gift creates agents of positive shock in the world. **These people come to awaken the collective consciousness out of its fear-based modality. They are not leaders – they are initiators.'***

*'Awakening is a spontaneous evolutionary leap made possible by wider evolutionary forces operating throughout the entire Universe. **Awakening is a sudden unexpected shock in awareness that is preceded by a mutative chain reaction throughout the cells and DNA.***

'True Awakening does not come and go, but stays forever and see's through everything. It is the permanent dissolving of the separate self as a physical mutation in the body - an experience that cannot be predicted or influenced.'

*'The 51st Gene Key is part of the **Ring of Humanity** and this Gene Key ensures that one day all of Humanity will awaken. In times to come this Siddhi will begin to awaken entire gene pools. There will come a time in which relationships will awaken, then families, then entire communities until finally humanity will awaken as an individual Cosmic Being and will see its own true nature. **That single moment when humanity opens its true eyes for the first time will be the greatest single event in the history of Awareness itself.'***

This review began with a question as to what it is that is of inestimable value. As we look back at this period of time, we will clearly see that Truth and freedom of speech are fundamental qualities of priceless value, that underpin all human rights and that when undervalued, chaos reigns. As we journey through these challenging and changing times, may we create **'Temples of Love, Joy, and Truth'**, in which **Simplicity** and **Compassion** consistently transmute the collective shadows so that this New Moon of 2024 will bring the qualities of **Aspiration**, **Transformation** and **Clarity** through us, to assist in our collective **Awakening**.

Love and Blessings
