

Cosmic Overview

Piscean New Moon 2024

People are like stained-glass windows. They sparkle and shine when the Sun is out, but when the darkness sets in, their true beauty is revealed only if there is a Light from within.

Elisabeth Kubler-Ross

'I AM' the Light of the World

At the time of the New Moon, on the 9th or 10th of March, depending upon where you live, the Sun and Moon will come together at 20° Pisces 16, initiating and contributing to the upcoming Solar Eclipse on 8th April.

The Constellation of Pisces flows with the 2nd and 6th Rays – the Rays of Love, Wisdom and Devotion. These high-frequency qualities create the environment in which all Life can flourish.

However, at lower resonances, we find that Love distorts into tribal allegiance, Wisdom, into 'my ideology versus your ideology', and the Light of Devotion becomes intransigence and rigidity.

At the personality level, the 2nd and 6th Rays are again emphasised, through the Planetary Rulers of Pisces, which are, Jupiter,

on the 2nd Ray, and Neptune, on the 6th Ray. This overlaying of the 2nd and 6th Rays, creates the potential for individuals, to constantly emotionally, play out, lifetime after lifetime the distortion of these highest principles. On the 2nd Ray, Jupiter, brings spiritual glamour and illusion and on the 6th Ray, which both Mars and Neptune rule, lies the basis for all ideologic and religious wars.

To break this consistent recycling of belief, when the individual moves into a higher spiritual awareness, Pluto, the planet of Transformation and the 1st Ray becomes the planetary ruler of Pisces. As the Aquarian Age takes hold, Pisces, the Sixth Ray, Mars and Neptune and all religions will go through a metamorphosis, for Uranus and the 7th Ray will dominate. This is the period we are now entering into.

Ultimately, Love, Wisdom and Peace will replace the pain of war.

*'As the World Saviour enters and **becomes** humanity and all of humankind's creations, the sensed, subjective Unity of the **One Soul** will become the apparent, objective, truth.'*

Alan Oken

As shared, Chiron and the North Node were exact on the 5th of March, which speaks of this inflowing of Christos (Chiron) energy into the lifestream (North Node) of humanity.

Our collective pathway and goal is to heal the collective emotional body of these stuck, mental aberrations, breaking through all crystalised thought forms, and transforming anything that inhibits the free flow of Agape Love/Tenderness that is expressed through the highest resonances of Love, Wisdom and Devotion.

Therefore, Agape Love makes no distinction between friend and enemy; it is directed towards both. Martin Luther King

Chart for the Piscean New Moon 2024

New Moon 10th March 2024 09:00 GMT London UK

Looking at the above chart you will see that at the time of the New Moon the Sun ☉ and Moon ☾ are on Gene Key 22 opposite to the Earth on Gene Key 47 and there is also a Kite formation created between Jupiter ♃ Ceres ♁ Juno ♃ and Saturn ♄

Looking first at the Kite, as it is underpinning the New Moon energies, Jupiter is on Gene Key 24, at 12^o Taurus 52 known as **The Ultimate Addiction** moving through the Shadow of **Addiction** to the Gift of **Invention** to the Siddhi of **Silence**.

'The 24th Shadow, when correctly understood, explains much about the Shadow state itself as well as why human beings find it so difficult to resolve the deeper repetitive problems in their lives. We humans come pre-programmed for Addiction and the main culprit responsible for this is our mind. If you are influenced by the Shadow there is always an anxious part of yourself that never seems to rest.'

'This distorted thinking promotes fear and keeps you from thinking outside of your comfort zone. Your thinking becomes stuck in the same neurological, predictable, pathways of the brain and there is always mental activity that is looking to future happiness as an escape from present anxiety.'

*'All desires are really rooted in a single desire – the desire to escape suffering, but nothing external can bring an end to suffering, since it is rooted deep within the DNA. **Only by turning inwards can you face the addictive quality of your mind.** Your willingness to confront your mind creates the necessary pause or gap in thinking to disentangle the mind from the astral/emotional body. So, what happens in the gap when you do fully embrace it? The answer is absolutely anything.'*

'The 24th Gift is truly magical and contains the secret to genius. One of the best ways of exploring the gaps is through contemplation. To contemplate is to surrender yourself into the great mystery until it suddenly reveals itself to you through a process of deep insight.'

*'**Magic and mutation occur within those gaps.** The 24th Gift is the heart of the human creative process. The secret of the 24th Gift is really one of the secrets of creativity itself. **It is in fact an acoustic field involving the raising of vibrational frequency through your genetics.** Each time you hit one of the magical gaps, you have the opportunity to either shift up an octave in frequency or remain in the same loop. In human beings this codon allows you to make quantum leaps in terms of the evolution of your awareness.'*

*'Over the centuries human beings have tried all manner of techniques to stop the mind from thinking. Thinking can in fact be masked by certain techniques, but that temporary quietness is not the same as the pure Silence of the 24th Siddhi. **The Silence of the 24th Siddhi is a Silence that descends on you even though it already lives within you.**'*

*'True Silence reigns when the mechanism controlling your awareness moves from your head down into your solar plexus. For awareness to shift in this way there is a physical mutation that occurs – certain chemicals are created by the endocrine system – **so that you no longer think – but are thought by Life.**'*

*'When the mind ceases to think then all addictive behaviour also ceases – the ultimate addiction of believing yourself to be separate from Life is eradicated. This Silence does not necessarily denote physical Silence, rather it is an internal Silence in which you are permanently enfolded. **Only true inner Silence can bring an end to the Maya or illusion of separateness which is ultimately the healing of mankind's greatest fear.** The key is always to relax because only as you relax can you feel the magic gaps and experience the Truth directly – not through your mind but through your innermost being.'*

Jupiter is 120° from Dwarf Planet Ceres which is activating Gene Key 38 **The Warrior of Light** moving through the Shadow of **Struggle** to the Gift of **Perseverance** and on to the Siddhi of **Honour**.

*'**This aspect of DNA developed in human beings became the foundation of the evolutionary law of the survival of the fittest...**'*

*'It is there in the collective energy field of humanity and it is particularly strong when certain groups of human beings are threatened by other groups, manifesting through its aggressive reactive side. **This Shadow is not an archetype that thinks - if it feels threatened in any way it reacts.**'*

'The 38th Shadow likes and needs a fight and the nature of this fight is dependent upon its frequency. You have only to find the right fight and your whole experience of this Gene Key changes. As you pour your heart, body and Soul into a fulfilling fight, it ceases to be a Struggle.'

'Here you learn the difference between meeting obstacles and fighting resistance. Resistance is what occurs when you are pushing against the Universal flow – obstacles, however, are natural to the rhythm of life. Obstacles are Gifts in disguise.'

'The 38th Gift is the Gift of Perseverance. This is a Gift which thrives when you are up against the odds.'

'As with the 39th Gift the 38th Gift has a strong link with the archetype of the warrior. Wherever there is a fight for a higher purpose especially against insurmountable odds, there you will find the 38th Gift stretching itself to its limits. The 38th Gene Key sets the pattern of a human struggle – the Struggle of all form to reach Spirit. At a certain level this Spirit enters into the realm of a pure frequency - into the realm of Honour.'

'Honour is a dynamic living energy. Honour is action that is rooted in a Love so pure that it sacrifices itself, without a thought, to serve a higher aspiration. Every act of Honour carries an equalising force into the word rather than a divisive force. If the act brings people together into a high frequency field, it is an act of Honour. Honour always carries the frequency of mercy and surrender within it.'

'The 38th Siddhi retains a deep mythic connection to Struggle, aggression and all the darkest sides of human nature, however, people in whom this Siddhi manifests are the highest form of warrior. They become our Holy Warriors those who cannot be tarnished by the world. As the Warrior of Light the 38th Siddhi does not fight the lower nature; rather it absorbs the forces of darkness deep inside itself through its action and in doing so shines out with immense purity in the world.'

'Whenever a Siddhi dawns in a human being, its programming partner is also activated. Thus the 39th Siddhi of Liberation is also released alongside the 38th Siddhi – unleashing a chain reaction resulting in a stream of dynamic liberating energy lasting for generations and generations.'

Both Jupiter and Ceres join with Saturn, the Gatekeeper into higher consciousness, which remains on Gene Key 37, where it was when Saturn and Mercury came together with the Sun, back on the 27th of February.

When the Sun conjoins a planet it is known to be in Cazimi. Cazimi, from the Arabic, means 'The Heart of the Sun' and it represents a new beginning, an influx of new Life force and awareness, a point of renewal.

So, Gene Key 37 was and is the focus for this renewal – known as **Family Alchemy** we are learning as a group consciousness to move beyond the Shadow of **Weakness** into the Gift of **Equality** and ultimately into the Siddhi of **Tenderness**.

*'Much about this 37th Gene Key concerns the nature of a force that is perceived as weak but that inevitably shows itself to be the opposite. It links closely to the Piscean Age that we are now leaving. **The 37th Shadow represents the inequality between yin and yang forces on our planet.** The natural tendency of evolution has been to favour the physically stronger – **at low frequencies our genes know no other reality than the survival of the fittest.** However, now we have reached a stage in evolution in which physical strength no longer governs our future direction.'*

*'**The 37th Shadow is undergoing a major mutation and through the inner rebalancing within the human psyche the fabric of our society is being forced to change.** This uprising of the Yin force is beyond gender – many women today are under the impression that the time for women is coming and the time for men is over – this attitude is simply another form of the 37th Shadow which always over-emphasises one aspect of the polarity. **It is in the human heart and its ability to grasp the holistic essence of life that our true collective future lies.** In an individual human being this change translates as the mind serving the heart.'*

*'It is in the 37th Gift of Equality that a great hope is presently arising for humanity. Equality is such an easily misunderstood term. Equality is a living ideal that lifts people out of the game of victims and winners or strength and weakness. **When you operate out of this Gift you are living directly out of your heart and all else is secondary.**'*

*'The 37th Gene Key represents an evolutionary phase that is now coming to an end, which means that something new must also be born from it. **As we move beyond the tribal and blood definitions that have dictated our traditional lifestyle for so long, the 37th Siddhi will create an upsurge of consciousness that will slowly unite human beings....** Tenderness is a force to be reckoned with and as its programming partner the 40th Siddhi of Divine Will testifies, it is a force that has us a set in its sights. In its very softness it is insurmountable, invincible and inevitable.'*

And Juno forms part of the Kite formation. Juno links to the Unio Mystica, or mystical union, when the electro/magnetic circuitry, the yin and yang flow in the subtle body is in perfect harmony, with the mind and heart in balance and union. Juno, when combined with Jupiter, the 2nd Ray of Love and Wisdom, and Ceres which holds the timeless qualities of nurturance, kindness and care, holds the potential for the embodiment of Tenderness and for understanding our human interconnection – all that truly unites us rather than separates us.

Juno remains on Gene Key 64, moving from **Confusion** to **Imagination** to **Illumination**

'The 64th Gene Key is the whole path of moving from Confusion to Illumination and that is what life really is, that is, what it means to find out who, and what, you really are, and we should remember that the programming partner here is the 63rd Gene Key, and the 63rd Gene Key is Truth.'

*'So, Life is really about getting to the bottom of Life. **What is the Truth? Who Am I? What is the meaning and purpose of it all?** These are the questions that we carry inside ourselves at some deep level, everyone carries these questions, and until you arrive at a certain point in your evolution you are living in Shadowland. **The 64th Gene Key specialises in sudden quantum leaps but if you don't embrace the Confusion you never get the leaps.'***

*'As your inner spirit decides to face who you really are – the mind's long reign over you gradually begins to crumble. All natural energy or life force has an inbuilt programme to grow and evolve. **Imagination is the expression of unimpeded life force coursing through your genetics.** Thus, when you release the quantum energy that was latent inside you, it begins to rise. As it rises the evolutionary force takes a hold of your mind and begins to 'paint' with it.*

*'**Imagination allows alchemy to occur inside your being and a truly creative individual is born.** All the energy that was going into your previously held thought processes is liberated and in some rare cases this sudden release of energy manifests as instant enlightenment.'*

*'**The 64th Siddhi is the Siddhi of Illumination. This is Imagination without the personal 'I'.** When that 'I' ceases to need to exist magic comes shining through. When Illumination floods your being, it also takes possession of your mind. **In this sense to be Illuminated means to think God's thoughts.** At this level the Mental Body gives way to the Causal Body. At the Divine level your Causal Body/Soul becomes your physical vehicle.'*

*'Once the frequency of inner Light illuminates physical form, that form begins to ascend. It may or may not be able to ascend physically depending upon its genetic constituents. **Physical ascension is directly dependent upon Divine Will.'***

*'Only certain evolutionary human vehicles are equipped for this purpose. This is the meaning of Transfiguration – when the Causal body draws the Physical body up into itself. **Only the higher codes of the Ring of Alchemy involve such rare occurrences.'***

The Sun Moon and Earth are the pivotal points at this time, underpinned by all that has been shared. The Earth and Juno are both passing through the Constellation of Virgo but the Earth is on Gene Key 47 – **Transmuting the Past** moving through the Shadow of **Oppression** to the Gift of **Transmutation** to the Siddhi of **Transfiguration**.

*'**In genetics the 47th Shadow refers to what is called non-coding DNA or 'junk' DNA.** The fact is that every human being carries the entire evolutionary memory of humanity within their body and is unconsciously driven by this memory. **The 47th Shadow is an access portal through which these deep memories/fears flow into our waking consciousness.'***

*'It is through the Gift of Transmutation that the true purpose of your hidden genetic programming - the junk DNA – is finally revealed. Geneticists know that all life evolves through the process known as mutation. **Beneath what the left-brain scientists misread as chaos hides one of the great secrets of creation.'***

*'Until particle physics came into being, the word Transmutation was associated entirely with the ancient science of alchemy. One might say therefore that mutation is a process of gradual change. **When a human being faces his or her own Shadows, they open the door to the process of Transmutation.** These Transmutations are huge turning points in your life. **To transmute is to make a quantum leap into a whole new dimension.'***

*'Through this ongoing process of Transmutation you gradually sift through the junk DNA and in doing so you begin to see your life on a much wider level of reality. The only way to read these codes is to live them and as you do, they unwind and reveal their true purpose - **to return you to the very source of consciousness from which you came.**'*

*'Transmutation never really ends. **It simply outgrows its casing and this is what occurs through the 47th Siddhi of Transfiguration.** The 47th Siddhi reveals the ultimate purpose of the non-coding DNA within the body, which actually does code for a process within the physical body. The Life of Jesus Christ is in fact the perfect mythic enactment of all the stages of alchemical transmutation ending in this state of Transfiguration. **The force of transmutation strips you emotionally and mentally to such an extent that it eventually reaches down into the physical matter of your body.***

*'The elements that make up your body were made in stars and you turn back into a star in your own mini supernova. **This is the Unio Mystica or sacred marriage in which all your constituent elements dissolve back into one another and out of your base matter symbolic gold is formed.** Humanity stands upon the threshold of one of its great Transmutations.'*

*'As a species we are moving through the symbolic time of our crucifixion and crucifixion precedes Transfiguration. Our crucifixion means everything that is old must leave the world as a new Light emerges. As each individual faces, embraces and transmutes the collective fear that lies within the heart of every human's DNA we are Transfigured by Divine Grace – **accessing the Divinity that lies within each and every one of us.**'*

Now looking at the Sun and Moon, at 22⁰ Pisces 16, which are on Gene Key 22 known as **Grace Under Pressure** having the Shadow of **Dishonour**, the Gift of **Graciousness** and the Siddhi of **Grace** as its evolutionary pathway.

*'The 22nd Gene Key is very special. **Evolution descends from above.** From the point of view of the 22nd Gene Key every feeling mood or thought you have is put there directly by God for you to trust in it. You do not have to act the energetic out, you can work to internally transmute, heal and integrate the resonance, but in subduing it or denying it you are Dishonouring and distrusting the feeling resonance.'*

*'If you do not take responsibility for your thoughts, words, actions and feelings then life simply sends the same forces back toward you again and again. Whenever you project negative emotional power at another you Dishonour both yourself and the other person. **One of the great Cosmic Laws is the Law of Divine Memory.***

*'This Law states that **all thoughts feelings and acts are recorded everywhere within the body of the Universe.** The fact is that you cannot reach higher states of consciousness without first passing through your own Shadow or suffering. **At the Gift level you see that all is interconnected – all things and all people.** You realise at a deep level that we are all being listened to and you inherently know that if you do someone an injustice it will come back to you.'*

'With the Gift of Graciousness you begin to disperse your own Karma and that of your ancestral DNA. The Gift of Graciousness might also be called the Gift of the Soul. Above all else this is the Gift of living life from a place of deep Love.'

'As you see from the 22nd Shadow, there is nowhere you can hide in this Universe. Everything is heard and recorded. Neither can you hide from Grace. Grace is your true nature. It is your inheritance. It is the Soul of the World. It is also a state that is beyond the Laws of our world. Grace is the breath of the Divine. Grace is a Presence that descends on humanity and, like all the Siddhis, it requires that we meet it halfway, which for us humans may seem a long way. This is after all a perfected state in which everything about you and your life will be changed permanently.'

'When true Grace descends it wipes out all your past karma in a flash. It also wipes out the Karma of all your ancestors and all their ancestors. Grace softens and puts an end to fear and leaves you in no doubt about your Divinity. If Grace touches you, you no longer have your own destiny but become a musical instrument played by the Cosmos. With Grace all human emotion is instantly transformed into Love.'

'As a feminine spirit, Grace calls upon each of us to listen and receive her message and blessings. Above all, remember this: Through Grace, the Universe has but one single wish – for you to remember that you are Love and there is nothing in you but Love.'

Finally, Chiron♄ will still be in close connection to the North Node♁ at the time of the Equinox on the 19th or 20th of March and at the time of the Solar Eclipse on the 8th of April, when the Sun Moon and Chiron come together at 19^o Aries all still culminating together with the North Node on Gene Key 51, which has been the Cosmic focus over the last weeks holding the impulse and potential for Awakening.

'It is not possible for a human being to awaken without first stepping fully into their creative independence. These people come to awaken the collective consciousness out of its fear-based modality. They are not leaders – they are initiators.'

'Awakening is a spontaneous evolutionary leap made possible by wider evolutionary forces operating throughout the entire Universe. Awakening is a sudden unexpected shock in awareness that is preceded by a mutative chain reaction throughout the cells and DNA.'

'True Awakening does not come and go, but stays forever and sees through everything. It is the permanent dissolving of the separate self as a physical mutation in the body - an experience that cannot be predicted or influenced. The 51st Gene Key is part of the Ring of Humanity and this Gene Key ensures that one day all of Humanity will awaken.'

May we be open to receive the heightened frequencies of Grace, so that we share, the field of Agape Love, wherever we may be, as emissaries and initiators of Peace, creating a world free of fear.

All Love and Blessings
