Capricorn New Moon 2024

*The pitcher breaks.
You're in the moving river. Living Water.
How long will you make clay pitchers
that have to be broken to enter you?*

Translated by Coleman Barks

'I AM' the Light of Initiation

The last New Moon for 2024, will take place at 9⁰ Capricorn 43 on the 30th or 31st of December, depending upon where you live.

As we approach the end of this year the energies continue to mount - gathering momentum from the New Moon last month, on to the 12:12 Portal, to the Full Moon, on the 15th, and then on to the Solstice which takes place on the 21st - this has been an intense month.

The monthly Lunar cycle takes place within far larger cycles of time, for as the Moon travels around the Earth, the Earth travels around the Sun, and the Sun is also orbiting the Galaxy. The orbital cycles for each are 28 days for the Moon, 365 days for the Earth, but for the Sun to make one complete orbit around the Galactic Centre it takes some 225,000,000 years.

Within this 225,000,000 *Galactic Year*, every 11,400 years Sedna transits closest to our Solar System, a marker in time that is designed to accelerate an awakening. As Sedna approaches, all that has been created by humanity, through emotional and mental thought forms, over the last 11,400 years, come up into conscious awareness so that the energetic morphogenetic field, might be streamed into higher levels of frequency, for the next 11,400 year journey through the Cosmos.

We are being given every assistance at this time, as an influx of high frequencies of Light are streaming onto and into the Earth plane, and equally into and through our cellular and genetic system.

As shared a few days ago, the planets have been creating and holding a Six-Pointed Star, which magnifies and expands this renewal opportunity, as we spiral into the next level of Consciousness, and each one of us plays a unique part in this immense *Shift of the Ages*.

Right now, we are passing through the Constellation of Capricorn and Saturn, as the Planetary Ruler of Capricorn, rules both the personal and Soul centred individual on the **3rd Ray of Active Intelligence** - a fusion of the **1st Ray of Will** with the **2nd Ray of Love and Wisdom**.

Saturn is '*The Gatekeeper*' into higher states of awareness, for it is whilst we are embodied that *Three Initiations* take place whilst in physical form. The First Initiation occurs when we become aware of our interconnection with all of Life – One Source in a myriad of expressions, each intimately affecting the Whole.

The Second takes place when we are no longer driven by the Astral Body, and the multitude of personal desires, which come and go, but do not bring the Stillness, Peace and Joy that reside beyond the personal self, and at the Third Initiation, the Soul embodied individual's unique Essence is then utilized for the Collective good. It is then that Saturn, and the *3rd* and *7th* Rays construct the channels and forms by which the Light may manifest Christ Consciousness upon the physical realm.

Nothing can dim the Light that shines from within

Chart for the Capricorn New Moon 2024

New Moon 30th December 2024 22:26 UT London UK

<https://www.timeanddate.com/moon/phases/>

The Six Pointed Star is still held in aspect in the first triangle by Sedna ♄ Uranus ♅ the South Node ♁ and Pluto ♇ but, in the second triangle, now Mars ♂ the North Node ♀ and Astraea ♂ hold the pattern rather than Mercury, as it has now moved in its orbital path further into Sagittarius.

What has now gathered in the Cosmos along with the Six-Pointed Star are some very dynamic and complex planetary patterns (*red lines*) known as Thor's Hammer. Thor's Hammer is a volatile aspect that occurs when two planets form a 90° (*square*) and a 135° (*sesquisquare*) aspect. A Yod Formation is known as the **Finger of God**, whereas Thor's Hammer is known as the **Fist of God** - so this is a profoundly powerful chart.

According to Ancient Norse mythology the famous Hammer of Thor was not only the symbol of the destructive power of the storm and of fire from the heavens, but was also a protection against the forces of evil and violence. Its association with thunder and lightning underscores Thor's dominion over the forces of Nature and the Elemental Kingdoms and his commitment to safeguarding the realms from chaos and destruction.

At the time of this New Moon Thor's Hammers are energising and empowering the Star, holding the potential to lift Humanity into a heightened state of awareness, as the focussed impulses create the potential for an all-embracing download of Light, a Blessing, Consecration, and Protection for Life on this Planet.

Simplistically put, you could say that the first triangle of the Six-Pointed Star speaks to the release and transformation (Pluto) and gathering up (Sedna) of the old (South Node) collective consciousness and the second triangular energy speaks of how individually we impact this clearance through our individual egoic actions (Mars) to seed and create a New Golden Age (Astraea) for our collective future (North Node).

So how are these powerful aspects impacting the Star and assisting the release of all that is no longer required as we move forward. At the time of this New Moon you will see that the Sun and Moon and Pallas Athena ♀ have come together at 9 Capricorn opposite to the Earth at 9 Cancer to create a Thor's Hammer linking to both Venus ♀ and Astraea.

The Sun Moon Pallas Athena and the Earth, at the time of the New Moon (1) are now a focal point for the release of this energy, along with Mars and Pluto (4) but before looking at the Gene Keys that are involved in these planetary patterns, as it is such a compacted chart it may be best to look at the two middle 'hammers' (2 and 3), at their apex points, to get a sense of the energies that are unfolding at this time.

Jupiter ♃ the Soul centred ruler of Aquarius, flows through the 2nd Ray of Love and Wisdom and is the planet of expansion and growth. At the time of the New Moon it is on Gene Key 35 moving through the Shadow of **Hunger** to the Gift of **Adventure** to the Siddhi of **Boundlessness**.

'The 35th Gift is the only place within all human DNA, where human beings have a choice in how their reality is constructed. As you may imagine this is quite an important codon within human evolution. A new frequency is reached that allows awareness to flower and Love to flourish.'

'This is the great Adventure that you take as the 35th Gift enters into your being – you enter a process of alchemical co-creation within your own body. As you raise your own consciousness through Love, these delicate chemical matrices begin to spontaneously form within your physiology. To live with an open heart is to live in a perpetual state of Adventure.'

'There is a hidden wormhole in the DNA - a shortcut to the Divine. This is where pure unconditional Love can break all the laws of the Cosmos, including all genetic laws. It is allowing human beings to take charge of their own evolution and outwit the global genetic programme. With love, serotonin production is increased and stabilised within the chemistry of the human brain. Love has nothing to do with another separate person but is the connective tissue underlying all creation.'

'The 35th Siddhi invites human beings to expand their consciousness so far that they leave the sphere of evolution altogether. Boundlessness is Consciousness. When the Siddhi of Boundlessness enters the world, it allows consciousness to penetrate right into the heart of matter, which bends the Laws of Matter. Such a Siddhic Being represents a shortcut through evolution itself and many people can experience huge awakenings and miracles around such a Being.'

'In this respect, the 35th Siddhi also finds a strong connection with the 22nd Siddhi of Grace, since it is Grace that decides when, where and to whom a miracle will occur. We can draw great comfort from the fact that deep within the DNA of each and every one of us the 35th Siddhi lives as a constant reminder of the infinite possibilities of a life lived in the name of Love.'

Saturn, the planet that is the Gateway, *The Ring Pass Not* that leads into higher consciousness, when self-responsibility matures, is at the apex point of Hammer 3 and is on Gene Key 63 known as **Reaching the Source**, having the Shadow of **Doubt**, the Gift of **Inquiry** and the Siddhi of **Truth**.

*'Without Doubt, the logical mind is inherently unhealthy because it short circuits its own nature, which is to keep asking questions. **The other important aspect about Doubt is that although it is truly impersonal, we humans make it personal. Doubt belongs to the collective.** It is self-doubt that so undermines the individual from trusting in his or her own inherent creativity.'*

*'When the energy of Doubt is harnessed cleanly it becomes the Gift of Inquiry. Inquiry is about remaining open without finding a definitive answer to life. **All pure Inquiry is of great service to humanity. It inevitably unlocks many of nature's secrets by examining life in minute detail.** The real purpose of Doubt is to serve the higher good in an impersonal way.'*

*'As you slowly ascend the ladder of frequencies, the nature of your Inquiry changes. There is one Golden Rule with the 63rd Gift of Inquiry – if you inquire deeply enough into anything you will arrive at the revelation that you, the observer, are intricately bound with that which you observe. **At higher levels of frequency, you begin to enter the holistic domain of synthesis in which all phenomena are increasingly seen to affect each other.** This quantum world thus forces your Inquiry into a far more subjective territory – that of your inner self.'*

*'When you begin earnestly and honestly to question your own nature and purpose – you enter one of the great spiritual paths known in the East as the Path of Yoga. **You begin refining your physical and spiritual essence to such a height that you arrive at liberation, or spiritual realisation.'***

*'The logical mind can only operate in a dualistic world. It requires space and time to lay out its patterns. **So, one day logic returns to its source.** Often this Gene Key will give an individual an experience known as Divine Doubt. **It is the final letting go of one's identity within space and time.** We experience a void, a terrifying emptiness in which all the Doubt is purged from our system and wiped from our DNA.'*

'We emerge reborn. We emerge flawless without Doubt and without fear. No matter how elevated a person's awareness becomes or how advanced their yogic discipline is, until they reach this Siddhic realm they will never realise the ultimate paradox that is Truth.'

'The Siddhi of Truth is everywhere - there is nothing that is not Truth. Whatever happens, however, delirious or disturbing, it is nothing but Truth.'

'Truth is simply the here and now in every moment at every stage of your life - it is Consciousness expressing itself. It is simply waiting to be realised, like a pearl within an oyster.'

*'Truth is your natural state - it is a drifting space, a total sinking into your Being and so beautifully simple, Truth is the Eternal Moment of the Universe. **It is beyond our perception and yet it's closer than a heartbeat.** It is our nature and goal to be an embodiment of Truth so that we too one day can say **I AM the Way the Truth and the Light.***

In both of these formations, Vesta is activating GK 50 known as **Cosmic Order** moving through the Shadow of **Corruption** to the Gift of **Equilibrium** to the Siddhi of **Harmony**.

'In genetics, this 50th Shadow has much to do with the way in which RNA copies DNA. RNA is a chemical substance similar to DNA whose role is to transcribe aspects of your genetic code in order that new proteins can be formed. In other words RNA is a messenger that reads and copies the instructions for life. In the process known as transcription messages can be misinterpreted before they are translated. This is exactly what occurs within human society – fear causes misinterpretation, leading to reaction and counter-reaction. The result is Chaos the 3rd Shadow, and programming partner of the 50th Shadow.'

*'Here in the 50th Gift is found the inner fulcrum upon which balances the quality of our cells, our lives, and our future possibility for world peace. As the Gift of Equilibrium this 50th Gift holds the key to deep inner peace. **Those who carry the 50th Gift as a Prime Gene Key have the innate ability to create harmony in a group without even thinking about it.** Their true power is rooted in the high frequency that moves through their aura.'*

'Creating Equilibrium is an ongoing process of balancing the opposites, but eventually the slide from one side to the other becomes smaller and smaller until perfect balance is achieved. This is Harmony – a vibrational code that brings all elements within any system into perfect and permanent resonance.'

*'The 50th Siddhi produces experiences that harmonise human awareness with Celestial or Universal Consciousness. At the Siddhic level all imbalances within the subtle bodies must be destroyed in order that the cauldron of the physical body can become a vacuum. **When this occurs within the DNA of a human being the body becomes a deep resonant chamber for the highest Universal frequencies.'***

*'As your higher bodies transmute your lower instincts and emotions so you come into the frequency field of their higher harmony. When the 50th Siddhi begins to break through in human beings an all-powerful current of Harmony begins to shower the people with whom they are allied. **Deep and hidden issues are brought to light in order that social Equilibrium can occur.** Through the 50th Gene Key humanity is destined to arrive at Cosmic Harmony, although such a concept will require a sustained period of Equilibrium before the scales finally activate the higher Harmony. **We know this higher harmony as Oneness with God.'***

Mars, the planet of personal will is activating Saturn (3rd and 4th diagram) and Mars is on Gene Key 31 known as **Sounding Your Truth** moving through **Arrogance** to the Gift of **Leadership** to the Siddhi of **Humility**.

*'The 31st Gift, like all the Gifts, represents a huge step beyond the intellect and into the heart. Only the heart really perceives the collective suffering that comes from being marooned in your intellect at the Shadow frequency. **Thus, your natural urge is to help others escape that suffering in some way.** Furthermore, since the 31st Gift is the gift of understanding the masses and the language of the Shadow frequency, it naturally uses this gift to help draw others out of the co-dependent victim patterns and relationships of the lower frequencies.'*

*'The 31st Gift still carries an agenda, but this agenda is to help people out of the narrow mental confines of their own conditioning. **Because the 31st Gift has its finger on the pulse of the collective patterns of humanity, it can have enormous influence over large numbers of people.** Certain human beings operating out of the 31st Gift can literally become the voice of the collective.'*

*'**Humility is not for the faint-hearted.** Because the 31st Siddhi is truly humble, it has no agenda. It does not matter what such a person does in life. They are content to leave the world exactly as it is. **Nonetheless such a person still carries the same genetic coding that requires they speak from the cutting edge of consciousness.** The 31st Siddhi is rooted in the ancient tradition of the Oracle. **The Oracle is simply a voice box for the Divine.'***

*'**The Ring of No Return refers to the great initiation from the 4th Causal Body into the 5th Buddhic Body.** Once this leap of consciousness has been made, there is no possibility of return because your identity or ego will be erased. **Once you have allowed the Siddhic frequency to command your voice, you have entered the first stage of Divine embodiment.'***

*'From this moment forwards, whenever you use the word I, it is the voice of Divinity itself speaking. Such speech is pure transmission. **It uses words to indicate the path beyond words.'***

And Pluto, activating Jupiter (2nd diagram) remains on Gene Key 60, known as the **Cracking of the Vessel**, so the focal point flowing down through the Cosmos, remains on assisting the individual and collective consciousness to move through the Shadow of **Limitation** to the Gift of **Realism** and on to the Siddhi of **Justice**.

‘As we begin to see that we are more than we allow ourselves to often believe, then that frequency, that vibration of possibility, begins to activate something inside us. It is communicated to our DNA and we begin to open. There is great capacity for magic in this 60th Gene Key which may sound odd as it is called the Gift of Realism.’

‘Common sense/Realism is not in opposition to magic. It is common sense to remain open-minded to everything in the Universe because everything has, at its core, the same wondrous inner Light. The Siddhi of Justice is not about retribution, it is a reward. It is given as Grace, not taken as punishment, and when it is given, freedom flows from it.’

‘It is not an imposition or a limitation. The 60th Siddhi holds an apt description of what happens when a human being becomes fully realised. At a certain point, our hearts open to our true Innocence and we begin to unlock other codes in our DNA that are ancestral rather than personal and we begin to transmute more global karma.’

‘The more our Being opens the more we are given. We may recall this Gene Key is part of the Ring of Gaia and it holds the karma of Gaia. When we are ready for that we get to be an agent of Divine Justice. We take on the sins of our fractal, our fractal being the ancestral lineage we are born into.’

‘All this is in the DNA and all those acts that came out of fear down the ages are stored as memory imprints, in our DNA which we agree to transmute on behalf of the whole. Every time a being attains enlightenment through the 60th Siddhi, magic comes pouring through this Being and they become a phenomenon, a symbol of the breaking of form – Masters who have attained the Body of Light.’

In the 4th diagram you will see that Mars, Saturn and Pluto are all involved, and Mercury, the planet that links to our Central Nervous System is now involved too. Mercury is on Gene Key 26 moving through the Shadow of **Pride** to the Gift of **Artfulness** to the Siddhi of **Invisibility**.

‘At the Shadow frequency, you allow your unconscious fear to make you distrust the natural and easy flow of life. When you get to the Gift level of the 26th Gene Key you learn a great secret – you learn the difference between will and intent. At the lower frequency the 26th Shadow leads you to believe that you must exert huge willpower to attain your dreams in Life, but your higher purpose can only manifest when you surrender your individual will to nature as a whole.’

‘At the Gift level your attitude invites in a higher waveband of Light into your DNA. Over time prolonged attunement to these frequencies results in a frameshift mutation within your DNA. In order to transcend the ego, one must first have an ego worth giving up. As you become aware of your ego, it releases its hold on you and you learn to play with it.’

‘However, there is a higher mutation waiting to occur within your DNA - one in which the taming of the power of the great refers to a magical process that only occurs through the 26th Siddhi.

As you open your heart to life more and more, the pineal gland opens a chemical pathway within your brain that allows you to access Cosmic Consciousness. **‘This 26th Siddhi dissolves all sense of individual will.’**

‘Everything in the Cosmos is driven by a single turbine and surrender to this impulse renders the individual ego Invisible – not just your own ego but everyone else’s egos as well. To dance with the 26th Siddhi is to let go of all agendas. Such people are invisible in a way that most cannot understand. They are invisible because they do not care what others project onto them. They do not seek to enlighten anyone, they do not really want to influence anyone at all. Ironically, such people with no agenda have often left the greatest mark on the history of our consciousness.’

Finally, looking at the position of the Sun and Moon with Pallas Athena conjunct – Pallas Athena gives an additional insight into the ‘Golden Hammer.’ Pallas Athena represents Wisdom and the Higher Mind but like Uranus, Pallas also speaks of ‘wake up calls’, sudden changes, and shocks. She rules an overview, a higher understanding of things, and the processes, however challenging and demanding, that are required to bring about change.

The Sun Moon and Pallas Athene are on Gene Key 38 known as **The Warrior of Light** moving through the Shadow of **Struggle** to the Gift of **Perseverance** to the Siddhi of **Honour**.

‘The 38th Gift is the Gift of Perseverance. This is a Gift which thrives when you are up against the odds. These people are extremely active and physical – they make the impossible look effortless. They are people of action. As with the 39th Gift the 38th Gift has a strong link with the archetype of the warrior. Wherever there is a fight for a higher purpose especially against insurmountable odds, there you will find the 38th Gift stretching itself to its limits.’

‘The 38th Gene Key sets the pattern of a human struggle – the Struggle of all form to reach Spirit. In humans it is represented by the quest of the inner Warrior of Light against the dark forces of the lower nature. Perseverance is the most essential attribute of the inner warrior because the darker forces of human instinct are so deeply embedded in our nature. At a certain level this Spirit enters into the realm of a pure frequency - into the realm of Honour.’

Honour is action that is rooted in a Love so pure that it sacrifices itself, without a thought, to serve a higher aspiration. If the act brings people together into a high frequency field, it is an act of Honour. **Honour always carries the frequency of mercy and surrender within it.**

‘The 38th Siddhi retains a deep mythic connection to Struggle, aggression and all the darkest sides of human nature, however, people in whom this Siddhi manifests are the highest form of warrior. They become our Holy Warriors those who cannot be tarnished by the world. As the Warrior of Light the 38th Siddhi does not fight the lower nature; rather it absorbs the forces of darkness deep inside itself through its action and in doing so shines out with immense purity in the world. Whenever a Siddhi dawns in a human being, its programming partner is also activated. Thus the 39th Siddhi of Liberation is also released alongside the 38th Siddhi – unleashing a chain reaction resulting in a stream of dynamic liberating energy lasting for generations and generations.’

Our planet, Gaia, Mother Earth is on Gene Key 39 known as the **Tension of Transcendence** moving through the Shadow of **Provocation** to the Gift of **Dynamism** to the Siddhi of **Liberation**.

‘The 39th Gene Key and its programming partner the 38th Gene Key hold unique place in our collective cosmology. Above all other archetypes, these two represent the myth of the warrior. The 39th Shadow has a single goal – to provoke. If you are provoked by a person, any person, then you are under the influence of the frequencies of this Shadow. The power of the 39th Shadow over human beings lies in our tendency to take things personally. The astonishing reason for this is that we think we exist as individuals, whereas, in fact, we are quantum patterns in an ever-changing web of energy.’

*'In contemplating the 39th Gene Key you may begin to have a sense of what happens when this energy hits the highest planes of frequency. There is always a point where the Gift suddenly makes the quantum leap to the Siddhi and the blossom becomes the fruit. **In the case of the 39th Gene Key Dynamism becomes Liberation when it finally forgets itself entirely.**'*

*'The pressure of Dynamism cannot help but create more Dynamism. **People with the 39th Gift never seem to run out of energy it is as if they are being driven by a force beyond themselves.** The real essence of the 39th Gift is to touch other people's spirits in a way that helps them break out of their traps and into higher levels of freedom and energy – they unleash a tidal wave of creative activity wherever they go.'*

*'At the Siddhic level an interesting thing occurs when all this genetic pressure breaks through to a higher dimension. **Consciousness merges back into the totality which means that it has to give up its greatest gift – individual freedom.** Only in giving up the illusion of your individual freedom can you receive an even greater gift – the Liberation of Being. **Life itself is struggling to transcend its struggle through human beings and the 39th Shadow builds the tension for change until it is released through the Siddhi of Liberation.** Even before the mutation of the 55th Gene Key, therefore, we will hear the Dynamic explosion of this energy which provokes the mutation itself. **Thus, we will see how the energy of Liberation ultimately provokes the realisation of Freedom.**'*

Assisting this dynamic Liberation are Venus and Astrea (diagram 1). Venus is activating Gene Key 30 known as **Celestial Fire** having **Discord** at the Shadow level, **Lightness** as the Gift, and **Rapture** at the Siddhic resonance.

*'Gene Key 30 is part of the Ring of Purification. **Humanity is designed to move through a vast evolutionary cycle in which it is progressively purified.** Such purification can only take place through the Shadow frequency since this provides the raw material for a higher state of consciousness. **Most of the fallout from this Gene Key resides within the Emotional Body/Astral Plane.** At the lower frequencies of the Astral Plane the overall tone is one of Discord. The astral plane's subtle electromagnetic frequency field arises out of the sum total of all human desires and feelings.'*

'However, as every human being learns, the cycle of Desire is eternal. Fighting an evolutionary force as powerful as Desire is what causes human beings so much suffering in the first place – so what is the future for a race that is caught in such a paradox – as ever the answer lies within the higher Gift frequencies of this Gene Key.'

'There are two possible human responses to a paradox – either you become tense or you surrender to it. The Gift of Lightness does not make you immune to desire, but neither does it cause you to react to desire. This is a Gift that knows desires do not necessarily have to be followed, but they do have to be felt.'

*'All Life follows a mythical script or storyline and you can only see your life from this expanded awareness when you have escaped feeling that you are a victim of it. As you move into the higher frequencies of the 30th Gift you begin to understand that beneath the thousands of desires that pass through your emotional system, each day, there is a single underlying desire that gradually becomes stronger and stronger – the desire to end your own suffering. **The other hallmark of the Gift of Lightness is a sense of humour – a humour that is full of compassion for the journey we are all on.**'*

'The 30th Siddhi is an unusual Siddhi in that it manifests as one of the great Divine ecstatic states. The 30th Siddhi and its partner the 29th Siddhi represent an archetypal stream within your DNA that causes powerful mutations in your endocrine system leading to states of great devotion and Divine Rapture.'

*'The process of transcendence through this 30th Gene Key directly mirrors the purification of the astral body (2nd) and its assimilation into the higher Buddhic body (5th). **The state of Divine Rapture is akin to being burned by the fires of Bliss over and over again.** These are the people who are so flammable that the smallest thing will set them off and whoever comes near them will very likely catch their devotional*

energy, for the nature of the mutated Solar Plexus system, which is where the 30th Siddhi lies, carries this purified frequency out through the aura into the morphogenetic field. **They have stepped willingly into the fires of annihilation - into the primal chaos of Divine Frequencies with just the desire to transcend.** This desire creates Bhakti in the subtle fluidic emanation that rises in the body releasing the Shakti which is the Divine Essence that descends causing the state of Rapture.'

Astrea on Gene Key 14 seeks to reignite a Golden Age. According to Ancient Greece, in the last Golden Age humanity lived in a state of Innocence and righteousness. There was no need for man-made laws or punishment as everyone understood the Law of Correspondence and lived within Natural and Cosmic Law. Life was effortless as the Earth provided abundantly for all needs. People did not suffer from old age or illness. Deities, like Astrea, lived among humans, directly influencing and guiding them. The environment was perpetually favourable, a constant state of plenty ensured by nature.

The legend continues that Astrea was the last immortal to leave Earth when Innocence was lost, but it is said that her consciousness/presence will descend once again from the heavens to initiate a new Golden Age restoring the world to a state of utopia and ending human suffering. Astrea represents the enduring message held deeply within our genetics, for a return to Love, Innocence, and Justice.

So how does Gene Key 14 reflect this archetypal consciousness? Gene Key 14 is known as **Radiating Prosperity** moving through the Shadow of **Compromise** to the Gift of **Competence** to the Siddhi of **Bounteousness**.

'The Gift of Competence is extremely contagious. One of its manifestations is enthusiasm - the enthusiasm that comes from this gift is the binding force that creates cohesion within groups. **The 14th Gift also has another latent power – the power of attraction.** Competence creates a powerful magnetic field that not only draws in the right support but also has the ability to magnetise material wealth.'

Competence is an emerging Gift in the genetic matrix, and has a lot to do with the collective awakening rather than being an individual Gift. If this Gift is applied for selfish ends it will lead to misfortune. The I Ching name for this key is 'Possession in Great Measure', and that is the definition of Love. **Those who Love unconditionally, generate, like the Sun, huge inner wealth and radiance. Love is a fire which cannot be resisted.'**

'At the Siddhic level of consciousness, energy is transmitted through the individual via the medium of the morphogenetic field. Morphogenetic fields are energetic grids that connect all creatures and particles of matter at a sub-atomic level. The 14th Siddhi is the core archetype of your power as an individual. It is the Siddhi of Bounteousness – the ultimate legacy of what it means to be a human. **This is our true inheritance – to create abundance.** But it is not about accumulation – it is about fertility. Your true latent fertility lies mostly dormant in your genes.'

'When the 14th Siddhi flowers within a human being they become a driving force for humanity itself. Their every thought word and deed reaches deep into the morphogenetic field and guides the whole of humanity towards abundance.'

'The mass dawning of the 14th Siddhi would be the uniting of Heaven and Earth. Not just a Golden Age, but a permanent state in which all humans take the helm together – a state in which individual power and collective power become one and the same – creating more and more abundance.'

'This is the Midas touch – it is Possession in Great Measure.'

*'It is the spirit of philanthropy, of gold, of the Sun, of all the riches under the Sun. **They can all be ours when we learn to give of ourselves unconditionally, just like the Sun.** At this level, we need to view humanity as one large expanding genetic spiritual vehicle. **That is the true definition of Bounteousness.**'*

Because the energies that are flowing down to Earth at the time of this New Moon are so powerful – it feels right to equally look at the four Cosmic Bodies, in this chart, that are not involved in the Six Pointed Star or Thor's Hammers - Eris ♄ Hygiea, ♃ Chiron ♄ and Ceres ♃ to see what message they hold?

Chiron works with the Essence, the Soul within each of us, and is known as the *Wounded Healer* - it is here to awaken us to the Truth of our Being - to remove the inherited limitation and fear that is wound around our DNA from past lives and ancestral lineage.

Chiron right now is on Gene Key 51 moving through the Shadow of **Agitation** to the Gift of **Initiative** to the Siddhi of **Awakening**.

*'The 51st Gene Key as a genetic archetype is rather special. The 51st Gene Key is a portal – the portal through the Shadow frequency leads to hell **whereas the 51st Gift leads to a place of great personal empowerment and genius.** The Gift level is engaged whenever the human spirit is put into the service of creativity. **It is not possible for a human being to awaken without first stepping fully into their creative independence.**'*

*'They close the book on all previous teachings and wisdom in order to discover what their individual truth is, rather than anyone else's. It is a journey that leads home – it is a path of heart leading into the Heart. This is the battle with your own fears but, rather than being a struggle, there is a leap into the Higher Self. **It is the shock of Awakening from one level of being into another.**'*

*'Just as the Shadow creates agents of low frequency shock in the world, so the 51st Gift creates agents of positive shock in the world. **These people come to awaken the collective consciousness - they are not leaders – they are initiators.**'*

*'Awakening is a spontaneous evolutionary leap made possible by wider evolutionary forces operating throughout the entire Universe. **Awakening is a sudden unexpected shock in awareness that is preceded by a mutative chain reaction throughout the cells and DNA.** It is the permanent dissolving of the separate self as a physical mutation in the body - an experience that cannot be predicted or influenced.'*

*'Each of the 64 Siddhis has its own particular behavioural pattern of Awakening, but the 51st Siddhi is the ground beneath every one of these 64 codes. **The 51st Gene Key is part of the Ring of Humanity and this Gene Key ensures that one day all of Humanity will awaken.**'*

Hygiea and Eris are on Gene Key 3 known as **Through the Eyes of a Child** moving through the Shadow of **Chaos**, to the Gift of **Innovation** to the Siddhi of **Innocence**

*'The Gift of Innovation is far more exciting than simply being creative. **It implies that you have permanently escaped the fear-based perspective of the Shadow frequency.** Innovation also requires a deep sense of inner trust.*

*'In order to be truly innovative you have to attain a very high frequency that allows you to go beyond the collective worldview. **Through the 3rd Gift you begin to tap into the higher aspects within your own DNA.**'*

*'It is not that the DNA changes, but that the frequency passing through it activates its hidden programming. Innovation requires you to become as open hearted and open minded as a child. **One day humanity will evolve towards its awesome final destiny of Global and Celestial harmony.** As the 3rd Siddhi comes into the world, which it will do very shortly, a great remembering of our Innocence will emerge in humanity. We are all really children – children of the Cosmos and our only real job is to let go of our seriousness and find the delight in every exquisite jewel that life places before us.'*

And lastly, Dwarf Planet Ceres, although no longer a key part of the Six-Pointed Star, that has been unfolding over these last several weeks, she is still assisting this energetic realignment and is pivotal to all that is seeking to be expressed, having now moved onto Gene Key 19 known as **The Future Human Being**.

*'The 19th Gene Key is one of three primary portals along with the 62nd and 12th Genes that allow humanity access to other evolutionary kingdoms within nature. **These kingdoms, which have often been referred to as the Angelic or Devic realms, are planes of consciousness that follow a similar evolutionary pattern to humanity but in parallel dimensions.** The 19th Gene Key behaves like a genetic marker in human DNA – when you hit a certain genetic frequency that marker activates the portal allowing information to cross clearly between these parallel worlds. **This Gift truly spans all realms and its future function, as we shall see, is to collapse the barriers that separate them – for these are the Shamans who fuse the ancient magical realms with the modern material plane.'***

*'The path of frequency through the 19th Gift goes from Co-dependence to independence and finally to interdependence. Interdependence represents a quantum leap beyond the other two and its realisation is the future destiny of our species. Through the 19th Gene Key, you can see how each level of frequency has to transcend itself entirely. **In surrendering your small self, you attain the realization of your ultimately greater self - to Sacrifice your individual identity and experience yourself as one with all Life as well as the Creator of it.'***

*'Consciousness is now beginning to outstrip man and is reaching out for a higher form. But the new form must emerge out of the old one, so deep within Human DNA new mutations are being triggered. **The 19th Siddhi contains the secrets of this mystical initiation.** They are highly sensitised bridges to the new human and have the ability to siphon information about the new paradigm from behind the veil of the future into the present – they see the new form emerging and do their utmost to prepare people for the coming consciousness shift.'*

As you will be aware this is a very full and intense chart that has the capacity to bring in radical shifts of consciousness. Pluto since March 2021 has been moving through Gene Key 60, **The Cracking of the Vessel** whose central theme is to encourage us all to step beyond the limitations of fear and the lower mind, to step into the Sovereignty of our Being, and from that space to be the *Vessels of Light* that interpenetrate many fields of Consciousness, so that the Devic and Human kingdoms may once again walk and work together in **Boundless Harmony**.

As the New Moon ushers in this dynamic chart, we can be the 'shock' absorbers, deeply anchored and grounded - holding the intent for the Highest Good of All within our Hearts, with understanding and **Compassion** for all that may be unfolding in the outer world as **Truth, Justice** and **Liberation Awakens** within the consciousness of humanity.

Love and Blessings to All
