

Cosmic Overview

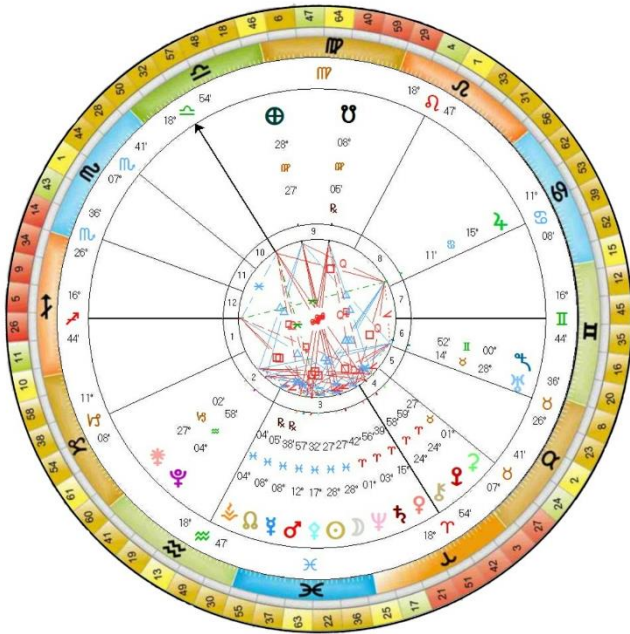

Pisces New Moon and Equinox 2026

*Your task is not to seek for Love, but merely to seek
and find all the barriers within yourself that you
have built against it.*

Rumi

'I AM' the Light of the World'

This New Moon will take place at 28° Pisces 27' on the 18th or 19th of March, depending upon where you live, to be followed the next day by the Spring/Autumn Equinox, again depending upon where you live.

The Equinox is all about balance, coherence, equal night and day, an equilibrium which has consistently unfolded on this planet since time began no matter what may be occurring through the actions of mankind. When we fall out of harmony with the greater Cosmic rhythm, we begin to forget that our lives are held within a vast, living Field of Consciousness — one that transcends human opinions, beliefs, ideologies, and personal preferences.

From a place of higher awareness, we recognize that this greater field is the underlying unity that connects all beings. Remembering this Cosmic rhythm restores inner balance. It invites us back into alignment with the deeper Wisdom and Love that sustains all Life — a Love far more expansive and harmonious than the fragmented beliefs created by the human mind.

The Piscean qualities of this New Moon have been a steady focus since 2011, when Neptune moved into Pisces, bathing us all in the **2nd and 6th Rays of Love, Wisdom, and Devotion**. Neptune has now moved into Aries, but these high-frequency qualities, when embodied, create the environment in which all Life can flourish.

As has been shared before, the 2nd and 6th Rays, create the potential, at lower frequencies, to play out, lifetime after lifetime the distortion of these higher principles. On the 2nd Ray, Jupiter, brings spiritual delusion and illusion, and on the 6th Ray, which both Mars and Neptune rule, lies the basis for all ideological and religious wars. It is also worth noting that at this New Moon, Chiron is going to come exactly conjunct Eris, at 24° Aries 59'. Eris is a Dwarf Planet, orbiting in deep space, connecting us into Galactic Consciousness.

What is unusual about Eris is that everyone born between 1927 – 2044 has Eris in Aries. So, we are all dealing with the same archetypal imprint/energy/shadow that Eris represents. Eris is the Goddess of Strife and Chaos and, when in Aries, at lower levels, the ego is striving to win at all costs, whilst projecting blame onto the other.

The Greek myth shares that when Eris was excluded from a wedding, hurt and angered she rolled a golden apple, with the words 'To the the Fairest' engraved upon it, into the midst of the guests and this simple rolling of an apple into the wedding party became the seed that would result in the Trojan War. From the myth that surrounds Eris it seems that all problems were laid at her door, all discord and disharmony were of her making.

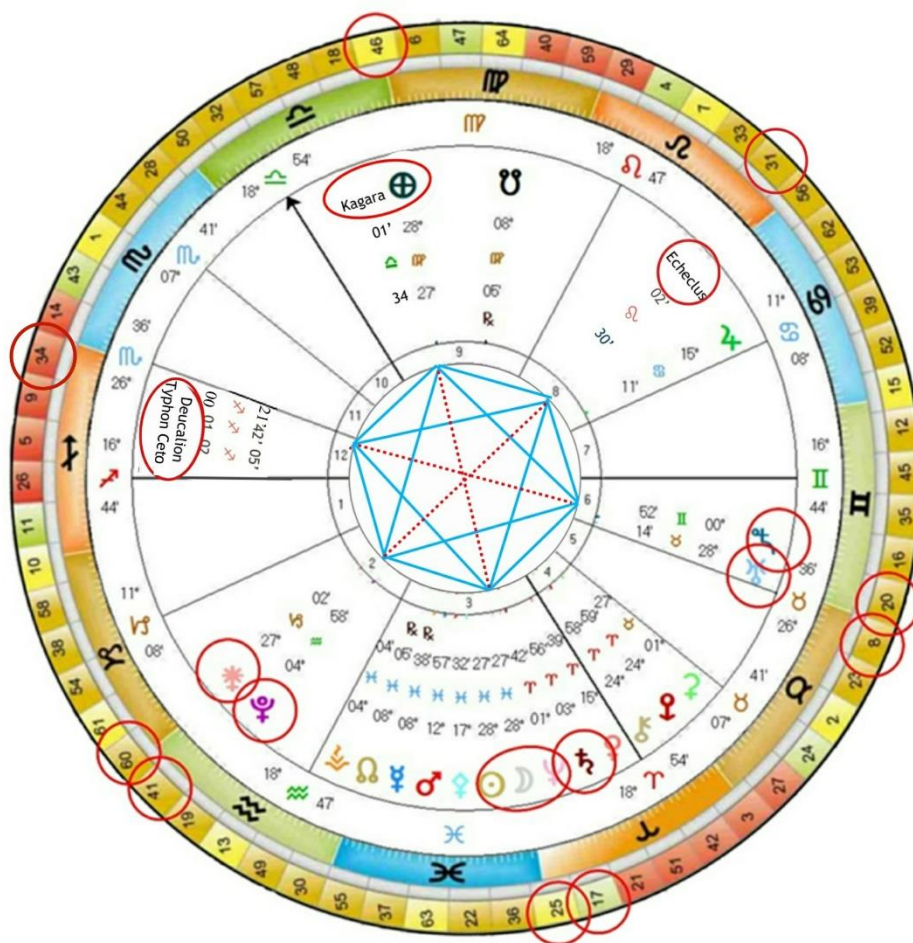

But it was not that simple, for three Goddesses at the wedding, wanted the apple and their pride and ego began the ball/apple rolling as they began arguing. Then Zeus chose not to upset the Goddesses and picked Paris, a shepherd boy, to sort out the dispute. Each Goddess then promptly tried to bribe Paris to obtain the golden prize. Aphrodite won the bribe, as she promised Paris he could marry Helen of Troy, the most beautiful woman in the world, even though she was already married to King Menelaus, who when he learnt that Helen was eloping with Paris, sent an army to bring her back, and so began ten years of brutal conflict.

As Chiron and Eris conjunct this week it is time to stop bypassing our responsibility, time to stop looking for a scapegoat, and time to own our egoic actions. For Eris's 'Apple', would seem to be a litmus paper, testing the quality of our individual and group consciousness. It is time to understand the power of our emotions, thoughts, and words, however seemingly insignificant, in stirring up chaos, if we are to enter Galactic Consciousness.

Be impeccable with your word - speak with integrity. Use the power of your words for Truth and Love.

Chart for the Piscean New Moon 2026

New Moon 19th March 2026 01:24 UT London UK
<https://www.timeanddate.com/moon/phases/>

Because the Spring/Autumn Equinox is occurring in just over 36 hours from the time of the New Moon, the Review will be focussing on the chart for the Equinox, as this energy patterning will underpin the next six months. So just looking at where the Sun ☉ and Moon ☾ are at the time of the New Moon you will see that they come together with Neptune ♆ on Gene Key 25. Neptune is the pivotal point of the planetary pattern, known as a *Minor Grand Trine*, that is taking place in the sky between Uranus ♅ and Pluto ♇ a blending and unifying of the Higher Heart, (*Neptune*), with the Higher Mind, (*Uranus*), expressing as Divine Will, (*Pluto*).

This specific combination of outer Transpersonal planetary positions has not occurred in this way for centuries but has currently been over lighting us since 2024 and will continue through to 2028, coming exact in July of this year.

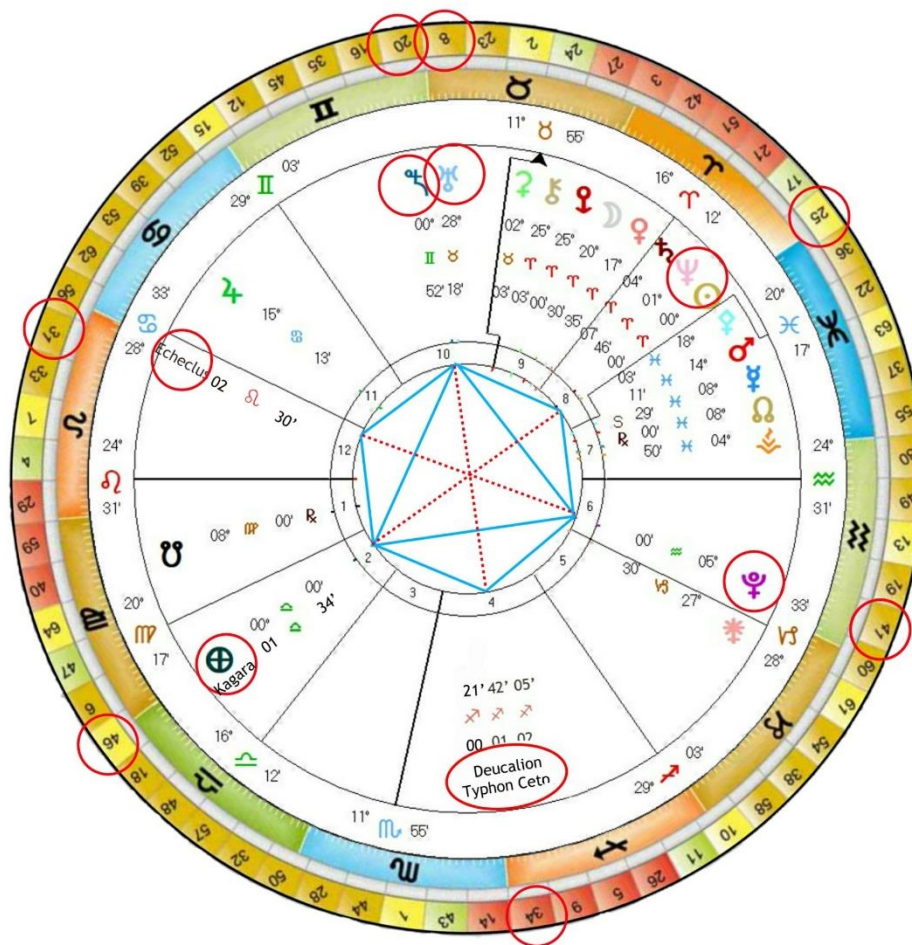

The Earth, on GK46, is conjunct a Cosmic Body called Kagara, mentioned in last month's Review, and they are opposite to the Sun, Moon and Neptune. Kagara, at the time of this New Moon, remains at 1° Libra, which according to the Sabian Symbols is *'The exploration of entirely new mental maps or concepts that are completely outside of our previous experience.'*

This on-going transmutation/evolution that we are all passing through, is a central theme for the time of the New Moon and Equinox, and is a significant, on-going potential of the Minor Grand Trine of Uranus, Neptune and Pluto which will be irradiating and imprinting our subtle energetic bodies, over the next few years to assist in awakening the latent Light encodements held within our DNA.

On the next page you the Chart for the Spring/Autumn Equinox, shows the Sun now at 0° Aries 00', the Moon at 20° Aries, with the rest of the planets having moved slightly during the thirty-six hour period, but still on the same Gene Keys (apart from the Moon), and still forming a Six Pointed Star, though now in different 'Houses.'

Chart for Spring/Autumn Equinox 2026

New Moon 20th March 2026 14:46 UT London UK

For many months Neptune has been activating the 25th Gene Key, known as the **Myth of the Sacred Wound**. At the Equinox the Sun and Neptune are together on this key, to assist us all to release the Shadow of **Constriction**, to come into an **Acceptance** that leads to **Universal Love**. Acceptance is not denial or bypassing but is a deep compassionate, understanding that each one acts according to their own level of consciousness.

'The Sacred Wound that hides within each human being can be understood at three levels of consciousness. At the Shadow frequency, the wound maintains human suffering, at the Gift frequency the wound provokes humanity to evolve and at the Siddhic frequency the wound reveals humanity's true nature as an Expression of Universal Love.'

'The 25th Siddhi is one of the Seven Sacred Seals - a mystical group of Gene Keys whose collective role is to heal the Sacred Wound within humanity. The 25th Gene Siddhi is the 3rd Seal, and it heals the human wound of shame.'

'All that Love locked away in our DNA. The DNA is just filtering it through the memory – the ancient memory. This is the embracing of the collective wound. It is the passage to Christhood, or Buddhahood.'

'We cannot 'get' there. We just have to keep on opening, accepting, and the path leads us there of its own accord. It is our natural state. It has a certain flavour, a certain peacefulness, Universal Love, Unconditional Love.'

'The 25th Gift makes it difficult to hold any resentment, judgement or indeed worry about life – for now you are carrying the Seed of Love. You will walk through life with an air of another world about you, whilst at the same time being deeply grounded and open to others. When you can finally accept everything in your life just as it is right now you will have embraced the human wound.'

'The 25th Siddhi is a special Siddhi whether it happens to be within your hologenetic profile or not. Every Gene Key exists inside each of us and the 25th Gene Key is the primary archetype of Love. The 25th Siddhi is Love itself as the Source of all and in this sense it can be called Universal Love.'

'Every time someone attains the 25th Siddhi a great genetic constriction is removed throughout Humanity. The bodies of these people have undergone a radical transformation in order to be the receiver or chalice for pure consciousness.'

The Earth and TNO Kagara, continue the evolutionary impulse of moving us from a narrow mental based awareness of life, to one of an internal spaciousness and peace coming from the Heart. At the time of the New Moon, they remain on Gene Key 46, moving through the Shadow of **Seriousness**, to the Gift of **Delight** to the Siddhi of **Ecstasy**.

'The 46th Gene Key governs your relationship to your physical body. It is part of the Codon Group known as the Ring of Matter which programs the developmental process of incarnation from conception to the age of 21. The 46th Gene Key relates to your first seven-year cycle in which all your Shadow patterns are hotwired into your physical structure – your posture, your breathing patterns and your relationship to the physical world through touch.'

'When the child learns through their physical aura that life is safe and loving their body relaxes into its natural internal rhythm. At the Shadow level there is no trust. To escape the low frequency of Seriousness, it takes a simple quality – Acceptance. Acceptance is the programming partner of the 46th Gift of Delight.'

'Delight is a sense of freedom and an appreciation of the richness of being alive. The 46th Gene Key also contains the germ of material success and failure. This much sought after secret is founded upon the principle of synchronicity – the Law that binds together all free-moving objects in space and time.'

'Free-moving in this context means accepting. When you move through life with an attitude of Delight and openness, whatever happens is correct. If your attitude remains open and accepting you will see that the Universe is at work in you.'

'Ecstasy is the highest frequency of the 46th Gene Key and it occurs only through the heart. It is in fact the true nature of Humanity. Ecstasy is not a word that most people consider when they think of themselves and their lives. Yet it is this block at the mental level that keeps us at a frequency far from Ecstasy.'

'If you can open your heart to receive the frequencies they represent, the frequencies will begin to seek you out, for Siddhic states are all a matter of magnetism. People who manifest this Siddhi cannot go unnoticed in the world. The Love that swirls around them is so tangible that it can even be felt by people of the densest frequency.'

Uranus, over the last two years, has been activating Gene Key 8, known as **The Diamond of the Self**, to help release the Shadows of **Mediocrity** and **Constriction**, to ultimately reveal the **Exquisiteness** which lies within the Heart of each one of us.

'As an aspect of the genetic family known as the Ring of Water, the 8th Siddhi of Exquisiteness is chemically bonded to the 2nd Siddhi of Unity. These are the two great Feminine Gene Keys in the human genome drawing all human beings along their inevitable journey to self-realisation. The Ring of Water forms a kind of eternal genetic knot with its polarity, the Ring of Fire.'

*'These two chemical families move us along the trajectory of our destinies ensuring that our genetic material finds its opposite match. **Deep within the body these chemical families set the primal blueprint for the balance of all the opposing forces inside us.** It is the crossfire of these two Codon Rings that the mystical figure of eight is forged within us.'*

*'This eternal love knot deep within our planetary gene pool sets each man and each woman squarely on the human journey. **The true symbolism of the number eight represents the timeless quest for the buried treasure that lies inside each of us – that elusive Diamond of our true Nature.** The 8th Siddhi of Exquisiteness is the natural revelation and manifestation of all the Siddhic states, for each Siddhi is holographic in the sense of being reflected within all other Siddhis. **People of the 8th Siddhi are not leaders. They are examples.'***

*'Exquisiteness is experienced when the Divine Essence begins to shine through the individual. In this state of Bliss you fall in love with your own pristine manifestation because it is through this uniqueness that the Divine currents can be accessed. **This is the stage at which you achieve transcendence of your genetics.'***

As shared last month, Sedna, and Uranus, in many ways are polarities – Sedna links to primordial space, pre-thought and Uranus links to the Higher Mind. Sedna at 0° Gemini links to the Sabian Symbol for '**A New Dimension of Reality**', and to assist us to open to this reality Sedna remains on Gene Key 20 until April 2033.

Gene Key 20, known as **The Sacred Om** moves through the Shadow of **Superficiality** to the Gift of **Self-Assurance** to the Siddhi of **Presence**.

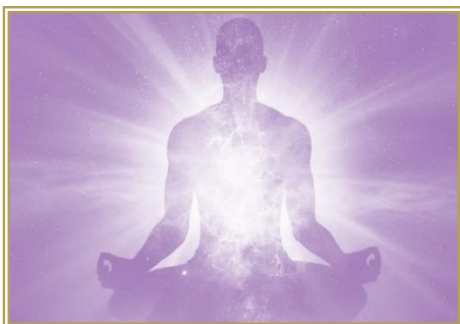

*'This aspect of the DNA is very ancient. The 20th Gene Key and its Shadow were developed in species that preceded human beings – primarily in the world of insects. Looking at insects, we can see how incredibly busy they always seem to be – their only focus is to stay alive and to reproduce within a short time frame. **There is a blind activity occurring and like the insects, at a Shadow level, human busyness lacks real presence.'***

*'With the development of the neo cortex we began to think and a strange thing happens when we think – **we leave the present moment.** The illusion occurs because the mind can only think in a linear fashion. This is the trade-off of the incredible abilities of the mind – **for all its genius it is limited to thinking within the domain of a false reality called Time.'***

*'Your Self-Assurance is directly equivalent to your ability to escape being a victim of your mind. As you begin to learn the knack, you experience the subtle expansion of a meditative awareness – an ability to witness your mind without being caught up in it. **An internal spaciousness grows and you no longer have to try to control life.** What actually occurs with this Gift is that the awareness within your solar plexus begins to take over from your mind, opening the way for you to connect into a very powerful Universal power.'*

*'The true Siddhic state is one of complete relaxation. Thoughts are irrelevant – there is nothing to say that is not superficial – for nothing is felt but the Presence itself. **When this occurs, the whole world created by the human mind is suddenly seen as utterly superficial.'***

*'When this Siddhi has flowered in a person it actually creates a subtle atmosphere around itself – a kind of silent ease that pervades the aura of the person and radiates out to all Creation. The 20th Siddhi is the notion of the Breath of God, or the Word of God. **Presence is the underlying nature of Being.'***

*'It would actually be truer to name this Siddhi, **The Presence**, since the use of the definite article gives us the clear impression that this is a state of consciousness that has nothing to do with any individual. **It is the manifestation of The Presence through a human vehicle.'***

Pluto continues to hold the Minor Grand Trine of Transpersonal planetary energies in the sky and has now moved to 5^o Aquarius, and 5^o Aquarius, as a Sabian Symbol, has as the Keynote **Transpersonal Responsibility** which begins with the need for personal accountability. Over the next three years, Pluto will be activating the Start Codon that is held in Gene Key 41 known as **The Prime Emanation**, moving through the Shadow of **Fantasy** to the Gift of **Anticipation** and ultimately to the Siddhi state of **Emanation**.'

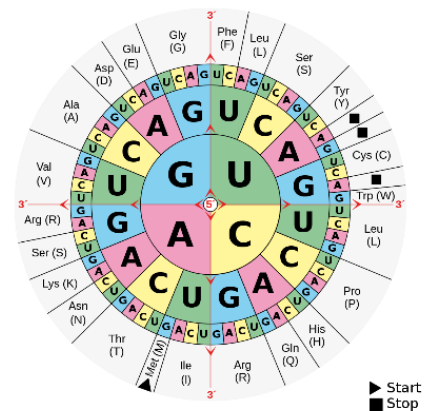

'The 41st Gene Key houses a truly remarkable archetype. It has a very important function – it relates to what is known in genetics as the Start Codon. At the Shadow level the 41st Gene Key centres around the issue of Fantasy and dreams – it is like holding the key to your dreams in your hands but never turning the lock. The evolutionary pressure that surges up in human beings carries our entire genetic history within it, all the way from the amoeba to Homo Sapien.'

'All this history carries an enormous weight inside you – it can drag you down, but it also urges you to want to break free. The 41st Shadow represents the pressure to evolve to seek out new fields and new experiences. This evolutionary impulse is the secret to the 41st Gift – the Gift of Anticipation.'

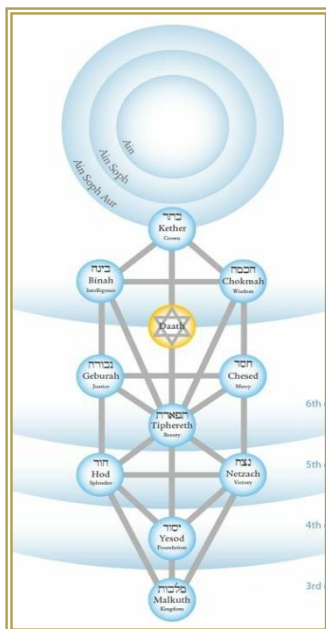

'The more the frequency of your DNA rises you become more and more sensitive to the hidden properties in the world around you, in particular, linking into the morphogenetic field that communicates specific information across time and space.'

'Every start codon inside every single cell is electromagnetically linked to each other. This is the foundation of the holographic body which in turn is linked to the holographic Universe. This Gene Key is the key to seeing that the physical body can equally be seen as a holographic mirror of the Universe.'

'What is fascinating about the 41st Siddhi is that it is the Source underlying all true Siddhic states. No matter what manifestation comes through our genetics, they are all ultimately grounded through this Siddhi that is not a Siddhi. In many ways, this is the nameless Siddhi, but we call it Emanation because we have no other way of approaching it.'

'As the Source of Being the 41st Siddhi is the Siddhi of Emanation. Emanation is a word that has been used by many ancient metaphysical and mystical systems as a means for understanding something that is really unapproachable. One of the best known of these systems is perhaps the Kabbalah, whose central tenet is a map known as the Doctrine of Emanation. In a nutshell the Doctrine of Emanation points towards a fractal model of the Universe in which everything is a mirror image of itself.'

'There is another interesting point that emerges from deep contemplation of this Gene Key. Somewhere deep within your DNA lies a code whose sole purpose is to trigger the state we call Enlightenment. In certain vehicles, the body picks up a specific set of secret genetic instructions and triggers the neurological process of enlightenment.'

'It may come as a shock to many mystical seekers that this process cannot be triggered by what we do up on the surface. Within the hologram of the Universe, Enlightenment is a spontaneous acausal non-event. You could say that Grace triggers this process but the point is that no one knows why or when or to whom it will happen.'

Again, looking at the chart, you will see that three Cosmic bodies, Deucalion, Typhon and Ceto, all TNOs and, Echeclus, a Centaur, are creating the formation of the Six-Pointed Star. These Cosmic bodies are really relevant for the times that we are passing through, for the TNOs are *evolutionary intensified* objects and speak of the subtlety and the ancient lineage and memories that we are unfolding, and integrating into our awareness, in order to fully enter into Galactic Consciousness, with the assistance of Sedna.

As our consciousness reaches out into the deeper regions of the Solar System with the 'discovery' of Dwarf Planets and TNOs, this physical expansion of our Solar System into the Galaxy reflects the expansion that is taking place within our inner individual and collective consciousness.

These distant TNOs mirror back imprints, and resonances, of primal memories and Deucalion, Typhon and Ceto, together in the sky, opposite to Sedna, are opening us to old, deep, subconscious patterns, buried long ago, not to repeat them, but rather to raise the imprints into the highest resonances through awareness and Presence.

At the Shadow level, Deucalion links to situations where one can be metaphorically or literally "flooded", by emotions, circumstances, or crisis. This interpretation comes from the ancient Greek myth of Deucalion surviving Zeus's deluge. Typhon has links to primordial, chaotic, and volcanic force. It symbolizes the destruction of stagnation, representing cataclysmic change, and upheaval - the dismantling of structures, again based on ancient Greek mythology, and Ceto too, is fundamentally associated with profound emotional depths, dealing with unconscious patterns.

Right now, all that is appearing in the outer world can distract us from the Truth of our Being, it can overwhelm and lower the frequency, so these TNOs are about facing our shadows and fears, for it is only when we face and transform these ancestral imprints that we can reclaim the denied parts of ourselves to become whole. Sedna on Gene Key 20, holding the essence of Presence, is assisting this transformation.

These three TNOs/Cosmic bodies are on Gene Key 34 known as **The Beauty of the Beast** moving through the Shadow of **Force** to the Gift of **Strength** to the Siddhi of **Majesty**.

'The 34th Shadow carries a primal quality – it is ancient. All Shadow states are states of force or forcing. Force is always rooted in the mind whereas power comes from the sacral plexus – the belly. Power is natural, grounded and universally connected to all life, whereas Force happens when you forget to trust in this true centre of pure awareness.'

'The Shadow of Force can be brutal for it is a primal evolutionary force. At certain stages in evolutionary history we need this power. In plants the 34th Gene Key provides the thrust that cracks open a tiny seed and forces it way up through the soil and into the air above.'

At every level Strength comes through the Feminine - GK 34

'However, we humans have come along way and this Gene Key has other higher attributes hidden within it waiting to emerge.'

'When the 34th Shadow gives way to the 34th Gift a truly beautiful archetype emerges – human strength. The Gift employs the same terrific primal vitality, but unlike the Shadow it does so through appropriate activities and correct timing. The result is a creative manifestation of aligned Life force. We are not just talking about physical strength here, but the ability to act in harmony with natural forces – the real definition of Strength.'

'Here in the 34th Siddhi, at its peak, the Siddhi of Majesty blossoms. This is the Majesty of the human form in motion and the form itself is pure awareness, which is why it cannot be awareness of something. It is through the 34th Siddhi that we get the idea of man as a God. The great paradox is that if Gods were to assume the shape of humans they would never know they were Gods. This is the true meaning of this 34th Siddhi - the Divine Essence of creation can only move freely through the body when the identity has ceased to exist. Through its connexion to its programming partner, the 20th Siddhi of Presence, the 34th Siddhi requires that an individual transcend their genetic fear of survival by bringing Presence fully into every moment.'

'Once you have entered the Siddhic frequency all fear is purged from your system and the pure awareness of your body's physical intelligence is revealed. It is as though the entire Universe were moving through your body. In the Ring of Destiny, the epiphany of the Higher Planes encounters and infuses the Majesty of the body on the lower planes. The result is pure fusion as Spirit enters Matter and imbues it with Divinity.'

Echeclus, much closer to the Earth, orbits between Jupiter and Neptune, bridging the gap between earthly understanding/laws and transpersonal, spiritual awareness altering our subconscious processes to assist our personal evolution. Just like the three TNOs, Echeclus also relates to deep emotional work, often highlighting issues that have been 'frozen' or hidden until they erupt.

Echeclus is on Gene Key 31 known as **Sounding Your Truth** moving through the Shadow of **Arrogance** to the Gift of **Leadership** to the Siddhi of **Humility**.

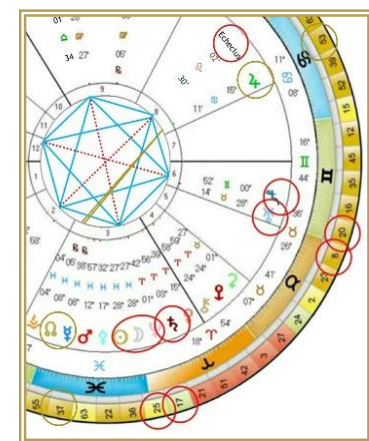

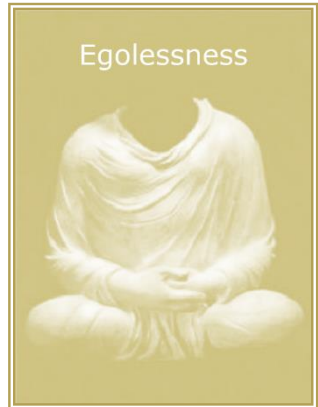

'At the Shadow level of frequency we are 'programmed' by the language and thoughts that we have inherited. These thoughts and language keep us confined within a narrow spectrum of intellect and understanding of what our true potentials are.'

'Real Arrogance comes from being cut off from our Divine Source. Words that are not rooted in a profound sense of wonder are always to some level arrogant. Only the human heart can truly offer an answer to the mystery of existence.'

'The 31st Gift, like all the Gifts, represents a huge step beyond the intellect and into the heart. Only the heart really perceives the collective suffering that comes from being marooned in the intellect at the Shadow frequency. Because the 31st Gift has its finger on the pulse of the collective patterns of humanity, it can have enormous influence over large numbers of people. Certain human beings operating out of the 31st Gift can literally become the voice of the collective.'

'The 31st Siddhi is rooted in the ancient tradition of the Oracle. The Oracle is simply a voice box for the Divine. The mysteriously named Codon, The Ring of No Return refers to the great initiatic leap from the 4th Causal Body into the 5th Buddhist Body. Once this leap of consciousness has been made, there is no possibility of return because your identity or ego will be erased.'

'Once you have allowed the Siddhic frequency to command your voice, you have entered the first stage of Divine embodiment. From this moment forwards, whenever you use the word I, it is the voice of Divinity itself speaking. Such speech is pure transmission. It uses words to indicate the path beyond words.'

As the Review is being written, on the 15th of March, 3 I Atlas is passing closest to Jupiter before leaving the Solar System and as such the patterns she carries, are being streamed into the Solar System as Jupiter brings the resonances of the energies carried by 3 I Atlas, into the Earth plane, as Jupiter makes a 120° angle to both the North Node ♁ and Mercury ♀.

Jupiter stationed direct at 15° Cancer on 10th March in alignment with Sirius and, although now moving forward, is still at 15° Cancer for the Equinox. Sirius as our Spiritual Sun, makes this a powerfully charged, expansive period, amplifying Galactic gifts, Truth and also deep ancestral emotional imprinting.

Jupiter is on Gene Key 53 known as **Evolving Beyond Evolution** moving through the Shadow of **Immaturity** to the Gift of **Expansion** and to the Siddhi of **Superabundance**.

'The Shadow of Immaturity is rooted in the human tendency to see ourselves as separate from each other and Nature. The human mind has enormous difficulty seeing itself as a collective organism that is deeply embedded in Nature and the Earth.'

'The Gift of Expansion demands that individuals transcend their personal opinions, views and attempts to understand what is going on. As you allow awareness to expand it opens your heart. You see the evolutionary impulse in all of life – all interconnected – all one. The 53rd Gift gives way to the bhakti – the ever-expanding-transcending-and-including energy of Life itself.'

'We are indeed entering a new evolutionary phase right now in which human awareness seems ready to make a great quantum leap in terms of its expansion, but even though awareness may expand, Consciousness does not expand since it is already everywhere and everything and even everywhen.'

*'This is the crucial truth to understand. Beneath the form, Consciousness never changes or evolves or expands or contracts. **It simply is.** The 53rd Siddhi represents the state beyond and behind awareness known as Pure Consciousness. This Gene Key links to the Ring of Seeking, however at a certain point you have to let go of your seeking as the awareness inside expands outside the form. **At this stage known as Enlightenment the great and final leap occurs – it is the leap into Pure Consciousness and the end of evolution itself.'***

Mercury is stationary right now, moving forward on March 20th and is exactly conjunct the North Node on Gene Key 37. Mercury links to how we communicate, our mental structures and beliefs, and also links to our Central Nervous System. The North Node represents our individual and collective Soul purpose and direction, as such it acts as a compass pointing us towards our highest potential and spiritual growth.

GK 37 known as **Family Alchemy** is working through the Shadow of **Weakness** to the Gift of **Equality** to the Siddhi of **Tenderness**.

*'Much about this 37th Gene Key concerns the nature of a force that is perceived as weak but that inevitably shows itself to be the opposite. **The 37th Shadow represents the inequality between yin and yang forces on our planet.** The natural tendency of evolution has been to favour the physically stronger – at low frequencies our genes know no other reality than the survival of the fittest.'*

'However, now we have reached a stage in evolution in which physical strength no longer governs our future direction. The 37th Shadow is undergoing a major mutation and through the inner rebalancing within the human psyche the fabric of our society is being forced to change.

Our current age is truly an exciting time to be alive because this 37th Gift is giving birth to a new social paradigm all across our planet.'

*'It is in the 37th Gift of Equality that a great hope is presently arising for humanity. **Equality is a living ideal that lifts people out of the game of victims and winners or strength and weakness.***

*'When you operate out of this Gift you are living directly out of your heart and all else is secondary. The human heart carries this equalising force wherever it moves and eliminates divisions in others by treating everyone with respect. **The 37th Gene Key has emerged into our current world through the sacred sacrament of marriage.** It became sullied and stagnant through its manifestation as a social contractual convention. The marriage we see in the world today is but a shadow of the true inner ideal of marriage. **On an individual level, marriage concerns the inner balance and union of yin and yang within each human being.'***

*'The Siddhi of Tenderness is the awakened aura of this mystical union since tenderness is an energy devoid of tension or sexuality. **The 37th Siddhi is an upsurge of consciousness that will slowly unite human beings as the 55th Gene Key frees us from our victim consciousness.** In its very softness it is insurmountable, invincible and inevitable.'*

As we enter into this Equinox we are in the fulcrum of ongoing shifts and changes - the metamorphosis which was spoken about in last month's Review, continues under the umbrella of the transpersonal planets of Uranus Neptune and Pluto. Uranus trine Pluto reflects major structural transformations, innovations, and equally the potential for deep, personal and collective transformation and evolution. Neptune sextile Uranus and Pluto speaks of a 'spiritual revolution' that can awaken many to the reality and truth of the gifts held within, and to our ancient stellar lineage, which has been buried for so long.

These are cathartic, and chaotic times, for so many, and yet at the same time the very challenges, are the crucible for turning inward to clear and refine all that may still lay buried within the interior crevices of the psyche and mind, to refine, and come into an inner stillness, so that the Light, that is flooding the plane can flow without any interference or hindrance, ultimately revealing the timeless true Self.

May Universal Love, and Tenderness, emanate to all Life, as we walk with Humility, Strength and Presence.

All Love and Blessings

Extracts from 64 Ways and Gene Keys by Richard Rudd
