# 'I AM' the Light of Day

The New Moon will take place on the 12<sup>th</sup> or 13<sup>th</sup> of November, depending upon where you live, at 20° Scorpio 43.

Scorpio ruled by Pluto, continues the theme of clearing and cleansing, bringing into Light that which has been hidden. It embodies the archetypal story of moving from 'Darkness into Light' and, as such, intimately links to the Etheric Body, the Body of Light, which underpins our physical form.

At the personality level, both Mars and Pluto rule Scorpio through the **6<sup>th</sup> and 1<sup>st</sup> Rays of Devotion and Will**. When coming from a lower vibration it is this combination that creates so much intransigence, fixed thinking, and a sense of 'might is right' which creates conflicts and battles in the outer world.

The higher expression of these Rays and Planets occurs when the individual takes on the internal 'battle' that arises between the personality and the Soul, an intense, internal transmutation that brings about a blending and fusion through the Constellation of Scorpio, held within the **4<sup>th</sup> Ray of Harmony through Conflict**, ultimately transforming the personality's desires into the purpose of the Soul.

For it is in Scorpio that the fusion of the **3<sup>rd</sup> Ray of Active Intelligence**, (the personality), the **2<sup>nd</sup> Ray of Love and Wisdom**, (the Soul) and the **1<sup>st</sup> Ray of Divine Will**, (the Monad) occurs.

In the collective consciousness, Scorpio, being of the Water Element and Fixed, creates feelings and beliefs, that become deeply entrenched over lifetimes. These entrenched feelings interfere with the pure Life Force that is flowing into the etheric form, which underpins the physical form. It is here that both Pluto and Scorpio provide the focus, fortitude, and deep perception, to mine the unresolved, subconscious patterns that can be playing out from other lifetimes, to release and to transmute these ancient scripts so that they do not have to erupt into this lifetime.

When the internal work has not been done, there is no sense of the inner Light of the Life Force which is given freely to all. It is from this space of deep separation that aggressive acts manifest. When embodying the higher resonances of Scorpio the integrated individual becomes, as a Phoenix, an exemplar of Love triumphing over adversity - ready to 'battle' for all of humanity through a conscious awareness of the unifying Light which is held within each and everyone, irrespective of creed or colour.

*This is the place where three Lights meet - the Light of Form, the Light of the Soul, and the Light of Life. They meet; they blend; they rise.*

The Sun ☉ Moon ☾ and Mars ♂ align together opposite to the Earth ♁ and Uranus ♅ which creates a very potent energy that can bring about sudden and unexpected changes at the time of this New Moon.

The Sun Moon and Mars are on Gene Key 43 known as **Breakthrough** having the Shadow of **Deafness**, the Gift of **Insight** and the Siddhi of **Epiphany** as the archetypal themes that are held within this Key.

*'There is a natural process built into the lives of human beings – survival, service, and surrender. What is common to each of these three stages is the transformation process itself. At each level, it occurs in sudden leaps. We tend to move through long periods in which it appears that little about us alters and then suddenly, every now and again an experience or event occurs which utterly changes our lives.'*

*'As individuals when we awaken to our true creative potential, that which is hidden in our DNA, begins to rise up and pull us out of the survival Shadow frequency. It is then we enter into the stage of service. The service that the 43rd Gift brings into the world is rebellion. Without the creative passion and insight of the individual, life would not only be dull, it would probably cease altogether. Without the spontaneous, the unexpected, we could not evolve.'*

*'The rebel awakening through the 43rd Gift is immensely creative – he or she simply cuts a new pathway without worrying about where it is going. This is the deafness of genius – to simply be the conduit for creative insight. In Japanese culture one of the keywords for Insight is satori which implies a breakthrough from within. It is only when you trust your inner core that the breakthrough comes from deep within your cells. In this way your awareness turns inward without losing any of its worldliness, making you unique but integrated, profound yet accessible.'*

**'We can see how evolution on our planet is moving us steadily toward a place of increased individual freedom.** As the human rebellious spirit comes alive your DNA attunes to higher and more refined frequencies. **The 43rd and 34th Gene Keys are bonded in the 'Ring of Destiny.** The secret of this codon ring is timing and through the ages, it has whispered a great truth into the ears of those whose insight is developed enough to hear it – life is a mystery in which chance and love dance together. When you Love totally, unconditionally, even chance is shown to be an illusion and the underlying Cosmic geometry is revealed behind all things. **It is only then that your timing becomes perfect and that which appears to be random is understood as an aspect of the holographic Universe unfolding its myth through your Life.'**

**'The 43rd Siddhi is one of the seven Gene Keys that provides a portal for Grace to move into the world of form. The 43rd Siddhi represents the opening of the 4th Seal which releases the profound human fear of rejection and opens the hearts of all individuals.** This Siddhi has a powerful destiny – to create mass breakthroughs across entire gene pools – ultimately the Epiphany is an explosion in the human heart, an openness and acceptance of others and a Divine spirit of friendliness that is at the core of all human beings. **You become deaf to everything but the Divine!'**

The innate desire for Freedom and Truth, is the essence that Uranus, as the Higher Mind, embodies, and at the time of the New Moon, Uranus is conjunct the Earth on Gene Key 23 known as the **Alchemy of Simplicity** moving through the Shadow of **Complexity**, to the Gift of **Simplicity** to the Siddhi of **Quintessence**.

**'The fear beneath the Shadow is of meeting intolerance and being excluded by others.** The difficulty for the 23rd Shadow is that it tends to make human beings know that they are right, which firmly closes the door on their being open to the views of others. **Some of the bloodiest wars on our planet have begun because of a few simple misconstrued words.** Wherever you see societies that keep others silent, you are seeing fear at work through this Shadow.'

**'When Buddha introduced his great teaching known as the Eightfold Path, he spoke of Right Understanding which leads to Right Speech. He hit upon the great and simple truth – that language flows directly out of your state of consciousness.** The 23rd Gift communicates precisely, clearly and with great economy. **The power of Simplicity is to create efficiency wherever it goes.**

**'To be around someone exhibiting this Gift is a wonderful and powerful experience.** Things you thought were problems somehow dissolve in their presence and through their insight and clear language, difficult things become easy – you relax in their presence. **Above all they are wonderfully clear communicators and advisers.** Their true genius lies in the economy of their language and the originality of their expression. **Theirs is the noblest truth of all - the Gift of Simplicity.'**

**'The 23rd Siddhi has an alchemical flavour to it – the ability to extract gold from base metal.** People with this Siddhi are able to touch the gold hidden within other human beings. They can transmit the power of the awakened state through a word or a look or a gesture. **This is the Midas touch.** Every person has a unique key that opens them to a higher state of consciousness and the people of this Siddhi hold all the keys. They do not necessarily know that they hold the keys – they simply respond spontaneously to each person and in so doing they touch the core of that person.'

**'This is the true explanation of the secrets hinted at by alchemy – that the physical body itself contains the seed of the Siddhic consciousness.** It is concealed in your DNA and controlled by a hidden timing mechanism that is utterly spontaneous and out of your individual reach. **Once this Siddhi has fully dawned inside a person they become an alchemical agent that overtime refines all and extracts the Quintessence from the dross.** To walk this path, you will have to dig deep within yourself and revel in that true Quintessence that only you can recognise.'

Neptune ♆ is trine, 120° away from the Sun Moon and Mars and sextile, 60° away from the Earth and Uranus, so it has the potential to create a softening effect upon the otherwise quite volatile energy. Neptune is on Gene Key 36 moving through the Shadow of **Turbulence** to the Gift of **Humanity** to the Siddhi of **Compassion**.

*'The 64 Gene Key Shadows provide the grist for the mill of all human suffering. Each Shadow provides a mythic challenge for humanity to move through. The 36th Shadow is an emotional battle that must be fought by every individual at certain times during their life. The 36<sup>th</sup> Shadow is the Dark Night of the Soul.'*

*'The Gift of Humanity truly understands emotions and consequently understands all people. This is a Gift that can only be earned. These are people who have looked deeply into their own Shadows and who have grappled with the challenges of their sexuality and emotions. At this level, these people are no longer overwhelmed by emotions as they tend to be at the Shadow level but have opened and expanded themselves to life through harsh experience.'*

*'As a living transmission, the 36th Gift carries a great teaching into the world – the celebration of Humanity. It is a bridge for the higher bodies of humanity to move down into the lower planes and transform them. The deepest role of the 36th Gene Key is to help humans to become humane - it is their courage and deep acceptance of the life process that eventually gives rise to the highest of human expressions – the expression of Compassion.'*

*'This is the Siddhi that spans the chasm between Man and God, between being a victim and being enlightened. In every mythic journey, there must always be a final trial. A moment of utter hopelessness and helplessness – these moments – these Darkenings of the Light – come to us in life not so much to test us, but to cut us so deeply within our own humanity that we are reminded of the awesome power of our own Compassion for all beings. Those in whom this Siddhi has awakened tend to keep moving into those areas of life where the light is most darkened. The simple presence of such people and the look in their eyes can trigger all manner of so-called miracles in those whom they meet.'*

*'Wherever they go, the true frequency latent within human suffering is immediately released and Compassion tears open people's chests and explodes inside their hearts. At the Siddhic level, your own suffering becomes so universalised that it encompasses all humanity. All boundaries of the self dissolve.'*

Equally trine to Neptune and close to the Sun, Moon, and Mars is dwarf planet Ceres ♃. Ceres/Demeter links us into the physical, natural world, highlighting nurturance, and the Mother Principle. She was named by the ancient Greeks and Romans as the Goddess of the Earth, who brought benevolence, kindness, and abundance to Life on Earth, by working in harmony with the Elemental Kingdoms of Nature.

Ceres is activating Gene Key 14 known as **Radiating Prosperity** and she is instrumental and crucial in awakening these higher qualities of awareness to offset the discord and destruction that is presently erupting on planet Earth.

*'At the Siddhic level of consciousness, energy is transmitted through the individual via the medium of the morphogenetic field. Morphogenetic fields are energetic grids that connect all creatures and particles of matter at a sub-atomic level. The 14th Siddhi is the core archetype of your power as an individual.'*

*'It is the Siddhi of Bounteousness – the ultimate legacy of what it means to be a human. When the 14th Siddhi flowers within a human being they become a driving force for humanity itself. Their every*

thought word and deed reaches deep into the morphogenetic field and guides the whole of humanity towards abundance. **The mass dawning of the 14th Siddhi would be the uniting of Heaven and Earth.'**

Underpinning this New Moon in Scorpio are two 'T' squares, the first has the South Node ♁ and Pallas Athena ♃ opposite to the North Node ♁ and Eris ♃ all square to Pluto ♇. As for last month, the North and South nodes remain on Keys 42 and 32 and Pluto remains on Gene Key 60.

As the Solar Eclipse, last month, fell on Gene Key 32 the archetypal qualities of this key, from Shadow to Siddhi, will be a focal point over these next six months.

With Pluto squaring to the South Nodal axis, on Gene Key 32, it can stimulate and activate the accumulated group consciousness memories of both fear and **Failure**, that are remembered within the oldest part of the brain in the deepest subconscious patterns held within the cerebellum and brain stem, waiting to be activated via the amygdala.

Gene Key 32 moves through the Shadow of **Failure** to the Gift of **Preservation** to the Siddhi of **Veneration**.

*'Our earliest ancestors had exactly the same fears as we do today, even though they may have manifested them differently. **Your individual fear of Failure is rooted in the collective fear of Failure to survive as a species.** The 32nd Shadow drives our modern society and keeps humans operating at a low level of frequency by means of this fear. **Although the fear of this Shadow has its roots deep within the human immune system, it is the mind that reacts to it and feeds off it.** If you are not aware of the power of your mind, then your mind will run your life which means fear will run your life.'*

**'The 32nd Gift is not about self-preservation but is about the Preservation of Life.** The 32nd Gift has the ability to assess the past, weeding out weaknesses and building upon strengths. **As we move into the 32nd Gift as a species, we will once again return to Nature.** As we rise above the fear and move beyond the selfish tendencies found in the Shadow frequency we become defenders and preservers of our Earth. **As we learn once again to honour where we have come from, the Earth will teach us how to move in harmony with its natural rhythms and cycles.'**

**'The 32nd Siddhi is the state of Veneration.** It is all that remains when fear has burned away. **Veneration is the state that occurs when you see and know your place within the great Living chain of Life.**

*'Veneration is about being on a spiral ladder. You stand on the shoulders of those who have come before you and you allow those who will go beyond you to stand upon your shoulders in turn. **Veneration is rooted in respect, reverence, and gratitude for all aspects and forms of the One Consciousness behind Creation.'***

The asteroid, Pallas Athena, has now moved to where Mars was last month. Pallas Athena carries the archetypal quality, consciousness, and energy of Wisdom.

Whilst expressing and manifesting through the Shadow consciousness of humanity, Mars conjunct the South Node at the time of the eclipse last month, has the real potential of stirring up all unresolved energies, playing an incremental part in stimulating the upheaval and violence that has unfolded in the Middle East so abruptly at this time.

Although known as the Goddess of War by the Ancient Greeks, Pallas Athena, was a Defender of Justice seeking to implement Peace, through mediation, diplomacy, and legal action, and as she is activating Gene Key 50, known as **Cosmic Order**, may the Shadow of **Corruption** be revealed and released so that the Gift and Siddhi of **Equilibrium** and **Harmony** enters into all conflicted regions around the world.

***'The 50th Siddhi produces experiences that harmonise human awareness with Celestial or Universal Consciousness. At the Siddhic level all imbalances within the subtle bodies must be destroyed in order that the cauldron of the physical body can become a vacuum. When this occurs within the DNA of a human being the body becomes a deep resonant chamber for the highest Universal frequencies.'***

*'When the 50th Siddhi begins to break through in human beings an all-powerful current of Harmony begins to shower the people with whom they are allied. Deep and hidden issues are brought to light in order that social Equilibrium can occur. Through the 50th Gene Key humanity is destined to arrive at Cosmic Harmony, although such a concept will require a sustained period of Equilibrium before the scales finally activate the higher Harmony. We know this higher harmony as Oneness with God.'*

Once again, the North Node, and Eris are both on Gene Key 42, known as **Letting Go of the Living and Dying** moving through the Shadow of **Expectation** to the Gift of **Detachment** to the Siddhi of **Celebration**.

*'Detachment, which is the Gift of Gene Key 42, presupposes a great love and trust in Life True detachment is the ability to allow and accept life as it comes. Detachment does not mean to not feel. In fact, if you are truly detached you will feel more intensely than others because you will not have allowed your Expectation, positive or negative, to constrict the event you actually experience.'*

***'The 42nd Siddhi is about the transcendence of death. These are the sages who teach humanity about the illusion of death. They do not teach us through knowledge but through their attitude. This is a state beyond Detachment. The transition from the Shadow to the Siddhi, from Expectation to Celebration, does not occur within time. Whilst our physical form may decay and 'die' the essence of our consciousness is timeless, fluid, playful, and unpredictable.'***

*'Eventually, there must be a complete letting go. This is what initiation calls out of us, and there are levels of endings as well. The Codon Ring of Living and Dying contains the codes to unpick the mystery of how and when the Spiritual Essence, the Soul, enters and leaves the form, the maya, the body.'*

*'It is funny that we generally only celebrate things at the beginning or the end. We don't usually celebrate something in the middle, but this Siddhi is about celebrating in the middle. It is about every moment becoming a Celebration.'*

Eris adds an extra dimension to this Gene Key, as she lies within Galactic Consciousness, and as such is bringing in an intensified Light and frequency to interact with Pluto in bringing in heightened awareness that encourages evolutionary awakening.

Pluto, the planet of Transmutation and Transformation, remains on Gene Key 60, known as **The Cracking of the Vessel** and, as shared last month, all of us on planet Earth, right now, are passing through the Shadow energies of **Limitation** until December 2025. In many ways, it is like being put through the finest of Cosmic sieves to release old negative beliefs, and entrenched memories that no longer serve, and cannot be carried forward. During this period, we have the potential to transmute this energy into the higher resonances of the Gift of **Realism** and the Siddhi of **Justice**.

***'This Shadow of Limitation represents one of the most potent forces responsible for pulling humankind in the opposite direction of evolution. It is the counterweight of Life itself – the main reason for the death of magic is closed-circuit thinking, where the mind follows familiar patterns or systems of thought around and around without the ability to think beyond them.'***

***'As we begin to see that we're more than we allow ourselves to often believe, then that frequency, that vibration of possibility, begins to activate something inside us. It is communicated to our DNA and we begin to open.'***

***'There is great capacity for magic in this Gene Key which may sound odd as it is called the Gift of Realism. However, the only thing needed for magic to occur is some form of a structure and an open mind! Common sense/Realism is not in opposition to magic. It is common sense to remain open-minded to everything in the Universe because everything has at its core the same wondrous inner Light.'***

***'Justice is not about retribution, it is a reward. It is given as Grace, not taken as punishment, and when it is given, freedom flows from it. It is not an imposition or a limitation. The 60th Siddhi holds an apt description of what happens when a human being becomes fully realised. At a certain point, our hearts open to our true Innocence and we begin to unlock other codes in our DNA that are ancestral rather than personal and we begin to transmute more global karma. Every time a being attains enlightenment through the 60th Siddhi, magic comes pouring through this Being and they become a phenomenon, a symbol of the breaking of form – Masters who have attained the Body of Light.'***

The second 'T' Square has Mercury ♀ opposite to Sedna ♃ both square to Saturn ♄. Mercury links to the mind, to our thoughts and communication, which when not coming from the balanced left and right hemispheres of the brain 'tends to make human beings know that they are right, which firmly closes the door on their being open to the views of others.' As such, at the Shadow level, the mind is the antipathy of Wisdom. Mercury, which activates the gift of thought and speech requires that we learn to share what comes 'to mind' through the alignment of Soul (Half Circle) and Spirit (Circle) into our physical awareness (Cross of Matter).

Mercury is on Gene Key 34 which moves through the Shadow of **Force** the Gift of **Strength** and the Siddhi of **Majesty**.

***'The 34th Shadow concerns the notion of individual human power. It represents an ancient part of our genetic matrix that is primarily based on individual survival – the survival of the fittest. This primal power has its roots deep within our genetic past – the reign of the dinosaurs is an archetype of the power lying within the 34th Gene Key. Despite our burgeoning intelligence, the 34th Shadow still lies within us as the urge to use Force to make things happen in life and it can be highly destructive when influenced by low frequency vibration.'***

***'When the 34th Shadow gives way to the 34th Gift a truly beautiful archetype emerges – human Strength. What is fascinating about the connection between the Shadow and the Gift is the incredibly fine line between these two activations of the same essential energy code. The difference between the Shadow of Force and the Gift of Strength is both miniscule and enormous.'***

***'The Gift employs the same terrific primal vitality, but unlike the Shadow it does so through appropriate activities and correct timing. The result is a creative manifestation of aligned life force. We are not just talking about physical strength here, but the ability to act in harmony with natural forces.'***

***'It is through the 34th Siddhi that we get the idea of man as a God. The great paradox is that if Gods were to assume the shape of humans they would never know they were Gods. This is the true meaning of this 34th Siddhi - the Divine Essence of creation can only move freely through the body when the identity has ceased to exist.'***

***'Once you have entered the Siddhic frequency all fear is purged from your system and the pure awareness of your body's physical intelligence is revealed. It is as though the entire Universe were moving through your body. In the Ring of Destiny, the epiphany of the Higher Planes encounters and infuses the Majesty of the body on the lower planes. The result is pure fusion as Spirit enters Matter and imbues it with Divinity.'***

And Sedna, through her orbital path of 11,400 years is coming to perihelion, her closest approach to the Sun, is in 2076. The last time she was so close to the Sun was back in 9600 – 9000 BC according to Plato. Each time she returns to this close proximity to the Sun she gathers up all that has been created within the consciousness field over the 11,400 year evolutionary cycle, taking the Quintessence and streaming it into the highest potential for the next 11,400 years.

Sedna is on Gene Key 8 known as ***The Diamond of the Self*** moving through the Shadow of ***Mediocrity*** to the Gift of ***Style*** to the Siddhi of ***Exquisiteness***.

***'The 8th Shadow prevents individuals from rising out of the mass consciousness and exploring the real adventure of Life. A Life of playing it safe to make yourself and others feel comfortable which supports Mediocrity and Compromise.... At every turn this Shadow prevents you from breathing the cool fresh air of your true unbounded nature. It stops you from being a free thinker keeping you in a loop of unimaginative, compromised, and conformist thinking.'***

***'To break out of the heavyweight frequency of the 8th Shadow you have to take an exciting leap of faith in yourself. The Gift of Style has little to do with our popular interpretation of this word – it has more to do with following your own unique, rebellious spirit out into the world. True Style takes great joy in shattering the grey world of mediocrity that is considered the norm. Where Style is more than skin deep, it is the cutting edge of creation itself. The individual surrenders the self to a creative process that controls the individual rather than the individual controlling the process.'***

***'This Gift is wild, organic, and unpredictable energy full of genius and quantum leaps. Such is the power of genius, for it carries within it more than just a new concept – it carries intent from a higher realm that is far beyond the individual through whom it manifests. Their only concern is to free more free thinkers – thus such people inherit a powerful mission in the world.'***

***'The 8th Siddhi of Exquisiteness is the natural revelation and manifestation of all the Siddhic states. People of the 8th Siddhi are not leaders. They are examples.... Exquisiteness is experienced when the Divine Essence begins to shine through the individual. In this state of bliss you fall in love with your own pristine manifestation because it is through this uniqueness that the Divine currents can be accessed. This is the stage at which you achieve transcendence of your genetics.'***

***'There is an inner Light and Wisdom that has a powerful and liberating effect on others... Their legacy to the world is to dismantle all concepts of how one should live or what one needs to do in order to attain any particular state. They sparkle like exquisite rare jewels. They shine like a diamond in the heart of creation and wherever they look, they see other diamonds in various states of clarity – each one unique, each one exquisite and incomparable.'***

And, finally, Saturn, which is the Gateway to higher transpersonal consciousness, is the planet of Balance and Temperance. These qualities underpin both Karma and Initiation. Saturn in Pisces, when expressing through an individual's Soul awareness **'is able to uncover many of the hidden, subconscious problems and fears that plague humanity and, once uncovered, destroy, transmute and restructure them.'** Alan Oken

Saturn remains on Gene Key 55, moving from the Shadow of **Victimhood** to the Gift and Siddhi of **Freedom**.

*'The 55th Gene Key holds the key to our liberation and Freedom. **Our DNA holds our greater Self – the Cosmic part of each of us that transcends our mortal body that has lain secretly hidden inside humanity for aeons.** The 55th Gene Key allows us to contemplate and to quicken the actual process of awakening.*

*'As we begin the process of transcending our Shadows, miracles can occur in our lives. Much of the 55th Gene Key concerns the future of our species as it moves through the Great Change. Down the centuries much has been written, spoken, and taught concerning the nature of higher consciousness. We are now entering an era in which more and more people will have direct access to an experience of true higher consciousness. **There will be a genetic mutation that will slowly colonise our species. The old human will literally be bred out of humanity.'***

*'The Transformational way through the 55th Gene Key, is one of letting go. **We have to let go of all agendas, hidden or otherwise.** We carry a lot of hidden agendas, all aimed at validating our separate existence. The early shattering of the sense of separateness will take place through intimate relationships.'*

*'When the first relationships experience dual enlightenment, we will know that the deepest wound of all has been finally healed. **The wound symbolised by the fall of Adam and Eve.** These Sacred Marriages will have an unbelievable energy field around them – they will naturally rise in Love from a position of Pure and Divine Union – both sharing the same auric field.'*

*'We stand on the cusp of a Siddhic supernova – the incarnation of the Divine Feminine spirit. The end result of this inflowing of the Divine Feminine will result in the purification of all the fractal lines throughout humanity, **resulting in a burning up of the collective karma in our DNA and the eventual eradication of all disease on the physical plane.'***

These are the potentials that are flowing through the different levels of humanity's consciousness at the time of the New Moon. As for all New Moons, it is a time to lay the seed for the upcoming Lunar cycle, which so impresses upon our subconscious memories.

So, let this be a time when we open our hearts to the highest potentials and witness any thoughts that may interfere with this intent, simply letting go of any and all negative imprints, to create a **Breakthrough** where **Compassion, Bounteousness, Harmony** and **Veneration** for all Life is the **Quintessence** that underpins the **Insight** and **Epiphany** held at the time of this New Moon.

*All Love and Blessings*
