

Cosmic Overview

Scorpio New Moon 2024

No mud, no Lotus

Thich Naht Hanh

If you feel lost, disappointed, hesitant, or weak, return to yourself, to who you are, here and now, and when you get there, you will discover yourself, like a Lotus flower in full bloom, even in a muddy pond, beautiful and strong.

Masaru Emoto

'I AM' The Light of Day Where Three Lights Meet

The New Moon in Scorpio will take place on the 1st of November. Once again we are passing through the Light of the Constellation of Scorpio. It is in Scorpio that we confront the legacy of accrued collective and personal karma.

Pluto rules the sign of Scorpio and for the last sixteen years Pluto has been passing through the zodiacal sign of Capricorn, and will finally leave this constellation on November 19th not to return for another 248 years. This whole period has thrown a light on control, 'governmental' authority and giving away our individual sovereignty, and how to witness what is not in humanity's best interests. When Pluto moves into Aquarius there will be an innate shift within the consciousness that will naturally seek more consensus-based, Heart ways of operating.

Both Scorpio and Pluto link to the archetypal energy of power, how it is utilized, and how there is a tendency for non-transparency. The Zodiacal Constellation of Scorpio, held within the *4th Ray of Harmony through Conflict*, fuels the impulse for change, for regeneration. This is the Ray that assists humanity to grow beyond the ingrained patterns of the past. It is in Scorpio that the Fixed Water Element, that underpins our emotional response, can become stuck within the psyche – all the dramas that result from this intensification of emotional patterning is how karma is created, and recycled, not just in this present life, but over generations and generations of lifetimes.

These struggles are fuelled by Pluto and Mars, both the planetary rulers of Scorpio, which impulse the 1st and 6th Rays of *Willpower and Devotion*. Mars links to personal will and Pluto to Divine Will and this focus on will, from a human perspective, can create such fundamental, intransigent, fixed beliefs which result in so much conflict and power struggle – the push pull of Society. The 4th Ray has underpinned the release of humanity's dramas and struggles over eons of time, evolving and refining the darkest of energies into a rebirth of higher consciousness - polishing the lead into gold – as we remember we are all interconnected, returning to the Light within.

It is the 4th Ray that underpins the tests that we all undergo on this evolutionary journey, no one is exempt, as we move beyond a sense of 'me' to a realisation of our true Self.

In the stripping away of the 'me' the 4th Ray brings to the surface all that is held and hidden within the subconscious that creates the conflicts, so that Pluto may transform and release the mind into a higher state of Universal consciousness.

Both Pluto and the Constellation of Scorpio are purifying agents that are pre-eminent in the fusion of the Soul personality, breaking down the limited identity through the 1st Ray of Pluto, to reveal the Soul-self. Ultimately the essential Unity of the lower and Higher Selves is achieved and the True Self is revealed as Pure and Radiant, a Powerful, Magnetic, Healing Source of Presence.

Chart for the Scorpio New Moon 2024

The New Moon 1st November 2024 12:47 pm UT London UK
<https://www.timeanddate.com/moon/phases/>

This is the chart for the New Moon this month – you will see that it is a very connected and full Chart - there is a Cardinal Grand Cross (*red lines*), three Kites (*blue lines*) and a Yod (*green lines*).

If we begin with the Grand Cross, Pluto ♇ is opposite to Mars ♂ in the last degrees of Capricorn and Cancer. The last degree of any sign known as the ‘anaretic’ degree brings an intensity and a sense of finality, the culmination and outcome of the collective consciousness.

The position of Mars opposite to Pluto, the rulers of Scorpio, already holds a definite charge, a sense of tension and harnessed power and they are pivotal in this chart as they also feed into the three Grand Trines held within this moment in time. So, this is a truly transformational New Moon and will in many ways demonstrate how we perceive and utilise Power - is it from ego or from higher awareness – is the central question for this whole period.

At the time of the New Moon Pluto remains, as has been shared before, until January 2025, on Gene Key 60 known as the **Cracking of the Vessel** moving through the Shadow of **Limitation** to the Gift of **Realism** and on to the Siddhi of **Justice**.

*‘As we begin to see that we are more than we allow ourselves to often believe, then that frequency, that vibration of possibility, begins to activate something inside us. **It is communicated to our DNA and we begin to open.** There is great capacity for magic in this 60th Gene Key which may sound odd as it is called the Gift of Realism.’*

'Common sense/Realism is not in opposition to magic. It is common sense to remain open-minded to everything in the Universe because everything has at its core the same wondrous inner Light. The Siddhi of Justice is not about retribution, it is a reward. It is given as Grace, not taken as punishment, and when it is given, freedom flows from it.'

'It is not an imposition or a limitation. The 60th Siddhi holds an apt description of what happens when a human being becomes fully realised. At a certain point, our hearts open to our true Innocence and we begin to unlock other codes in our DNA that are ancestral rather than personal and we begin to transmute more global karma.'

'The more our Being opens the more we are given. We may recall this Gene Key is part of the Ring of Gaia and it holds the karma of Gaia. When we are ready for that we get to be an agent of Divine Justice. We take on the sins of our fractal, our fractal being the ancestral lineage we are born into. All this is in the DNA and all those acts that came out of fear down the ages are stored as memory imprints, in our DNA which we agree to transmute on behalf of the whole. Every time a being attains enlightenment through the 60th Siddhi, magic comes pouring through this Being and they become a phenomenon, a symbol of the breaking of form – Masters who have attained the Body of Light.'

It is in the forgetting of who we are that the Shadow takes hold and endures through generations and it is where Mars is at the time of the New Moon, on Gene Key 56, known as ***Divine Indulgence*** evolving through the Shadow of ***Distraction*** to the Gift of ***Enrichment*** to the Siddhi of ***Intoxication***, that this forgetfulness is seeded.

'The 56th Gene Key represents one of the three 'Stop Codons, genetic markers that define the endings of chains of genes throughout our body. The Stop Codons are special and operate differently from all the other Gene Keys. The 56th Gene Key shows how we forget, how we become distracted. We become distracted by the many traps and snares of the world, by the cycles of seeking through pleasure and pain.'

'This outer world of the senses distracts us from our inner world of feelings and the reality of higher realms. Inner distraction, however, operates when we become so inwardly focused that we forget the outer world – we live in a fantasy world with no real anchor in the material world.'

'As with all the Gifts of the 64 Gene Keys, Enrichment pulls you out of the shadows and into the light of the higher frequencies. Enrichment is what life is all about. Distraction is fine, but only as long as it enriches us. Those with the 56th Gift have learned the difference between what feeds the human spirit and what saps it – they have learnt the art of self-discipline and they know how to get the most out of life.'

'The 56th Gift has an alchemical flavour to it. Therefore the 56th Gift will take in all manner of low frequency waves because it knows how to transmute their energy into joy and purpose. The 56th Gift knows a great truth – true enjoyment is rooted inside your being rather than in the external. It is about appreciation and gratitude – the more grateful you are for every moment the more the moment comes alive for you.'

'One of the wonderful traits of those with this Gift is that they enrich others through what they have learned in life. At these higher levels this 56th Gift of Enrichment is a Gift of Love, for the more you enrich the lives of others the more this Gift pours through your heart.'

'People immersed in this Siddhi have taken the Gift of Enrichment to its ultimate zenith – they have allowed themselves to be pierced over and over again by the highest frequencies of Love. Unlike the lower manifestations of love, which are about chasing Cupid's infamous arrows in the external world, the 56th

*Siddhi finds the source of the toxin itself – your own superabundant heart. **Intoxication is about being swallowed up by your own Love.** If you have this Siddhi in your hologenetic profile your life is supposed to teach you about this Love through the world and its suffering.'*

'Suffering is the toxin you are here to use to become intoxicated. You will stop trying to direct life and your entire consciousness will shift – you will see that at this level, every single thing in life can be enriching.'

'This is the task of the 56th Siddhi - to transmute the toxins of the world, to extract their pure essence. There is purity in everything at its root, God's breath is to be found everywhere, suffused with Creation.'

Completing the Cardinal Grand Cross Juno ♄ and Astrea ♆ are opposite to Eris ♁ and Hygiea ♀. Juno, Astrea and Hygiea orbit through the asteroid belt between Mars and Jupiter and Dwarf Planet Eris lies beyond Pluto, out in deep space, in Galactic Consciousness.

Both Juno and Astrea speak of a balance between mind and heart and a return to a Golden Age, a time of innocence, before we all became so mentally 'left' brained focussed.

Hygiea is the fourth largest asteroid in the Asteroid Belt, and according to Greek myth, was a daughter of Asclepius, the God of Medicine. As one of five sisters representing aspects of health and healing, Hygieia's domain was preventative medicine: how to care for our physical and mental bodies to avoid illness, as opposed to curing illness once contracted. Although worshiped for centuries by the Greeks, Hygieia is not often portrayed, but Gustav Klimt's painting, 'Medicine' depicting Hygieia hangs in the Museum of Vienna.

Eris links to how we utilise our minds to compare and to contrast and how we project our thoughts and beliefs onto others. To enter into Galactic Consciousness this egoic comparison needs to cease. In truth our mental ability is a great gift, but when coming from insecurity and fear we end up dividing 'others' into 'good' or 'bad', which we can see playing out across the planet, especially in the realm of politics, breeding disharmony and conflict.

Juno is activating Gene Key 50 known as **Cosmic Order** having the Shadow of **Corruption**, the Gift of **Equilibrium** and the Siddhi of **Harmony**.

'The 50th Shadow is the Shadow of Corruption. More often than not we think of political and social corruption, where those in positions of authority misuse and abuse their power for the purpose of personal gain. In examining the 50th Shadow, however, we need to also consider the word Corruption in another context – that of data corruption. At the Shadow frequency, data that is processed by the human brain is translated through the medium of fear. As this occurs the data is corrupted, leading to a slanted manifestation in the world.'

'In genetics, this 50th Shadow has much to do with the way in which RNA copies DNA. RNA is a chemical substance similar to DNA whose role is to transcribe aspects of your genetic code in order that new proteins can be formed. In other words RNA is a messenger that reads and copies the instructions for life. In the process known as transcription messages can be misinterpreted before they are translated. This is exactly what occurs within human society – fear causes misinterpretation, leading to reaction and counter-reaction – resulting in Chaos, Gene Key 3, which is the partner to Gene Key 50.'

'The 50th Gene Key and programming partner the 3rd Gene Key are intimately connected in the cellular health of each of us – the 3rd Gene Key governs individual cell mutation and the 50th Gene Key holds the genetic blueprint for Equilibrium and wellbeing.'

'Here in the 50th Gift is found the inner fulcrum upon which balances the quality of our cells, our lives and our future possibility for world peace. As the Gift of Equilibrium, this 50th Gift holds the key to deep inner peace. Those who carry the 50th Gift as a Prime Gene Key have the innate ability to create harmony in a group without even thinking about it.'

'Their true power is rooted in the high frequency that moves through their aura. This high frequency is created through honesty in which all hidden agendas are laid on the table. Without this no Equilibrium can ever be reached.'

'By trusting the individual to take responsibility for his/her own contribution to the group, a very powerful energy field builds within that group.'

'Herein lies the great secret to humanity's future collective harmony – it can only be achieved through individual freedom and trust in the self-organising intelligence that emerges from that freedom.'

Astraea on Gene Key 32 known as **Ancestral Reverence** is moving through the Shadow of **Failure** to the Gift of **Preservation** to the Siddhi of **Veneration**.

'One of the greatest fears for humanity is found in this shadow – the fear of Failure. This fear has a deep biological root since it is built into your very DNA. Our earliest ancestors had exactly the same fears as we do today, even though they may have manifested differently. Our individual fear of Failure is rooted in the collective fear of Failure to survive as a species. Our collective fear of survival is almost entirely projected onto the amount of money we have.'

'The 32nd Shadow drives our modern society and keeps humans operating at a low level of frequency by means of this fear. Although the fear of this Shadow has its roots deep within the human immune system, it is the mind that reacts to it and feeds of it. If you are not aware of the power of your mind, then your mind will run your life which means fear will run your life. To raise the Consciousness of the mind is to escape the grip of all fear – this does not mean that fear will disappear, but at that frequency you will no longer react to it.'

'The 32 Gift is not about self-preservation but is about the Preservation of Life. The secret of this Gift is the instinctive ability to balance restraint (what to keep alive) and risk (what to change). The 32nd Gift has the ability to assess the past, weeding out weaknesses and building upon strengths.'

'As we move into the 32nd Gift as a species, we will once again return to Nature. Nature represents the old rootstock. Its very wildness is its strength and we, humanity are the vibrant young shoot with its dreams of transcendence. As we rise above the fear and move beyond the selfish tendencies found in the Shadow frequency we become defenders and preservers of our Earth. As we learn once again to honour where we have come from, the Earth will teach us how to move in harmony with its natural rhythms and cycles. As we listen to the great wisdom of our ancestors and of the indigenous tribal cultures, we will once again find our correct inner spirit. Once we have this as our anchor, we can graft our modern technologies onto the old Wisdom and the result will be truly transcendent'

'To attain a Siddhic state presupposes that fear has been entirely transcended. Each of the 64 Gene Keys is essentially a process in which fear or anger is progressively transformed by being put to use in the service of the totality. At a certain point, however the ancient genetic fears can be transcended altogether.'

'The 32nd Siddhi is the state of Veneration. It is all that remains when fear has burned away. Veneration is the state that occurs when you see and know your place within the great Living chain of Life.'

'Veneration is about being on a spiral ladder. You stand on the shoulders of those who have come before you and you allow those who will go beyond you to stand upon your shoulders in turn.'

'What you venerate is the chain itself as well as all the beings above and below you. You realise that even the humblest insect is allowing you to stand upon the shoulders of its consciousness. This gives rise to a fathomless feeling of reverence for all sentient life. Veneration is rooted in respect, reverence and gratitude for all aspects and forms of the One Consciousness behind Creation.'

'The more you contemplate the 32nd Siddhi the more Veneration and reverence you will inevitably feel for all Life – you will begin to smell the perfume of Divine Consciousness in all forms of Life. Eventually, no matter what is before you, all you will see is the Self, the Atman, the Divine Being, perfectly playing and weaving and evolving right before your very eyes.'

Eris on Gene Key 42 known as **Letting Go of Living and Dying** moving through the Shadow of **Expectation** to the Gift of **Detachment** to the Siddhi of **Celebration**.

'The 42nd Shadow is actually one of the Shadows at the source of all human mental fear because the 42nd Shadow concerns death. The notion of time and our response or reaction to its passing is rooted profoundly in this key. It links to the seventh-year cellular regeneration cycle in that every seven years something must die for the new cycle to begin.'

'True detachment is the ability to allow and accept life as it comes. Detachment does not mean to not feel. In fact, if you are truly detached you will feel more intensely than others because you will not have allowed your Expectation, positive or negative, to constrict the event you actually experience. Detachment presupposes a great love and trust in Life.'

'The 42nd Gift of Detachment births the process of letting go of control over your life, physically, mentally, and emotionally. It is a wonderful letting go that travels deeper and deeper into your DNA as you gradually allow your Expectations of life to fall into the background. The Gift of Detachment represents the separating out process between the emotions and the mind and it takes place naturally as the frequency rises within the cells. With Detachment comes both understanding and healing.'

'The 42nd Siddhi is about the transcendence of death. These are the sages who teach humanity about the illusion of death. They do not teach us through knowledge but through their attitude. This is a state beyond Detachment. The transition from the Shadow to the Siddhi, from Expectation to Celebration, does not occur within time. Whilst our physical form may decay and 'die' the essence of our consciousness is timeless, fluid, playful, and unpredictable. The DNA helix uses human forms to continually reshape and reinvent itself. It is like some Cosmic serpent that endlessly keeps shedding its skin and our bodies/forms are those skins.'

'When someone has entered the doorway of death deeply enough within themselves they discover the pure Maya of life – the illusion that we are born and we die – and as this great truth begins to permeate them, from the inside out, it literally kills off every aspect of their own identification with what they are.'

'Imagine, for a moment, your body without any fears – to live permanently without fear. We can close our eyes for a moment and conjure up what that might feel like, what that blissfulness feels like. We can touch the ecstatic realms, where the mind lets go and thinking comes to an end. And when thoughts do come, they are the thoughts of God, so they only engender more bliss. We become like a child again and life becomes Heaven on Earth.'

'Siddhis sometimes bring superpowers! The body can be made to live to a great age. The cells of the body can be transfigured back into their quintessence and literally cause us to ascend. The 42nd Gene Key is about letting go at so many levels. As the Maya, the Grand Illusion of life and death is shattered, eternity lies before us. Higher realms and evolutions beckon.'

Hygiea, on Gene Key 3, completes the Cardinal Grand Cross. Gene Key 3 is known as **Through the Eyes of a Child** moving through the Shadow of **Chaos** to the Gift of **Innovation** to the Siddhi of **Innocence**.

*'The 3rd Shadow lies at the core of all our beliefs that the human individual is basically powerless in comparison to nature or the infinite. **Individuals working from the Shadow of the 3rd Gene Key are trapped in a 'separation' consciousness by their own thoughts – thoughts that are coming from a primitive and defensive level.** This 'separation' consciousness creates Chaos by resisting the very changes that are required in order to survive and thrive.'*

*'In effect you are only trapped by your own thinking – the wider you open yourself to the chasm that lies ahead of you the more you will realise that there never was any Chaos, and the greatest magic is revealed to you – **that in Chaos, there is, and always has been, a vast underlying transformative order.**'*

*'The essence of the evolutionary impulse is this – in order to survive, life must embrace change. **It must adapt and innovate.** Everything in the Universe is spinning. All the spheres, all the stars, every photon, every cell, every atom, they all have a whirlpool at their core. **Life breathes change into its lungs, and exhales Innovation.**'*

*'The Gift of Innovation is far more exciting than simply being creative. **It implies that you have permanently escaped the fear-based perspective of the Shadow frequency.**'*

*'**Innovation also requires a deep sense of inner trust.** In order to be truly innovative you have to attain a very high frequency that allows you to go beyond the collective worldview. All preconceived notions, dogmas, or beliefs must be discarded when they no longer serve the developing synthesis. **The Gift of Innovation requires you to become as open-hearted and open-minded as a child.**'*

'At the absolute zenith of its frequency, the 3rd Siddhi is about Innocence. This Siddhi reminds us that all of life, and that includes human beings, is essentially innocent. Life is Innocent, we are Life and therefore we are Innocent.'

*'**One day humanity will evolve towards its awesome final destiny of Global and Celestial harmony.** As the 3rd Siddhi comes into the world, which it will do very shortly, a great remembering of our Innocence will emerge in humanity because the first vessels of the new human destiny will all be children. We are all really children – children of the Cosmos and our only real job is to let go of our seriousness and find the delight in every exquisite jewel that life places before us.'*

*'**One day when the human we see now is a relic of the past we will look back at this time through the 3rd Siddhi and wonder to ourselves why we became so serious during this period of time.** Play and experimentation is the expression of genius and genius always finds a new solution to the challenges it meets along the way. **The human brain was not designed to grasp insights as profound as these.**'*

*'The certainty of order within the Universe is a feeling that can only be captured by a more advanced system of awareness in human beings that our mystics have called by many names. **Above all it is equated with the human heart and the feeling of Love and Unity that lies between all creatures.**'*

The North  and South Nodes  Vesta  Mercury  Neptune  and Uranus  form the three Kites that flow through the Fixed Cardinal Grand Cross.

The South Node links to the past, to the Group Collective consciousness, that needs to be integrated - with Vesta conjunct the South Node we are being encouraged to transmute, release, and to lift the resonance of past ages into higher frequencies of Light.

Vesta is on Gene Key 46 known as a **Science of Luck** moving through the Shadow of **Seriousness** to the Gift of **Delight** to the Siddhi of **Ecstasy**.

'Seriousness is the most widespread of all the diseases on the planet. When you live your life from this Shadow you carry a black cloud over your head. It always seems to rain when you don't want it to because you are out of synchronisation with the whole. You create obstacles for yourself when you become too focused either on the future or on the past. Seriousness is about worrying or expecting or wishing life to be other than it is.'

'To escape the low frequency of Seriousness, it takes a single, simple quality – Acceptance. Acceptance is the programming partner of the 46th Gift of Delight. Delight is the sense of freedom that emerges from an appreciation of the richness of being alive. This Gift is about feeling alive within the realm of matter.'

'The 46th Gene Key also contains the germ of material success and failure. This much sought after secret is founded upon the principle of synchronicity – the Law that binds together all free-moving objects in space and time. Free-moving in this context means accepting. When you move through life with an attitude of Delight and openness, whatever happens is correct.'

'If your attitude remains open and accepting you will see that the Universe is at work in you. Synchronicity is an energy field available to all with or without the 46th Gene Key in their profile. The only prerequisite for tapping into synchronicity is this Delight.'

'Ecstasy is the highest frequency of the 46th Gene Key and it occurs only through the heart. It is in fact the true nature of Humanity. There is actually no work more important on this Earth than play. When we become truly playful we reshape the nature of our Collective reality. Ecstasy is not a word that most people consider when they think of themselves and their lives. Yet it is this block at the mental level that keeps us at a frequency far from Ecstasy.'

'If you can open your heart to receive the frequencies they represent, the frequencies will begin to seek you out, for Siddhic states are all a matter of magnetism. People who manifest this Siddhi cannot go unnoticed in the world. The Love that swirls around them is so tangible that it can even be felt by people of the densest frequency.'

'It is not that this 46th Siddhi is any more powerful than any other Siddhi, but that this manifestation of Divine consciousness is so close to the physical realm and it emerges through the physical body. Matter is penetrated completely by the Spirit. Such men and women – the ecstatics – have not always found it necessary to remove themselves from the world, but have found their love within the world of ordinary life.'

Luck is what happens
when you stop
interfering with Life

'Ecstasy comes in waves, in orgasms that travel through the Universal quantum field in which we live. The more people who experience such orgasmic energy coming through their higher bodies the more our planet will be transformed.'

The South Node holds the belief patterns and behaviours of the Collective, and is on Gene Key 18 known as **The Healing Power of the Mind** moving through the Shadow of **Judgement**, to the Gift of **Integrity** to the Siddhi of **Perfection**.

'The 18th Shadow begins in your childhood and it gives rise to a collective phenomenon in the world known as the 'victim mind'. This victim mind is a conglomeration of all the judgemental, undermining thought patterns, throughout the world.'

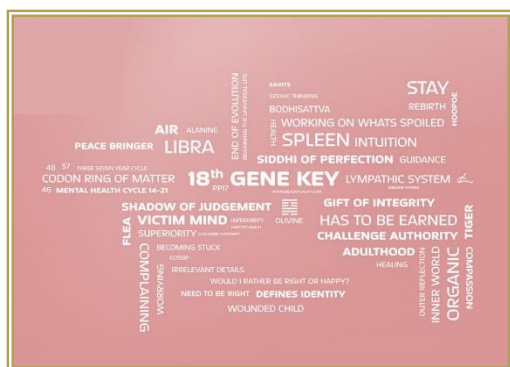

'The world of the victim mind is an inner world of gossip, complaining and worrying. All of which create a negative frequency in the human aura.'

*'The key to raising this level of frequency is to realise that everything external in your life is a mirror of an internal process seeking resolution. **As you move beyond the victim mind – your frequency rises and your external and internal life reflect these changes.***

*'This Gene Key is about the physical, emotional and mental boundaries that we meet in our life. Because we are biologically imprinted in seven-year cycles, it is possible to say that we have not fully incarnated into our lives until the age of 21. **The 18th Gene Key will continually bring you back to any recurring issues rooted in your childhood.** The third seven-year cycle is governed by the 18th Gene Key – it represents the last chance parents have to help their child reach true adulthood. **The 18th Gene Key thus determines whether a child enters adulthood as an integrated adult or as a wounded child posing as an adult.'***

*'In understanding what made you the way you are you are able to release what does not serve you and equally you can assist others to release their conditioning. When you are free from the trap of the victim mind then Judgement becomes Integrity. **Integrity uses Judgement in an objective and impersonal way.** This is the Gift of the 18th Gene Key - not to use or take Judgement personally, but to learn to judge from the heart. **Judging from the heart is never cruel because Integrity has only one purpose - to serve the whole in the spirit of truth and compassion assisting other to step out of the victim mind.'***

*'Someone demonstrating the 18th Siddhi is above the victim mind – when they look at someone, even someone who appears genuinely evil, they will only see the Higher Self hidden in that person. By holding this high thought frequency they influence hidden currents of energy that raise the frequency of others. **This is called Siddhic thinking and it involves thinking with the heart.** We become a witness to our mind and then our mind lets go and sinks back into the primordial source of being. Experiencing Perfection, every thought arises spontaneously out of the Perfection.*

*'Emotionally it is similar in that emotion as we know it ceases, because detachment has saturated the inner life. **Eventually, all emotional patterns rooted in the past, or the mind, or desire, also fall back into the root of emotion – the still lake of Being.** The emotions that do arise tend to be higher emotions – ecstatic feelings, which are not feelings at all. **They are waves of Bliss imbued with Wisdom.'***

*'The 18th Siddhi is the source of the tradition of the Bodhisattva Vow. The Bodhisattva Gene Keys keep returning to the planet as individual human beings whose sole purpose is to build this collective vision of Perfection on the material plane. **As we will all one day see, the end of this story also happens to be the beginning of our Universal Life.'***

And the North Node, which will manifest in the outer world, according to our level of Consciousness, both individually and collectively, is on Gene Key 17 known as **The Eye** moving through the Shadow of **Opinion** to the Gift of **Far-Sightedness** to the Siddhi of **Omniscience**.

*'As we look at the pairing of the 17th and 18th Shadows, we see two of humanity's greatest mental gifts and dilemmas the 17th Gene Key Shadow of Opinion and the 18th Shadow of Judgment. **These two qualities epitomise the logical left hemisphere of the human brain.** At the Shadow level this creates nothing but division because the mind is based on seeing and challenging narrow aspects of the whole, rather than the whole itself. **The 17th Shadow seeks an answer to its unease through the mind, whose nature is to project itself out on the world.***

*'In other words, the Shadow of Opinion is programmed to look for flaws in the outer world, in society, in people and even in oneself. **When a flaw is discovered it becomes the seed for an entire worldview and a whole story is built up inside the mind of that individual.** The projected flaw, which is always based on some form of comparison, becomes the point of focus for all that dissatisfied energy coming through the 18th Shadow.'*

'This Gift has a purpose and that is to understand the minute mechanics of life as well as seeing the whole picture. The true purpose of the 17th Gift is to uphold Integrity, by challenging all misrepresentations of truth in the world. The very quality that leads to narrowmindedness at the Shadow frequency has a mission to create open-mindedness at the Gift frequency'

'Once freed from the Shadow frequencies of mass consciousness the 17th Gift has the ability to see higher dimensions and realities - looking ahead to the future and linking one phase of evolution to another. It is working with the Gift frequency that the process known as the opening of the third eye begins.'

'This Gift brings access to a whole new inner language that circumvents the need for one sided, dualistic expression. Thus, Far-Sightedness can be said to arise directly out of the heart rather than from the mind. Through the 17th Siddhi of Omniscience the human mind will finally see the perfection and beauty of our oneness with all of existence and through the 18th Siddhi of Perfection we will actually bring that vision into full manifestation. The 17th Siddhi directly corresponds to the open 3rd eye. Where seeing and the seen are one. A single eye through which consciousness pours and where past present and future are a single eternal screen of consciousness. These are the true seers and oracles. At the level of the 17th Siddhi consciousness sees through you rather than you seeing through it.'

'When the 17th Siddhi comes into the world it comes like a Divine afterthought. It is one of the seven powers of Grace. It is where the body becomes an instrument for consciousness and there are no borders, levels, opinions or past lives, for the Siddhic level sees an endless fractal pattern of life – repeating over and over – the same but always new – the serpent eating its own tail. This is a Siddhi that sees and knows only Perfection.'

'The deepest irony of all life is caught in one famous mystic's words: 'God can only come and visit you when you aren't there' or put another way, if you want to know what Omniscience looks like, you, the personality, have to cease to exist.'

Neptune, the planetary ruler of Pisces, you will see is on the North Node at this time. Pisces has been the over lighting Constellation for these last two thousand one hundred and fifty years, as we journey through the twenty-five thousand nine hundred cycle of the Precession of the Ecliptic.

In many ways, Compassion/Unconditional Love, the qualities of Neptune, are being put to the test to see if these last two thousand years have developed this innate essence within sufficient numbers to move us beyond the Shadows of Judgement and Opinion, as entrenched discordant divisions arise within the Collective.

Neptune is on Gene Key 36 known as **Becoming Human** evolving through the Shadow of **Turbulence** to the Gift of **Humanity** to the Siddhi of **Compassion**.

'Each Shadow provides a mythic challenge for humanity to move through. The 36th Shadow is an emotional battle that must be fought by every individual at certain times during their life. The 36th Shadow is the Dark Night of the Soul. It is an archetype within humanity that pulls us towards the unknown and that draws the unknown to us. It draws crisis towards itself like a magnet.'

'The potential suffering that exists on account of this Gene Key, is part of a genetic family known as the Ring of Divinity. This is a beautiful revelation, as each of the four Shadows of the Ring of Divinity, Dishonour GK22, Turbulence GK36, Weakness GK37 and Doubt GK63, has the potential to awaken the highest consciousness inside you. This codon group in many respects is deeply connected to the true meaning of Christ Consciousness.'

*'The Gift of Humanity truly understands emotions and consequently understands all people. This is a Gift that can only be earned. These are people who have looked deeply into their own Shadows and who have grappled with the challenges of their sexuality and emotions. **At this level, these people are no longer overwhelmed by emotions as they tend to be at the Shadow level but have opened and expanded themselves to life through harsh experience.** As a living transmission, the 36th Gift carries a great teaching into the world – the celebration of Humanity. This Gift contains a natural spirituality – it is one of the most grounded of all the Gene Keys.'*

*'It is a bridge for the higher bodies of humanity to move down into the lower planes and transform them. It conveys the image of Christ descending into hell and absorbing its frequencies fully into your own being. **The deepest role of the 36th Gene Key is to help humans to become humane** - it is their courage and deep acceptance of the life process that eventually gives rise to the highest of human expressions – the expression of Compassion.'*

*'Compassion is Divinity embodied in humanity. **Compassion is the seed that exists within Turbulence.** The whole transformational journey through this Gene Key culminates with the release of this fragrance from our essence. This is where humanity and Divinity become one. This is where the current of evolution meets the current of involution.'*

*'There is perhaps no better symbol of the journey from the 36th Shadow to the 36th Siddhi than the life of Christ. **This is the Siddhi that spans the chasm between Man and God, between being a victim and being enlightened.** In every mythic journey, there must always be a final trial. A moment of utter hopelessness and helplessness – these moments – these Darkenings of the Light – come to us in life not so much to test us, but to cut us so deeply within our own humanity that we are reminded of the awesome power of our own Compassion for all beings.'*

*'Those in whom this Siddhi has awakened tend to keep moving into those areas of life where the light is most darkened. **The simple presence of such people and the look in their eyes can trigger all manner of so-called miracles in those whom they meet.** At the Siddhic level their own suffering becomes so universalised that it encompasses all humanity. **All boundaries of the self dissolve.**'*

Mercury is the planet of communication, intelligence and analysis and as such links closely to the left-hand brain, but it is equally linked into the central nervous system, so you can see how your 'frame' of mind affects the whole of your being. Mercury at the time of the New Moon is trine (120°) to the North Node and Neptune and Mars, and sextile (60°) to the South Node, Vesta and Pluto. So, this Pluto-Mars opposition is playing out through each one's thoughts and ideas, consciously or unconsciously.

Mercury is on Gene Key 14 known as **Radiating Prosperity** moving through the Shadow of **Compromise** to the Gift of **Competence** to the Siddhi of **Bounteousness**.

*'Compromise has become so embedded in our group psyches that we don't even realise that we are doing it anymore. **Compromise is the by-product of living without a sense of personal freedom.** It implies a lack of imagination and an inability to believe in the power of your own uniqueness and individuality.'*

'The 14th Gift combines enthusiasm and flexibility with the power of attraction. You cannot be rigid and Competent at the same time. Competence creates a powerful magnetic field that not only draws in the right support but also has the ability to magnetise material wealth.'

*'Those who have the 14th Gift strongly activated in their hologenetic profile are often the driving force that can implement a particular vision or idea. It is interesting to note that a competent team cannot contain members who compromise. **All team members must be joined together in mutual enthusiasm for the same ideal.** At the Siddhic level of consciousness, energy is transmitted through the individual via the medium of the morphogenetic field.'*

*'Morphogenetic fields are energetic grids that connect all creatures and particles of matter at a sub-atomic level. The 14th Siddhi is the core archetype of your power as an individual. It is the Siddhi of Bounteousness – the ultimate legacy of what it means to be a human. **This is our true inheritance – to create abundance.**'*

*'Bounteousness comes from a vast sense of gratitude. **It is the gratitude for the spark of Life.** When we nurture that spark of gratitude inside ourselves, then it becomes a steady flame. When we continue to nurture it, it becomes a fire. **When we nurture the fire it becomes a Sun inside us and the Sun is Bounteousness.**'*

*'The Sun gives of itself endlessly, tirelessly. Its gratitude is infinite. It is continually refuelled through the power of its own giving. This is Bounteousness. It is to give and give and give. Take has all gone when we get to this Siddhi. **We have reached Unity and unity is based on Love and giving.** The more we give the more we are given, and the more we are given, the more grateful we feel.'*

*'The highest formulas of the Gene Keys have yet to be revealed. **The 14th Siddhi carries within it the power of materialisation.** It can create something out of nothing. This is what alchemy is. This can only be done at the very peak of consciousness. We must have turned ourselves into gold first. **There can be no vestige of Shadow left inside us and then we can work miracles.** There are a group of Siddhis, called the 'Miracle Siddhis' and the 14th is one of these.'*

And Uranus which is the higher vibration of Mercury, linking to intuition, telepathy, inspiration and inventiveness is opposite to Mercury on Gene Key 8, known as the **Diamond of the Self** moving through the Shadow of **Mediocrity** to the Gift of **Style** to the Siddhi of **Exquisiteness**.

*'To break out of the heavyweight frequency of the 8th Shadow you have to take an exciting leap of faith yourself. **This 8th Gift catches people's attention because it brings something fresh into the world.** The Gift of Style has little to do with our popular interpretation of this word – it has more to do with following your own unique, rebellious spirit out into the world.'*

'To find your own style is to be yourself without concern about what others may think. True Style takes great joy in shattering the grey world of mediocrity that is considered the norm. Where Style is more than skin deep, it is the cutting edge of creation itself. The individual surrenders the self to a creative process that controls the individual rather than the individual controlling the process.'

*'The 8th Gift is about manifesting individual dreams rather than simply dreaming about them. **Such is the power of genius, for it carries within it more than just a new concept – it carries intent from a higher realm that is far beyond the individual through whom it manifests.** Their only concern is to free more*

*'People of the 8th Siddhi are not leaders. They are examples. **The 8th Siddhi of Exquisiteness is the natural revelation and manifestation of all the Siddhic states.** Each Siddhi is holographic in the sense of being reflected within all other Siddhis. **Exquisiteness is experienced when the Divine Essence begins to shine through the individual.** In this state of bliss you fall in love with your own pristine manifestation because it is through this uniqueness that the Divine currents can be accessed.*

***This is the stage at which you achieve transcendence of your genetics.** You remain differentiated at the level of form, but at the collective Universal level your awareness permeates all forms, making you both a drop in the ocean and the ocean itself.*

'There is an inner Light and Wisdom that has a powerful and liberating effect on others, freeing them from the structured systems. They sparkle like exquisite rare jewels. They shine like a diamond in the heart of creation and wherever they look, they see other diamonds in various states of clarity – each one unique, each one exquisite and incomparable.'

The Yod, or Finger of God mentioned at the beginning of this Moon Review links Juno and Astrea to Neptune and Uranus with the focal point being on Hygeia – which will reveal our overall individual and collective emotional, mental, and spiritual health, at this time.

Hygeia ♃ depicts our subtle energetic system as it flows through our central nervous system, and also the Ida Pingala nadis which pass through the central chakra Sushumna pillar, running the length of our spine.

When the electro-magnetic circuitry is in balance, which is the key archetypal essence of Juno ♄ then this creates the activation of the crown chakra with the potential and the foundation for the return of Astrea's ♀ Golden Age.

The outer Transpersonal Planets of Uranus, ♅ the Higher Mind, and Neptune, ♆ the Higher Heart, hold the key to unlocking **Boundless Compassion** ushering in a return to **Innocence**. It is from the Shadows of **Turbulence** and **Mediocrity** that ultimately individual and planetary **Harmony** will arise.

Evolution and potential Harmony move slowly through endless cycles of time as we continuously recycle past events, into the present, through a lineage of ancestral karmic associations and ties.

At the time of this New Moon, there is a further major planetary pattern creating a fourth Kite, which is addressing these addictive patterns that keep us recycling the same old story.

The Sun and Moon are together on Gene Key 44 known as **Karmic Relationships** moving through the Shadow of **Interference** to the Gift of **Teamwork** and on to the Siddhi of **Synarchy**.

*'The ancient Chinese called the 44th Hexagram **Coming to Meet**, which is highly appropriate since this 44th Gene Key concerns how, why, and when people meet each other. In the classical Indian teachings, such ties are known as Karmic ties.*

'Until two individuals are ready to take on the Ancestral Interference patterns of their entire fractal, that fractal remains dysfunctional, but as it clears a deep devotion develops. The moment we begin to see relationships appearing in the world without Interference patterns, we will know that the core human fractal/consciousness is rebuilding itself from the bottom up.'

'To really understand the Gift of Teamwork you need to understand something of the mechanics of incarnation. When you view incarnation from the view of the Causal body, which is what many traditions refer to as the Soul, you can see how this very subtle aspect of your consciousness returns again and again and it gradually becomes more and more lucid and luminous. Your causal body, which vibrates at a very rarefied frequency, also travels with the causal bodies of others across space and time in a kind of cosmic relationship dance. Such fractal lines of evolution have been understood through the ancient laws of karma.'

'As a concept, Synarchy is the opposite of anarchy. The prefix 'syn' means to act in concert, and 'archy' means to govern. Therefore, the literal meaning concerns the concept of collective rulership. Synarchy is the opposite of anarchy - it concerns the concept of collective rulership.'

'The 44th Siddhi is truly remarkable. It concerns the complete understanding of the mechanics of human destiny and the entire story of humanity. The 44th Siddhi sees the entire tapestry of human interaction through time and space. It not only sees it, but this being dissolves into it. The consciousness within such a person is able to travel down every single fractal line within the Cosmos.'

'Because there is no resistance within their vehicle their consciousness ripples down the fractal arms of both the past and the future of the Universe. The being expressing the 44th Siddhi therefore occupies a specific genetic vehicle whose mutation causes, in time, a chain reaction through humanity.'

'At the Siddhic level we know all life to be self-organising, even the Shadow. It eventually organises its own breakthrough. This is the great story of incarnation here in this Gene Key. **Eventually all humanity will realise its true nature as one Cosmic Harmony.'**

*The Earth on Gene Key 24 is moving through the Shadow of **Addiction** to the Gift of **Invention** to the Siddhi of **Silence**.*

*The 24th Shadow, when correctly understood, explains much about the Shadow state itself as well as why human beings find it so difficult to resolve the deeper repetitive problems in their lives. **We humans come pre-programmed for Addiction and the main culprit responsible for this is our mind.** The mass consciousness of humanity is still dominated by the archaic fear and survival based aspects of our brain.'*

*'All desires are really rooted in a single desire – the desire to escape suffering, but nothing external can bring an end to suffering, since it is rooted deep within the DNA. **Only by turning inwards can you face the addictive quality of your mind.** Your willingness to confront your mind creates the necessary pause or gap in thinking to disentangle the mind from the astral/emotional body'.*

*So what happens in the gap when you do fully embrace it? The answer is absolutely anything. **The 24th Gift is truly magical and contains the secret to genius.** Genius is far more than lateral thinking – it is the ability to make quantum leaps. One of the best ways of exploring the gaps is through contemplation. To contemplate is to surrender yourself into the great mystery until it suddenly reveals itself to you through a process of deep insight.'*

*'Each time you hit one of the magical gaps, you have the opportunity to either shift up an octave in frequency or remain in the same loop. In human beings this codon allows you to make quantum leaps in terms of the evolution of your awareness. The Gift of Invention brings in originality that is surprising to self as well as others. **All the great insights that have driven human evolution, from the arts to the sciences, have come across the bridge of the 24th Gift.**'*

*'The Silence of the 24th Siddhi is a Silence that descends on you even though it already lives within you. True Silence reigns when the mechanism controlling your awareness moves from your head down into your solar plexus. For awareness to shift in this way there is a physical mutation that occurs – certain chemicals are created by the endocrine system – so that you no longer think – but are thought by Life. **When the mind ceases to think then all addictive behaviour also ceases – the ultimate addiction of believing yourself to be separate from Life is eradicated.**'*

*'This Silence does not necessarily denote physical Silence, rather it is an internal Silence in which you are permanently enfolded. **Only true inner Silence can bring an end to the Maya or illusion of separateness which is ultimately the healing of mankind's greatest fear.** The key is always to relax because only as you relax can you feel the magic gaps and experience the Truth directly – not through your mind but through your innermost being.'*

The Planet Saturn is one hundred and twenty degrees away from the Sun and Moon and sixty degrees from the Earth. Saturn is the planet of initiation into higher consciousness - the Gatekeeper, closely aligned to Karma and personal responsibility, that patiently accompanies us on our journey through time and space. Saturn is on Gene Key 63, known as **Reaching the Source**, moving through the Shadow of **Doubt** to the Gift of **Inquiry** to the Siddhi of **Truth**.

'The 63rd Shadow of Doubt represents a huge question mark literally wired into the human brain. A never ending pressure of feeling unsettled somewhere deep inside. These individuals have a need for mental certainty that results in firm beliefs that

create barriers against their doubts. ***If Doubt serves genuine Inquiry then it becomes creative, but if it becomes personal or internalised, it becomes destructive.*** Doubt is not the enemy. Your fear of uncertainty needs to be recognised and embraced because the deeper you can embrace uncertainty the closer you come to transcendence.'

'Inquiry is about remaining open without finding a definitive answer to life. All pure Inquiry is of great service to humanity. It inevitably unlocks many of nature's secrets by examining life in minute detail. The real purpose of Doubt is to serve the higher good in an impersonal way.'

'There is one Golden Rule with the 63rd Gift of Inquiry – if you inquire deeply enough into anything you will arrive at the revelation that you, the observer, are intricately bound with that which you observe. As you slowly ascend the ladder of frequencies, the nature of your Inquiry changes.'

At higher levels of frequency, you begin to enter the holistic domain of synthesis in which all phenomena are increasingly seen to affect each other. ***This quantum world thus forces your Inquiry into a far more subjective territory – that of your inner self.*** When you begin earnestly and honestly to question your own nature and purpose – you begin refining your physical and spiritual essence to such a height that you arrive at liberation or spiritual realisation.'

'The Siddhi of Truth is everywhere - there is nothing that is not Truth. Whatever happens, however, delirious or disturbing, it is nothing but Truth. This is the shock of the 63rd Siddhi – that Doubt is Truth. ***Truth is simply the here and now in every moment at every stage of your life - it is Consciousness expressing itself.*** It is simply waiting to be realised, like a pearl within an oyster.'

'Truth is your natural state - It is a drifting space, a total sinking into your Being and so beautifully simple - Truth is the Eternal Moment of the Universe. It is beyond our perception and yet it's closer than a heartbeat. It is our nature and goal to be an embodiment of Truth so that we too one day can say I am the Way the Truth and the Light.'

And, the final Cosmic energies of this Kite are asteroid 679 named Pax ✨ and a Trans Neptunian body called Hades ☿ both of which are on Gene Key 39, known as the ***Tension of Transcendence*** moving through the Shadow of ***Provocation***, the Gift of ***Dynamism*** and the Siddhi of ***Liberation***.

'Everything about this 39th Gene Key is about clearing blockages. It is one of the very powerful dynamic Gene Keys that we all have to pass through before we attain any kind of higher frequencies. In life there will always be obstacles. The only question is how do we cope with them when they come? ***The way we cope is what defines our frequency and the level of our evolution.'***

'The 39th Shadow has a single goal – to provoke. If you are provoked by a person, any person, then you are under the influence of the frequencies of this Shadow. The power of the 39th Shadow over human beings lies in our tendency to take things personally. ***The astonishing reason for this is that we think we exist as individuals, whereas in fact we are quantum patterns in an ever-changing web of energy.'***

'Children seem to have endless energy that just crackles in the air around them – this is the raw energy of the 39th Gift - the Gift of Dynamism. The other aspect of the 39th Gift is that it knows no fear. As you make the transition from child to adult and your personal and cultural conditioning gradually take you over, you also experience a decline in your natural Dynamism. ***Having said that – no matter how good or bad your upbringing may have been, all conditioning can be reversed.'***

'This involves a journey of awakening in which you have to raise your own frequency back to its original state. When this occurs your natural Dynamism returns and it returns as creativity. One of the simplest ways to raise your frequency is to do what you love in life - this will unleash your creative Dynamism.'

WHAT
SEEDS
ARE YOU
SOWING?

Gene Key 63

doubt - inquiry - truth

*'From reading and contemplating this 39th Gene Key you may begin to have a sense of what happens when this energy hits the highest planes of frequency. **There is always a point where the Gift suddenly makes the quantum leap to the Siddhi and the blossom becomes the fruit.** In the case of the 39th Gene Key Dynamism becomes Liberation when it finally forgets itself entirely. To be dynamic is to create more and more possibilities through action. **The by-product of Dynamism is that it serves many people which in turn raises its vibration.'***

*'At the Siddhic level an interesting thing occurs when all this genetic pressure breaks through to a higher dimension. **Consciousness merges back into the totality which means that it has to give up its greatest gift – individual freedom.** Only in giving up the illusion of your individual freedom can you receive an even greater gift – the Liberation of Being.'*

*The 39th Gene Key is related to the 55th Gene Key in the same way in which a spring mechanism releases an explosive energy. When all human seeking has exhausted itself a great need to act arises, and this pressure is currently building within all human DNA. **Life itself is struggling to transcend its struggle through human beings, and the 39th Shadow builds the tension for change until it is released through the human genome as the Siddhi of Liberation.'***

*'Even before the mutation of the 55th Gene Key, therefore, we will hear the dynamic explosion of this energy, which provokes the mutation itself. **Thus, we will see how the energy of liberation ultimately provokes the realisation of Freedom.** Liberation requires that we Honour our karma, that we clean up our own mess. This is why its programming partner is Honour. **We have to Honour life, our heart, our past and the path of our destiny. That is the way of Liberation.'***

At this powerful time in humanity's collective transition, as intensified Light and energy flood our subtle energetic nervous system to bring about the release and healing of ancient karmic patterns, it is time to go within and to hold all in **Compassion** and **Harmony** knowing and accepting the **Truth** that All is Well as Scorpio cleanses the Shadow to ultimately bring **Unity** and **Rebirth** where division once flourished.

Love and Blessings to All
