

Cosmic Overview

Aries New Moon & Eclipse 2023

'In the space of no mind Truth descends like Light.'

Anon

*'You are Free. You are Whole. You are Endless.
There is no boundary to you. Any idea about yourself appears
in you and will disappear back into you.
You are Awareness and Awareness is Consciousness.
Let all self-definitions die in the moment.
Let them go and see what remains.
See what is never born and that does not die.'*

Gangaji

'I AM' the Light of Life Itself

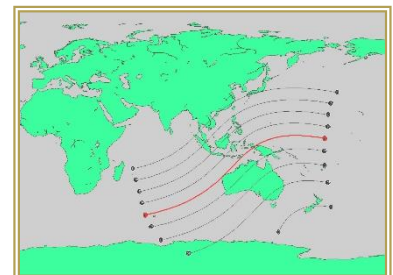

This month's New Moon takes place for the second time in the Constellation of Aries. Back on the 21st of March, at the time of the last New Moon, the Sun and Moon came together at 0° Aries 49' and now the Sun and Moon will come together once again, on April 19th or 20th, on the last degree at 29° Aries 50', creating a Solar Eclipse across Australia and SE Asia.

In last month's Review, there was a focus upon taking the time to discern all that was being shared as fact.

'...But for all of this Arian action and impetus, it would be wise to take a pause and to take the time to deeply discern what is happening....there is the possibility of communication that is distorted or confused, information that keeps pouring out (Neptune) that is trying to obscure the waters and to create a diversion, a smoke screen.....'

In many ways, initially, this second New Moon in Aries is giving us the ability to amend, rectify and transform all the perceived notions that have occurred over the last two to three years when Pluto ♃ and Saturn ♄ came together in the sky on 12th January 2020 at 22° Capricorn - to look again at the 'facts' as we move forward Collectively from this point in time. However, with Sedna ♆ making a 120° angle to Pluto and a 30° angle to the Sun and Moon, the need to address the karmic record goes back into the depths of time.

Pluto has just moved into Aquarius and so, before looking more fully at this month's planetary patterns, it is worthwhile having some more in-depth insight into Pluto. For this is indeed the purpose of Pluto - it is to dive deep, to look beneath the surface, to bring to Light all that is not operating for the highest good of all. Pluto flows with the 1st Ray of Divine Will and Power and if this 1st Ray energy is being utilised incorrectly then Pluto will throw a laser beam on the consciousness to expose all that is out of sync with Cosmic Law.

Pluto in Aquarius speaks of the *Rights of the People*. In England, during the Pluto Aquarius transit of 1286-1306, in 1293, King Edward the First, enshrined into history *English Common Law* and over time as feudalism declined, the class of freemen and freely-held property both gradually developed. Several centuries later, during Pluto's transit into Aquarius from 1777 – 1797, in 1787 the US Constitution was formed, followed by the Bill of Rights in 1789 - America having already severed their connection to England in 1776 with the Declaration of Independence when Pluto was still in Capricorn.

The *Rights of People* took to the street in Paris too, with the advent of the French Revolution of 1789, the echoes of which are playing out once again, whilst writing this Review, not only in France but in various ways around the world, as old karmic patterns arise within the consciousness seeking to find a just resolution that is in alignment with the Truth of the Sovereignty of each Soul. For, the *Rights of People* have to be housed within a deep awareness of our true place within the Cosmos and our innate Spiritual Lineage, and Inheritance, if Pluto's 1st Ray is to be instrumental in bringing profound and beneficial results.

The Soul of Man is immortal and imperishable.'

Plato

Chart for the 2nd Arian New Moon April 2023

New Moon 20th April 2023 05:13 BST London UK
<https://www.timeanddate.com/moon/phases/>

Looking at the above chart you can see the very definitive focus that Pluto is making at the time of the New Moon Solar Eclipse. This particular Eclipse Cycle is known as Saros Cycle 129 which began on the 3rd of October 1103 at the North Pole and will complete its cycle at the South Pole on November 5th 2347. Interestingly at the inception of this Solar Cycle, back in 1103, Pluto was again very much the focus of that chart as it was exactly opposite to the Sun and Moon on that day.

If Pluto is the Gateway into Galactic Consciousness what are the requirements for entering into this heightened state of awareness? Pluto deals with power and the abuse of power, of hidden resources which lie within each one of us, that need to be mined, refined, and brought into the Light of day. As the planetary energy for Transformation and Alchemy, Pluto right now, is focussing an influx of intensified Light onto the Plane which will throw into stark relief the polarity consciousness that is currently swirling in the ethers.

Pluto will assist in getting to the bottom of all that has occurred over many, many lifetimes that is held within the Collective Consciousness, which is now being brought to the surface for realignment and transmutation. So with this Plutonic background to the New Moon chart, how do the planetary patterns assist in our moving into a more transparent and unified field of consciousness where we see that all humans contain within their Being the Light of Source, however, covered that may appear to be?

Because Pluto is shining a Light into the Collective past, the first Key to look at is the South Nodal ☿ point, as the South Node holds the full potential of the Group Consciousness from the Shadow to the Siddhi that is waiting to be integrated into the Present at a higher level of consciousness. The South Node is passing through Scorpio which holds some of the deepest and darkest beliefs and fears that have been created over time. At the time of this New Moon/Eclipse the South Node is on Gene Key 28, known as **'Embracing the Dark Side'** moving through the Shadow of **Purposelessness** to **Totality** to the Siddhi of **Immortality**.

'In following your true purpose you unlock the manifesting power of your specific Gifts. The 28th Shadow of Purposelessness represents the potential nemesis in this regard, because it can ensure that you either do not discover your purpose or you never follow it through. This Shadow cuts to the core of the deepest of all human fears – for the 28th Gene Key holds within its Shadow the primal fear of death.'

'All fears ultimately can be reduced to this one fear – the fear of being extinguished. Humans will do all manner of things to escape it. If you are to release your true creativity into the world, you must meet your own dark side. In other words, you must at some point face your deepest fear of death. The 28th Shadow represents everything that you do not wish to accept within your psyche, right down to your core fear of non-existence. Only as you reclaim each of these dark aspects of your inner being can you begin to assemble and manifest the true purpose of your life. This is the magic and true purpose of the 28th Shadow.'

'The Gift of Totality is a wonderful Gift to have and it belongs to anyone who really knows how to trust in life. Totality means to live alongside fear – and to live with the unexpected and to stay open to continual change whilst remaining committed. The Gift of Totality means to embrace the whole of your nature and the whole of life – the pleasure and the pain. To be total in the sense of this Gift means to live without allowing your mind to dictate your life. This is Life lived for the moment in the full knowledge that life's purpose can only be found in the present moment rather than in the distant future.'

'It is a mythic path – a path that Jung called individuation. Shamans would call it the retrieval or incarnation of your full Soul. Life shows you that it has an underlying purpose in everything that it brings you. People aligned with the 28th Gift have the wonderful knack of handling adversity lightly. The more deeply they accept each feeling of fear that comes the lighter they grow and the more love they feel towards life. As long as your commitment is total you will find an inner detachment – this detachment is the reward for your courageous Totality. In overcoming the fear of death, you begin to realise that the only thing in Life that lasts forever is the human spirit itself.'

'Since the beginning of time, humanity has wondered about the possibilities of Immortality. When we think of Immortality we also think in terms of the Soul. The Siddhi of Immortality requires that the individual surrender him or herself into his own deepest fears and is reborn as pure consciousness. Such a being realises their true purpose as the purpose of Life itself – to live in the immortal truth of its own nature, beyond time and form. For deep inside each of us is a Presence that transcends our physical, emotional, and mental form. That Presence cannot die.'

'When a being attains this state through the 28th Siddhi, they take on a particular mythology – their specific gift is to highlight the fears of others wherever they go. This is simply an aspect of their awakening operating through their genetics - thus, they are said to have the gift of casting out demons, because this is precisely what their aura does. Through its Grace, it highlights the darker, unaccepted aspects of one's nature and absorbs them into non-existence.'

*'As already stated, this Siddhi contains the seed of the manifestation of Immortality in form – when the elements of our future vehicle will coalesce and form another kind of vehicle to house the higher consciousness of humanity. At a physical level, man must absorb his entire animal nature into himself in order for its true purpose to be shown. **Only then will we see for the first time the nature of the beast.***

The North Node which is the Spiritual Pathway forward, when the consciousness held within the South Node is integrated, is emphasised by Vesta, ♁ which, like Pluto speaks of regeneration - how to maintain the Light and Fire within, in spite of the storms of everyday Life. Both are on Gene Key 27, known as **'Food of the Gods'** moving through the Shadow of **Selfishness**, to the Gift of **Altruism** ultimately to the Siddhi of **Selflessness**.

'The 27th Gene Key is truly vast in its implications at a planetary level. The ancient Chinese called this 27th Gene Key Nourishment with good reason. It represents a built-in planetary law that rules all sentient life – To Give is to Receive.

*'Selfishness is where this 27th Gene Key begins its evolutionary journey in humans. The so-called 'selfish gene' has been a requirement for us to survive particularly for blood ties and close genetic groupings. **However, Selfishness must be transcended in order for the next form to mutate out of this existing form of Homo Sapiens.** Selfishness, then is a stage in our evolution that is in the process of being transcended at a collective level. **Thus, our species must prepare itself to make a genetic quantum leap, because that is the only way that it can truly transcend its built-in selfishness.'***

*In humans, Altruism ensures our survival as a species. It ensures a healthier happier life even though it may not always be the life you were expecting. **Giving from the heart can stir up unexpected Cosmic forces that work to your favour.** To give to others from the heart activates healthy currents deep within your body. Purpose flows from Altruism like water from a spring – connecting you into your Higher Purpose – it bubbles up inside you, creating warmth and goodwill, which spreads to others.'*

*'At a high frequency level the 27th Gift gives off a powerful aura of trust which is immediately felt by others. At a deep genetic level, the presence of this 27th Gift engages a feeling of communal security through its strong resonance to the group mind. **As such it is one of the most powerful healing Gifts in the whole genetic matrix.'***

*'There have been many different paths towards God. **One of the greatest of these paths is the path of service, known in India as Bhakti Yoga – the Path of Compassion.** Also known as the doctrine of harmlessness, this 27th Siddhi of Selflessness has manifested in the lives of many saints throughout history **Such people have made a quantum leap and the Siddhic energy available to them is enormous.** Despite endlessly giving of themselves to others, they are not depleted, but are continuously nourished by the refined currents of the aura of love surrounding them.'*

*'The Mathematics of Love are built into the structures of all life but only when we discover these laws will human beings realise their highest potential. Inherent in the 27th Siddhi is the realisation of the Divine Law of Philanthropy – the Love of Humanity. **Philanthropy unlocks the secret of free energy because it gives selflessly of itself, and it gives intelligently.** The 27th Siddhi knows how to distinguish between that which is alive and that which is decaying, and it gives unremittingly to that which is alive. **At the Siddhic level the 27th Gene Key becomes capable of miraculous healing.'***

*'As long as there is an ounce of Life force within something, the vast love coming through the 27th Siddhi can revive it. **Because this Siddhi draws upon the entire bio-energetic field of Gaia it has the capacity to heal any disease or sickness.'***

To move into these higher states of awareness of the potentials that lie within our genetic structure, both Jupiter ♃ the planetary body of expanded consciousness and Eris, ♁ the planetary energy that resides within Galactic Consciousness, lie to the other side of the New Moon on Gene Key 42, moving through the Shadow of **Expectation** to the Gift of **Detachment** to the Siddhi of **Celebration**.

'The 42nd Shadow is actually one of the Shadows at the source of all human mental fear because the 42nd Shadow concerns death. This is the Gene Key that literally programmes us to die and it exists in every living cell as a built-in design for decay. The notion of time and our response or reaction to its passing is rooted profoundly in this key. It links to the seventh-year cellular regeneration cycle in that every seven years something must die for the new cycle to begin.'

*'True detachment is the ability to allow and accept life as it comes. Detachment presupposes a great love and trust in Life. **The 42nd Gift of Detachment births the process of letting go of control over your life, physically, mentally, and emotionally.** It is a wonderful letting go that travels deeper and deeper into your DNA as you gradually allow your Expectations of life to fall into the background. There is a great understanding and freedom that comes to every human being who surrenders deeply enough to their life.'*

'The Gift of Detachment represents the separating out process between the emotions and the mind and it takes place naturally as the frequency rises within the cells. With Detachment comes both understanding and healing.'

*'The 42nd Siddhi is about the transcendence of death. These are the sages who teach humanity about the illusion of death. They do not teach us through knowledge but through their attitude. This is a state beyond Detachment. The transition from the Shadow to the Siddhi, from Expectation to Celebration, does not occur within time. **Whilst our physical form may decay and 'die' the essence of our consciousness is timeless, fluid, playful, and unpredictable.***

'The DNA helix uses human forms to continually reshape and reinvent itself. It is like some Cosmic serpent that endlessly keeps shedding its skin and our bodies/forms are those skins. When someone has entered the doorway of death deeply enough within themselves they discover the pure Maya of life – the illusion that we are born and we die – and as this great truth begins to permeate them, from the inside out, it literally kills off every aspect of their own identification with what they are.'

*'The one in whom the realisation of this Siddhi has dawned is filled with laughter and all they want to do is to share this laughter with others. This laughter rocks the whole vehicle since it emerges from the source of Creation. **With the 42nd Siddhi, there is only one manifestation occurring and this is the state of Celebration. Celebration is the direct manifestation of true Awakening.***

Pluto, as for the last New Moon remains on Gene Key 60, known as **The Cracking of the Vessel** which moves through the Shadow of **Limitation** to the Gift of **Realism** to the Siddhi of **Justice**, but this month Pallas Athena ♃ is 180° away from Pluto – again assisting to focus a spotlight on all that has remained hidden or beneath the surface.

Pallas Athena is on Gene Key 62, known as the **Language of Light** where **Intellect** is being transmuted into **Impeccability**.

'To master the language of Creation we have to embody it fully at every level, not just the intellectual level. Like any of the human Shadows, the 62nd Shadow of Intellect is not inherently bad. Intellect is a wonderful quality if it is used correctly in the service of innate intelligence. Your intelligence is stunning, vibrant and natural. Intelligence is of the Heart, whereas intellect is of the mind. Problems arise when we identify our lives with our thoughts, which we have been pre-programmed with throughout our upbringing. Until we are able to step outside of this mental framework we are controlled by our language, thoughts and belief patterns.'

'The 62 Gift of Precision is far beyond the realm of the Intellect, which is based on mere knowledge. Precision happens when natural intelligence strikes a balance between the heart and the mind, but with one caveat, that the heart, the feminine principle, is given control over life. The masculine principle, the intellect, then moves into service of the feminine principle, which is about intuition, listening and receiving rather than thinking, expressing and transmitting. Intelligence recognises intelligence and with the mind out of the way the invisible essence that connects all beings is once again felt.'

'The 62nd Gene Key is genetically coupled with the 31st Gene Key forming the codon known as the Ring of No Return. This mystical name describes the evolutionary process that takes place when higher consciousness reaches the throat centre. The throat centre is where the greatest human initiation occurs. Once the higher involutory currents begin to use our voice to transmit their truths, you begin a process of detaching from your own identity. The 62nd Gene Key allows access to the Universal Language of Light behind all forms.'

'The word Impeccable is often misunderstood when used in reference to true Masters. The most common mistake we make is to believe that one who manifests the Siddhi state must now behave in some kind of holy way. However, Impeccability, simply means exempt from doing sin. Pure consciousness is at play within the being, so whatever they say or do is beyond reproach. All ego has left the vehicle.'

'The 62nd Siddhi concerns the use of language at a level beyond our ken. Every word has its frequency and vibration - at the Siddhic level words do not come via the mind anymore - they are not thoughts that become words. They emerge directly from the void, naked and pure. There is a Cosmometry behind Life that choreographs all actions. The closer you come to full awakening the more harmoniously your life flows within this Cosmometry. When you finally merge into the ocean of consciousness you achieve complete oneness with the Divine. Divine Cosmometry is the language of perfection. It is the manifestation of Impeccability in which your every movement and breath becomes an emanation of the Pure Light. You have entered into the Language of Light - the Impeccable Beauty of Being.'

The Sun and Moon at the time of this Solar Eclipse are truly highlighting the fork in the road that we are all experiencing right now - the New Moon, on Gene Key 3, known as **Through the Eyes of a Child**, has the Shadow of **Chaos**, moving into the Gift of **Innovation** and on to the Siddhi of **Innocence**.

'The 3rd Shadow lies at the core of all our beliefs that the human individual is basically powerless in comparison to nature or the infinite. Individuals working from the Shadow of the 3rd Gene Key are trapped in a 'separation' consciousness by their own thoughts - thoughts that are coming from a primitive and defensive level. This 'separation' consciousness creates Chaos by resisting the very changes that are required in order to survive and thrive. They do not trust that the Chaos created by change will lead to order on a new level.'

*'In the old view of Science, we humans are the victims of our 'selfish genes' – in the new view, there are no victims, only a huge interconnected and interdependent Cosmos. **When you allow the environment to mutate you, the greatest magic is revealed to you, that in Chaos, there is, and always has been, a vast underlying transformative order.'***

*'Innovation is built into life. Innovation implies cooperation by its very nature. The path of Innovation broadly means to improve something through the introduction of a new element or elements. **In other words, life itself is designed to transcend its own initial programming and discover new and higher forms of consciousness.** Beyond selfishness and chaos lies co-operation and Innovation.'*

*'The Gift of Innovation is far more exciting than simply being creative. It implies that you have permanently escaped the fear-based perspective of the Shadow frequency. Innovation also requires a deep sense of inner trust. **In order to be truly innovative you have to attain a very high frequency that allows you to go beyond the collective worldview.** All preconceived notions, dogmas, or beliefs must be discarded when they no longer serve the developing synthesis. **The Gift of Innovation requires you to become as open hearted and open minded as a child.'***

*'At the absolute zenith of its frequency, the 3rd Siddhi is about **Innocence.** This Siddhi reminds us that all of life, and that includes human beings, is essentially innocent. Life is Innocent, we are Life and therefore we are Innocent. One day humanity will evolve towards its awesome final destiny of Global and Celestial harmony. **As the 3rd Siddhi comes into the world, which it will do very shortly, a great remembering of our Innocence will emerge in humanity.'***

'We are all really children – children of the Cosmos and our only real job is to let go of our seriousness and find the delight in every exquisite jewel that life places before us.'

*'In reading this 3rd Gene Key and its various levels of frequency you can perhaps feel the wonder and the scale of the experiment you are involved in. **As Einstein said: 'God doesn't play dice.'** The human brain was not designed to grasp insights as profound as these. The certainty of Order within the Universe is a feeling that can only be captured by a more advanced system of awareness in human beings, that our mystics have called by many names. **Above all it is equated with the human heart and the feeling of Love and Unity that lies between all creature.** For your true home is not located within your body nor somewhere in the Universe; the centre you are looking for is the feeling of pure Love itself, which is the omniscient manifestation of your Eternal State of Innocence.'*

The Earth ⊕ as the recipient of the influx of Light coming down through the alignment of the Sun and Moon, at the time of the Solar Eclipse, is on Gene Key 50, known as **Cosmic Order**, moving from the Shadow of **Corruption** to the Gift of **Equilibrium** to the Siddhi of **Harmony**.

*'The 50th Gene Key and programming partner the 3rd Gene Key are intimately connected in the cellular health of each of us – the 3rd Gene Key governs individual cell mutation and the 50th Gene Key holds the genetic blueprint for Equilibrium and wellbeing. **Here in the 50th Gift is found the inner fulcrum upon which balances the quality of our cells, our lives and our future possibility for world peace.'***

*'As the Gift of Equilibrium this 50th Gift holds the key to deep inner peace. Those who carry the 50th Gift as a Prime Gene Key have the innate ability to create harmony in a group without even thinking about it. Their true power is rooted in the high frequency that moves through their aura. **This high frequency is created through honesty in which all hidden agendas are laid on the table.** Without this no Equilibrium can ever be reached.'*

*'By trusting the individual to take responsibility for his/her own contribution to the group, a very powerful energy field builds within that group. **Herein lies the great secret to humanity's future collective harmony – it can only be achieved through individual freedom and trust in the self-organising intelligence that emerges from that freedom.'***

*'The 50th Siddhi produces experiences that harmonise human awareness with **Celestial or Universal Consciousness**. At the Siddhic level all imbalances within the subtle bodies must be destroyed in order that the cauldron of the physical body can become a vacuum.'*

*'When this occurs within the DNA of a human being the body becomes a deep resonant chamber for the **highest Universal frequencies**.'*

*'As your higher bodies transmute your lower instincts and emotions so you come into the frequency field of their higher harmony. When the 50th Siddhi begins to break through in human beings an all-powerful current of Harmony begins to shower the people with whom they are allied. **Deep and hidden issues are brought to light in order that social Equilibrium can occur**. Through the 50th Gene Key humanity is destined to arrive at Cosmic Harmony, although such a concept will require a sustained period of Equilibrium before the scales finally activate the higher Harmony. **We know this higher harmony as Oneness with God**.'*

As shared, this collective Harmony '**can only be achieved through individual freedom**' which is the essence of Gene Key 55 where Saturn is at this time. Gene Key 55 is the embodiment of Freedom, moving through the Shadow of **Victimisation** to the Gift of **Freedom** and on to the Siddhi of **Freedom**.

*'As we begin the process of transcending our Shadows, miracles can occur in our lives. Much of the 55th Gene Key concerns the future of our species as it moves through the Great Change. Down the centuries much has been written, spoken and taught concerning the nature of higher consciousness. We are now entering an era in which more and more people will have direct access to an experience of true higher consciousness. **There will be a genetic mutation that will slowly colonise our species. The old human will literally be bred out of humanity**.'*

*'This vast and dynamic change is being triggered by this 55th Gene Key and its related amino acid **histidine**. Soon there will be children born among us who carry the full mutation and who will spread it through the gene pool. **Freedom is the spirit of the 55th Gene Key - it is the spirit of humanity**.'*

*'As your awareness stretches, the spirit of Freedom breaks down the barriers in your life. **The fractal lines open all around you and energy that was blocked in a certain dimension suddenly precipitates unforeseen beneficial circumstances in your life**. All aspects of Life are interconnected, so a breakthrough at the source of your being will ripple out into all areas, some that you perhaps didn't even remember existed. **This Freedom is born out of one's absolute trust in Life**.'*

*'The coming shift will precipitate the end of the age of the individual 'I' and the beginning of the collective 'We'. After the awakening has occurred one will no longer exist as an individual. **Awareness will operate collectively**.'*

*'We stand on the cusp of a Siddhic supernova – the incarnation of the Divine Feminine spirit. **The end result of this in flowing of the Divine Feminine will result in the purification of all the fractal lines throughout humanity, resulting in a burning up of the collective karma in our DNA and the eventual eradication of all disease on the physical plane.'***

At the time of this Eclipse, the Sun and Moon, as said, are at the midpoint, of Jupiter/Eris and Vesta/North Node. If we are to step into this next evolutionary Spiral, as indicated by the North Node and Vesta we have to hold the Light of Truth within, which embraces all Life as the Flower of Life, the expression of One Divine Source, whilst no longer adding to the Karmic Wheel, through projection and discord, and Eris, as the Gateway into Galactic Consciousness, requires that we see the bigger picture and allow the 1st Ray flowing through Pluto, to purge, transmute and realign all energies that are not flowing for the Highest Good of All.

In truth we are going through profound times - this is a Cosmic Initiation that we are all participating in – our minds may want to judge, all that is occurring, but our Hearts and Souls know the limitation of our mental perceptions as limiting us into this finite world, where all is change.

Our role at this pivotal time, is to release our consciousness from lifetimes of Judgment and projection, to become the **Presence** where **Innocence, Impeccability** and **Freedom** reside so that we may embody the Light that is flooding in and be the Change that allows for the Highest Good to unfold through All Life.

Love and Blessings
