Virgo New Moon 2023

'Become an alchemist. Transmute base metal into gold.'

'When the basis for your actions is in inner alignment with the present moment, then your actions become empowered by the Intelligence of Life itself.'

Eckhart Tolle

'I AM' the Blended Dual Light

The New Moon will take place on the 14th or 15th of September, at 21^o Virgo 58 a few days before the Equinox. The Equinox is a celestial event that holds significance for astrologers and astronomers. It marks a moment in time when the sun crosses the celestial equator, creating equal amounts of daylight and darkness worldwide.

The New Moon in the Virgoan Constellation flows through the magnetic/feminine pulse of the 2nd Ray of Love and Wisdom and the 6th Ray of Devotion and the purpose of Virgo is to purify and prepare the physical form so that it is more receptive to Light.

At the personality level, Virgo, like Gemini, has Mercury as the planetary ruler, on the 4th Ray of Harmony Through Conflict.

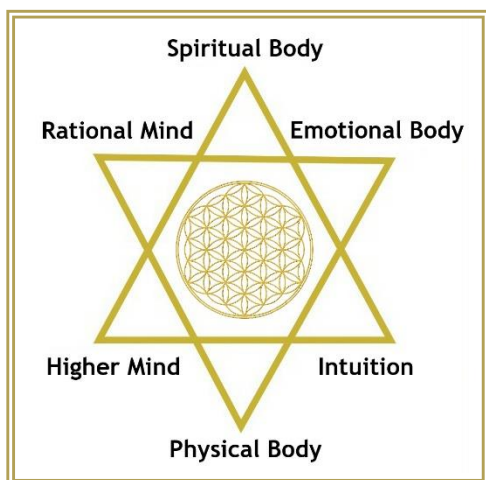

Mercury symbolises the inner alignment of the mental, emotional and physical bodies operating

as one Soul focus into the outer world – for the Cross of Matter, the Circle of Spirit and the half circle of the Soul all comprise the essence of Mercury's impetus. The minds of these individuals are quick and active, but it is said that whereas Gemini takes in a great deal of analytical information the Virgo individual is more involved with the synthesis of this information – sorting 'the wheat from the chaff.'

According to Ancient Wisdom, the other difference is that in Gemini the Soul and the personality are constantly relating and balancing one another, whereas in Virgo the Soul and the personality are blended awaiting expression.

Virgo represents the Mother Principle – the magnetization, or gathering in, of information, consciousness, and awareness for the growth of the Soul. At the Soul Level, the Moon, again, on the 4th Ray of Harmony through Conflict, rules having as its purpose the blending and balancing of Spirit and Love.

Virgo is also known as the sign of the six-pointed star of the Soul-infused personality. It is through the loving and magnetic forcefields of the inner Soul/Christos Presence that the three vehicles of the personality fuse and blend, aligning themselves with the three vehicles of the Soul.

It is here that the 2nd and 6th Rays come into play at their strongest, for the Soul-embodied Virgoans have accomplished and become this process, within themselves, furthering it out into the world through their focus on healing and world service.

At the time of the New Moon, you will see that Mercury is stationary (S) about to go direct which gives added emphasis to this planet and to the relevance of reflection and inner stillness.

Chart for the Virgo New Moon September 2023

As for last month, this is a busy chart, as the Planets are aligning on many fronts. There are basically three Kite Formations that are occurring at the time of this New Moon.

The Sun ☉ and Moon ☾ are at 21 Virgo 58 making a 120° aspect to both Uranus, ♅ and Pluto, ♇ and opposite to the Earth, ♁ and to Neptune, ♆. So all three Transpersonal Planets are aligned with the Sun and Moon and Earth at this time, and they are also seen to be moving backwards/retrograde against the fixed stars and so again this suggests that it is a time of inner reflection, and realignment before moving forwards.

You could say that both the Conscious (*Sun*) and Unconscious (*Moon*) of humanity are having an upgrade, an initiation, through the resonances of Uranus (*the higher vibration of Mercury*), Pluto (*the higher vibration of Mars*) and Neptune (*the higher vibration of Venus*) asking us on Earth to move beyond a personal, subjective viewpoint, to a transpersonal, impersonal understanding and overview of all that is occurring on this plane. In many ways, this Kite formation speaks and echoes the words of the Great Invocation:

From the point of Light within the Mind of God (Uranus)
From the point of Love within the Heart of God (Neptune)
From the Centre which we call the Will of God (Pluto)
From the Centre which we call the Race of Men (Earth)

The Sun and Moon are on Gene Key 47, where Mercury was last month, known as **Transmuting the Past** moving through the Shadow of **Oppression** to the Gift of **Transmutation** to the Siddhi of **Transfiguration**.

'The 47th Shadow is the storehouse of human karma. What we term as karma really refers to memory, but not memory as we commonly understand the term. This is genetic memory carried in our blood from our ancestral lineage.'

'In genetics the 47th Shadow refers to what is called non-coding DNA or 'junk' DNA. The fact is that every human being carries the entire evolutionary memory of humanity within their body and is unconsciously driven by this memory. The 47th Shadow is an access portal through which these deep memories/fears flow into our waking consciousness.'

'The bottom line with the 47th Shadow is that unless you face your own unique fear archetypes you cannot open the portal to inner Transmutation that is the 47th Gift. Your suffering is a magic mirror – it's yours to own, to appreciate, and to accept. Only when you finally stop trying to avoid it, can it show you its magic.'

'It is through the Gift of Transmutation that the true purpose of your hidden genetic programming - the junk DNA – is finally revealed. These Transmutations are huge turning points in your life. Through this ongoing process of Transmutation you gradually sift through the junk DNA and in doing so you begin to see your life on a much wider level of reality. The only way to read these codes is to live them and as you do, they unwind and reveal their true purpose - to return you to the very source of consciousness from which you came.'

'The 47th Siddhi represents the culmination of the 47th Gene Key in human form. Transmutation never really ends. It simply outgrows its casing and this is what occurs through the 47th Siddhi of Transfiguration. The Life of Jesus Christ is in fact the perfect mythic enactment of all the stages of alchemical transmutation ending in this state of Transfiguration. The force of transmutation strips you emotionally and mentally to such an extent that it eventually reaches down into the physical matter of your body.'

'The power of the myth then takes over and the very cells of your body begin to transmute into the pure light frequencies from which they are made. The elements that make up your body were made in stars and you turn back into a star in your own mini supernova. This is the Unio Mystica or sacred marriage in which all your constituent elements dissolve back into one another and out of your base matter symbolic gold is formed.'

'Humanity stands upon the threshold of one of its great Transmutations. As a species we are moving through the symbolic time of our crucifixion and crucifixion precedes Transfiguration. Our crucifixion means everything that is old must leave the world as a new Light emerges.'

'As each individual faces, embraces and transmutes the collective fear that lies within the heart of every human's DNA we are Transfigured by Divine Grace – accessing the Divinity that lies within each and every one of us.'

As for last month, Uranus, which links to the Higher Mind, remains on Gene Key 23, known as the **Alchemy of Simplicity**, having **Complexity** as the Shadow, **Simplicity** as the Gift and **Quintessence** at the Siddhi level and has much to do with how we utilise the gifts of communication through Mercury.

'The more humans try to use their minds to create a feeling of security the more complicated and unsafe the world becomes. This Shadow creates misunderstanding and division in two ways – through individuals saying the wrong things and through them saying them at the wrong time.'

'The difficulty for the 23rd Shadow is that it tends to make human beings know that they are right, which firmly closes the door on their being open to the views of others.'

'When Buddha introduced his great teaching known as the Eightfold Path, he spoke of Right Understanding which leads to Right Speech. He hit upon the great and simple truth – that language flows directly out of your state of consciousness. At higher levels of frequency your mind sees further and further and more clearly.'

'The 23rd Siddhi has an alchemical flavour to it – the ability to extract gold from base metal. People with this Siddhi are able to touch the gold hidden within other human beings. They can transmit the power of the awakened state through a word or a look or a gesture. This is the Midas touch.'

'This is the true explanation of the secrets hinted at by alchemy – that the physical body itself contains the seed of the Siddhic consciousness. It is concealed in your DNA and controlled by a hidden timing mechanism that is utterly spontaneous and out of your individual reach.'

'Once this Siddhi has fully dawned inside a person they become an alchemical agent that over time refines all and extracts the Quintessence from the dross.'

Pluto, the planet of Transmutation and Transformation, remains on Gene Key 60, known as **The Cracking of the Vessel** and, as shared last month, all on planet Earth, right now, are passing through the Shadow energies of **Limitation** until December 2025. During this period, we have the potential to transmute this energy into the Gift of **Realism** and the Siddhi of **Justice**.

'This Shadow represents one of the most potent forces responsible for pulling humankind in the opposite direction of evolution. It is the counterweight of Life itself – the main reason for the death of magic is closed-circuit thinking, where the mind follows familiar patterns or systems of thought around and around without the ability to think beyond them.'

'As we begin to see that we're more than we allow ourselves to often believe, then that frequency, that vibration of possibility, begins to activate something inside us. It is communicated to our DNA and we begin to open.'

'There is great capacity for magic in this Gene Key which may sound odd as it is called the Gift of Realism. However, the only thing needed for magic to occur is some form of a structure and an open mind!'

'Common sense/Realism is not in opposition to magic. It is common sense to remain open-minded to everything in the Universe because everything has at its core the same wondrous inner Light.'

'Justice is not about retribution, it is a reward. It is given as Grace, not taken as punishment, and when it is given, freedom flows from it. It is not an imposition or a limitation. It is an invitation, an opening. It is not up to us to punish. Life redresses the balance, and it is always about balance.'

'The 60th Siddhi holds an apt description of what happens when a human being becomes fully realised. At a certain point, our hearts open to our true Innocence and we begin to unlock other codes in our DNA that are ancestral rather than personal. We begin to transmute more global karma, and the more our being opens, the more we are given.'

Neptune forms the third point of the Grand Trine, and as the higher vibration of Venus is assisting humanity to evolve into Agape Love. Neptune remains on Gene Key 36 which holds the promise of **Becoming Human** when we rise out of the Shadow of **Turbulence** into the Gift of **Humanity** to ultimately become the embodiment of **Compassion**.

'The 36th Shadow is an emotional battle that must be fought by every individual at certain times during their life. The 36th Shadow is the Dark Night of the Soul. The potential suffering that exists on account of this Gene Key, is part of a genetic family known as the Ring of Divinity. This is a beautiful revelation, as each of the four Shadows of the Ring of Divinity, Dishonour GK22, Turbulence GK36, Weakness GK37 and Doubt GK63, has the potential to awaken the highest consciousness inside you. This codon group in many respects is deeply connected to the true meaning of Christ Consciousness.'

'As a living transmission, the 36th Gift carries a great teaching into the world – the celebration of Humanity. This Gift contains a natural spirituality – it is one of the most grounded of all the Gene Keys. It is a bridge for the higher bodies of humanity to move down into the lower planes and transform them. It conveys the image of Christ descending into hell and absorbing its frequencies fully into your own being. The deepest role of the 36th Gene Key is to help humans to become humane - it is their courage and deep acceptance of the life process that eventually gives rise to the highest of human expressions – the expression of Compassion.'

'Those in whom this Siddhi has awakened tend to keep moving into those areas of life where the light is most darkened. The simple presence of such people and the look in their eyes can trigger all manner of so-called miracles in those whom they meet. At the Siddhic level, your own suffering becomes so universalised that it encompasses all humanity. All boundaries of the self dissolve.'

The Earth is on Gene Key 22, known as **Grace Under Pressure**, moving through the Shadow of **Dishonour** to the Gift of **Graciousness** to the Siddhi of **Grace**.

'Whenever you project negative emotional power at another you Dishonour both yourself and the other person. One of the great Cosmic Laws is the Law of Divine Memory. This Law states that all thoughts feelings and acts are recorded everywhere within the body of the Universe.'

'Graciousness stems from our ability to be accountable. It is a rare and beautiful quality that has a profound effect on everyone it touches. Graciousness means that whatever you do in life you always consider the feelings of others. With the Gift of Graciousness, you begin to disperse your own Karma and that of your ancestral DNA. The Gift of Graciousness might also be called the Gift of the Soul. Above all else this is the Gift of living life from a place of deep Love.'

'The 22nd Gene Key is the Seventh Seal – it contains the codes for the healing of all humanity's wounds. Grace is your true nature. It is your inheritance. It is the Soul of the World. It is also a state that is beyond the Laws of our world. Grace is the breath of the Divine.'

'Grace is a Presence that descends on humanity and, like all the Siddhis, it requires that we meet it halfway, which for us humans may seem a long way. This is after all a perfected state in which everything about you and your life

will be changed permanently. When true Grace descends it wipes out all your past karma in a flash. It also wipes out the Karma of all your ancestors and all their ancestors.'

The second Kite Formation takes place between the North Ω and South Υ Nodes, Eris, $\♁$ Vesta $\♁$ Astraea, $\♄$ Saturn, $\♃$ and Ceres. $\♁$ The North Node is our spiritual pathway forward and with Eris conjunct the North Node the message seems to be that if we are to consciously connect into the expanded field of Galactic awareness (*Eris*) then we have to have sufficiently matured (*Saturn*) to have embodied Universal, spiritual principles (*Vesta and Astrea*) that are based on integrating Cosmic Order (*South Node*).

Looking first at Astraea and Vesta - which are both cosmic bodies found within the asteroid belt - Vesta links to the Light within – the 'Spiritual Flame' that we carry through each incarnation – giving the power of transformation. Vesta's focus lies upon that transformation as she carries a sense of devotion, duty and purity.

Astraea, is named for the Goddess of Justice, symbolized by the balanced scales, but equally, Astraea was known as the Goddess of Innocence according to Greek mythology.

It is said that when the Iron Age dawned, bringing along misery and wickedness, Astraea was the last of the Immortals to withdraw from the Earth. Astraea carries a sublime idealism that relates to Divine Order.

According to the myth, when Astraea returns to Earth one day, she will once again bring the utopia that was here during the Golden Age, bringing an end to human suffering.

Both these asteroids are activating Gene Key 15 known as **An Eternally Flowering Spring** moving from **Dullness to Magnetism to Floresence**.

'The 15th Gene Key is such a powerful portal into life's mysteries. It is one of the Gene Keys that bridges humans with other life forms and in doing so it connects us profoundly to the living spirit of nature or Gaia. The Gift of Magnetism makes a person physically glow with life force - it is a Gift filled with enthusiasm and openness and Love.'

'There is a subtle shift in attitude that unlocks the hidden magnetic force in your DNA. Harnessing the power of the natural world and magnetizing resources you begin to unlock the power in your aura to transmit and receive information between different life forms. Eventually, as the frequency of your aura comes into perfect resonance it interlocks with the Earth Grid and your consciousness expands exponentially, becoming one with Gaia herself.'

'Florescence is Grace. It occurs whenever and wherever it feels like occurring! This experience of Grace ends all seeking. Florescence is the explosive chain reaction of enlightenment - it follows Nature's own wild organic rhythm. When you come into perfect alignment with Gaia, then, in the words of Christ, you mystically 'Inherit the Earth.'

With Saturn in the formation, we are being asked to look at the structures and foundations of our lives – what works - what no longer works. Saturn has been known as the planet of Limitation, but in truth, *'Saturn is the Dweller at the Threshold, the keeper of the keys to the Gate, and it is through him alone that we may achieve eventual freedom through self-understanding.'* Liz Greene

So again, this is a time for inner reflection becoming accountable for our life choices. At the time of this New Moon Saturn is on Gene Key 55 moving from **Victimhood** to **Freedom**.

'The 55th Gene Key holds the key to our liberation and Freedom. Our DNA holds our greater Self – the Cosmic part of each of us that transcends our mortal body has lain secretly hidden inside humanity for aeons. The 55th Gene Key allows us to contemplate and to quicken the actual process of awakening.'

The Transformational way through the 55th Gene Key, is one of letting go. We have to let go of all agendas, hidden or otherwise. We carry a lot of hidden agendas, all aimed at validating our separate existence. Much of the 55th Gene Key concerns the future of our species as it moves through the Great Change.

Down the centuries much has been written, spoken and taught concerning the nature of higher consciousness. We are now entering an era in which more and more people will have direct access to an experience of true higher consciousness. There will be a genetic mutation that will slowly colonise our species. The old human will literally be bred out of humanity.'

'The early shattering of the sense of separateness will take place through intimate relationships. When the first relationships experience dual enlightenment, we will know that the deepest wound of all has been finally healed. The wound symbolised by the fall of Adam and Eve. These Sacred Marriages will have an unbelievable energy field around them – they will naturally rise in Love from a position of Pure and Divine Union – both sharing the same auric field.'

'We stand on the cusp of a Siddhic supernova – the incarnation of the Divine Feminine spirit. The end result of this inflowing of the Divine Feminine will result in the purification of all the fractal lines throughout humanity, resulting in a burning up of the collective karma in our DNA and the eventual eradication of all disease on the physical plane.'

The South Node, which carries the collective karmic gifts and also the unresolved ancestral patterns that we bring with us from previous lives, is conjunct Ceres, the Goddess of the natural world, Mother Earth, the rhythms of the seasons, agriculture and fertility. With Ceres, there is an unconditional love for the Earth - a strong need to nurture and protect, and to treat all other living beings, with respect and reverence. So, this conjunction, asks us to remember and to understand that we are deeply interconnected with Gaia and that our thoughts and feelings have a direct response within the Elemental Field that supports all life forms on our planet.

The South Node and Ceres are on Gene Key 50 known as **Cosmic Order**, and as shared last month, at the Shadow level there is **Corruption**, at the Gift, **Equilibrium**, and at the Siddhi Level **Harmony**.

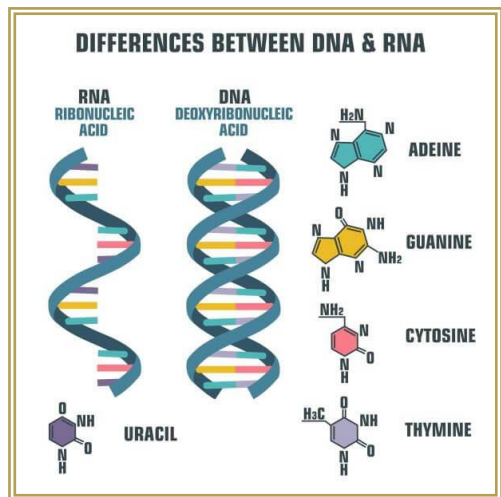

'At the Shadow frequency, data that is processed by the human brain is translated through the medium of fear. As this occurs the data is corrupted, leading to a slanted manifestation in the world. Our whole purpose in life is to root out these corrupted programmes and reboot the primary hard drive. That is the journey of awakening.'

'In genetics, this 50th Shadow has much to do with the way in which RNA copies DNA. RNA is a chemical substance similar to DNA whose role is to transcribe aspects of your genetic code in order that new proteins can be formed. In other words, RNA is a messenger that reads and copies the instructions for life. In the process known as transcription messages can be misinterpreted before they are translated.'

'This is exactly what occurs within human society – fear causes misinterpretation, leading to reaction and counter-reaction – resulting in Chaos, the 3rd Shadow and programming partner of this 50th Shadow.'

'As we align ourselves with higher frequencies and learn to balance our emotions, use our mind creatively, and our physical body wisely, so our DNA attunes us to a deeper Harmony that lies behind the world that our senses can see.'

'Here in the 50th Gift is found the inner fulcrum upon which balances the quality of our cells, our lives, and our future possibility for world peace. This high frequency is created through honesty in which all hidden agendas are laid on the table. Without this no Equilibrium can ever be reached.'

'When the 50th Siddhi begins to break through in human beings an all-powerful current of Harmony begins to shower the people with whom they are allied. Deep and hidden issues are brought to light in order that social Equilibrium can occur. Through the 50th Gene Key humanity is destined to arrive at Cosmic Harmony, although such a concept will require a sustained period of Equilibrium before the scales finally activate the higher Harmony. We know this higher harmony as Oneness with God.'

The North Node on Gene Key 3, and Eris on Gene Key 42 form the apex of this Kite. As shared last month Eris lies within Galactic Consciousness, which we have the potential to navigate within. There are two distinct timelines unfolding on the planet at present, which is underpinning the division that we are witnessing at this current time as old karmic patterns surface in order to be transmuted and released.

'Detachment, which is the Gift of Gene Key 42, presupposes a great love and trust in Life True detachment is the ability to allow and accept life as it comes. Detachment does not mean to not feel. In fact, if you are truly detached you will feel more intensely than others because you will not have allowed your Expectation, positive or negative, to constrict the event you actually experience.'

'Eventually, there must be a complete letting go. This is what initiation calls out of us, and there are levels of endings as well. The big ending is when we let go of death and dying. The Codon Ring of Living and Dying contains the codes to unpick the mystery of how and when the Spiritual Essence, the Soul, enters and leaves the form, the maya, the body.'

'It is funny that we generally only celebrate things at the beginning or the end. We don't usually celebrate something in the middle, but this Siddhi is about celebrating in the middle. It is about every moment becoming a Celebration.'

This Celebration of Life awakens the Innocence that is waiting to unfold at the Highest frequencies of Gene Key 3 held by the North Node, echoing the archetypal consciousness of Astreae.

'At the Absolute zenith of its frequency, the 3rd Siddhi is about Innocence. This Siddhi reminds us that all of Life, and that includes human beings, is essentially Innocent. One day Humanity will evolve towards its awesome final destiny of Global and Celestial Harmony. As the 3rd Siddhi comes into the world, which it will do very shortly, a great remembering of our Innocence will emerge in humanity.'

'We are all really children – children of the Cosmos and our only real job is to let go of our seriousness and find the delight in every exquisite jewel that life places before us.'

The Law of Detachment:

- In detachment lies the wisdom of uncertainty
- In uncertainty lies the freedom from the known
- Detach from the outcome. Be in the process
- Surrender to the dance of the universe

The third part of this trilogy message is to be found within the last Kite, which is created by Pallas Athena and Sedna aspecting Pluto and Neptune.

Sedna, in many ways, is key to all that is unfolding right now, and all that has been unfolding over the last several years. This is the first time that we have been consciously aware of the closeness of the presence of Sedna as she makes her 11,400 yearly orbit around the Sun.

The last time she was as close, was back in the time of Atlantis, according to Plato, around 9000 - 9600 BC.

According to the myth/history this was a time when the mind and the heart were weighed in the balance and found wanting and so began a new civilization as the legendary City of Atlantis disappeared under the seas.

So, this is indeed a momentous time that we are passing through – and the quality of our essence, our thoughts, feelings and actions are all creating, either positive or negative feedback. As for last month, Sedna remains on Gene Key 20 known as **The Sacred OM**, holding the Shadow of **Superficiality**, the Gift of **Self-Assurance** and the Siddhi of **Presence**.

*'The Gift of Self-Assurance comes into being when a human being first learns to let go of their thinking as the authority in making decisions. **With Self-Assurance comes a profound surrender to life in every moment.** As you begin to accept that life has its own plans and flow, you also begin to stop interfering with the process at a mental level.'*

'Once we begin to consider the affects of our actions, our thoughts, our words and speech, once we see them deeply, it has a preventative effect in us. Certain addictive patterns fall away and we learn how to be more altruistic and less harmful and toxic in our environment.'

*'This Gift is in fact the precursor to a higher state of spiritual awareness. You begin to discover that decisions in life simply get made, so there is no point in agonising over them. It also carries a certain sense of humour within it – a sense of lightness about life, a deep relaxation. **In its purest sense, the state of Self-Assurance is actually your own greater nature emerging. It is a sign that more consciousness is being allowed to incarnate into the physical vehicle.** Your Self-Assurance is directly equivalent to your ability to escape being a victim of your mind.'*

*'As you begin to learn the knack, you experience the subtle expansion of a meditative awareness – an ability to witness your mind without being caught up in it. **An internal spaciousness grows and you no longer have to try to control life.** On the contrary, you now allow life to move you. What actually occurs with this Gift is that the awareness within your solar plexus begins to take over from your mind opening the way for you to connect into a very powerful universal power.'*

*'The 20th Siddhi relates to the eighth plane of reality, the true ground of our Divinity, known as the **Logic Plane**. Above all, it is the sacred breath that unites the realms of both Light and Sound, allowing us to enter completely into consciousness as pure existence.'*

*'Presence is the underlying nature of Being. In fact, it would actually be truer to name this Siddhi, The Presence, since the use of the definite article gives us the distinct impression that this is a state of consciousness that has nothing to do with any individual. **It is the manifestation of The Presence through***

a human vehicle. *The true Siddhic state is one of complete relaxation. When this Siddhi has flowered in a person it actually creates a subtle atmosphere around itself – a kind of silent ease that pervades the aura of the person and radiates out to all Creation.'*

The final Gene Key that is being activated through this third Kite is Gene Key 46, where Pallas Athena is at 0° Libra, which is where the Sun will be at the Equinox on the 22nd or 23rd of September, depending upon where you live. Each year as we experience the September Equinox the Sun is focused upon Gene Key 46, and the 46th Siddhi is a transmission across the planet that supports and fosters Delight and Joy.

Known as **A Science of Luck** the frequency moves through the Shadow of **Seriousness** to the Gift of **Delight** to the Siddhi of **Ecstasy**.

*'The formula for a wonderful life is so simple — tread lightly and don't worry so much. **Life will take you where it wants you to go.** But we humans tend to live in our minds rather than in each present moment, and our minds always live within time. At higher frequencies, your attitude becomes much lighter as you go through life. **No matter what your circumstances, you can accept and recognise them as being a part of grace.'***

*'Understanding this Gene Key is pivotal to your understanding the core of the 64 Gene Keys themselves. If you can open your heart to receive the frequencies they represent, the frequencies begin to seek you out. **Siddhic states are all a matter of magnetism.** You have to expand yourself far enough to become one pole of the energy field — to be the negative pole or the attractor.'*

'This is exactly what we humans are — receiving dishes for universal frequencies. If you can expand your consciousness far enough, then the highest frequencies actually descend into you.'

'Ecstasy is the highest frequency of the 46th Gene Key and it occurs only through the heart. It is in fact the true nature of humanity. You may think it is impossible for a normal person to live in a state of ecstasy and function in the world. Not true at all. **Ecstasy is your state whenever your mind comes to complete rest.** In other words, as soon as your mind is required in the world, the ecstatic state fades into the background and your activity moves to the foreground.'

*'It is not that this 46th Siddhi is any more powerful than any other Siddhi, but that this manifestation of Divine consciousness is so close to the physical realm and it emerges through the physical body. **Matter is penetrated completely by the Spirit.** Such men and women – the ecstatics – have not always found it necessary to remove themselves from the world, but have found their love within the world of ordinary life. **Ecstasy comes in waves, in orgasms that travel through the Universal quantum field in which we live.** The more people who experience such orgasmic energy coming through their higher bodies the more our planet will be transformed.'*

We are in an ongoing period of transformation on planet Earth, and as Mercury, is a central planet involved in how we will experience and evolve through this transformation, before ending this Review it would be good to look at the Gene Key that is held by Mercury at this moment in time to gain a deeper insight.

Mercury is on Gene Key 40 known as **The Will to Surrender** moving through the Shadow of **Exhaustion** to the Gift of **Resolve** and ultimately to the Siddhi of **Divine Will**.

'The 40th Gene Key and its Shadow concern the correct or incorrect use of the power of the human will. Whenever your actions are in alignment with the Universe the requisite energy is supplied from deep within your being – but when they are not flowing from your true source they are forced and your energy is depleted. When you activate the 40th Gene Key at a higher frequency, Exhaustion becomes a thing of the past. When your life force is aligned you will discover that there is a vast amount of energy available to you'

'Resolve is more than just willpower or determination it is the flowering of your aloneness - for the 40th Gift thrives on solitude - the source of all your power lies in your love of being alone. Every human being has to eventually learn from this Gift of aloneness or of 'all oneness.' At the highest frequencies the Gift of Resolve becomes transformed into pure Divine Will. The 40th Siddhi exudes an aura of splendid aloneness and displays an exquisite independence from the normal needs of human beings.'

'The 40th Siddhi represents a code in human DNA that will transform humanity on the physical plane. The 40th Siddhi holds the key to complete physical relaxation in which every molecule of DNA inside your body is functioning at its optimal frequency. The four Gene Keys in the Ring of Alchemy will transmute your DNA so that there is no longer any interference in your physical body – this means that your highest subtle bodies can manifest directly through your physical body.'

'That is the real meaning of complete physical relaxation, it is a state beyond the comprehension of your mind. It is the direct manifestation of Divine Will.'

May this New Moon enfold us in the deepest inner peace, and joy, to assist the ongoing transmutation, and **Transfiguration**, magnetising **Compassion, Grace and Innocence**, so that **Freedom** may **Flower** and **Justice** be revealed through **Divine Will**.

Love and Blessings to All
