

HSL-Series

Heavy-Lifting Strand Jack System

World Class Strand Jacks

- Precision Control
- Durability
- Reliability
- Safety

▼ Shown: HSL50006 Strand Jack

- Precision control of synchronous lifting and lowering
- Can be controlled by a single operator from a central location for increased safety
- Automated locking - unlocking operation
- Two strand sizes: 15,7 mm and 18 mm (.62 and .71 inch)
- Telescopic strand guide pipes prevent bird caging
- Internal components are coated with Lunac, an anti-corrosion coating, making it suitable for marine environments
- Lifting anchor included with all strand jacks
- Lloyd's witness tested to 125% of maximum working load

Heavy-Lifting Strand Jacks

High Capacity
Precision Control

Strand Jacks

Enerpac strand jacks are the strand jacks of choice for customers seeking precise synchronous control with heavy-lifting capacity in an economical, compact, and reliable foot print.

Enerpac strand jacks are powered by electrical or diesel driven hydraulic power packs and controlled by Enerpac's proprietary SCC-Smart Cylinder Control System to ensure full control of lifting and lowering operations.

Enerpac continually improves reliability, durability, and safety of their strand jacks, making them an industry standard for heavy-lifting.

Strand Wedges

Wedges are hardened and nickel coated to resist corrosion, resulting in an extra long life.

Page:  7

Heavy-Lifting Strand

Enerpac offers 15,7 mm (.62 inch) and 18 mm (.71 inch) heavy duty strands.

Heavy-Lifting Strand Jacks

Strand Jacks

A strand jack can be considered a linear winch. In a strand jack, a bundle of steel strands are guided through a main "lifting" jack.

Above and below the cylinder are anchor systems with wedges that grip the strand bundle simultaneously. Lifting and lowering a load is achieved by hydraulically controlling the main jack and both mini jacks alternately.

In the case of system pressure loss, the wedges are mechanically closed automatically, holding the suspended load in place.

Today strand jacks are widely recognized as the most sophisticated heavy lifting solution. They are used all over the world to erect bridges, load out offshore structures, and lift/lower heavy loads where the use of conventional cranes is neither economical nor practical.

HSL Series

Capacity:
15 - 1250 ton

Stroke:
250 - 600 mm

Maximum Operating Pressure:
350 bar

SLPP-Series, Hydraulic Power Packs

▼ Shown: SLPP55E Hydraulic Power Pack

Reservoir Capacity:

20 - 350 litres

Flow at Rate Pressure:

10 - 100 l/min

Motor Size:

2,2 - 55 kW

Maximum Operating Pressure:

350 bar

Hydraulic Power Packs

Enerpac offers a comprehensive range of hydraulic power packs that are optimized for use with their industry leading strand jacks.

- Variable frequency drive motor for precision control
- Optimized for use with specific strand jack sizes
- Equipped with a hydraulic safety circuit
- Pumps are easily connected with a standard RS-485 network cable
- Integrated E-stop on pump
- Connection for auxiliary hand pendant
- Pumps include:
 - Reservoir sight glass
 - Return tank filter
- Enclosed frame with integrated lifting lugs and fork lift pockets
- Standard voltage for electric pumps is 480V, 50/60Hz, 3-phase (other voltages available upon request).

Strand Jack Capacity (ton)	Theoretical Lifting Speed (m/hr) *

Strand Guide

- Provides a guide for the strand as a strand jack lifts the load
- Capable of feeding the strands into a strand recoiler
- Adjustable height.

Optional Strand Tensioner

Enerpac's Strand Tensioner System simplifies strand jack setup, when used with large strand jacks.

Strand Tensioners attach to the top of a strand jack and ensure all strands have even load distribution. The tensioning cycle is automatically controlled by Enerpac's SCC Software.

Model Number	Maximum Number of Strands		A (mm)		B (mm)	C (mm)	D (mm)	E (mm)	 (kg)
	15,7 mm (.62 inch)	18 mm (.71 inch)	min.	max.					
SGS1	19	13	2760	4260	950	600	1900	210	450
SGM1	48	48	2069	3569	1125	600	2249	342	700
SGL1	55	55	2500	4000	1530	750	3060	375	1300

Strand Recoiler

- Passively pays in or pays out strands while jacking and lowering
- Must be used in combination with an Enerpac strand guide.

Transporting Strand Jacks

Enerpac offers custom transportation crates for each Strand Jack.

Each custom crate is tailored to a specific Strand Jack and Anchor. These crates provide a secure and safe method for easily transporting any Enerpac Strand Jack.

Model Number	Max. Number of Strands	Strand Capacity (length in meters)		A (mm)	B (mm)	C (mm)	D (mm)	E (mm)	 (kg)
		15,7 mm (.62 inch)	18 mm (.71 inch)						
SRCS1	20	750	500	1930	1000	1762	1000	1800	445
SRCL1	48	6000	4000	2756	1831	2706	1605	1240	1000

HSL-Series, Strand Jack Accessories

Strand Dispenser

- Essential to safely unbundle a new strand coil
- Provides method for dispensing strand for set-up

Model Number	A	B	C	D	
	(mm)	(mm)	(mm)	(mm)	(kg)
SD1	1745	2000	1205	1050	650

Strand Wedges

- Specially designed for superior performance with Enerpac strand jacks
- Three-piece wedge design with a friction grip profile on the inside of each piece
- Hardened nickel coated wedges for long life and trouble free wedge release
- Wedges are included with every strand jack purchase and available as spare parts.

Heavy-Lifting Strand

- Strands available in 15,7 mm Super or 18 mm Dyform®
- Strand jack and strand combinations are designed to meet a minimum 2,5 x safety factor to working load
- Constructed of seven twisted, high-capacity steel wires.

Model Number	For Strand Diameter		Package Quantity
	(mm)	(inch)	
HLW06	15,7	0.62	50
HLW07	18	0.71	50

Wedge Lubricant

During wedge maintenance or wedge replacement, it is critical that the outside of the wedges are thoroughly lubricated before placing them back into the anchor block. A stick lubricant or another type of pressure resistance grease should be used.

Model number **22601005**.

Strand Diameter	Strand Type	Model Number *	Tensile Strength	Steel Area	Breaking Load	Length per Coil	Mass	
mm (inch)			(N/mm ²)	(mm ²)	(kN)	(m)	(kg/m)	(kg)
15,7 (.62)	Super	SC06	1860	150	279	2560	1,17	3000
18 (.71)	Dyform®	SC07	1700	223	380	1720	1,74	3000

* Sold by the coil.

About Enerpac

Enerpac is the leading global provider of high-pressure hydraulic tools and solutions with a broad range of products, local expertise and worldwide distribution network. With a proven track record in a wide range of markets, Enerpac designs and manufactures high-quality tools and solutions for all industrial applications.

Enerpac has gained unique experience in delivering hydraulic solutions for the controlled movement and positioning of heavy objects. Enerpac supports your business by offering the right solutions and service to help you get your work done efficiently and safely.

Hydraulic solutions for controlled movement and positioning of heavy loads

While Enerpac has the world's largest product portfolio for heavy-lifting and load-control applications, we also have the knowledge to put all these programs together or modify them to provide a lift system for your most demanding and unique applications.

- Synchronous Lifting Systems
- Jack Up Systems
- Bridge Launching Systems
- Synchronous Hoisting Systems
- Hydraulic Gantries
- Heavy-Lifting Strand Jacks
- Skidding Systems
- Self-Erecting Towers
- Chain Pulling Systems
- Self-Propelled Modular Transporter
