

Privacy Policy

This notice explains how we will process your personal information.

Data Protection Principles

Shaw Hydraulics Limited complies with the principles of the Data Protection Act 1998 and the Privacy and Electronic Communications (EC Directive) Regulations 2003. The eight principles relating to the processing of personal information are:

- Personal data shall be processed fairly and lawfully
- Personal data shall be obtained only for one or more specified and lawful purposes
- Personal data shall be adequate, relevant and not excessive in relation to the purpose or purposes for which they are processed
- Personal data shall be accurate and, where necessary, kept up to date
- Personal data processed for any purpose or purposes shall not be kept for longer than is necessary
- Personal data shall be processed in accordance with the rights of data subjects under this Act
- Appropriate technical and organisational measures shall be taken against unauthorised or unlawful processing of personal data and against accidental loss or destruction of, or damage to, personal data
- Personal data shall not be transferred to a country or territory outside the European Economic Area unless that country or territory ensures an adequate level of protection for the rights and freedoms of data subjects in relation to the processing of personal data

Your privacy and security is of utmost importance to us. We will always follow these principles and ask you how you would like us to communicate with you. The Information Commissioner regulates compliance with the Data Protection Act. See details at end of this page.

Why we collect your data?

By collecting your data, it allows us to understand what your needs and wants are. It also allows us to provide targeted offers and services you may be interested to hear about.

Cookies and IP Addresses

A cookie is a file containing an identifier (a string of letters and numbers) that is sent by a web server to a web browser, and stored by the browser. The identifier is then sent back to the server each time the browser requests a page from the server.

Cookies can be used by web servers to identify and track users as they navigate different pages on a website and to identify users returning to a website.

Cookies may be either "persistent" cookies or "session" cookies. A persistent cookie consists of a text file sent by a web server to a web browser, which will be stored by the browser and will remain valid until its set expiry date (unless deleted by the user before the expiry date). A session cookie, on the other hand, will expire at the end of the user session, when the web browser is closed.

1. Essential Cookies

These cookies are essential for the running of our websites. Without the use of these cookies parts of our websites would not function, these are typically used within contact forms or the secure login section of our site.

2. Analytical Cookies

We use these types of cookies to monitor the usage of our website. These cookies provide us with information that helps us provide a better service / product to our customer, they also identify any areas that may need maintenance.

3. Third Party Cookies

We may also track IP addresses. An IP Address is a number that can identify an Internet Service Provider and country location. It cannot provide personal information.

How to control the use of cookies

You are not obliged to accept cookies and may modify your browser so that it will not accept cookies. The browser you use allows you to see cookies and control their use.

You can control them by allowing them, deleting them individually or deleting all of them. You can also set your browser to not accept cookies altogether. If this option is selected, you should be aware that many websites will not function properly or at all. It may be possible to set your browser to not accept cookies and ask for your consent before each cookie is set on your device. This gives you control over what is set on your device, however has the drawback of slowing down your browsing experience.

There are different levels of control too. You are able to prevent just third party cookies being deployed, effectively opting out of behavioural advertising, and some even allow you to block specific companies you do not wish to deploy a cookie, instead of selecting all companies. In order to manage your cookies, please select your browser from the list below and follow the instructions:

- [Chrome](#)
- [Firefox](#)
- [Internet Explorer](#)
- [Opera](#)
- [Safari](#)

How To Prevent Online Behavioural Advertising

Further to configuring your browser to control the use of cookies, there are also other ways that you can opt out of online behavioural advertising.

The "[Your Online Choices](#)" page provided by the Internet Advertising Bureau (IAB), provides an easy way to opt out of behavioural advertising from each (or all) of the networks represented by the IAB.

Some more useful information about Cookies

More information about cookies can be found at the following websites:

If you have any questions about the use of cookies on our websites, please email: info@worlifts.co.uk

Marketing consent

If you are an existing customer we will keep you informed of our latest news, products and services.

When you give us your personal information, we will give you an option to receive additional on-going marketing communications from us.

We do not sell our customer data to other companies.

All of our marketing communications will have a method to unsubscribe.

You may also exercise your right to opt out for marketing purposes at any time by contacting us by one of the methods explained at the end of this notice.

Disclosure

Your personal information will be disclosed where we are obliged or permitted by law to do so. If you post or send offensive or objectionable content anywhere on or to any of our websites or otherwise engage in any disruptive behaviour on any of our websites, we can use the information that is available to us about you to stop such behaviour. This may involve informing relevant third parties such as your employer and law enforcement agencies about the content and your behaviour.
