

General news – November 2017

Consultations and communications

D&S IFCA is in the process of developing a new communications strategy which will be published in the near future.

To maximise stakeholder engagement in the different consultations that are undertaken, a consultee list has been developed.

The consultee list was used by D&S IFCA in two recent consultations relating to potting and also mobile fishing.

Both of these consultations ended on 23rd October 2017 and the responses provided by stakeholders are now being summarised in preparation for a meeting of the Byelaw and Permitting Sub-Committee on 13th November 2017.

Following this meeting D&S IFCA will be conducting further consultations and the home page of the D&S IFCA website will display up to date information.

If you or your organisation is not already on this consultee list and you wish to be notified directly of future consultations then please contact D&S IFCA.
