

Mobile Fishing Byelaw - A review of permit conditions

As required by the byelaw, the D&S IFCA has completed a three year review of the permit conditions. Consultation was conducted with responses summarised and then considered by the Full Authority in June 2017.

Consultation responses did influence the decision making process in particular access for demersal trawling in the Torbay Marine Conservation Zone (MCZ). Changes to the permits have now been made and all permits re-issued with a start date of 28th July 2017.
