

UK DESIGNED AND BUILT

An affordable, multi-purpose workboat with shallow draft and large carrying capacity

The single hull RT14 is the most compact of the Meercat range of vessels. This vessel has been designed for those customers who require a smaller workboat whilst also benefiting from an extremely shallow draft, as little as 750mm with 10 tonnes of cargo on deck. Furthermore, in common with the multi hull Meercats, the RT14 can be transported by road at a moment's notice.

The RT14 is the ideal vessel for an endless list of duties, whether they are coastal or on lakes and inland waterways.

As well as being highly manoeuvrable, the Meercat RT14 boasts an impressive cargo carrying capacity, whether it is on deck, or as fresh water and fuel. The robust Palfinger 11001MB crane is sure to prove to be an invaluable asset to vessel owners.

As with all models in the range, we welcome the opportunity to design your Meercat to fulfil your exact requirements both in terms of specification and budget.

Beam	4.85m
Moulded Depth	1.5m
Draft	0.75 - 1.00m
Air Draft (Afloat)	3.5m
Displacement (Nom. Lightship)	28 tonnes
Deadweight Tonnage	12 tonnes
Deck Cargo Capacity	>10 tonnes
Deck Strength	7.5 tonnes/m ²
Bollard Pull	2.7 tonnes
Free Running Speed	8 knots

Machinery

Main Engines	2 x Doosan L136, 320hp total
Stern Gear	Water lubricated stern gland, twin 5-blade props
Generator	Westerbeke 9.2 KVA
Steering	Sleipner hand hydraulic
Deck Crane	Palfinger PK11001MB, 810kg at 9.8 metres

Tankage

Liquid Cargo	21.8m ³
Fuel Bunkers	0.9 tonnes

Construction

Hull, Deck and Sides	8mm Lloyds 'Grade A' steel plating
Sheer Strake & Bow Plate	250 x 20mm
Transverse Framing	@ 500mm centres
Bulkheads	5mm Lloyds 'Grade A' plating
Longitudinal Stiffening	Angle with pillars every 1000mm

Wheelhouse & Store

Construction	Steel or Aluminium
Windows	Toughened 6mm glass
Door	Hardwood
Facilities	Galley, lockers, seat/bunk

Road Transportation Dimensions (Excluding trailer)

Hull (LxWxHxWeight)	14.5 x 4.85 x 3.85m x 28 tonnes
---------------------	---------------------------------

General

Push Knees	Rubber fendered
Deck	Fully sheathed with 50mm softwood
Bulwarks	5mm plate, 1m high
Storm Boards	75mm softwood, 1m high between push knees
Store Dimensions	2.5m x 4.7m x 1.45m
