

MECHATRONICS TECHNICIAN APPRENTICESHIP OPPORTUNITY

AGR Automation has an engineering apprenticeship opportunity available for a Mechatronics Technician in our Ballymena facility.

With an AGR Automation Apprenticeship, you will learn the skills needed to become a fully qualified Mechatronics Technician and begin your career with a business which has an unrivalled reputation globally as a leading designer and manufacturer of high speed automated machinery.

Our four-year programme combines on-the-job training with academic study at NRC and a wage throughout the apprenticeship– including when you're studying.

Level 2 ApprenticeshipsNI (Mechatronics Technician)

The Level 2 ApprenticeshipNI offers day release/off –the-job training and applicants must have obtained or be expecting to achieve by August 2015 at least:

- 4 GCSE Grades A-C or equivalent including Maths, English and at least one science related subject or equivalent.

Who are we looking for?

We're looking for those people who can:

- Work hard toward the completion of all college work
- Work as a team to develop problem solving and communication skills
- Show a commitment to a career in engineering
- Demonstrate a flexible and dedicated attitude towards the scheme and their future career.

To apply for this position please send a CV and covering letter to Fiona Boath, HR Manager boath.f@agr-automation.com. Or you can download an application form from our Recruitment page at www.agr-automation.com/

Please do not hesitate to contact us on 01241 872961 if you have any questions about this Apprenticeship opportunity.
