

APPRENTICESHIP OPPORTUNITY

MECHATRONICS TECHNICIAN

AGR Automation has an apprenticeship opportunity for a Mechatronics Technician in our Ballymena facility.

With an AGR Automation Apprenticeship, you will learn the skills needed to become a fully qualified Mechatronics Technician and begin your career with a business which has an unrivalled reputation globally as a leading designer and manufacturer of high speed automated machinery.

Our four-year programme combines on-the-job training with day-release academic study at Northern Regional College, Ballymena, and a wage throughout the apprenticeship, even while you're studying.

Requirements

Applicants must have obtained or be expecting to achieve a minimum of 4 GCSE Grades A-C or equivalent including Maths, English and at least one science (ideally physics) or technical subject.

A Higher Level Apprenticeship may be available for candidates achieving the required A-Level results.

We're looking for those people who can:

- Work hard toward the completion of all college work
- Work as a team to develop problem solving and communication skills
- Show a commitment to a career in engineering
- Demonstrate a flexible and dedicated attitude towards the apprenticeship and their future career.

How to apply

To apply for this position please send a CV and covering letter to Fiona Boath, HR Manager fiona.boath@agr-automation.com. Or you can download an application form from our Recruitment page at www.agr-automation.com/lease do not hesitate to contact us on 01241 872961 if you have any questions about this Apprenticeship opportunity.
