

TRANSACTZAR™ MARKET SURVEILLANCE

A COMPLETE MONITORING AND REGULATORY SOLUTION

Transactzar is a complete Post Trade Surveillance platform for Equities, Fixed Income and derivatives that:

- Tests against, Reports on and Stores every trade for 7 years.
- Performs Best Execution benchmarking against prices from 250+ global venues.
- Tests against 20 market abuse categories, with 50+ abuse scenario alerts.
- Is Deployed Enterprise (in-house) or as a Hosted managed service.
- Interfaces with any system, whether in house, vendor, legacy or contemporary
- Provides a Toolkit to enable the business to optionally configure their solution
- Manages exceptions and aberrations through its Case Management System
- Unlimited support and system configurations with no additional cost
- Embedded Feeds from the Market leading Financial Data and News Vendors
- Tests near time (15 minute delay) or T+1

Transactzar alerts cover the regulatory requirements of MIFID, MIFIR/ MIFID II, MAD, MAD II and ESMA Guidelines in Europe and Dodd Frank, Volcker Rule and MAD in North America.

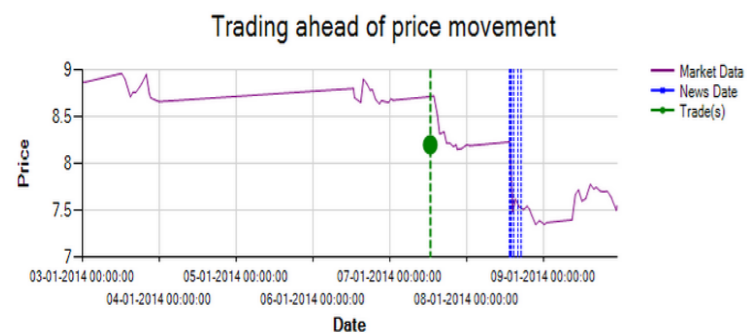

Transactzar is offered on a Trial basis to all new customers or existing eflow customers making use of our solutions in the PATH product suite. One of our representatives can visit with you to demonstrate the power of this market leading surveillance solution.
