About Financial Information Technology Ltd.

- **Software for Life Insurance and Pensions Administration**
  FIT have offered comprehensive and integrated systems solutions to life insurers, pensions, bank assurance and white label providers and outsourcers in domestic, international and offshore markets since 1990.

- **Expertise**
  At FIT, we specialise exclusively in life insurance and pensions. Our professionals have an average of 15 years' experience in managing life & pensions companies, implementing systems and outsourcing back office operations.

- **Outsourcing to FIT Administration (FITA)**
  FIT Adminstration provides efficient and cost-effective outsourcing for life and pensions companies through specialist back office management and processing know-how, on the proven **LIFE***fit* policy administration software. We provide back-office support within the allowed administration cost for each policy, and optimise your business processes to maximize profit.

  We work with clients to ensure the most flexible and cost effective solutions that fit their business needs.

LIFE*fit* policy administration software
