

Appointments for registered patients

Your time with your doctor or nurse is precious and we would like to help you make the most of it.

Please bear in mind that:

- * Each appointment is for one patient only.
- * Our doctors' and nurses' appointments are 10 minutes long, which is generally sufficient for one problem. If you have more than one problem please let the doctor know at the start of the consultation
- * The doctors and nurses try and run to time but the nature of the work, and the needs of other patients, means that sometimes they will be delayed.
- * Please help them with this by being on time for your appointment: we may not be able to see you if you arrive late.
- * Finally if you are unable to keep an appointment please let us know as quickly as possible so that we can offer it to another patient.

We hope this information enables you to make the best use of our resources.
