

Station House – Cycle Storage

Station House is now equipped with two secure cycle stores, one for each room.

Our two new stores are situated at the side of the house and look like this

Each store can hold two bikes, there is an internal bar to lock your bikes to (locks not provided).

The dimensions of each store are

- Interior Height at lowest point 108 cm
- Interior Depth 80cm
- Interior Width 185 cm and the Doorway Width 150 cm

Each store also has a secure outer door lock, the key for this is on the guest key ring (along with your room key and front door key) so you can store/retrieve your bikes anytime you like.
