

## Station House – Cycle Storage

Station House is now equipped with two secure cycle stores, one for each room.

Our two new stores are situated at the side of the house and look like this

Each store can accommodate two bikes and there is an internal bar for you to lock your bikes to (locks not provided).

Each store also has a secure outer door lock, the key for this is on the guest key ring (along with your room key and front door key) so you can store retrieve your bikes anytime you like.
