

Entry to Care Programme

Our **Entry to Care Programme** has been specifically designed for individuals who are interested in starting a career in **health and social care**, but who **do not have any previous experience** in the sector.

This comprehensive **5-day programme** provides a supportive introduction to care work and includes:

- **4 days of in-house classroom-based training**, delivered by experienced trainers
- **1 day of onsite work experience**, allowing delegates to gain practical, real-world exposure within a care setting

Delegates will develop a strong foundation of essential knowledge and skills needed to begin working in care. The training is designed to build confidence, understanding, and awareness of the role and responsibilities involved in providing high-quality, person-centred care.

Questions to Ask Yourself Before Applying

- Are you **new to health and social care**?
- Do you have **none or very little previous experience**?
- Can you provide a **UK-based reference**, if requested, should your application be successful?
- Are you passionate about supporting and caring for others, including assisting with personal care?

If you answered **yes** to these questions, this programme could be the **right opportunity for you**.

If you are interested in applying for this programme, please click the link below and follow the steps outlined to complete your application.
