

## Squishy Bag Experiment

What you need:

- Sandwich bags.
- Red, blue and red paints. If you don't have any you could use mayonnaise, corn flour and water or custard. You can add food colouring, spices such as turmeric to add colour or herbs.
- Any other sensory items such as lentils, rice or pasta to add texture.

Instructions

1. Open the sandwich bag and choose paints to squeeze inside the bag. Try mixing primary colours;  
Red and blue – Purple  
Blue and yellow – green  
If you are using spice and herbs you can experiment making different colours of your choice.
2. Add sensory items and seal the bag.
3. Use your hands to mix the colours together.
