

Toilet Roll Summer Monsters

Let's make a Toilet Paper Roll Monster Craft: Step by Step Instructions

<https://www.artycraftykids.com/craft/toilet-paper-roll-monster-craft/>

Wrap the Toilet Paper Roll in Paper

Step 1: Cut a piece of paper to the approximate size of the paper roll.

Ideally, it will be slightly taller than the roll.

Step 2: Apply glue to one edge of the paper.

Place the paper roll on top of the gluey area and begin to wrap the paper roll.

Secure the other end with glue.

Step 3: Fold any excess paper over the edges and into the paper roll.

This will keep the monster craft nice and tidy.

Step 4: Select a set of eyes, a mouth, a nose (optional from the web site or internet) and some monster extras – or draw yourself in a separate paper.

Carefully cut out the monster features.

Some features have fine lines, simply add some white space and cut the general shape of the feature (check out the swirly stars on the blue monster as an example)

Step 5: Glue the features to the paper roll – or draw directly in the monster's body (roll paper).

The Toilet Paper Roll
Monster Craft is Complete!
