

2D Shapes

Can you name as many 2D shapes as you can?

How many sides and corners do they have?

Make a list and draw them.

Cut different 2D shapes out of paper – use newspaper, cardboard from a cereal packet, spare envelopes from letters you receive.

Can you make a picture out of these 2D shapes, similar to the one below:

3D Shapes

Can you name as many 3D shapes as you can?

Can you go on a 3D shape hunt, using the table below:

Shape	Tally	How many?
