

Hausted® SurgiChair Series

The Ideal Solution for Ophthalmology

Hausted®

Versatility

Improve case turnaround time and streamline patient handling with the new Hausted® ESCEYEST.

- Efficient to handle increasing caseloads
- Small footprint for easy maneuvering
- **New** low height for easy patient accessibility
- **New** weight capacity up to 500 lbs (evenly distributed)
- **New** side rail designs for added durability

Mobility

Multiple steering options for maneuvering around tight corners, steering down long hallways, and positioning the unit appropriately during surgery.

- Precise articulation of the head piece using control knobs
- Easily raise and lower the patient's chin and forehead
- Powered controls

Patient Safety

The ESC is equipped with emergency adjustments that quickly and safely place the patient in Trendelenburg and varying incline positions.

- Complete with safety strap
- Sturdy platform to accommodate delicate procedures
- Excellent site access by both physician and nurse

Patient Comfort

Comfort during procedure is achieved through advanced foam design and in material components.

- Dual density foam design
- Low profile surface (2.5")
- **New** shear reduction design with 4 way stretch upholstery

Infection Control

Urethane coated fabrics and powder coated parts allow for easy cleaning and infection control within any clinical environment.
