About Mull

Could tourism and business opportunities in the Tobermory area be improved?

In your opinion, would the kind of facilities envisaged bring extra visitors to the island?

Is there an under-provision for any particular type of visitor to the area (ie children, older generation, wet-weather/indoor)?

Tick all of those that you think are appropriate for and that you think yourself and/or others would be willing to pay to use on the Aros Waterfront land.
