rated our course presenters as Excellent on their delivery style

95 % of attendees

rated our course presenters as Excellent or Very Good on the course material used

A selection of open comments from attendees on what they enjoyed, learnt and will take away with them:

"Today has opened my mind even though I have attended autism courses before. Today I have seen things from a person with Autism's point of view and experience of life. We in the care sector have so much to learn to support people with autism, to have a good and supported life. To experience life as they want to and be happy."

"This course is very insightful and engaging. I have greater knowledge of autism and look forward to learning more about autism and how to support people better living with condition."

"Light bulb moments a plenty, 'enlightening' us all. Informative and interesting, relaxed delivery of course. Enjoyed it greatly."

"I felt that the people delivering the training have excellent knowledge, reputable and committed to delivering the training to staff."

"The course was fantastic. It really challenged my thinking and enabled me to see things from a different perspective. I feel confident now that I am now better equipped to work sensitively with individuals with autism. I look forward to attending further workshpos in the future to further develop my understanding and practice."

"Judith was brilliant and gave a clear view of Autism. The help she received from Adam who has Autism provided invaluable insight into Autism"
