

CURRICULUM VITAE

Henry Dowson

BSc, MBBS, FRCS (Gen), MD

Consultant Laparoscopic and Colorectal Surgeon

EDUCATION

Kings College Choir School	1980-1984
Uppingham School (<i>Honorary Music Exhibitioner</i>)	1984-1989
Charing Cross and Westminster Medical School	1990-1996
Intercalated BSc History of Medicine (UCL, London)	1993

QUALIFICATIONS

BSc (Upper second class Honours)	1993
MBBS	1996
MRCS	1999
FRCS (Gen, specialty interest Coloproctology)	2008
MD, University of Surrey	2010

ACADEMIC PRIZES

Short-listed for David Dunn ALS prize, ASGBI	2008
Video presentation prize winner, ASGBI	2008
Poster of distinction, ASGBI	2007
Poster of distinction, SAGES	2007
Wellcome Scholarship awarded for BSc	1993
Certificate of Merit in Pathology	1995
Short-listed Physiology project prize	1992

MEMBERSHIPS

Association of Coloproctology
Royal College of Surgeons
Association of Surgeons
British Hernia Society

CURRENT APPOINTMENT

Consultant
Oct 2009

Frimley Park Hospital
Coloproctology, Laparoscopic and General Surgery

Current and previous responsibilities include: Patient safety clinician (chairing serious incident reviews), Appraiser, Surgical lead for clinical governance, chair morbidity and mortality meetings, lead for enhanced recovery, Surgical tutor, Bowelscope screening endoscopist. I attend our weekly MDT meetings for colorectal cancer and Inflammatory bowel disease, and our monthly pelvic floor and endometriosis MDTs.

Previous Appointments

Registrar / Fellow

Oct 2008 – Oct 2009

**Flinders Medical Centre / Repatriation Hospital
Adelaide, Australia**

Coloproctology / General Surgery

Dr J Sweeney, Prof D Wattoo, Dr P Hollington, Dr R Sarre, Mr A Chew

Specialist registrar in General Surgery, South West Thames Rotation

Apr 2008 – Oct 2008

Frimley Park Hospital

Coloproctology and General Surgery

Mr AM Gudgeon, Col DP Edwards, Miss SJ Burton, Mr IC Jourdan

Oct 2007 – Apr 2008

Royal Surrey County Hospital

Coloproctology

Prof TA Rockall, Prof GC Marks, Mr JF Stebbing

Laparoscopic Research Fellow:

Oct 2005 – Oct 2007

Minimal Access Therapy Training Unit

Laparoscopic surgery and coloproctology

Prof T Rockall, Prof M Bailey

Apr 2005 – Oct 2005

St Thomas' Hospital

UGI/Laparoscopic Surgery

Mr R Mason, Mr A Botha

Dowson H, Donaldson D. Management of Squamous Cell Carcinoma of the Anus in a District General Hospital. Poster presentation: ACPGBI meeting, Jul 2003.

Lectures prepared for consultants:

Laparoscopy in the upper abdomen. Pakistan Society of Gastroenterology & GI Endoscopy. Advanced Laparoscopic Surgery Workshop. February 2007.

Laparoscopic anti-reflux surgery for GORD: Is it better than medication? 8th Bill Owen Oesophago-Gastric Symposium 2006.

COURSES

As a consultant I have taught and lectured on courses and regional meetings, including laparoscopic and colorectal courses at the MATTU, Guildford, with Ethicon in Hamburg and on the fellowship course in Nottingham. I attend at least two major national or international meetings annually for the Association of coloproctology, Association of Surgeons, Association of laparoscopic surgeons, or European Association of Coloproctology.

Alpine Colorectal Meeting	Davos	2024
St Mark’s Frontiers meeting	Virtual - London	2023
ESCP meeting	Virtual – Vilnius	2023
St Mark’s Pelvic Floor Meeting	London	2022
Appraisal training	Frimley	2022
Controversies in Hernia management	Iceni, Colchester	2015
Tripartite colorectal meeting	Birmingham	2014
ACPGBI	Manchester	2013
EACP	Vienna	2013
Sydney Colorectal Course	Sydney	2009
Teaching on the Run	Adelaide	2009
Consultant management course	Hammersmith	2008

M25 Colorectal course	Basingstoke	2007
FRCS Alpine course	Les Arcs	2007
Laparoscopic Colorectal masterclass	Hamburg	2006/7
Laparoscopic Nissen masterclass.	Royal Surrey County Hospital	2006
Laparoscopic Colorectal surgery	Royal Surrey County Hospital	2006
GI symposium	Worthing	2005
Advanced Laparoscopic Surgery	Strasbourg	2005
TEP course	Royal Surrey County Hospital	2004
Obesity Symposium	Royal College of Surgeons	2004
Laparoscopic UGI Cancer Surgery	Worthing	2004
TME Surgery Course	Basingstoke	2003
Specialist Registrar Skills Course	Wexham Park Hospital	2002
Training the Trainers	Royal College of Surgeons	2001
Care of the Critically Ill Surgical Patient	Royal College of Surgeons	2000
Laparoscopic Cholecystectomy	Royal Surrey County Hospital	1998
Basic Surgical Skills	Royal Surrey County Hospital	1998
Advanced Trauma & Life Support	Chelsea and Westminster Hospital	1998

TEACHING and TRAINING

I am particularly interested in teaching, and have found this to be a very rewarding part of my duties as a surgeon.

Tutor, Australian **Simulated Surgical Skills Program** (for laparoscopic skills), and 'wet lab' laparoscopic courses in Adelaide. Examiner in medical student finals, Flinders Medical Centre.

I have lectured and tutored practical sessions on laparoscopic colorectal courses at the **European Surgical Institute**, Hamburg (2006-7).

MATTU: Skills training, lecturing, co-ordinating the running of courses, including laparoscopic colorectal masterclass, laparoscopic suturing, laparoscopic cholecystectomy, basic surgical skills course, laparoscopic hernia, basic and advanced laparoscopic courses for nurses.

Lectured on the St George's medical students revision course for finals; co-ordinated the surgical teaching of students from the American University of the Caribbean at Kingston Hospital.

Formal experience: QESP 2012. Teaching on the run, Adelaide 2009. Teaching the Trainers, RCS 2000.

MANAGEMENT SKILLS

As a consultant, I have chaired meetings and committees for Serious incident and “Round table” investigations, M&M, clinical governance, surgical training, enhanced recovery.

Consultant management course, Hammersmith 2008

President, The Dukes’ Club (2007-2008), the national association for colorectal trainees. Co-ordinated and chaired the AGM at The Belfry, inviting 8 consultants to give talks. Chaired and co-ordinated speakers for The Dukes’ Club symposium at the Association of Coloproctology meeting in Manchester, 2008. Attended council meetings of the Association of Coloproctology.

I have been the SpR representative for the SW Thames region. Within this role I co-ordinated a new monthly training programme for the registrars, and encouraged the development of a regular SpR presentation day.

I have worked closely with industry companies, both as a laparoscopic fellow at the MATTU, and through my role as president of the Dukes’ club.

I understand the importance of building and maintaining close working relationships with both clinical and non-clinical members of the management team.

Captain, medical school squash team (1993-5). Responsible for team recruitment and arranging matches.

SPECIALIST INTEREST

As a consultant I have a particular interest in colon cancer, colorectal conditions, pelvic floor disorders, hernia and groin pain, endoscopy & colonoscopy, and general & emergency surgery. I am focused on optimising patient safety, and learning from incidents, in my role as a patient safety clinician.

My training experience on the South West Thames rotation has given me a wide exposure to both elective and emergency general surgery, and I have developed a specialist interest in coloproctology and laparoscopy. I have worked in specialist colorectal units in Frimley, Guildford, and Adelaide.

I have been able to develop my interests in coloproctology working in the role of a colorectal fellow at the Flinders Medical Centre. I have attended weekly clinical sessions in the management of pelvic floor disorders, and am building on these skills by developing the anorectal physiology service at Frimley Park.

I have been awarded an MD, which was on the cost effectiveness of laparoscopic colorectal surgery. This was based on research I undertook whilst a laparoscopic fellow at the minimal access therapy training unit in Guildford. The MD is based on two prospective studies I set up evaluating cost-effectiveness, quality-of-life, and adhesion formation following laparoscopic colorectal surgery.

I have gained a wide range of laparoscopic experience both in upper gastrointestinal surgery as a registrar in Worthing, Kingston, the oesophago-gastric unit at St Thomas’s hospital, and in Adelaide, and in colorectal surgery at Frimley, and in Guildford.

I am part of the general surgical team at Frimley Park with a specialist interest in laparoscopic colorectal surgery. I am happy to perform a wide range of general and laparoscopic abdominal

operations, in addition to specialist open and laparoscopic colorectal procedures. I am experienced in advanced endoscopic and colonoscopic procedures.

I intend to continue and develop my interests in research and training, particularly in the field of laparoscopic colorectal surgery. I recognise the importance of working closely with management to achieve departmental and trust targets, in order to optimise patient care.
