

Just a quick bit of advice on safer searching on Google. You can filter explicit search results on Google, like pornography, using the Safe Search setting. Safe Search isn't 100% accurate, but it helps you avoid explicit content. You can use Safe Search as a parental control to help protect children from inappropriate search results on your phone, tablet, or computer.

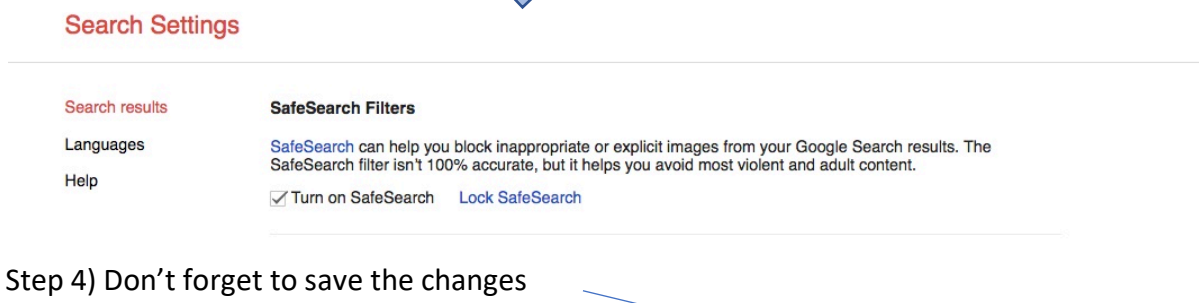

Step 1) Go to the Google search bar and put anything into it. Click on settings and this drop down menu will appear.

Step 2) Click on Search settings

Step 3) Click turn on Safe Search

Step 4) Don't forget to save the changes

Saved settings are available whenever you sign in.
