### 2. Communication and Engagement Strategy Aims and Objectives

- 2.1 The aim of this strategy is to ensure that everything we do is underpinned by two key principles:
  - **Safeguarding is everybody's responsibility** – for services to be effective each professional and organisation should play their full part
  - **A child centred approach** – for services to be effective they should be based on a clear understanding of the needs and views of the individual children whilst recognising the support parents and carers may require.
- 2.2 The strategic aim of this Strategy is to ensure that children and families, safeguarding partners and relevant agencies will be aware of what 'safeguarding' means and have access to information that will help them make informed decisions regarding safeguarding and the protection of children. This means that children and families, partners and agencies will understand and be able to identify abuse, exploitation and neglect and understand their roles and responsibilities in keeping children safe and promoting their welfare.
- 2.3 The objectives of the Communication and Engagement Strategy are:
  - To raise awareness among key stakeholders, professionals, and the wider community about the importance of safeguarding children and promoting their welfare and to engage children and young people wherever possible.
  - To raise awareness about the key business priorities of the Partnership.
  - Support the delivery of the business priorities of the Partnership by developing targeted campaigns encompassing communications and engagement activities.
  - To communicate the key safeguarding lessons learned from national and local case reviews, audits, and research.
