

Customer service is key for Burrows and J&J

BURROWS IS a family business where customer service isn't a buzzword! It's a culture that runs through the company, creating an atmosphere customers love to be part of. Owner, Steve Burrows is often seen on the shop floor meeting customers' working closely with the teams.

Starting with one Toyota dealership in 1999, they've recently grown considerably, acquiring Hyundai, Fiat, Mazda and Kia dealerships, taking the total number of dealerships to nine. The most recent addition is Kia Barnsley. Most of the staff remained with Burrows as part of the 20-strong team. Burrows centres are based in South and West Yorkshire, but deliver nationally, due to their new transporter built by J&J Conversions. The three year comprehensive equipment warranty, with high

level of build quality in the J&J Road Star transporter will allow Burrows to deliver UK-wide for many years to come.

Burrows cater for all the motorist needs. Sales teams are available to answer discuss any

questions. Friendly aftersales staff are there for servicing and MOTs, offering free collection and delivery, plus high quality courtesy cars. Vehicles are in safe hands with their trained technicians.

Unfortunate enough to have a bump or scrape in your vehicle? Burrows have Accident Repair centres throughout South Yorkshire, with modern facilities and highly skilled, motivated staff.

There are Motability specialists at every centre. They offer personal care and advice on all aspects of Motability. An award winning National Fleet and Business Centre has a team of specialists who only work with firm and the self-employed. Whether you're responsible for just on car or LCV, or a large fleet you're guaranteed the same professional, specialist service and the best possible deal.

So Burrows are your one stop shop for all your motorist needs, and more! Why not pay them a visit today and see what they can do for you?
