

## **TEMPORARY CLOSURE OF SHELLFISH BEDS**

Where in the opinion of the Committee, in any fishery, any bed or part of a bed of shellfish is so severely depleted as to require temporary closure in order to ensure recovery, or any bed or part of a bed contains mainly immature or undersized shellfish which in the interests of the protection and development of the fishery ought not to be fished for the time being, or any bed of transplanted shellfish ought not to be fished until it has become established, and where the bed or part thereof has been clearly defined in notices displayed in the vicinity prohibiting the removal of the shellfish, or where the display of notices is not practicable notice has been given by publishing a notice in a weekly newspaper circulating in the District in which that shellfish bed or part of bed is situated. No person shall, while the bed or part thereof is so defined, take away any shellfish without consent of the Committee. For the purpose of this Byelaw the term “shellfish” means mussels, oysters and clams.
